

ROCKY MOUNTAIN AREA AND COORDINATION CENTER 2023 ANNUAL ACTIVITY REPORT

January 12, 2023, on the Boulder Ridge Prescribed Fire on the High Desert District near Laramie, Wyoming.

Photo taken by Paul Hohn

PREFACE

Statistics used in the RMA report are gathered from the Fire and Aviation Management Integrated National Application Portal, <https://famauth.wildfire.gov>, which includes the Situation Report and Incident Status Summary (ICS-209) programs. Other sources also used in this document are previous Rocky Mountain Area Coordination Center (RMACC) annual reports, unit dispatch center annual reports, and agency specific local fire reports. The statistics given are intended to provide a Rocky Mountain Area wide perspective of annual fire activity but may not reflect official figures for a specific agency or represented dispatch office. Resource mobilization statistics used in this report were gathered from the Interagency Resource Ordering Capability System (IROC), which tracks tactical, logistical, service and support resources mobilized by the Rocky Mountain and National incident dispatch coordination system.

For agency-specific details or official numbers contact the individual agency or represented dispatch office.

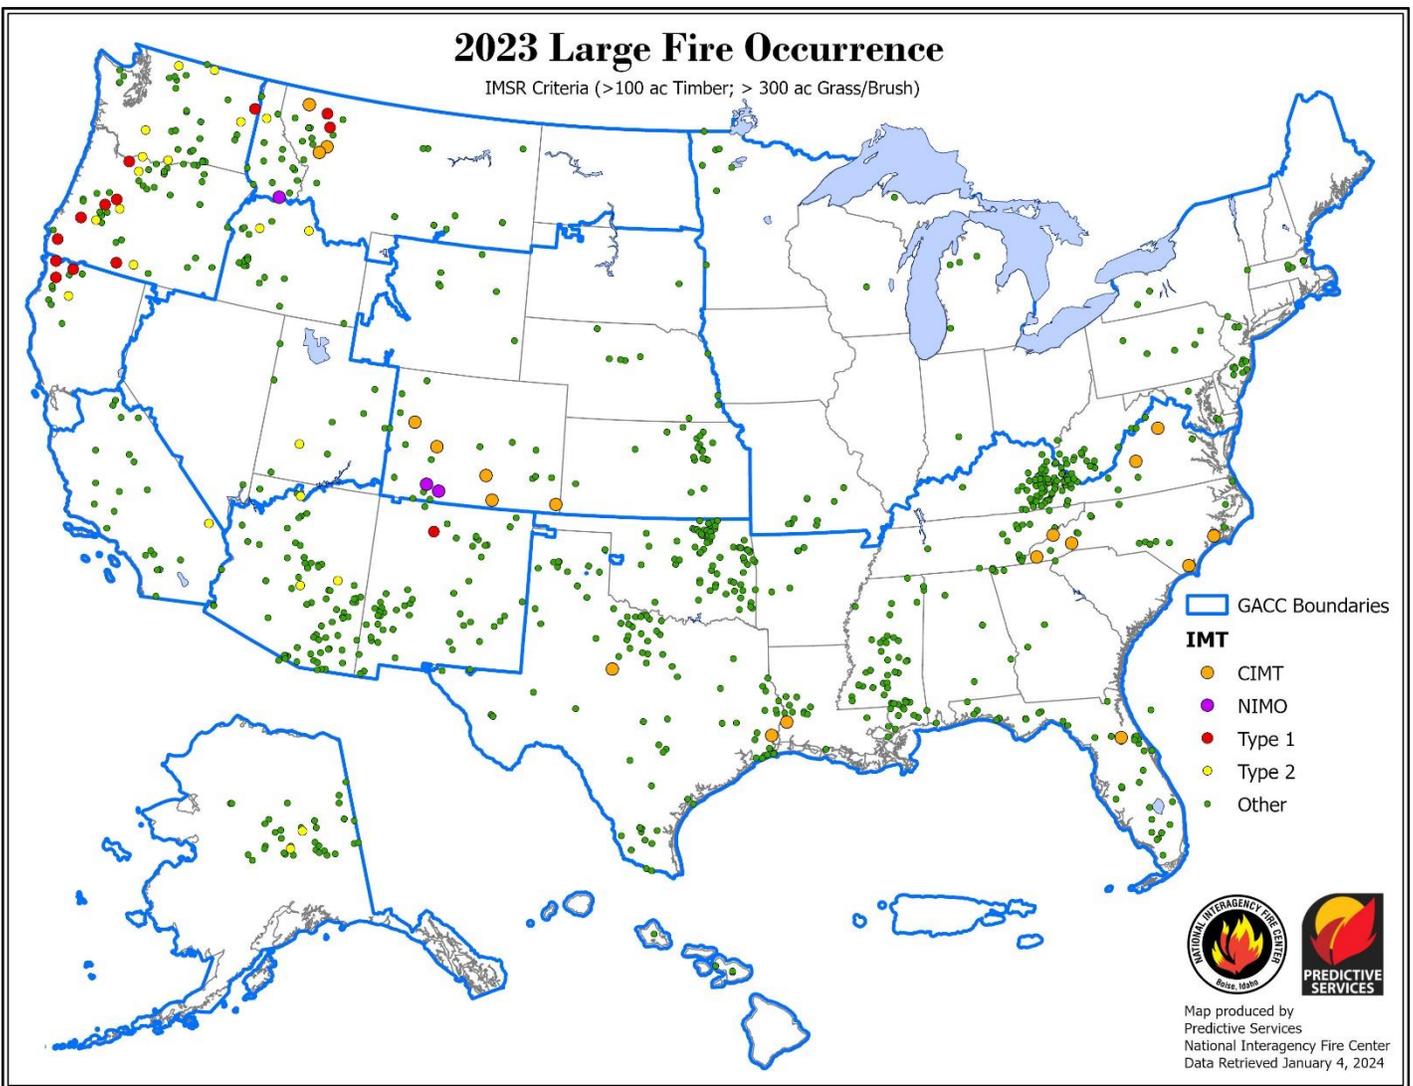

TABLE OF CONTENTS

	Page Number
Seasonal Narrative	3
Interagency Fire Statistics	4
<p>This section includes tables, graphs and charts of fires and acres burned by cause, by agency and by state during the 2023 season, as well as 5- and 10-year comparisons. The statistics in this report are taken from RMA Dispatch Center Annual Reports for Federal Agencies and from reports submitted to the USFS Region 2 Office, State and Private Forestry and Fire Staff by each of the 5 RMA states for State Agencies.</p>	
RMA Large Incident Summary	11
<p>This section includes tables and charts of all large incidents reported to the Rocky Mountain Coordination Center on an ICS-209.</p>	
Resources	17
<p>This section includes tables of resources processed by RMA dispatch centers during 2023, as well as a 5-year comparison.</p>	
Incident Management Teams	19
<p>This section includes a table of the 3 “home” RMA Incident Management Teams assignments and a table of all Incident Management Teams, Area Command Teams, and National Incident Management Organizations that visited the RMA on assignments during the 2023 season.</p>	
Aviation	21
<p>This section includes tables, charts and graphs of tactical aviation resource orders, RMA “home” contract Airtanker operations, and Airtanker and Reload base operations. These statistics were gathered by the Rocky Mountain Area Coordination Center and RMA Dispatch Centers.</p>	
Handcrews	24
<p>This section includes tables summarizing “home” RMA Type 1 handcrews’ assignments, “home” RMA Type 2 handcrews’ assignments, and the RMA assignments of “visiting” Type 1 and Type 2 and Type 2IA handcrews.</p>	
Appendix	
<p>This section includes tables of 10-year RMA fire statistics broken down by year and agency, 2023 RMA Large Incidents by State, and the 2023 RMA resource orders broken down by IROC category name.</p>	

SEASONAL NARRATIVE

Cooler and wetter conditions during winter 2022-23 continued into spring, resulting in above-normal fine fuel growth during green-up. A two-year La Niña cycle that persisted into 2023 quickly transitioned to El Niño by summer. As the pattern shifted, areas west of the Continental Divide started drying in June, while the rest of the RMA was wetter. This drier trend coupled with above-normal temperatures to cure fuel in the West much of the year. The unusually warm and dry conditions resulted in a delayed arrival of the summer monsoon, which was significantly weaker when it arrived. This caused less thunderstorm activity as well as fewer lightning starts or strong winds to fuel fire growth.

Total wildfires across the Rocky Mountain Area in 2023 were lower than historical norms: the 11,815 fires reported were 75 percent of the 5-year average and 80 percent of the 10-year average. Over 80 percent of all fires occurred in Colorado (61%) and Kansas (21%). The 258,205 total acres burned for the year were considerably lower than normal: just 37 percent of the 5-year average and 43 percent of the 10-year average. However, while Nebraska made up 8 percent (979) of the total fires, it accounted for 74 percent (190,352) of overall fire acreage. The trend in the RMA was reflected nationally: in 2023, annual acres burned for the U.S. remained well below the 10-year average at just over 37 percent, with slightly below average number of fires, at 95 percent.

In the RMA, 75 large incidents were reported on an ICS-209 in 2023. These fires burned 126,360 acres and destroyed 21 structures. April was most active: 28 fires burned 80,168 acres and destroyed 15 structures. Two major wind events across the central and southern Plains on April 10-13 and April 17-18 resulted in spikes of significant fire activity across the Rocky Mountain Area. The 40,000-acre Cooksley Fire and the 605-acre Dike Fire both began April 13 in Nebraska, and the 4,618-acre Gageby Creek Fire started in Colorado on April 18.

While the National Preparedness Level (PL) increased to two on May 8, fire activity was below normal across the U.S. in May and June. Meanwhile Canada began a historic fire season in May, going from PL one to five in just eight days from May 3 to May 11. Many large, uncontrolled wildfires occurred by the end of June and the 8 million hectares burned eclipsed its annual record from 1982. Canadian wildfire smoke poured into the northeast U.S. in early June, severely affecting air quality in cities such as New York and Washington, D.C. The national PL went to three on July 21, with significant fires in the Southwest, Northern Rockies and Northwest. The RMA supported Canada by sending Type 1 crews to Alberta and British Columbia and a Complex Incident Management Team (CIMT) to British Columbia.

Overall, the winds remained light through summer as much of the West sat under a strong ridge of high pressure. With the lack of winds, many fires that started were more manageable. However, one significant fire was the Spring Creek Fire near Grand Junction. On June 26, red flag conditions and stronger winds rapidly grew the fire to almost 3,000 acres. The hot and dry conditions spread farther to the east through summer as high pressure expanded across the Central U.S. This resulted in fuels curing quicker than normal as well as above normal temperatures and below normal precipitation through the rest of the year. In addition to Spring Creek, major fires in June and July managed by RMA CIMT's were Titan, Chris Mountain, and Lowline, all located in Colorado.

Throughout 2023, the RMA was able to meet its own resource needs while also supporting national incidents and other GACCs. In addition to working 120 days on 18 incidents within the RMA, Type 1 crews worked a total of 531 days supporting 51 national and international incidents. Likewise, Type 2 and 2IA crews from the RMA spent 170 days supporting 17 in-area incidents and also served 179 days on 13 national assignments.

Major wildfire activity continued to increase in August as the national PL went from three to four on August 17. Significant fires occurred across most geographic areas in August. However a timely significant rainfall event from the remnants of Tropical Storm Hilary over August 20-23 resulted in decreased activity across the Great Basin, Rocky Mountain, and Northern Rockies Geographic Areas by the end of the month. Activity generally decreased in September as the national PL dropped to three on September 7, and then to two on September 26. Significant fire activity generally decreased in the U.S. through October as the national PL dropped from two to one on October 13. The Saint Charles Fire, which began on October 14, was the last large fire managed by an RMA CIMT. The fall snowpack was very late to arrive in the RMA, with most of the western mountains being below normal through the end of the year.

INTERAGENCY FIRE STATISTICS: 2023 WILDLAND FIRE ACTIVITY BY CAUSE

The following table shows, by cause, the number of fires and acres burned for each of the agencies within the RMA. Federal and Non-federal are listed individually, and within each Federal agency the fire and acres are further broken down by the state in which the federal fire occurred. What this means is that a fire that occurred on BIA land in Colorado will **only** be listed in the BIA-CO row below; it will **not** be included in the States-CO row. State figures represent all Non-federal fires and acres in the respective states as reported to the USFS Regional Office’s State and Private Forestry staff.

Agency	State	HUMAN		LIGHTNING		TOTAL

* One BIA unit stretches from SD to ND and in this report, except for large fire information, these fire figures are included in BIA SD numbers. There are also two FWS refuges located in ND with Bighorn Canyon NRA expanding from N. WY into MT (MT-BIP) that are the responsibility of the RMA. Except for large fire information, in this report the numbers for these three units are included in FWS SD and NPS MT figures. Fire figures listed in the "Other" section represent Bureau of Reclamation locations in CO and WY (CO-WCAL AND WY-WAL).

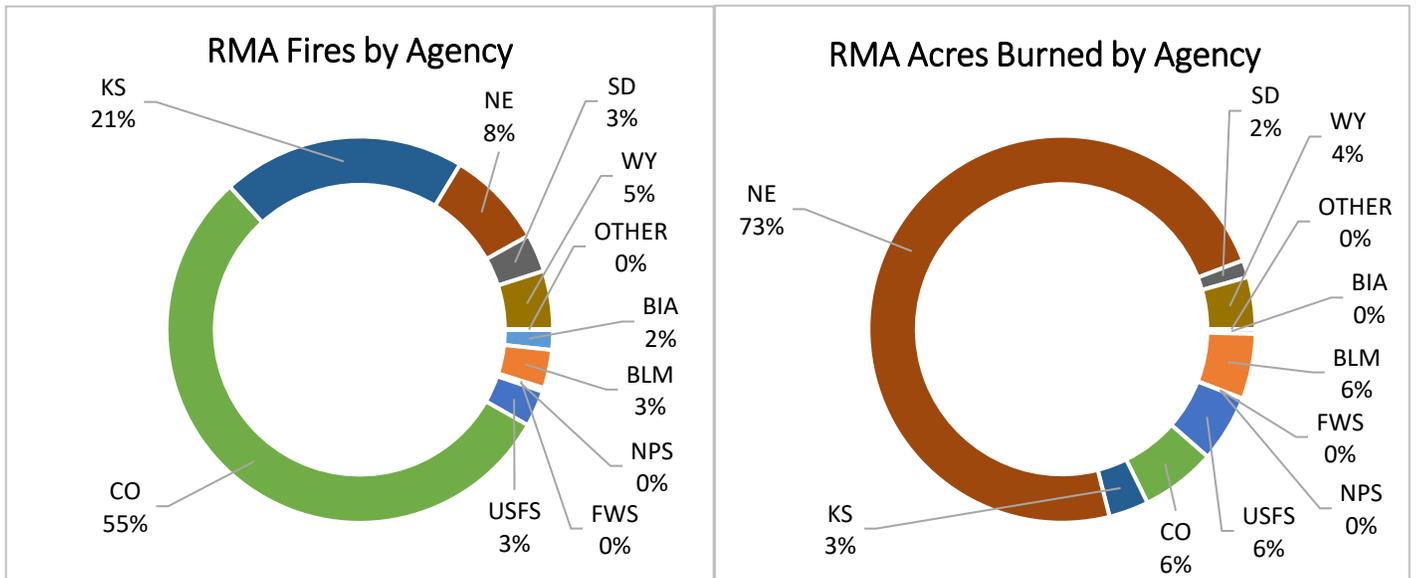

2023 WILDLAND FIRE ACTIVITY BY CAUSE AND BY INDIVIDUAL AGENCY WITHIN THE RMA

The following table shows, by cause, the number of fires and acres burned for each of the agencies within the RMA. Federal and Non-federal fires and acres are listed individually. What this means is that a fire that occurred on BIA land in Colorado will **only** be represented in the BIA row below; it will **not** be included in the Colorado row. The State figures represent all Non-federal fires and acres in the respective state as reported to the USFS Regional Office’s State and Private Forestry staff.

Agency Type	Agency	HUMAN		LIGHTNING		TOTAL	
		Fires	Acres	Fires	Acres	Fires	Acres
FEDERAL	BIA	141	835	58	171	199	1,006
	BLM	115	6,862	264	7,225	379	14,087
	FWS	5	44	1	0	6	44
	NPS	5	0	27	29	32	29
	USFS	168	3,264	189	11,162	357	14,426
STATE	CO	6,188	14,371	315	1,819	6,503	16,190

	SD	329	3,206	46	502	375	3,708
	WY	480	8,204	100	3,045	580	11,249
OTHER†		2	7	0	0	2	7
RMA TOTAL		10,702	229,688	1,113	28,517	11,815	258,205

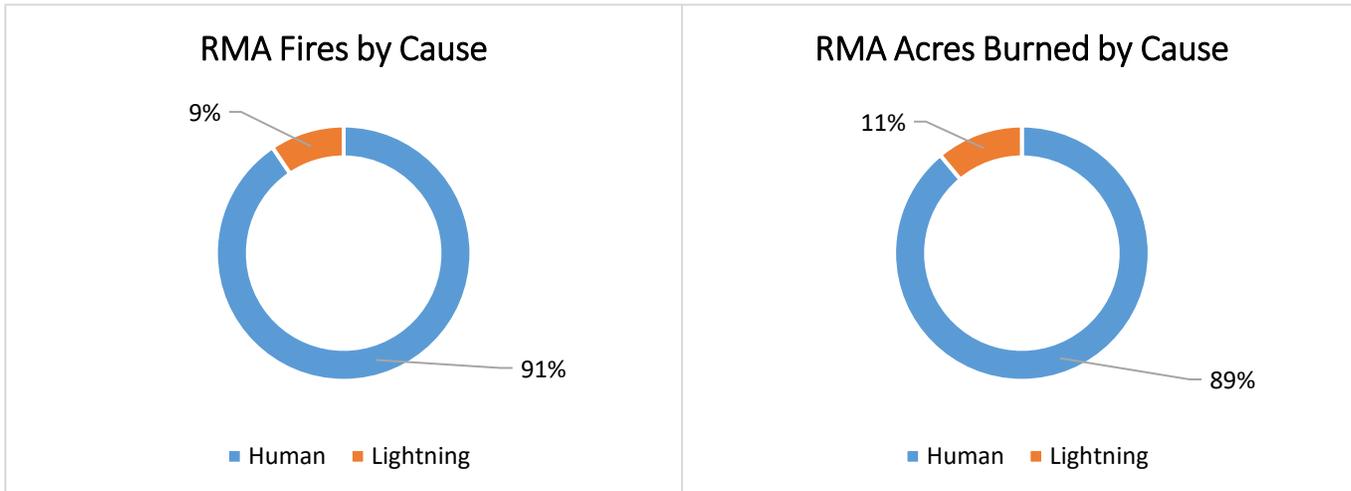

† Other includes all other federal agencies not listed above. (CO-WCAL AND WY-WAL)

The two following pie charts illustrate the percent of fires and percent of acreage burned for each of the agencies within the RMA. Federal and Non-federal fires and acres are represented individually. What this means is that a fire that occurred on BIA land in Colorado will only be represented in the BIA pie slice below; it will not be included in the Colorado pie slice. The State percentages represent all Non-federal fires and acres in the respective state.

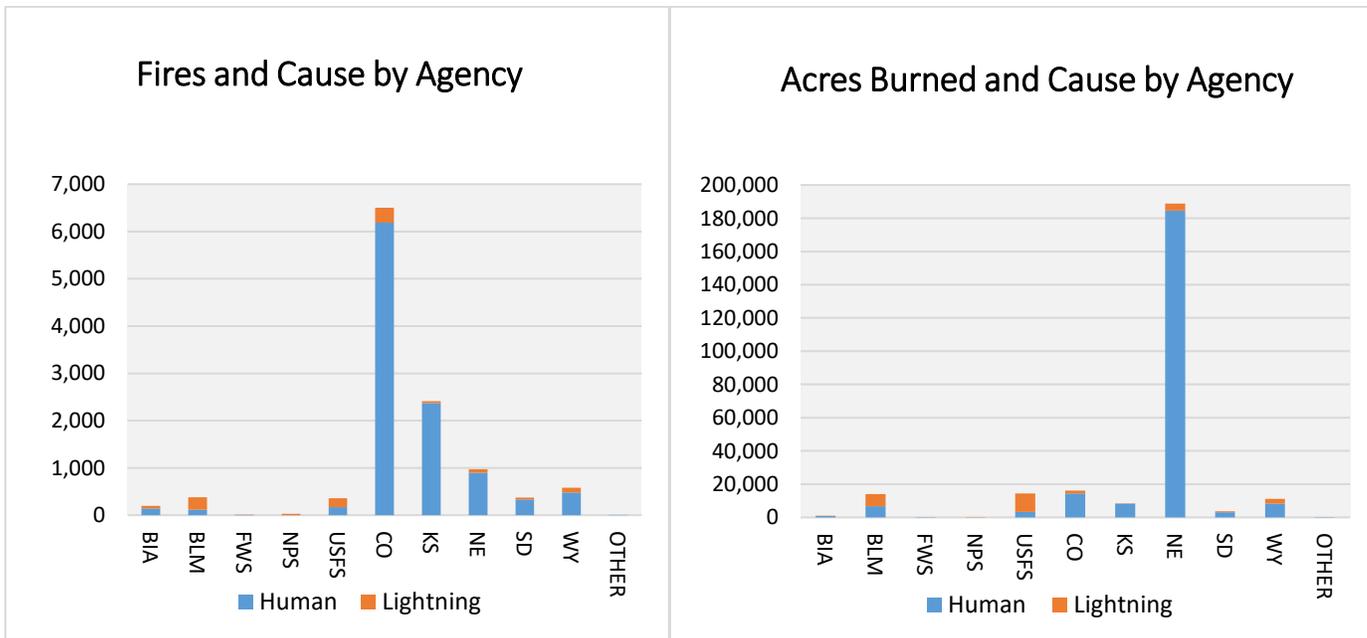

2023 WILDLAND FIRE ACTIVITY BY CAUSE AND BY CAUSE WITHIN EACH RMA AGENCY

The two following pie charts illustrate, by cause, the percentage of fires and the percentage of acres burned within the entire RMA. The pie charts include both Federal and Non-federal fires and acres in the cause percentages.

The two following bar graphs illustrate, by cause, the number of fires and acres burned for each of the agencies within the RMA. Federal and Non-federal fires and acres are represented individually. What this means is that a fire that occurred on BIA land in Colorado will **only** be represented in the BIA bar below; it will **not** be included in the Colorado bar. The State fires and acres represent all Non-federal fires and acres in the respective state as reported to the USFS Regional Office’s State and Private Forestry staff.

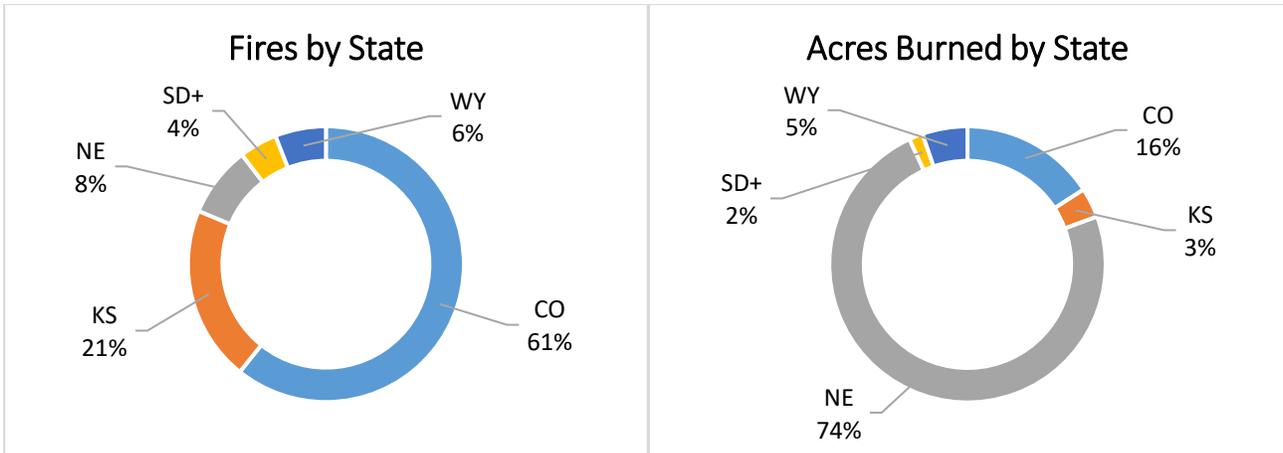

**2023 WILDLAND FIRE ACTIVITY BY CAUSE
COMBINED FEDERAL AND NON-FEDERAL AGENCIES WITHIN EACH STATE**

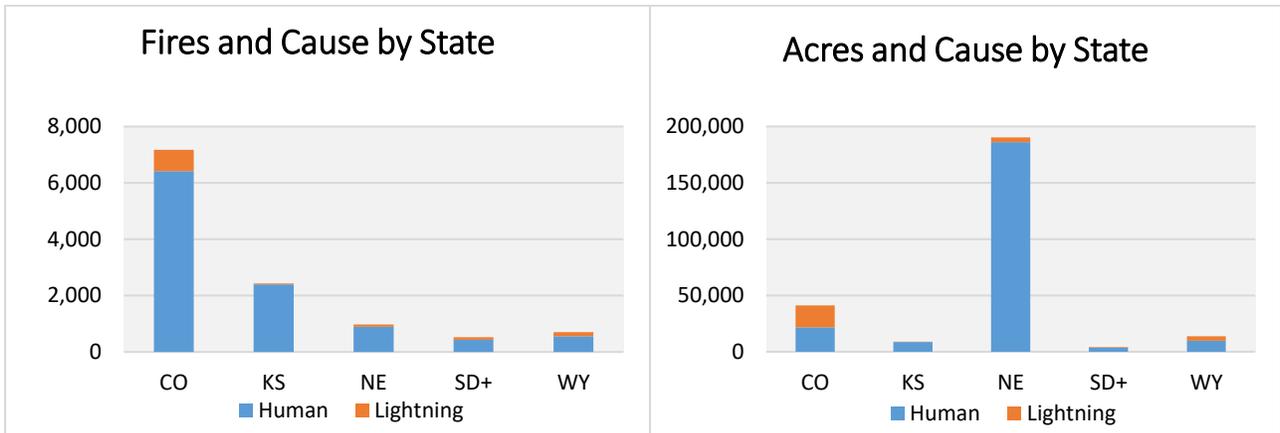

The following table shows, by cause, the number of fires and acres burned within each of the five states of the RMA. Both Federal and Non-federal fires and acres are included in state totals.

State	HUMAN		LIGHTNING		TOTAL	
	Fires	Acres	Fires	Acres	Fires	Acres
CO	6,415	21,589	760	19,407	7,175	40,996
KS	2,392	8,728	39	293	2,431	9,021
NE	901	186,077	78	4,275	979	190,352
SD+	435	3,568	90	603	525	4,171
WY	559	9,726	146	3,939	705	13,665
RMA TOTAL	10,702	229,688	1,113	28,517	11,815	258,205

The two following pie charts illustrate the percentage of fires and percentage of acreage burned within each of the five states that comprise the RMA. Both Federal and Non-federal fires and acres are included in state percentages.

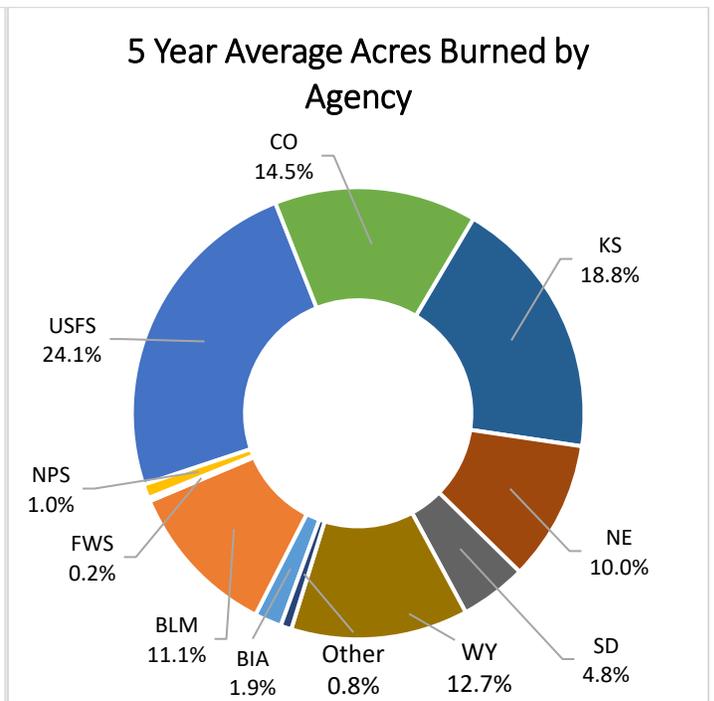

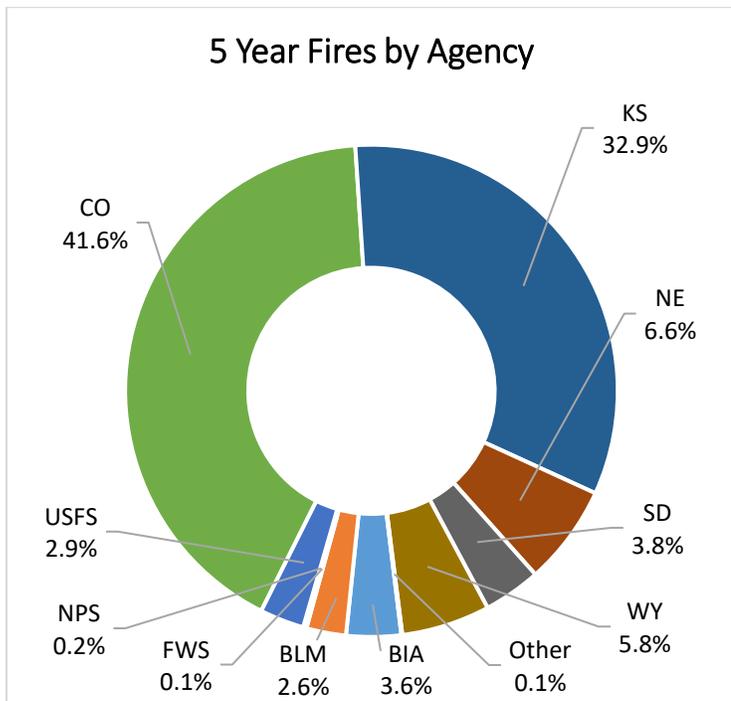

The two following bar graphs illustrate, by cause, the number of fires and acres burned within each of the five states that comprise the RMA. Both Federal and Non-federal fires and acres are included in state totals.

5 YEAR RMA AVERAGES BY AGENCY (2018 - 2022)

The following table shows the average number of fires and acres burned for each of the agencies within the RMA over the past 5 years, **not including the 2023 data**. The pie charts below the table show the 5-year average percentages of fires and acres burned by agency. Federal and Non-federal fires and acres are listed individually. What this means is that a fire that occurred on BIA land in Colorado will **only** be represented in the BIA row and pie slice below; it will **not** be included in the Colorado row or pie slice. The State figures represent all Non-federal fires and acres in the respective state as reported to the USFS Regional Office’s State and Private Forestry staff. See the Appendix for a breakdown of the last 10 years of RMA fire statistics by individual year and agency.

Agency	5 Yr. Avg Fires	2023 Fires % of Avg.	5 Yr. Avg Acres	2023 Acres % of Avg.
BIA	566	35%	13,665	7%
BLM	408	93%	78,159	18%
FWS	10	59%	1,718	3%

10 YEAR RMA AVERAGES BY AGENCY (2013 - 2022)

The following table shows the average number of fires and acres burned for each of the agencies within the RMA over the past 10 years, **not including the 2023 data**. The pie charts below the table show the 10-year average percentages of fires and acres burned by agency. Federal and Non-federal fires and acres are listed individually. What this means is that a fire that occurred on BIA land in Colorado will **only** be represented in the BIA row and pie slice below; it will **not** be included in the Colorado row or pie slice. The State figures represent all Non-federal fires and acres in the respective state as reported to the USFS Regional Office’s State and Private Forestry staff. See the Appendix for a breakdown of the last 10 years of RMA fire statistics by individual year and agency.

Agency	10 Yr. Avg Fires	2023 Fires % of Avg.	10 Yr. Avg Acres	2023 Acres % of Avg
BIA	667	30%	13,460	7%
BLM	406	93%	50,995	28%
FWS	14	44%	1,179	4%

2023 % of Avg	120%	22%	43%	5%	103%	364%	45%	9%	72%	9%

RMA FIRES AND ACRES SINCE 1999

The following timeline shows the total fires and acres across the RMA since 1999. These figures were gathered from past RMACC annual reports. In the following chart, the **BLUE** bars on the graph represent the total **FIRES** based on the scale on the **LEFT**. The **ORANGE** lines represent the total **ACRES** based on the scale on the **RIGHT**.

Rocky Mountain Area and Coordination Center 2023 Annual Report

RMA LARGE INCIDENT SUMMARY BY MONTH FOR 2023

The following table shows by start date all large fires that were reported and submitted as final electronically in the ICS-209 system. A large fire is defined as 100 acres or more in timber fuel types, 300 acres or more in grass fuel types, or a fire that has a Type 1 or Type 2 IMT assigned. The "Unit" and "Agency" listed in the table are not necessarily the only unit or agency that was affected by the incident; what is listed is typically the jurisdictional agency for the incident. In the "Kind" column, WF=Full Suppression/Perimeter Control, MON=Monitor, CON=Contain and PZP=Point or Zone Protection/Limited Perimeter Control. In the "Cause" column, H = Human caused, L/N = Lightning or Natural caused, U = Undetermined. The acres shown are the acres reported on the last electronic ICS 209 submitted and are not necessarily the official acres for that incident. In the same vein, the number of structures shown as destroyed is the number reported on the last electronic ICS-209 and is not necessarily the official number of structures destroyed by that incident. The "Structures Destroyed" column includes residences, commercial buildings and outbuildings. A Type is listed in the "IMT Type" column only if a CIMT, AC, or NIMO was assigned.

Incident Name	State	Unit	Agency	Strategy	Start Date	Cause	Acres	Structures Destroyed	IMT Type	Incident Commander(s) IMT1 or IMT2	Days as IC on 209

2023 RMA LARGE FIRE SUMMARY BY AGENCY

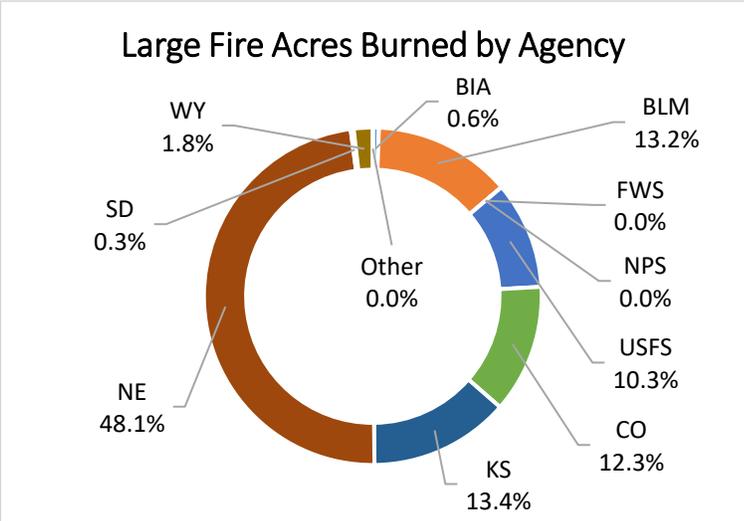

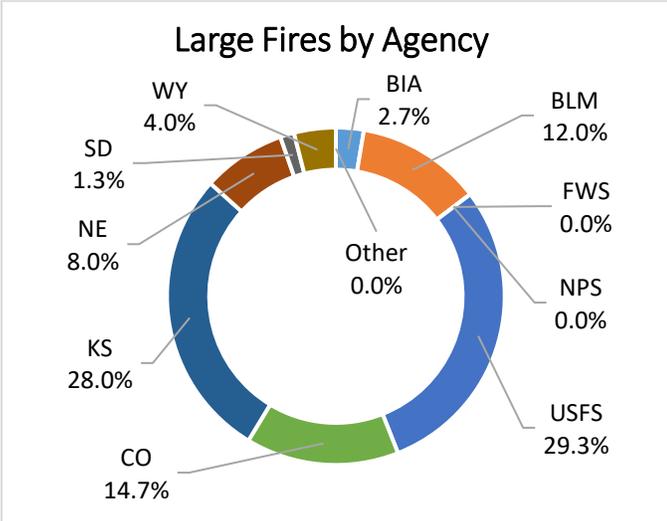

The following table shows the number of large fires and acres burned by large fires in the RMA. The data in the table is based on the last ICS-209 report submitted electronically and are not necessarily the official acres of the incident. The “Agency” listed is the jurisdictional agency listed on the ICS-209 and is not necessarily the only agency that was affected by the incident. Large fires reported under a county’s jurisdiction are included in the corresponding state’s figures.

Agency	State	Reported Fires	Reported Fire Acres
BIA	CO	1	127
	KS	0	0
	NE	1	605
	SD	0	0

2023 RMA LARGE FIRE SUMMARY BY AGENCY

The following table and two pie charts illustrate the percent of large fires and percent of large fire acreage burned for each of the agencies within the RMA. Federal and Non-federal fires and acres are represented individually. What this means is that a fire that occurred on BIA land in Colorado will only be represented in the BIA pie slice below; it will not be included in the Colorado pie slice. The State percentages represent all Non-federal fires and acres in the respective state. Other includes other Federal Agencies not listed.

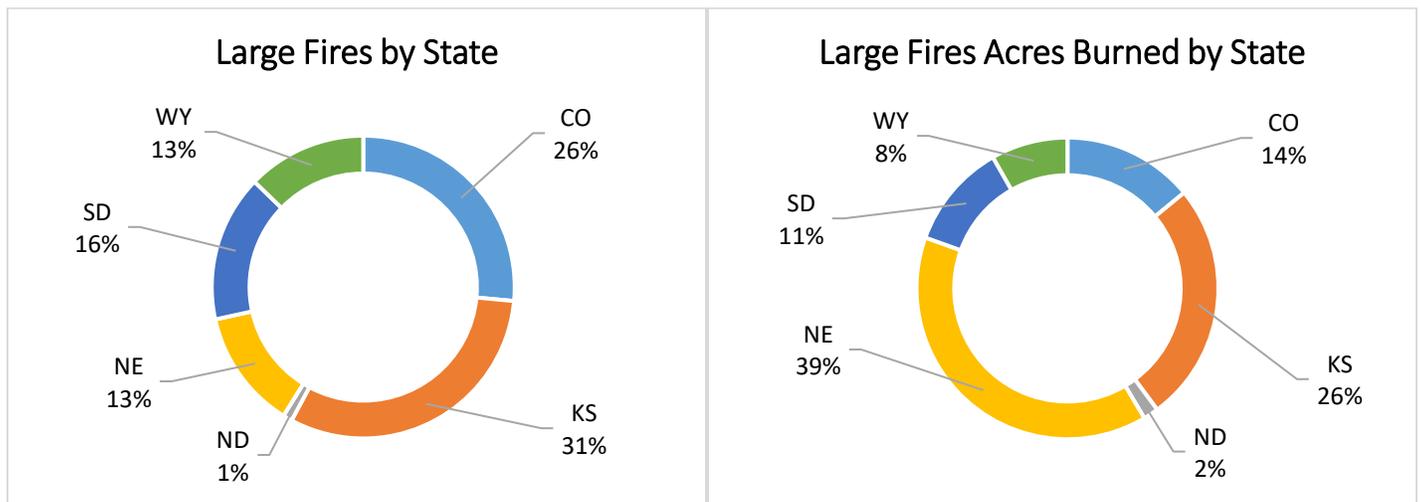

Agency Type	Agency	Large Fires	Large Fire Acres
FEDERAL	BIA	2	732
	BLM	9	16,713
	FWS	0	0
	NPS	0	0
	USFS	22	13,017
STATES	CO	11	15,546

	WY	3	2,290
OTHER	Other	0	0
RMA TOTAL		75	126,360

**RMA 2023 LARGE FIRE SUMMARY
COMBINING FEDERAL AND NON-FEDERAL AGENCIES WITHIN EACH STATE**

The following table and pie charts show the number of large fire and acres burned by large fires within each of the five states of the RMA. Both Federal and Non-federal fires and acres are included in these state totals. This information is from the last electronically submitted ICS-209 for an incident, which are not necessarily the official acres for the incident.

State	Large Fires	Large Fire Acres
CO	37	39,706
KS	21	16,974
ND	0	0
NE	8	63,182
SD	1	360
WY	8	6,138
RMA TOTAL	75	126,360

RMA 2023 RMA RESOURCE ORDER SUMMARY

The following table shows the percentage of orders filled relative to the total orders entered minus orders deleted for each resource category. These figures include incoming out of area resources, as well as outgoing RMA resources across all RMA dispatch centers. This information is derived from IROC Reports.

RMA 2023 Resource Orders Percent Filled

Req Catalog Name	Enter	Fill*	Fill Rate
Aircraft	1,711	1,472	86%
Crew	409	302	74%
Equipment	2,120	2,219	105%
Overhead	16,079	17,461	109%
Supply	6,752	3,738	55%
Summary	27,071	25,192	93%

The following table shows the number of resource orders, by resource category, processed by all Dispatch Centers within the RMA. These figures include incoming out of area resources, as well as outgoing RMA resources across all RMA dispatch centers. This information is derived from IROC Reports.

RMA 2023 Resource Orders Summary

Req Catalog Name	Enter	Place	Retrieve	UTF	Fill

VISITING IMTs TO THE RMA IN 2023

The following table shows the Incident Management Teams (IMTs), Area Command Teams (AC) and National Incident Management Organization(s) (NIMO) ordered into the Rocky Mountain Area and the assignments those IMTs/s/ACs/NIMOs had in 2023. The "Start Date" is the date the fire started, not necessarily the date the IMT/Organization was assigned to the incident. Other "home" RMA IMTs/ACs/s may have also been assigned to fires listed below, see the proceeding section entitled "RMA Large Incident Summary By Month for 2023" for a complete listing of all large fires in the RMA and teams assigned to those fires.

Start Date	1st Day as a Large Fire	Incident Commander(s)	IMT Type	Number of Days Listed As IC on the ICS 209*	Incident Name	Incident Number

Lead Plane = Includes Canadian Bird Dog

RMA FEDERAL EXCLUSIVE USE CONTRACT HELICOPTER SUMMARY FOR 2023

The following table shows the RMA Federal Exclusive Use and Modified CWN for traditionally Exclusive Use contracted helicopters. Resource assignment history was obtained through assignment history in IROC. This includes days assigned to prepositions, support incidents, prescribed fires, and wildfires.

Note: No Type 1 Helicopter Exclusive Use contracts were awarded for 2023

Tail Number / Base	Type	National Incidents	Days Assigned	Area Incidents	Days Assigned	Total Days Assigned

Average Days Assigned Per Ship		75		84	

RMA AIRTANKER BASE AND RELOAD BASE OPERATIONS IN 2023

The following table and charts show the Airtanker and Reload Bases in the RMA. Gallons Pumped and Missions Flown columns reflect all gallons and Airtanker missions flown out of that Base, however missions are not necessarily just RMA missions, as an RMA base could be used as a reload facility for other geographic areas.

Tanker Base	Gallons Pumped 2023	Missions Flown 2023	5-Yr Avg Gallons Pumped	5-Yr Avg Missions Flown
Durango	427,037	237	306,033	159
Grand Junction	685,175	480	640,112	611

RMA TOTAL	1,383,456	891	1,842,595	1,106

**HANDCREWS
RMA TYPE 1 HANDCREW SUMMARY FOR 2023**

The following table shows the Type 1 Handcrews hosted in the RMA and the total incidents, in area and out-of-area that each crew was assigned to during the 2023 fire season. These figures come directly from each crew and represent all incidents, not just incidents for which RMC processed an order. Days listed represent days working on an incident and do not include travel or R&R.

Crew Name	Area Incidents	Total Days on Area Incidents	National Incidents	Total Days on National Incidents
Alpine Hotshots	1	6	11	105
Craig Hotshots	1	14	5	79
Pike Hotshots	2	32	4	56
Roosevelt Hotshots	4	24	6	87
San Juan Hotshots	5	28	7	58
Tatanka Hotshots	2	4	11	80
Wyoming Hotshots	3	12	7	66
TOTAL	18	120	51	531
Avg Days Crews Worked on Incidents This Season		17.1		75.9
Avg Days Crews Worked on a Single Incident		6.7		10.4

RMA TYPE 2 and TYPE 2IA HANDCREW SUMMARY FOR 2023

The following table shows Type 2 and Type 2IA handcrew orders that were processed by the RMC for crews that are an RMA resource. An RMA resource is defined as any resource from a unit within the Rocky Mountain Geographic Area.

	Area Assignments	Days Out	National Assignments	Days Out
TOTAL	17	170	13	179
Avg Days Out		10.0		13.8

VISITING TYPE 1, TYPE 2 and TYPE 2IA HANDCREWS TO THE RMA IN 2023

The following table shows the total number of Type 1, Type 2 and Type 2IA crews that visited the RMA this year. The table does not reflect the number of individual incidents a crew might have been assigned to while in the RMA.

Crew Type	Number of Assignments	Days on Assignments	Avg Days on Assignment in the RMA
Type 1 Handcrew	32	223	7.0
Type 2 and 2IA Handcrew	142	1,180	8.3
TOTAL	174	1,403	8.1

APPENDIX

10 YEARS OF RMA INTERAGENCY FIRE STATISTICS

Appendix - 1

This section includes a table of RMA fires and acres over the last 10 years by individual year and agency.

RMA LARGE INCIDENT SUMMARY BY STATE

Appendix - 2

This section includes tables of all large incidents reported to the Rocky Mountain Coordination Center on an ICS-209 sorted by State.

RMA RESOURCE BREAKDOWN

Appendix - 3

This section includes a table of resources that were processed by Rocky Mountain Area dispatch centers. These figures include incoming and outgoing resources, and are listed by their ROSS catalog item.

10 YEARS OF RMA INTERAGENCY FIRE STATISTICS

The following table shows the number of fires and acres burned for each of the agencies within the RMA over the past 10 years, not including the 2023 data. Federal and Non-federal fires and acres are listed individually. What this means is that a fire that occurred on BIA land in Colorado will only be represented in the BIA row below; it will not be included in the Colorado row. The State figures represent all Non-federal fires and acres in the respective state as reported to the USFS Regional Office's State and Private Forestry staff.

Agency	2022		2021		2020		2019		2018
