C-37	VA-ST-01	-	-	-	Carlsbad	Carlsbad	Y

Standby status for IA and project work

MORALE OF CREWS:

Mixed feelings on being released 3 days early. Overall, crews enjoyed their assignments; staying in motels and eating in restaurants most of the time.

INJURIES:

6/23/16 - a TN-IA-01 crewmember was injured on the Gold Mine fire and it was reported on 6/28/16. Injury was from a fall while constructing fire line; a left forearm sprain. The injured person did not think much of it, but it was not going away and was swollen. Submitted a CA-1, called ASC for CA-16 and took employee to local hospital (ER) for treatment. X-ray came back negative, no break. They put his arm in a brace and advised that he see his family doctor or orthopedic upon return home. There are no restrictions regarding work.
