	Page Number
Seasonal Narrative	1
Interagency Fire Statistics	2
<p>This section includes tables, graphs and charts of fires and acres burned by cause, by agency and by state during the 2005 season, as well as 5 and 10 year comparisons. The statistics in this report are taken from RMA Dispatch Center Annual Reports for Federal Agencies and from reports submitted to the USFS Region 2 Office, State and Private Forestry Staff by each of the 5 RMA states for State Agencies.</p>	
RMA Large Incident Summary	8
<p>This section includes tables and charts of all large incidents reported to the Rocky Mountain Coordination Center on an ICS-209.</p>	
Resources	12
<p>This section includes tables and graphs of resources, both RMA resources and resources brought into the RMA during the 2005 season, as well as a 5 year comparison.</p>	
Incident Management Teams	14
<p>This section includes a table of the 4 "home" RMA Incident and Fire Use Management Teams assignments and a table of all Incident and Fire Use Management Teams that visited the RMA on assignments during the 2005 season.</p>	
Aviation	16
<p>This section includes tables, charts and graphs of tactical aviation resource orders, RMA contract helicopter assignments, RMA "home" contract Airtanker operations, and Airtanker and Reload base operations. These statistics were gathered by the Rocky Mountain Area Coordination Center and RMA Dispatch Centers.</p>	
Handcrews	18
<p>This section includes tables summarizing "home" RMA Type 1 handcrews' assignments, "home" RMA Type 2 handcrews' assignments, and the RMA assignments of "visiting" Type 1 and Type 2 and Type 2IA handcrews.</p>	
Appendix	
<p>This section includes tables of 10 year RMA fire statistics broken down by year and agency, 2005 RMA Large Incidents by State, RMA Resource Movement breakdown for 2005, and a 5 year RMA Resource Comparison by year and agency.</p>	

SEASONAL NARRATIVE

Overall, the 2005 Rocky Mountain Area (RMA) fire season was average to below average. The numbers of fires in 2005 was about 97% of the 10-year average (1995 - 2004) and the number of acres burned in the RMA during 2005 was about 40% of the 10 -year average.

The RMA had 11,071 fires that burned 265,901 acres. 61 large fires were reported in the RMA that burned 75,309 acres. 4 Type 2 Incident Management Teams (IMTs) and 3 Fire Use Management Teams (FUMT) were assigned to incidents in the RMA. 2 Type 1 IMTs were assigned in the RMA during 2005. Rocky Mountain Region Incident Management Teams, crews and overhead responded to several out-of-area assignments. These included Type I teams, Type II teams, Buying teams and FUMT assignments that included Alaska. The Rocky Mountain Region also mobilized two IMTs, members of an Area Command Team, and many other specialized resources for hurricane support to the Southern Area. The RMA never reached Preparedness Level (PL), 4 or 5 in 2005. The RMA Multi Agency Coordinating (MAC) Group, which sets large fire priorities for the RMA, was never fully activated this year.

The weather for the 2005 fire season within the Rocky Mountain Region began with normal to above normal precipitation amounts and normal temperatures in the spring and into June. However, July dried up due to the 2nd latest monsoon onset on record, along with temperatures among the top 10 warmest in the last 100 years over Colorado and Wyoming. In August, precipitation trends in the RMA rebounded back to normal in spite of the late starting monsoon. Additionally, temperatures moderated back to normal in August with the influence of the monsoon from the southwest, in combination with an occasional cool frontal passage from the north into locations east of the Continental Divide. For the fall, temperatures were above normal, and a somewhat dry month of September was followed by normal to above normal precipitation amounts in October.

The RMA's first large fire as reported on an ICS-209 to the Rocky Mountain Coordination Center (RMC) was on January 18th, 2005 on the Front Range of Colorado. No large fires were reported in February, however four large fires were reported in March, three in Kansas and one in Colorado. Nine fires were reported in April, one fire on the Black Hills N.F. in South Dakota and one on the Wind River Agency in Wyoming, the seven other fires were on Kansas state land. One large fire was reported in northeast Kansas in May.

The first WFU fire of the RMA's 2005 season, Rio Blanco, began on June 23rd in southern Colorado and was managed as a Wildland Fire Used for Resource Benefit (WFU) by a FUMT. An additional 2 large fires were reported in June, all in Colorado. July was our busiest large fire month of the season with 24 large fires reported. 15 of these large fires were in Colorado, 1 in south-central Wyoming, 4 in South Dakota and 2 in Kansas. Combined, these 24 fires were reported as burning 37,634 acres. The two most notable fires in July were Mason and Ricco, both managed by Type 1 IMT's as the Mason became the largest of the year in the RMA at 11,357 acres. July also had the largest WFU fire, Pack Trail, in northwest Colorado that consumed just over 3,000 acres. During August, nine large fires were reported, 5 in Colorado, 2 in Wyoming, 1 in South Dakota and the only reported large fire in 2005 for the state of Nebraska - on the Nebraska NF. Late fall in the RMA consisted of above normal moisture and higher than normal temperatures. Eight large fires, 3 in Wyoming, 3 in Colorado and two in South Dakota, were reported in September. Only one large fire began in October that burned 13,000 acres; it was in central Kansas. The 2005 RMA season was brought to an end by the last two large fires of the year that occurred in Kansas on November 2nd and Wyoming on November 19th.

Rocky Mountain Area and Coordination Center 2005 Annual Report

INTERAGENCY FIRE STATISTICS

2005 WILDLAND FIRE ACTIVITY BY CAUSE

The following table shows, by cause, the number of fires and acres burned for each of the agencies within the RMA. Federal and Non-federal are listed individually, and within each Federal agency the fire and acres are further broken down by the state in which the federal fire occurred. What this means is that a fire that occurred on BIA land in Colorado will **only** be listed in the BIA-CO row below; it will **not** be included in the States-CO row. The State figures represent all Non-federal fires and acres in the respective states as reported to the USFS Regional Office's State and Private Forestry staff.

Agency	State	HUMAN		LIGHTNING		WFU*		TOTAL

*Wildland Fire Used for Resource Benefit (WFU) is a naturally ignited wildland fire managed to accomplish specific pre-stated resource management objectives in predefined geographic areas outlined in Fire Management Plans. These numbers are only included in the WFU column, they are NOT counted in the Lightning column as well.

⁺One BIA unit stretches from SD to ND and in this report, except for large fire information, fire figures are included in BIA SD numbers. There are also 2 FWS refuges that are located in ND but are the responsibility of the RMA, again except for large fire information, in this report the numbers for these 2 units are included in FWS SD figures.

2005 WILDLAND FIRE ACTIVITY BY CAUSE and BY INDIVIDUAL AGENCY WITHIN THE RMA

The following table shows, by cause, the number of fires and acres burned for each of the agencies within the RMA. Federal and Non-federal fires and acres are listed individually. What this means is that a fire that occurred on BIA land in Colorado will **only** be represented in the BIA row below; it will **not** be included in the Colorado row. The State figures represent all Non-federal fires and acres in the respective state as reported to the USFS Regional Office's State and Private Forestry staff.

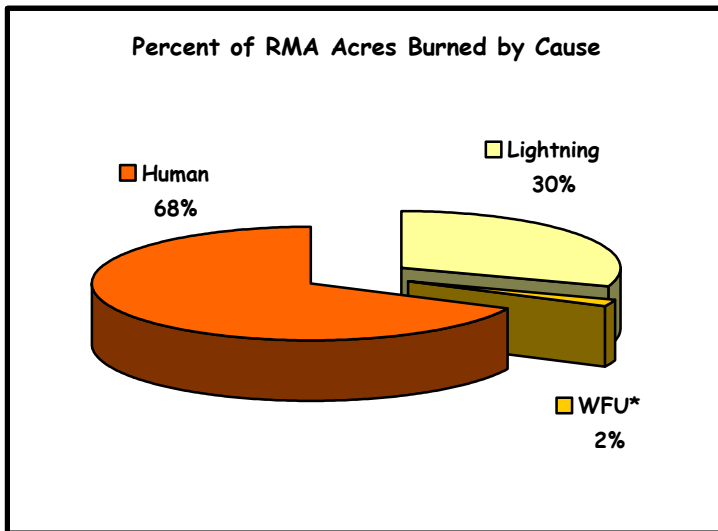

Agency Type	Agency	HUMAN		LIGHTNING		WFU*		TOTAL	
		Fires	Acres	Fires	Acres	Fires	Acres	Fires	Acres

*Wildland Fire Used for Resource Benefit (WFU) is a naturally ignited wildland fire managed to accomplish specific pre-stated resource management objectives in predefined geographic areas outlined in Fire Management Plans. These numbers are only included in the WFU column, they are NOT counted in the Lightning column as well.

2005 WILDLAND FIRE ACTIVITY BY CAUSE and BY CAUSE WITHIN EACH RMA AGENCY

The two following pie charts illustrate, by cause, the percentage of fires and the percentage of acres burned within the entire RMA. The pie charts include both Federal and Non-federal fires and acres in the cause percentages.

The two following bar graphs illustrate, by cause, the number of fires and acres burned for each of the agencies within the RMA. Federal and Non-federal fires and acres are represented individually. What this means is that a fire that occurred on BIA land in Colorado will **only** be represented in the BIA bar below; it will **not** be included in the Colorado bar. The State fires and acres represent all Non-federal fires and acres in the respective state as reported to the USFS Regional Office's State and Private Forestry staff.

*Wildland Fire Used for Resource Benefit (WFU) is a naturally ignited wildland fire managed to accomplish specific pre-stated resource management objectives in predefined geographic areas outlined in Fire Management Plans. These numbers are only included in the WFU column, they are NOT counted in the Lightning column as well.

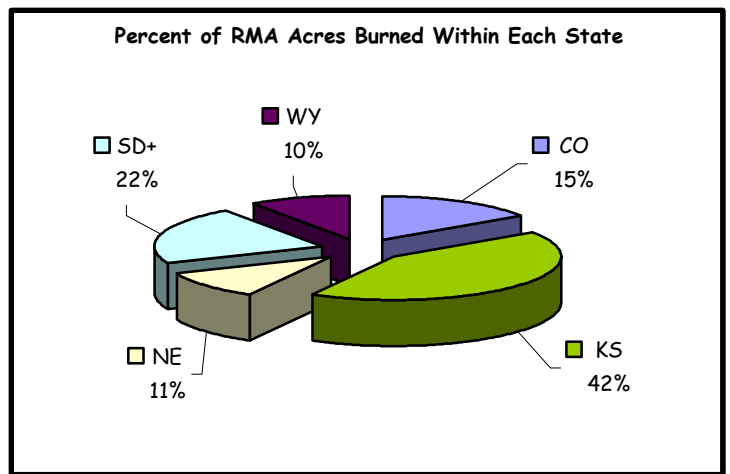

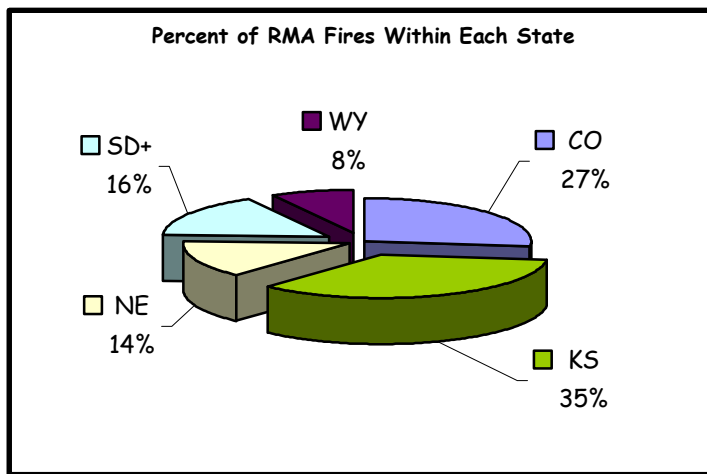

2005 WILDLAND FIRE ACTIVITY BY CAUSE

COMBINING FEDERAL AND NON-FEDERAL AGENCIES WITHIN EACH STATE

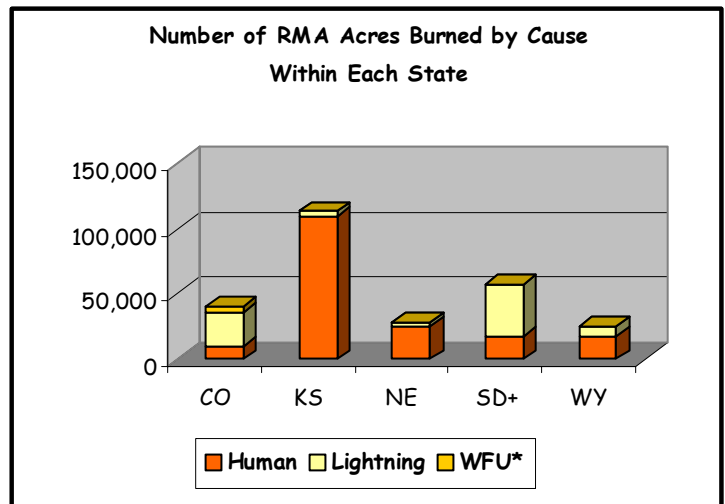

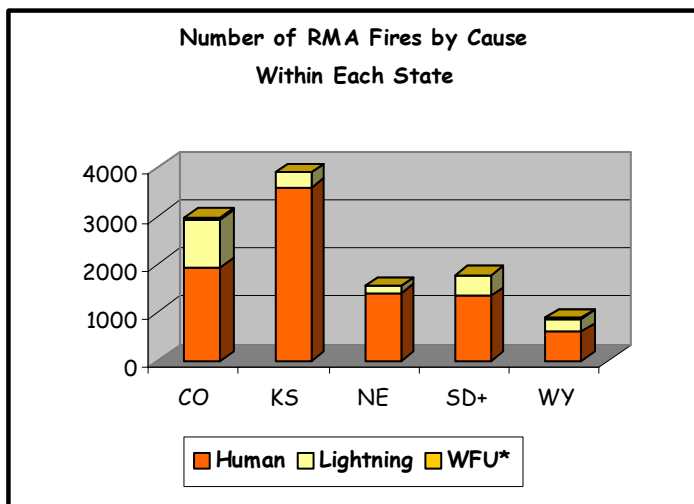

The following table shows, by cause, the number of fires and acres burned within each of the five states of the RMA. Both Federal and Non-federal fires and acres are included in state totals.

State	HUMAN		LIGHTNING		WFU*		TOTAL	
	Fires	Acres	Fires	Acres	Fires	Acres	Fires	Acres
CO	1,928	9,318	1,001	26,323	40	5,407	2,969	41,048
KS	3,591	109,977	299	3,292	0	0	3,890	113,269
NE	1,411	25,211	139	2,749	0	0	1,550	27,960
SD [†]	1,348	18,155	427	39,670	0	0	1,775	57,825
WY	598	17,599	284	8,200	5	0	887	25,799
RMA TOTAL	8,876	180,260	2,150	80,234	45	5,407	11,071	265,901

The two following pie charts illustrate the percentage of fires and percentage of acreage burned within each of the five states that comprise the RMA. Both Federal and Non-federal fires and acres are included in state percentages.

The two following bar graphs illustrate, by cause, the number of fires and acres burned within each of the five states that comprise the RMA. Both Federal and Non-federal fires and acres are included in state totals.

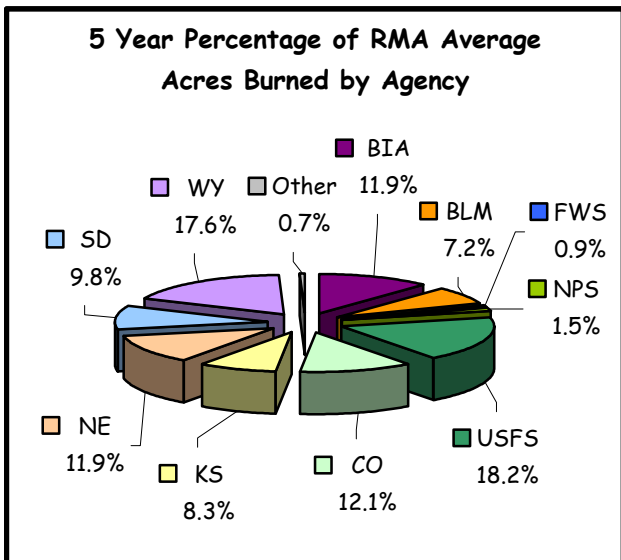

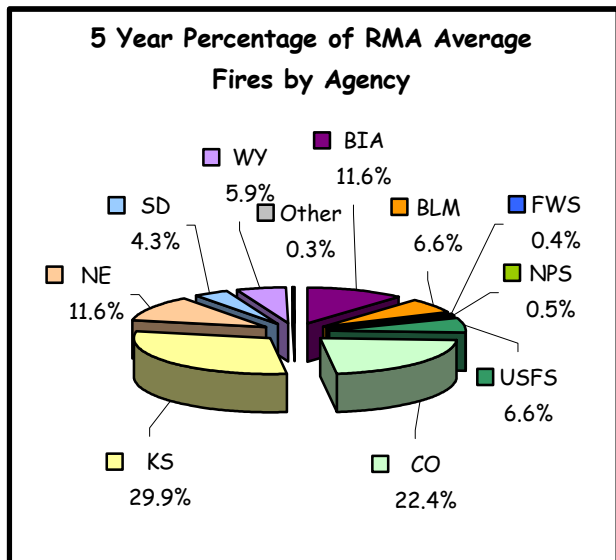

*Wildland Fire Used for Resource Benefit (WFU) is a naturally ignited wildland fire managed to accomplish specific pre-stated resource management objectives in predefined geographic areas outlined in Fire Management Plans. These numbers are only included in the WFU column, they are NOT counted in the Lightning column as well.

[†]One BIA unit stretches from SD to ND and in this report, except for large fire information, fire figures are included in BIA SD numbers. There are also 2 FWS refuges that are located in ND but are the responsibility of the RMA, again except for large fire information in this report the numbers for these 2 units are included in FWS SD figures.

5 YEAR RMA AVERAGES BY AGENCY (2000 - 2004)

The following table shows the average number of fires and acres burned for each of the agencies within the RMA over the past 5 years, not including the 2005 data. The pie charts below the table show the 5 year average percentages of fires and acres burned by agency. Federal and Non-federal fires and acres are listed individually. What this means is that a fire that occurred on BIA land in Colorado will **only** be represented in the BIA row and pie slice below; it will **not** be included in the Colorado row or pie slice. The State figures represent all Non-federal fires and acres in the respective state as reported to the USFS Regional Office's State and Private Forestry staff. See the Appendix for a breakdown of the last 10 years of RMA fire statistics by individual year and agency.

RMA LARGE INCIDENT SUMMARY BY MONTH FOR 2005

The following table shows by start date all large fires that were reported electronically in the ICS 209 system. A large fire is defined as 100 acres or more in timber fuel types, 300 acres or more in grass fuel types, or a fire that has a Type 1 or Type 2 Incident Management Team (IMT) assigned. The "Unit" and "Agency" listed in the table are not necessarily the only unit or agency that was affected by the incident; what is listed is typically the jurisdictional agency for the incident. In the "Kind" column, WF = Wildland Fire and WFU = Wildland Fire Used for Resource Benefit. In the "Cause" column, H = Human caused, L = Lightning caused, and U = Undetermined. The acres shown are the acres reported on the last electronic ICS 209 submitted and are not necessarily the official acres for that incident. In the same vein, the number of structures shown as destroyed is the number reported on the last electronic ICS 209 and is not necessarily the official number of structures destroyed by that incident. The "Structures Destroyed" column includes residences, commercial buildings and outbuildings. A Type is listed in the "IMT Type" column only if a Type 1 IMT, Type 2 IMT or Fire Use Management Team (FUMT) was assigned to the incident.

Start Date	1st Day as a Large Fire	Incident Name	State	Unit	Agency	Kind	Cause	Acres	Structures Destroyed	IMT Type	Incident Commander(s)	Number of Days Listed As IC on the ICS-209

See the Appendix for the Large Incident Summary organized by state rather than month, as seen above.

**Rocky Mountain Area and Coordination Center 2005 Annual Report
2005 RMA LARGE FIRE SUMMARY BY AGENCY**

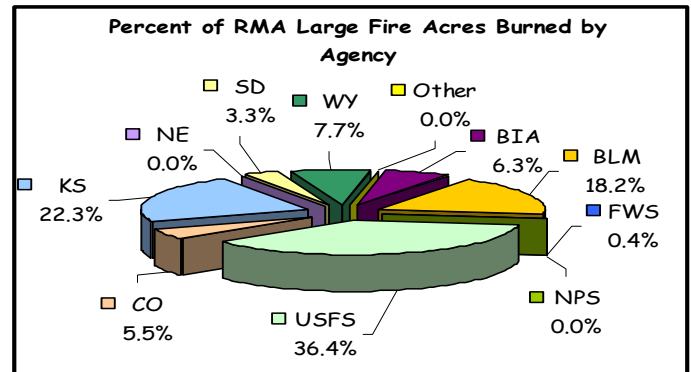

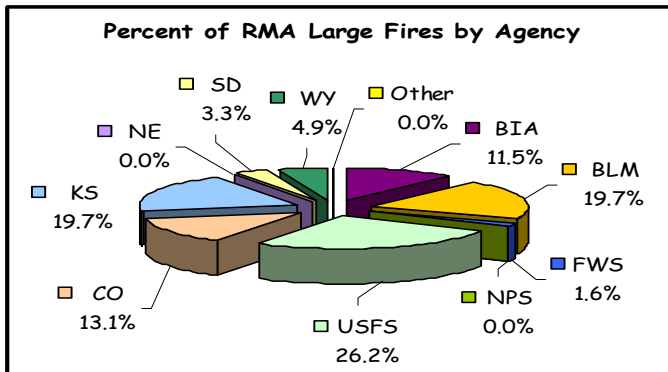

The following table shows the number of large fires and acres burned by large fires in the RMA. The data in the table is based on the last ICS-209 report submitted electronically and are not necessarily the official acres of the incident. The "Agency" listed is the jurisdictional agency listed on the ICS-209 and is not necessarily the only agency that was affected by the incident. Large fires reported under a county's jurisdiction are included in the corresponding state's figures.

Agency	State	Large Fires	Large Fire Acres

Rocky Mountain Area and Coordination Center 2005 Annual Report
ROCKY MOUNTAIN AREA 2005 LARGE FIRE SUMMARY BY AGENCY

The following table and two pie charts illustrate the percent of large fires and percent of large fire acreage burned for each of the agencies within the RMA. Federal and Non-federal fires and acres are represented individually. What this means is that a fire that occurred on BIA land in Colorado will only be represented in the BIA pie slice below; it will not be included in the Colorado pie slice. The State percentages represent all Non-federal fires and acres in the respective state. Other includes other Federal Agencies not listed.

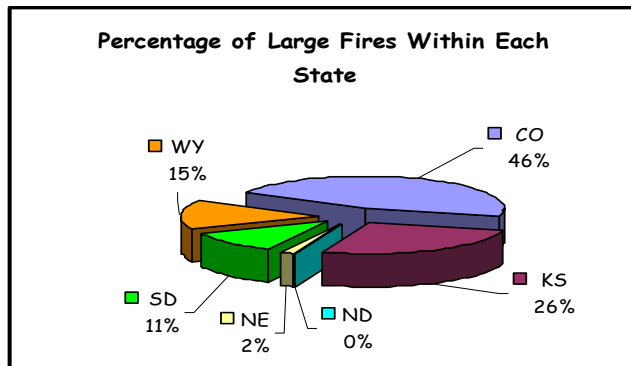

Agency Type	Agency	# Large Fires	Large Fire Acres
FEDERAL	BIA	7	4,725
	BLM	12	13,681
	FWS	1	289
	NPS	0	0
	USFS	16	27,449
STATES	CO	8	4,129
	KS	12	16,770
	NE	0	0
	SD	2	2,451
	WY	3	5,815
OTHER	Other	0	0
RMA TOTAL		61	75,309

2005 RMA LARGE FIRE SUMMARY BY STATE

The following table and pie charts show the number of large fire and acres burned by large fires within each of the five states of the RMA and the North Dakota incident managed by the RMA. Both Federal and Non-federal fires and acres are included in these state totals. This information is from the last electronically submitted ICS-209 for an incident, which are not necessarily the official acres for the incident.

State	# Large Fires	Large Fire Acres
CO	28	30,032
KS	16	19,188
ND	0	0
NE	1	1,255
SD	7	12,483
WY	9	12,351
RMA TOTAL	61	75,309

RESOURCES

TOTAL RMA RESOURCE MOVEMENT THROUGH RMC IN 2005

The following table shows the total number of resource orders, by resource category, processed by Rocky Mountain Area Coordination Center (RMC) for all incidents, which were filled with RMA resources. An RMA resource is defined as any resource from a unit within the Rocky Mountain Geographic Area. The Agency listed is the assigned resource's agency. For example a crew from Rocky Mountain National Park (NPS) was assigned to an incident on the Boise National Forest in Idaho (USFS). That crew assignment would be counted in the crew column on the NPS row. See the Appendix for a breakdown of RMA resources used within the area and RMA resources sent out of the area.

Agency	Overhead	Crews	Engines	Miscellaneous Equipment/Supplies	Aircraft
BIA	20	22	12	0	1
BLM	255	17	26	16	30
FWS	65	1	13	0	0
NPS	124	8	4	3	3
USFS	644	50	67	31	63
STATES	265	5	33	3	12
OTHER	98	0	0	0	23
TOTAL	1,472	103	155	53	132

NOTE: OTHER includes FAA, FEMA, GSA, DOE, NWS, National Guard, ADs, and private resources (contractors).

OUTSIDE RESOURCES BROUGHT INTO THE RMA IN 2005

The following table shows the total number of resources, by resource category, from units outside the RMA that filled resource requests from incidents within the RMA.

Non-RMA Resources	Overhead	Crews	Engines	Miscellaneous Equipment/Supplies	Aircraft
TOTAL	562	63	33	121	225

ALL RESOURCE REQUESTS PROCESSED BY RMC IN 2005

The following table shows the total number of resource requests, by resource category, processed by RMC. The requests are listed as either Filled - resource successfully assigned, UTF - Unable To Fill request, or Cancelled - ordering unit cancelled request prior to resource being assigned. The results of this table are displayed in the bar graph on the following page.

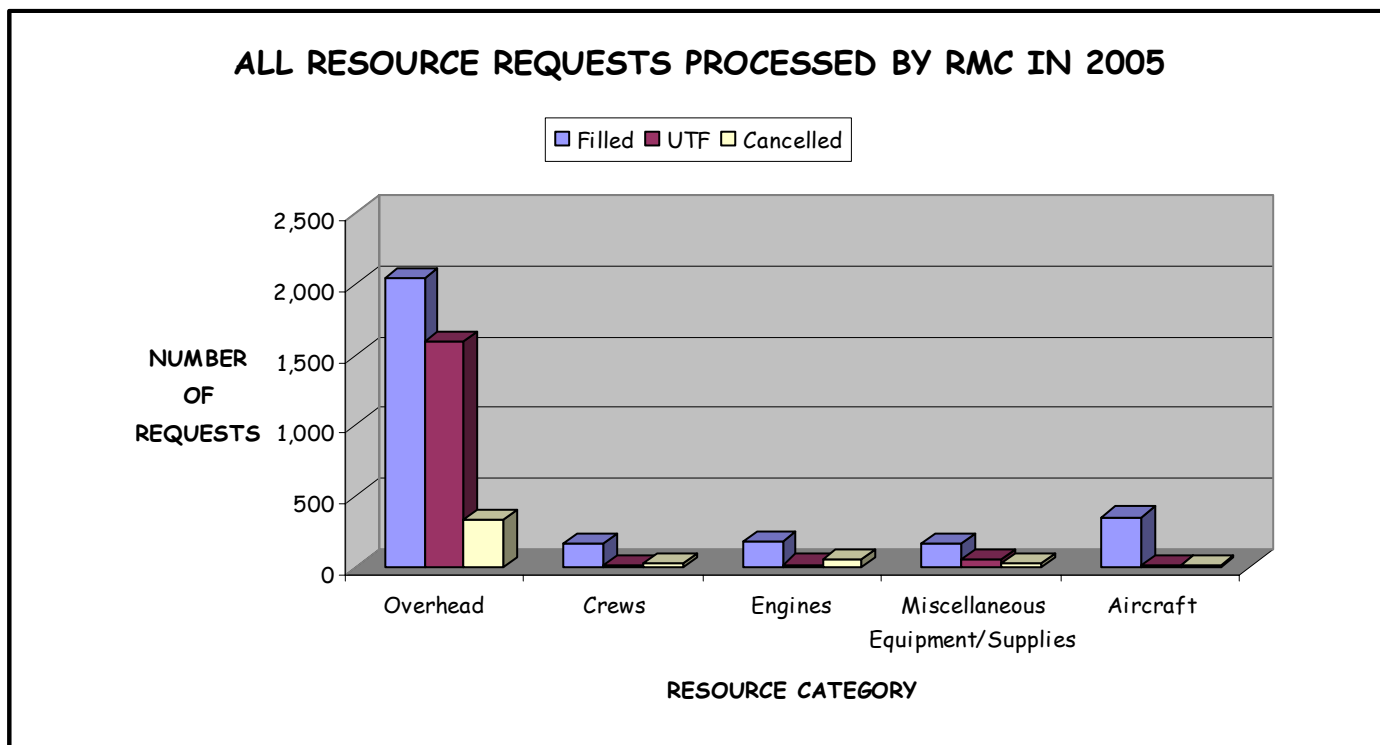

Request Status	Overhead	Crews	Engines	Miscellaneous Equipment/Supplies	Aircraft
Filled	2,034	166	188	174	357
UTF	1,591	12	21	58	12
Cancelled	335	25	56	25	18
TOTAL	3,960	203	265	257	387

The following table shows the percentage, by resource category, of resource request's status processed by RMC. For example: 2,034 of the 3,960 Overhead resource requests, or 51%, were successfully filled.

Request Status	Overhead	Crews	Engines	Miscellaneous Equipment/Supplies	Aircraft
Filled	51%	82%	71%	68%	92%
UTF	40%	6%	8%	23%	3%
Cancelled	9%	12%	21%	9%	5%

ALL RESOURCE REQUESTS PROCESSED BY RMC IN 2005

The following bar graph shows the total number of resource requests, by resource category, processed by RMC. It is the visual representation of the table on the preceding page with the same heading.

**RMA FIVE YEAR COMPARISON BY RESOURCE CATEGORY FROM 2000 TO 2004
(RMA RESOURCES ONLY)**

The following tables show the previous 5 years of filled resource requests, by resource categories, which were processed by RMC. The table's figures **only** accounts for RMA resources that filled either RMA or National resource requests. It does not include resources from outside the RMA that filled RMA resource requests. The figures in this table can be compared to the previous table entitled "TOTAL RMA RESOURCE MOVEMENT THROUGH RMC IN 2005". See the Appendix for a more detailed 5 year comparison table, showing Agency breakdown as well.

Year	Overhead	Crews	Engines	Misc. Equipment	Aircraft
2004	1,052	81	92	37	122
2003	2,198	214	216	62	223
2002	2,478	186	376	234	464
2001	1,391	115	169	38	176
2000	2,100	145	339	288	197
5-YEAR AVG	1,844	148	238	132	236

INCIDENT MANAGEMENT TEAMS**RMA INCIDENT MANAGEMENT TEAM SUMMARY FOR 2005**

The following table shows the Incident Management Teams (IMTs) and Fire Use Management Teams (FUMTs) hosted by the Rocky Mountain Area and the assignments those IMTs/FUMTs had in 2005. The "Start Date" is the date the fire started, not necessarily the date the IMT/FUMT was assigned to the fire. Other visiting IMTs/FUMTs may have also been assigned to the fires listed below, see the preceding section entitled "RMA Large Incident Summary By Month for 2005" to obtain a complete listing of all large fires in the RMA and teams assigned to those fires.

Start Date	1st Day as a Large Fire	Incident Commander(s)	IMT Type	Number of Days Listed As IC on the ICS 209*	Incident Name	Incident Number
June 22	June 23	Krugman	1	4	Goodsprings	NV-LVD-000043
June 23	June 28	Hahnenberg	2 - FUMT	6	Rio Blanco WFU	CO-SJF-000036
June 24	June 24	Blume	2	6	Mt. Bangs Complex	AZ-ASD-000012
June 28	June 29	Krugman	1	4	Fork	NV-LVD-000056
July 7	July 7	Mullenix	2	3	Mason	CO-PSF-000683
July 7	July 7	Krugman	1	6	Mason	CO-PSF-000683
July 7	July 8	Hahnenberg	2 - FUMT	5	Pack Trail WFU	CO-WRD-000239
July 14	July 15	Blume	2	6	Trail East	CO-SJD-000141
July 15	July 17	Mullenix	2	5	Craig Draw	CO-UPD-000063
July 23	July 23	Mullenix	2	4	South Sundance	SD-BKF-050603
August 1	August 11	Hahnenberg	2 - FUMT	13	Frank Church WFU	ID-PAF-005045
August 8	August 10	Blume	2	6	Long Ruggles Complex	ID-CMS-043012
September 2	September 5	Mullenix	2	21	Katrina Support-San Antonio	TX-FEM-050006
N/A	September 6	Blume	2	16	Katrina Gulfport	MS-FEM-005017
N/A	September 9	Krugman	1	19	Katrina-Jackson Square Support Base	LA-FEM-050016
TOTAL				124		
Number of RMA IMT Type 1 Days				33		
Number of RMA IMT Type 2 Days				67		
Number of RMA FUMT Days				24		

*The Hurricane response (Katrina incidents) did not have conventional ICS-209s. The number listed is the days the team's IC was in command of the incident or portion of the incident, not necessarily the days listed as IC on an ICS-209s. Additionally, FUMTs are not required to complete ICS-209 every day they are in command of an incident; thus the number listed is not necessarily the number of days the FUMA on the team was listed as the IC on the ICS-209, but rather the number of days the FUMA was actually in command of the incident.

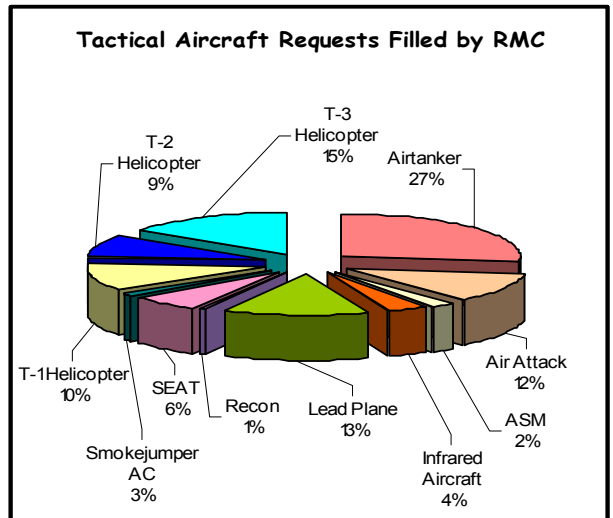

AVIATION

TACTICAL AVIATION RESOURCE BREAKDOWN IN 2005

(Orders processed by RMC only)

The following table and pie chart reflect, by aircraft type, the number of tactical aircraft resource requests processed by RMC during the 2005 fire season. This table does not reflect non-tactical aircraft resource requests such as Temporary Flight Restrictions (TFRs) or Radio Frequencies. Infrared Aircraft includes both fixed and rotary wing aircraft used for infrared flights. MAFFS are included in the Airtanker row.

Resource Type	Ordered	Filled	Cancelled	UTF
Airtanker	136	96	15	28
Air Attack	51	41	7	2
ASM [‡]	9	8	1	0
Infrared Aircraft	19	13	4	2
Lead Plane	54	46	6	2
Recon	2	2	1	0
SEAT	40	23	8	9
Smokejumper AC	6	4	0	0
T-1 Helicopter	48	36	6	6
T-2 Helicopter	37	32	4	1
T-3 Helicopter	76	54	15	7
TOTAL	478	355	67	57

[‡] ASM = Aerial Supervision Module

RMA CONTRACT HELICOPTER SUMMARY FOR 2005

The following table shows the contract helicopters based within the RMA during the 2005 fire season. The table does not reflect a helicopters use by the local dispatch center, nor does it reflect a helicopter being shared with a local dispatch centers neighbors. It only reflects a helicopters use based on resource orders processed by RMC. In the table below under the type column, an EX stands for a typical Exclusive Use contract whereas an NMAC stands for National Multi-Agency Coordinating Group Contract.

Helicopter/Base	Type	National Assignments	Days Out National	Area Assignments	Days Out In Area
H-154AC/Jeffco	1-EX	2	37	1	1
H-205SJ/Duranao	2-EX	2	116	0	0
H-27545/Towaoc	3-EX	1	1	0	0
H-910VR/Mesa Verde	3-EX	2	3	1	7
H-354EV/Monument	3-EX	3	22	1	6
H-1811/Rifle	3-EX	1	4	1	2
H-356EV/ARF & BKF	3-EX	0	0	2	7
H-171KA/Ft Washakie	3-EX	0	0	0	0
H-31660/Rawlins	3-EX	2	13	1	3
H-57948/Casper	3-EX	0	0	1	2
TOTAL		13	196	8	28
Avg Days Out Per Assignment			15.1		3.5
Avg Days Out Per Helicopter			19.6		2.8

Note: NMAC contract helicopters were not used in 2005.

RMA CONTRACT AIRTANKER/SEAT OPERATIONS IN 2005

The following table shows the contract airtankers/SEATs based with the RMA during the fire season. The Gallons Delivered and Missions Flown columns reflect all gallons and missions for that contract airtanker/SEAT, whether the mission was within the RMA or not.

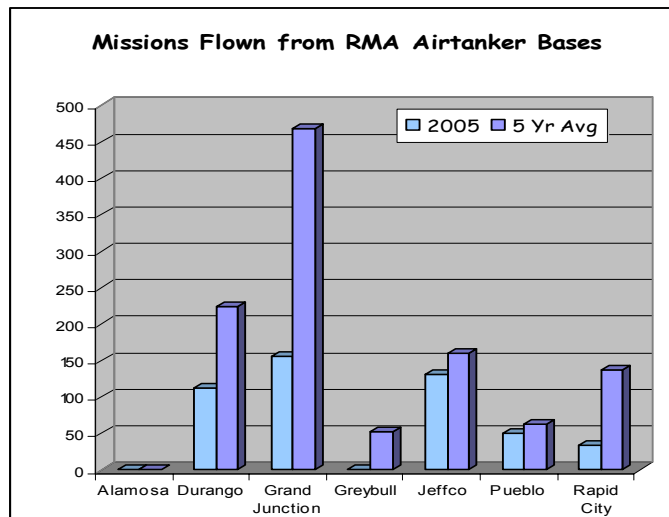

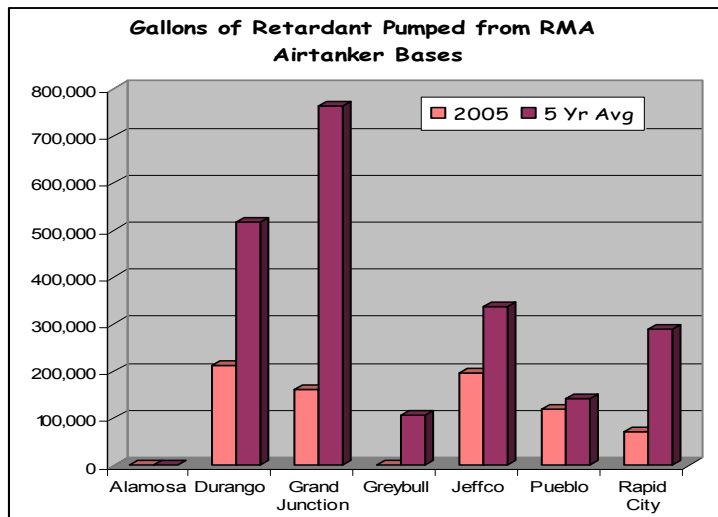

Tanker Number	Agency	Gallons Delivered	Missions Flown
T-181 (SEAT)	CO State	48,278	80
T-182 (SEAT)	CO State	84,120	140
T-183 (SEAT)	CO State	120,883	201
T-450 (SEAT)	CO BLM	85,632	142
T-460 (SEAT)	CO BLM	46,074	76
T-476 (SEAT)	SD BIA	16,000	27
T-1 & T-2 (SEATs)	SD State	42,078	68
TOTAL		443,065	735

RMA AIRTANKER BASE AND RELOAD BASE OPERATIONS IN 2005

The following table and pie charts show the Airtanker and Reload Bases within the RMA. The Gallons Pumped and Missions Flown columns reflect all gallons and airtanker missions flown out of that Base, however those missions are not necessarily just RMA missions, as an RMA base could be used as a reload facility for other geographic areas.

Tanker Base	Gallons Pumped 2005	Missions Flown 2005	5 Yr Avg Gallons Pumped	5 Yr Avg Missions Flown
Alamosa	0	0	0	0
Durango	213,140	113	516,997	224
Grand Junction	162,563	155	762,795	468
Greybull	0	0	105,512	52
Jeffco	196,962	130	336,575	160
Pueblo	120,000	51	142,891	63
Rapid City	72,738	33	288,501	138
RMA TOTAL	765,403	482	2,153,271	1,103

NOTE: 2004 was the first year figures have been reported for Alamosa, therefore no 5 year average yet exists; Alamosa and Greybull were not activated in 2005.

HANDCREWS

RMA TYPE 1 HANDCREW SUMMARY FOR 2005

The following table shows the 7 Type 1 handcrews hosted in the RMA and the total incidents, in area and out-of-area that each crew was assigned to during the 2005 fire season. These figures come directly from each crew and represent all incidents, not just incidents that RMC processed an order for. Days listed represent days working on an incident and do not include travel or R&R.

Crew Name	Area Incidents	Total Days On Area Incidents	National Incidents	Total Days On National Incidents
Alpine Hotshots	2	10	10	42
Craig Hotshots	10	21	16	52
Pike Hotshots	9	25	12	55
Roosevelt Hotshots	14	35	10	47
San Juan Hotshots	13	41	10	52
Tatanka Hotshots	5	11	7	48
Wyoming Hotshots	5	30	7	45
TOTAL	58	173	72	341
Average Days Crews Worked on Incidents this Season		24.7		48.7
Average Days Crews Worked on a Single Incident		3.0		4.7

RMA TYPE 2 and Type 2IA HANDCREW SUMMARY FOR 2005

The following table shows the Type 2 and Type 2IA handcrew orders that were processed by the RMC for crews that are an RMA resource. An RMA resource is defined as any resource from a unit within the Rocky Mountain Geographic Area.

	Area Assignments	Days Out	National Assignment	Days Out
TOTAL	16	77	29	273
Avg Days Out		4.8		9.4

VISITING TYPE 1, Type 2 AND TYPE 2IA HANDCREWS TO THE RMA IN 2005

The following table shows the total number of Type 1, Type 2 and Type 2IA crews that visited the RMA in 2005. The table does not reflect the number of individual incidents a crew might have been assigned to while in the RMA.

Crew Type	Number of Assignments	Days on Assignments	Avg Days on Assignment in the RMA
Type 1 Handcrew	42	234	5.6
Type 2 and Type 2IA Handcrew	21	88	4.2
TOTAL	63	322	5.1

APPENDIX

10 YEAR RMA INTERAGENCY FIRE STATISTICS

This section includes a table of RMA fires and acres over the last 10 years by individual year and agency.

Page Number
Appendix - 1

RMA Large Incident Summary

This section includes tables of all large incidents reported to the Rocky Mountain Coordination Center on an ICS-209 sorted by State.

Appendix - 2

RMA Resource Breakdown

This section includes a table of RMA resources that were assigned to RMA incidents and a table of RMA resources that were assigned to incidents outside of the RMA during the 2005 season, as well as a 5 year comparison by year and agency of RMA resource assignments.

Appendix - 3

Rocky Mountain Area and Coordination Center 2005 Annual Report

10 YEAR RMA INTERAGENCY FIRE STATISTICS

The following table shows the number of fires and acres burned for each of the agencies within the RMA over the past 10 years, not including the 2005 data. Federal and Non-federal fires and acres are listed individually. What this means is that a fire that occurred on BIA land in Colorado will **only** be represented in the BIA row below; it will **not** be included in the Colorado row. The State figures represent all Non-federal fires and acres in the respective state as reported to the USFS Regional Office's State and Private Forestry staff.

Agency	2004		2003		2002		2001		2000

**RMA RESOURCE BREAKDOWN
RMA RESOURCES PROCESSED THROUGH RMC IN 2005
FOR RMA ASSIGNMENTS**

The following table shows the number of resource orders, by resource category, processed by Rocky Mountain Area Coordination Center for **RMA incidents, which were filled with RMA resources**. An RMA resource is defined as any resource from a unit within the Rocky Mountain Geographic Area. The Agency listed is the assigned resource's agency. For example a crew from Rocky Mountain National Park (NPS) was assigned to an incident on the Pike-San Isabel National Forest (USFS). That crew assignment would be counted in the crew column on the NPS row.

Agency	Overhead	Crews	Engines	Misc. Equipment	Aircraft
BIA	4	8	2	0	0
BLM	81	14	2	3	15
FWS	9	0	0	0	0
NPS	47	3	3	0	2
USFS	175	19	10	6	42
STATES	79	0	21	1	13
OTHER	0	0	6	0	0
TOTAL	393	44	44	10	72

NOTE: OTHER includes FAA, FEMA, GSA, DOE, NWS, National Guard, ADs, and private resources (contractors).

**RMA RESOURCES PROCESSED THROUGH RMC IN 2005
FOR NATIONAL ASSIGNMENTS**

The following table shows the number of resource orders, by resource category, processed by Rocky Mountain Area Coordination Center for National incidents, which were filled with RMA resources. A National incident is any incident outside the RMA. An RMA resource is defined as any resource from a unit within the Rocky Mountain Geographic Area. The Agency listed is the assigned resource's agency. For example a crew from Rocky Mountain National Park (NPS) was assigned to an incident on the Boise National Forest in Idaho (USFS). That crew assignment would be counted in the crew column on the NPS row.

Agency	Overhead	Crews	Engines	Misc. Equipment	Aircraft
BIA	19	11	10	0	1
BLM	248	10	23	13	9
FWS	132	2	8	0	0
NPS	144	6	1	0	1
USFS	301	25	36	0	30
STATES	226	7	13	0	4
OTHER	3	0	18	15	15
TOTAL	1,073	61	109	28	60

NOTE: OTHER includes FAA, FEMA, GSA, DOE, NWS, National Guard, ADs, and private resources (contractors).

Rocky Mountain Area and Coordination Center 2005 Annual Report

**5 YEAR COMPARISON BY RESOURCE CATEGORY AND AGENCY
RMA RESOURCES MOVED BY RMC (All Assignments)**

The following table shows the **total number of resource orders** for the past 5 years, by resource category, processed by Rocky Mountain Area Coordination Center for all incidents, which were **filled with RMA resources**. An RMA resource is defined as any resource from a unit within the Rocky Mountain Geographic Area. The Agency listed is the assigned resource's agency. For example a crew from Rocky Mountain National Park (NPS) was assigned to an incident on the Boise National Forest in Idaho (USFS). That crew assignment would be counted in the crew column on the NPS row.
