I. INTRODUCTION.

Wildland fire management in the Nation's wildlands is an on-going concern to the American public and to the Department of the Interior's Bureau of Land Management, Bureau of Indian Affairs, Fish and Wildlife Service, and National Park Service, and the Department of Agriculture, U.S. Forest Service, hereinafter referred to collectively as the "agencies." Considerable cooperation and coordination exists among these agencies, which is critical to the success of wildland fire management and safety. The agencies agree to cooperate in the full spectrum of wildland fire management activities to achieve land management goals, and in all-hazard emergencies as authorized. - E. Unless otherwise provided for, an agency is expected to take prompt initial action, with or without request, on wildland fires within zones of mutual interest. Where one agency takes initial action in the protective unit of the other, the initially acting agency shall continue to take appropriate management actions until relieved by an officer of the land management jurisdictional agency.
- F. When wildland fires burn on or threaten federal lands of more than one agency, joint planning will be conducted by local officials of the representative agencies to manage the wildland fire.

VI. CONDITIONS FOR BILLING/PAYMENT PROCEDURES.

- A. Any endeavor involving reimbursement or contribution of funds between or among the parties to this Agreement will be handled in accordance with applicable laws, regulations, and procedures. The services requested and provided will be outlined in separate agreements or other appropriate arrangements that shall be made in writing by representatives of the involved agencies and shall be independently authorized by appropriate statutory authority and signatures.
1. Assessment of indirect rate/overhead administrative surcharges for wildland fire management activities will be subject to the requirements of the statute and/or regulations applicable to the authority used for the specific separate funding agreements.
- B. Billing procedures for wildland fire management activities are as follows:
1. **Emergency Fire Suppression and Emergency Stabilization** – Agencies shall not bill for services rendered to the signatory agencies of this Agreement, except by mutual agreement when an agency has exhausted all other provisions and resources for internally funding suppression activities.
 2. **Severity** – Agencies shall not bill for services rendered pursuant to a Severity Request for wildland fire resources made by signatory agencies to this Agreement. “Severity Request” is defined as authority to access suppression funds on a case-by-case basis, in addition to preparedness funds, to mitigate losses when severe fire conditions occur.
 3. **Mobilization of State Fire Suppression Resources** – The agencies shall enter into Reciprocal/Cooperative Fire Protection Agreements, as appropriate, to pay costs for assistance (interstate and intrastate) incurred by the State providing resources. The jurisdictional agency is responsible for costs of ordered goods and services provided.

 5. **Burned Area Rehabilitation and Hazardous Fuels Management Program** – Agencies will enter into separate agreements for personnel and other resources provided for planning and implementation of treatments and activities. This may or may not result in an exchange of funds subject to the applicable statutory authority used.

VII. GENERAL PROVISIONS.

- A. Each agency shall make direct settlement from its own funds for all liabilities it incurs under this Agreement unless otherwise specified in this Agreement.
- B. Parties to this Agreement are not obligated to make expenditures of funds under terms of this Agreement unless such funds are appropriated for the purpose by the Congress of the United States, or are otherwise legitimately available under the annual Appropriations Acts. If some extraordinary emergency or unusual circumstance arises that could not be anticipated and that could involve expenditures in excess of available funds for the protection of life or property, the affected agency or

agencies shall immediately seek supplemental appropriations or permission for reprogramming to meet their respective shares of such emergency obligations.

- C. Financial obligations, as warranted under this Agreement, to accomplish activities under Section IV, must be approved via a separate agreement or other arrangement that shall be made in writing by representatives of the involved agencies. These separate agreements shall be authorized by appropriate statutory authority and signatures. Activities listed under Section IV.E. will be accomplished through Resource Orders when required.
- D. Each party to this Agreement does hereby expressly waive all claims against the other party for compensation for any loss, damage, personal injury or death occurring in consequence of the performance of this Agreement.
- E. Each party to this Agreement shall comply with all Federal information technology (IT) laws, regulations and requirements; and will be responsible for properly protecting all information used, gathered, or developed as a result of work under this agreement.

VIII. TERMS OF AGREEMENT.

The effective date of this Agreement will commence upon full execution of the final signature by the identified signatory agencies, and shall remain in effect for a period of five (5) years from the date the final signature was placed on the signatory section, or until such time as the Interagency Agreement is terminated by mutual agreement. The Agreement shall be reviewed by all participants to determine its suitability for renewal, revision, or termination. If this Agreement is extended, the extension must be in writing, and approved and signed by authorized signatories for the agencies.

IX. TERMINATION AND SEVERABILITY.

Any signatory may terminate their participation in this Interagency Agreement by written notice to all other signatories at any time before the date of expiration upon thirty (30) days written notice of such termination. The remaining signatories may continue the provisions of this Interagency Agreement.

X. RESOLUTION OF DISAGREEMENT.

Should disagreement arise on the interpretation of the provisions of this Agreement, or modifications thereto, that cannot be resolved at the operating level, the area(s) of disagreement shall be stated in writing by each party and presented to the other party for consideration. If agreement on interpretation is not reached within thirty (30) days, the parties shall forward the written presentation of the disagreement to respective higher officials for appropriate resolution.

Nothing herein is intended to conflict with current USDA and DOI directives. If the terms of this Agreement are inconsistent with existing directives of the agencies entering into this Agreement, then those portions of the Agreement that are determined to be inconsistent shall be invalid, but the remaining terms and conditions not affected by the inconsistency shall remain in full force and effect. At the first opportunity for review of the Agreement, all necessary changes will be accomplished either by an amendment to this Agreement or by entering into a new agreement, whichever is deemed expedient to the interest of all parties. Disputes shall be resolved pursuant to the Business Rules for Intra-

governmental Transactions delineated in the Treasury Financial Manual, Vol. I, Bulletin 2007-03, Section VII ("Resolving Intra-governmental Disputes and Major Differences").

XI. MODIFYING THE AGREEMENT.

Any signatory agency may initiate a modification to this Interagency Agreement to incorporate any changes that are mutually agreed to by the participating agencies. Such modifications shall be in writing and shall identify the specific activities, as appropriate, and any other pertinent details. The BLM is designated as the agency responsible for all administrative oversight and preparation of modifications to this agreement.
