

ROCKY MOUNTAIN AREA And COORDINATION CENTER 2020 ANNUAL ACTIVITY REPORT

August 11th, 2020 on the Pine Gulch Fire near Grand Junction, Colorado. Photo by Glenda Torres

Preface

Statistics used in the RMA report are gathered from the Fire and Aviation Management Web Applications (FAMWEB) system, <https://fam.nwcg.gov/fam-web/> which includes the Situation Report and Incident Status Summary (ICS-209) programs. Other sources also used in this document are Previous Rocky Mountain Area Coordination Center (RMACC) annual reports and unit dispatch center annual reports thru the use of agency specific local fire reports. The statistics given are intended to provide a Rocky Mountain Area wide perspective of annual fire activity but may not reflect official figures for a specific agency or represented dispatch office. Resource mobilization statistics used in this report were gathered from the Interagency Resource Ordering Capability System (IROC), which tracks tactical, logistical, service and support resources mobilized by the Rocky Mountain and National incident dispatch coordination system. For agency-specific details or official numbers contact the individual agency or represented dispatch office.

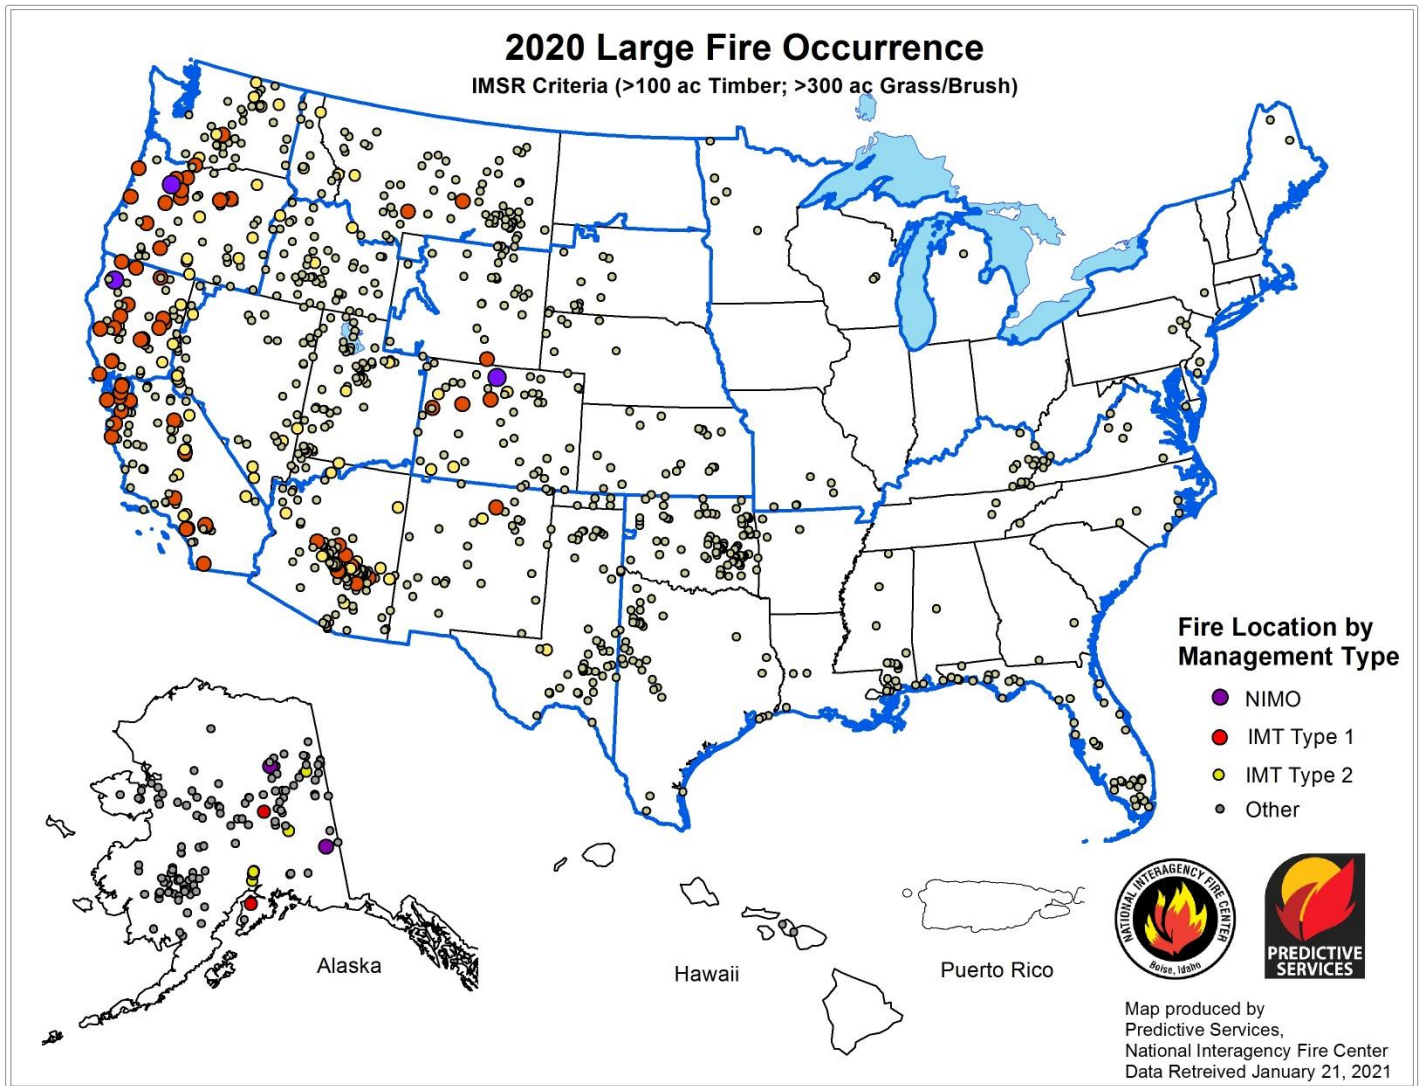

TABLE OF CONTENTS

	Page Number
Seasonal Narrative	3
Interagency Fire Statistics	4
<p>This section includes tables, graphs and charts of fires and acres burned by cause, by agency and by state during the 2020 season, as well as 5 and 10 year comparisons. The statistics in this report are taken from RMA Dispatch Center Annual Reports for Federal Agencies and from reports submitted to the USFS Region 2 Office, State and Private Forestry and Fire Staff by each of the 5 RMA states for State Agencies.</p>	
RMA Large Incident Summary	11
<p>This section includes tables and charts of all large incidents reported to the Rocky Mountain Coordination Center on an ICS-209.</p>	
Resources	19
<p>This section includes tables of resources processed by RMA dispatch centers during 2020, as well as a 5 year comparison.</p>	
Incident Management Teams	21
<p>This section includes a table of the 3 “home” RMA Incident Management Teams assignments and a table of all Incident Management Teams, Area Command Teams, and National Incident Management Organizations that visited the RMA on assignments during the 2020 season.</p>	
Aviation	23
<p>This section includes tables, charts and graphs of tactical aviation resource orders, RMA contract helicopter assignments, RMA “home” contract Airtanker operations, and Airtanker and Reload base operations. These statistics were gathered by the Rocky Mountain Area Coordination Center and RMA Dispatch Centers.</p>	
Handcrews	27
<p>This section includes tables summarizing “home” RMA Type 1 handcrews’ assignments, “home” RMA Type 2 handcrews’ assignments, and the RMA assignments of “visiting” Type 1 and Type 2 and Type 2IA handcrews.</p>	
Appendix	
<p>This section includes tables of 10 year RMA fire statistics broken down by year and agency, 2020 RMA Large Incidents by State, and the 2020 RMA resource orders broken down by IROC category name.</p>	

SEASONAL NARRATIVE

Overall, the RMA experienced an historic fire season for 2020. Portions of the Rocky Mountain Area endured significant drought in 2020, drying out vegetation, areas previously affected by beetle kill and seeing no precipitation as relief. This led to significant large fire growth and extreme fire behavior late into the Fall. The number of fires and acres burned in 2020 was 94% and 164% of the 10-year average (2010 – 2019). 114 significant (ICS-209) fires were reported in the RMA that burned 1,009,954 acres. 19 large fires were managed with a strategy other than full suppression. The RMA assigned 11 Type 1 IMTs, 19 Type 2 IMTs, 1 Area Command and 1 NIMO team to incidents during 2020. The RMA reached preparedness level 4 for thirty-five days during the months of late August thru early September, with another escalation (PL3-PL4) in late October. The RMA never reached PL 5 in 2020.

The 2020 fire season was preceded by an average temperature and precipitation regime during the winter and early spring, except for drier conditions and intensifying drought across southcentral/southeast Colorado. During the spring months the dry and warm pattern expanded across southern and western portions of Colorado, and “Extreme” drought ratings emerged across southern portions of the state.

During June warmer than normal temperatures had become widespread across the Plains into eastern Colorado, and to a lesser extent across southwest Colorado and eastern Wyoming. Precipitation deficits during June continued to occur across portions of the RMA, although not as widespread as earlier in the spring. In July beneficial rainfall resulted in average to above average amounts for the month from southern and eastern CO through far eastern WY, the Black Hills, and the eastern plains. Conversely, below average precipitation occurred in July from west-northwest CO through central to western WY.

In August more widespread warmer than average conditions emerged in the RMA across all but far southeast portions of the geographic area. Although rainfall occurred across portions of the RMA in late August, rainfall deficits intensified overall for the month near and west of the continental divide from west-northwest CO into southcentral/southwest and central WY, and fuel conditions remained critically dry in many areas of the RMA. During September, although a major early season snow event occurred early in the month across Colorado, Wyoming, southwest South Dakota, and western Nebraska, much of the remainder of the month suffered occasional warm, dry, and windy prefrontal conditions in conjunction with mounting precipitation deficits from previous months. The September moisture deficits were most notable near and west of the continental divide, especially in northwest Colorado through southwest Wyoming.

In October, a warm and dry regime persisted across much of the RMA along with occasionally windy conditions in northern Colorado through southern and central Wyoming. However, a late October major snow event did help to moderate the dry conditions across a large portion of the geographic area. Although drought was still in place during November across the geographic area and it was warmer than normal overall, there were occasionally cool conditions and limited precipitation along with developing higher elevation snowpack.

2020 was regarded as the never-ending fire season for those resources that supported the RM Geographic Area. This memorable year was highlighted by many fires, such as the Mullen Fire on the Medicine Bow National Forest, west of Laramie, Wyoming, burned over 176,840 acres and became one of the largest fires in Wyoming History. The Grizzly Fire, five miles east of Glenwood Springs, CO, closed Interstate 70 for multiple days, as most of the firefighting was from the air due to safety, steep canyons, and rugged terrain. The Cameron Peak and East Troublesome Fires in northern Colorado became the largest two fires in Colorado history, surpassing the Pine Gulch Fire on the western slope, which set the record a few months prior.

The top 3 largest wildfires in Colorado history burned in 2020 and continued for numerous months. Typical of late July fire conditions the Cameron Peak and East Troublesome burned intensely with high rates of spread well into October, which was unusual for the RMA. Further, the East Troublesome Fire made a 20-mile, 105,000-acre run across Grand County and spotted over the Continental Divide into Rocky Mountain NP during a 24-hour period on October 21-22. Timely and unprecedented weather arrived on October 26th, blanketing the fires and the northern Colorado mountains with 1-2 feet of snow. On Oct 27th, the Rocky Mountain Area dropped to a Preparedness Level 2.

Rocky Mountain Area and Coordination Center 2020 Annual Report

INTERAGENCY FIRE STATISTICS: 2020 WILDLAND FIRE ACTIVITY BY CAUSE

The following table shows, by cause, the number of fires and acres burned for each of the agencies within the RMA. Federal and Non-federal are listed individually, and within each Federal agency the fire and acres are further broken down by the state in which the federal fire occurred. What this means is that a fire that occurred on BIA land in Colorado will **only** be listed in the BIA-CO row below; it will **not** be included in the States-CO row. The State figures represent all Non-federal fires and acres in the respective states as reported to the USFS Regional Office's State and Private Forestry staff.

Agency	State	HUMAN		LIGHTNING		TOTAL

One BIA unit stretches from SD to ND and in this report, except for large fire information; fire figures are included in BIA SD numbers. There are also 2 FWS refuges that are located in ND with Bighorn Canyon NRA expanding from N. WY into MT (MT-BIP) are the responsibility of the RMA. Again, except for large fire information, in this report the numbers for these 3 units are included in FWS SD and NPS MT figures.

2020 WILDLAND FIRE ACTIVITY BY CAUSE and BY INDIVIDUAL AGENCY WITHIN THE RMA

The following table shows, by cause, the number of fires and acres burned for each of the agencies within the RMA. Federal and Non-federal fires and acres are listed individually. What this means is that a fire that occurred on BIA land in Colorado will **only** be represented in the BIA row below; it will **not** be included in the Colorado row. The State figures represent all Non-federal fires and acres in the respective state as reported to the USFS Regional Office’s State and Private Forestry staff.

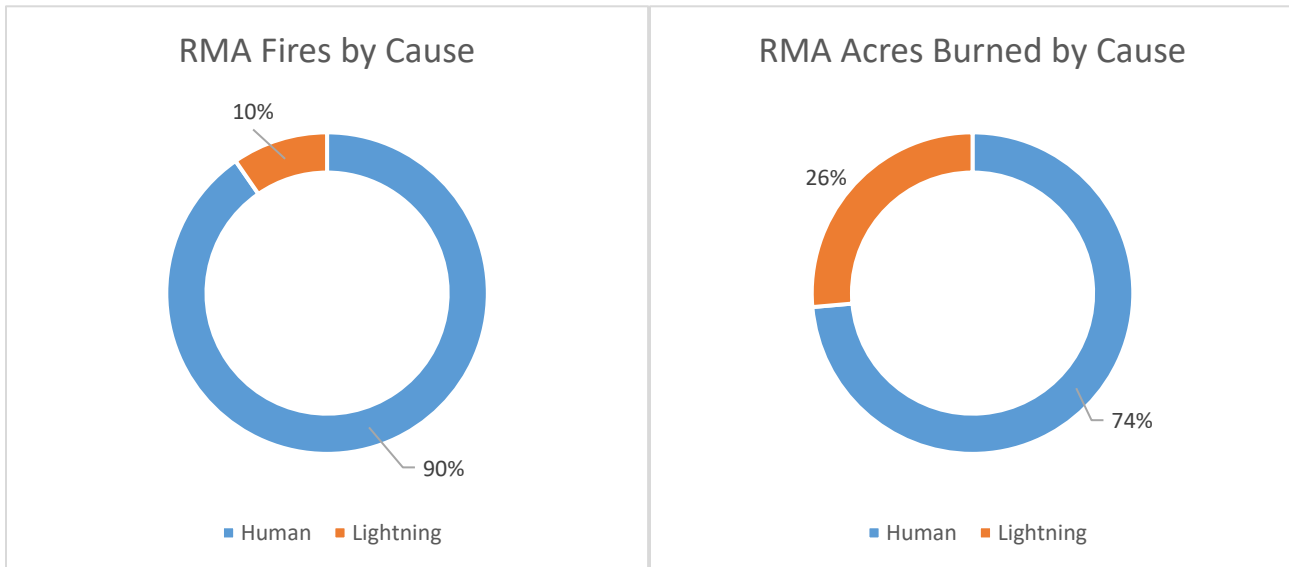

Agency Type	Agency	HUMAN		LIGHTNING		TOTAL

[†]Other includes all other federal agencies not listed above.

2020 WILDLAND FIRE ACTIVITY BY CAUSE and BY CAUSE WITHIN EACH RMA AGENCY

The two following pie charts illustrate, by cause, the percentage of fires and the percentage of acres burned within the entire RMA. The pie charts include both Federal and Non-federal fires and acres in the cause percentages.

The two following bar graphs illustrate, by cause, the number of fires and acres burned for each of the agencies within the RMA. Federal and Non-federal fires and acres are represented individually. What this means is that a fire that occurred on BIA land in Colorado will **only** be represented in the BIA bar below; it will **not** be included in the Colorado bar. The State fires and acres represent all Non-federal fires and acres in the respective state as reported to the USFS Regional Office’s State and Private Forestry staff.

**2020 WILDLAND FIRE ACTIVITY BY CAUSE
COMBINED FEDERAL AND NON-FEDERAL AGENCIES WITHIN EACH STATE**

The following table shows, by cause, the number of fires and acres burned within each of the five states of the RMA. Both Federal and Non-federal fires and acres are included in state totals.

State	HUMAN		LIGHTNING		TOTAL	
	Fires	Acres	Fires	Acres	Fires	Acres
CO	6,038	498,972	723	245,148	6,761	744,120
KS	3,393	43,112	108	927	3,501	44,039
NE	638	18,558	109	3,602	747	22,160
SD+	1,210	28,849	122	12,569	1,332	41,418
WY	1,267	235,457	276	33,378	1,543	268,835
RMA TOTAL	12,546	824,948	1,338	295,624	13,884	1,120,572

The two following pie charts illustrate the percentage of fires and percentage of acreage burned within each of the five states that comprise the RMA. Both Federal and Non-federal fires and acres are included in state percentages.

The two following bar graphs illustrate, by cause, the number of fires and acres burned within each of the five states that comprise the RMA. Both Federal and Non-federal fires and acres are included in state totals.

5 YEAR RMA AVERAGES BY AGENCY (2015 - 2019)

The following table shows the average number of fires and acres burned for each of the agencies within the RMA over the past 5 years, **not including the 2020 data**. The pie charts below the table show the 5 year average percentages of fires and acres burned by agency. Federal and Non-federal fires and acres are listed individually. What this means is that a fire that occurred on BIA land in Colorado will **only** be represented in the BIA row and pie slice below; it will **not** be included in the Colorado row or pie slice. The State figures represent all Non-federal fires and acres in the respective state as reported to the USFS Regional Office’s State and Private Forestry staff. See the Appendix for a breakdown of the last 10 years of RMA fire statistics by individual year and agency.

Agency	5 Yr Avg Fires	2020 Fires % of Avg	5 Yr Avg Acres	2020 Acres % of Avg
BIA	631	114%	13,774	105%
BLM	404	94%	51,930	382%

10 YEAR RMA AVERAGES BY AGENCY (2010 - 2019)

The following table shows the average number of fires and acres burned for each of the agencies within the RMA over the past 10 years, **not including the 2020 data**. The pie charts below the table show the 10 year average percentages of fires and acres burned by agency. Federal and Non-federal fires and acres are listed individually. What this means is that a fire that occurred on BIA land in Colorado will **only** be represented in the BIA row and pie slice below; it will **not** be included in the Colorado row or pie slice. The State figures represent all Non-federal fires and acres in the respective state as reported to the USFS Regional Office’s State and Private Forestry staff. See the Appendix for a breakdown of the last 10 years of RMA fire statistics by individual year and agency.

Agency	10 Yr Avg Fires	2020 Fires % of Avg	10 Yr Avg Acres	2020 Acres % of Avg
BIA	816	89%	27,757	52%
BLM	438	87%	38,928	509%

RMA FIRES AND ACRES SINCE 1996

The following timeline shows the total fires and acres across the RMA since 1996. These figures were gathered from past RMACC annual reports.

RMA LARGE INCIDENT SUMMARY BY MONTH FOR 2020

The following table shows by start date all large fires that were reported and submitted as final electronically in the ICS-209 system. A large fire is defined as 100 acres or more in timber fuel types, 300 acres or more in grass fuel types, or a fire that has a Type 1 or Type 2 IMT assigned. The "Unit" and "Agency" listed in the table are not necessarily the only unit or agency that was affected by the incident; what is listed is typically the jurisdictional agency for the incident. In the "Kind" column, WF=Full Suppression/Perimeter Control, MON=Monitor, CON=Contain and PZP=Point or Zone Protection/Limited Perimeter Control. In the "Cause" column, H=Human caused, L= Lightning caused, N=Natural, U=Undetermined. The acres shown are the acres reported on the last electronic ICS 209 submitted and are not necessarily the official acres for that incident. In the same vein, the number of structures shown as destroyed is the number reported on the last electronic ICS 209 and is not necessarily the official number of structures destroyed by that incident. The "Structures Destroyed" column includes residences, commercial buildings and outbuildings. A Type is listed in the "IMT Type" column only if a Type 1 IMT, Type 2 IMT, AC or NIMO was assigned.

There were 15 incidents in 2020 that did not meet the large fire criteria for which ICS-209s were completed, but are not included in the table below.

Incident Name	State	Unit	Agency	Strategy	Start Date	Cause	Acres	Structures Destroyed	IMT Type	Incident Commander	Days listed on 209

2020 RMA LARGE FIRE SUMMARY BY AGENCY

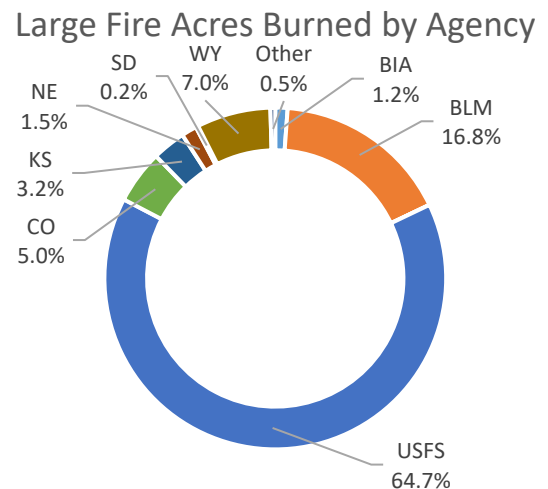

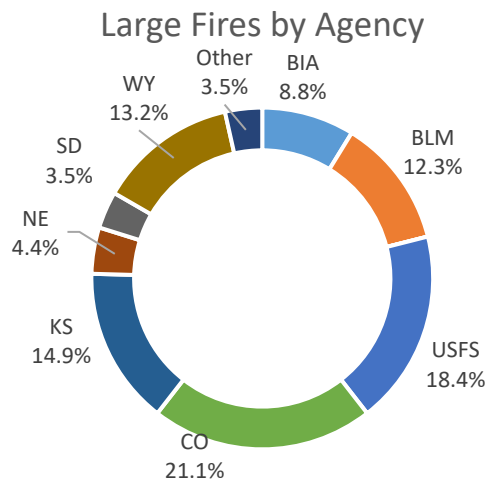

The following table shows the number of large fires and acres burned by large fires in the RMA. The data in the table is based on the last ICS-209 report submitted electronically and are not necessarily the official acres of the incident. The "Agency" listed is the jurisdictional agency listed on the ICS-209 and is not necessarily the only agency that was affected by the incident. Large fires reported under a county's jurisdiction are included in the corresponding state's figures.

Agency	State	Reported Fires	Reported Fire Acres
BIA	CO	0	0
	KS	0	0
	NE	0	0

2020 RMA LARGE FIRE SUMMARY BY AGENCY

The following table and two pie charts illustrate the percent of large fires and percent of large fire acreage burned for each of the agencies within the RMA. Federal and Non-federal fires and acres are represented individually. What this means is that a fire that occurred on BIA land in Colorado will only be represented in the BIA pie slice below; it will not be included in the Colorado pie slice. The State percentages represent all Non-federal fires and acres in the respective state. Other includes other Federal Agencies not listed.

Agency Type	Agency	Large Fires	Large Fire Acres
FEDERAL	BIA	10	11,735
	BLM	14	169,171
	FWS	0	0
	NPS	0	0
	USFS	21	653,883

	KS	17	31,838
	NE	5	14,692
	SD	4	2,359
	WY	15	70,664
OTHER	Other	4	4,615
RMA TOTAL		114	1,009,954

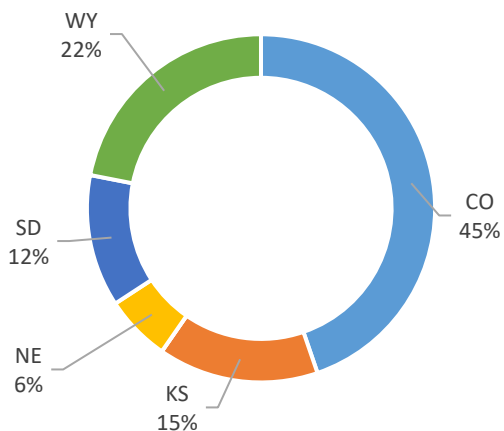

**RMA 2020 LARGE FIRE SUMMARY
COMBINING FEDERAL AND NON-FEDERAL AGENCIES WITHIN EACH STATE**

The following table and pie charts show the number of large fire and acres burned by large fires within each of the five states of the RMA. Both Federal and Non-federal fires and acres are included in these state totals. This information is from the last electronically submitted ICS-209 for an incident, which are not necessarily the official acres for the incident.

State	Large Fires	Large Fire Acres
CO	51	673,545
KS	17	36,453
ND	0	0
NE	7	15,453
SD	14	14,094
WY	25	270,409

RMA 2020 RMA RESOURCE ORDER SUMMARY

The following table shows the percentage of orders filled relative to the total orders entered minus orders deleted for each resource category. These figures include incoming out of area resources, as well as outgoing RMA resources across all RMA dispatch centers. This information is derived from IROC Reports.

RMA 2020 Resource Orders Percent Filled

Req Catalog Name	Enter*	Fill*	Fill Rate
Aircraft	4,220	3,312	78%
Crew	1,029	497	48%
Equipment	5,678	4,491	79%
Overhead	13,389	9,843	74%
Supply	23,702	19,511	82%
Summary	48,018	37,654	78%

* IROC was implemented in March of 2020. Due to problems with the implementation, not all functionality was working correctly and some workload is not reflected in the data. (Rostering). Dispatch Activity from Jan - March from ROSS is not included in these numbers.

The following table shows the number of resource orders, by resource category, processed by all Dispatch Centers within the RMA. These figures include incoming out of area resources, as well as outgoing RMA resources across all RMA dispatch centers. This information is derived from IROC Reports.

October 18	October 17	Hagan	IMT2	10	Calwood	COBLX-001036
TOTAL				148		
Number RMA IMT Type 1 Days				34		
Number of RMA IMT Type 2 Days				114		

*Note: IMT2 (Haydon) never took the Grizzly Creek Fire, support local IMT3 upon arrival of IMT1. No ICS-209s were submitted.

VISITING IMTs TO THE RMA IN 2020

The following table shows the Incident Management Teams (IMTs), Area Command Teams (AC) and National Incident Management Organization(s) (NIMO) ordered into the Rocky Mountain Area and the assignments those IMTs/s/ACs/NIMOs had in 2020. The "Start Date" is the date the fire started, not necessarily the date the IMT/Organization/ was assigned to the incident. Other "home" RMA IMTs/ACs/s may have also been assigned to the fires listed below, see the proceeding section entitled "RMA Large Incident Summary By Month for 2020" to obtain a complete listing of all large fires in the RMA and teams assigned to those fires.

Start Date	1st Day as a Large Fire	Incident Commander(s)	IMT Type	Number of Days Listed As IC on the ICS 209*	Incident Name	Incident Number

Rapid City	122,467	68	68,069	28
RMA TOTAL	4,797,565	2,250	1,015,755	954

*2018 was the first year for Colorado Springs tanker base

**HANDCREWS
RMA TYPE 1 HANDCREW SUMMARY FOR 2020**

The following table shows the 7 Type 1 Handcrews hosted in the RMA and the total incidents, in area and out-of-area that each crew was assigned to during the 2020 fire season. These figures come directly from each crew and represent all incidents, not just incidents that RMC processed an order for. Days listed represent days working on an incident and do not include travel or R&R.

Crew Name	Area Incidents	Total Days on Area Incidents	National Incidents	Total Days on National Incidents
Alpine Hotshots	11	73	2	13
Craig Hotshots	17	97	0	0

RMA TYPE 2 and Type 2IA HANDCREW SUMMARY FOR 2020

The following table shows the Type 2 and Type 2IA Handcrew orders that were processed by the RMC for crews that are an RMA resource. An RMA resource is defined as any resource from a unit within the Rocky Mountain Geographic Area.

	Area Assignments	Days Out	National Assignment	Days Out
TOTAL	64	353	4	55
Avg Days Out		5.5		13.8

VISITING TYPE 1, Type 2 AND TYPE 2IA HANDCREWS TO THE RMA IN 2020

The following table shows the total number of Type 1, Type 2 and Type 2IA crews that visited the RMA in 2020. The table does not reflect the number of individual incidents a crew might have been assigned to while in the RMA.

Crew Type	Number of Assignments	Days on Assignments	Avg Days on Assignment in the RMA
Type 1 Handcrew	28	301	10.8
Type 2 and Type 2IA Handcrew	180	2,623	14.6
TOTAL	208	2,924	14.1

APPENDIX

10 YEARS of RMA INTERAGENCY FIRE STATISTICS

Appendix - 1

This section includes a table of RMA fires and acres over the last 10 years by individual year and agency.

RMA LARGE INCIDENT SUMMARY BY STATE

Appendix - 2

This section includes tables of all large incidents reported to the Rocky Mountain Coordination Center on an ICS-209 sorted by State.

RMA RESOURCE BREAKDOWN

Appendix - 3

This section includes a table of resources that were processed by Rocky Mountain Area dispatch centers. These figures include incoming and outgoing resources, and are listed by their ROSS catalog item.

10 YEARS of RMA INTERAGENCY FIRE STATISTICS

The following table shows the number of fires and acres burned for each of the agencies within the RMA over the past 10 years, not including the 2020 data. Federal and Non-federal fires and acres are listed individually. What this means is that a fire that occurred on BIA land in Colorado will only be represented in the BIA row below; it will not be included in the Colorado row. The State figures represent all Non-federal fires and acres in the respective state as reported to the USFS Regional Office's State and Private Forestry staff.

Agency	2019		2018		2017		2016		2015

RMA LARGE INCIDENT SUMMARY BY STATE FOR 2020

The following table show the same information found earlier in this report in the section entitled "RMA Large Incident Summary By Month For 2020, however this table is organized first by the state in which the incident occurred, and then by the date the incident occurred. All of the narrative information about the preceding table should be applied to this table as well. There were 15 incidents for which ICS-209s were submitted but failed to meet large fire criteria, are not included in the table below.
