

Hello everyone. The Southern Area Interagency Aviation Workshop information is now on the IAT website. If you are planning to attend and participate, go to the website <https://www.iat.gov/> and click on USFS R8 RT-372/SEAT/IAT workshop. HELICOPTER MANAGERS, please select as indicated below - Yellow is REQUIRED and Green is optional – but you do need to pick an option. The only class offered on Friday 11/22/13 is Water Ditching and Survival, this class is optional and class space is limited – swimming apparel is required for this one.

The Helicopter Manager session starts at **0800** on Tuesday the 19th and will end at **1700** on Thursday the 21st. You need to attend the entire workshop in order to get credit.

As before, there will be the helicopter managers selecting their curriculum. SEAT managers selecting RT-273 (which will enter you into the entire 2 days), and those needing the IAT courses exclusively can select whatever they would like or need.

We have scheduled quite a bit of time for pointed group discussion and are as always looking for feedback/topics from this seasons'/questions about next etc..... This is after all your workshop.

We look forward to seeing everyone then.

Please contact either Cathy or myself if you have any questions.

Thanks

Jack Finley
