Purpose

The purpose of this Master Agreement (MA) Operation plan is to guide the Department of the Interior (DOI) bureaus and offices to expedite resource requests and provide intra-agency support during an emergency while simultaneously initiating agreements thru the normal business processes.

Background

Each DOI bureau and office possesses unique expertise and resources and plays an important role in responding to emergency incidents. DOI responses to emergency incidents can sometimes exceed the capabilities of any individual bureau or office and may require intra-agency coordination.

Coordination and support within the Department is essential to maximize the use of available resources and expertise, and efficiently manage financial resources. Considerable cooperation and coordination among the bureaus and offices already exists; these relationships are critical to the success of DOI emergency incident response functions. The MA encourages this practice and formalizes methods for DOI bureaus and offices to effectively share and expedite resources during emergency incidents.

Process

There is a certain process that needs to be followed to facilitate a smooth movement of resources and a quick turn around on signed and obligated agreements. All requests for assistance under the MA shall be initiated with incident resource orders in ROSS to expedite intra-agency response to an emergency. When using the MA, the requesting bureau/office (Buyer) agrees to reimburse a responding bureau/office (Seller) for the costs of such resources.

This MA is limited to obtaining resources through ROSS consisting of personnel; Federally-owned assets; services, equipment, and supplies available within the scope of existing contracts.

The terms of the MA may only be invoked by a bureau or office's Responsible Official. The Responsible Official is an officer of a bureau or office with budget authority assigned to manage an emergency incident response in a geographic unit or program/mission area of the agency.

This sanction is restricted to the limit of the Responsible Official's (Buyer's) authority to commit funds for the responsible jurisdiction(s) or program area(s). A resource order in ROSS, together with the invocation of this MA, creates an authorized obligation which provides assurance of funding to a Seller.

Pre- Incident Setup

Preparing for the next emergency is one of the keystones of the MA to function correctly and to get the resources you need to respond to the incident and for the agreement part to run quickly.
Incident Qualification Certification System

Bureaus are responsible for identifying personnel that may be available to deploy to emergency incidents, ensuring they are appropriately trained and have the correct qualifications as in the Incident Position Qualification Guide (IPQG), and have that information loaded in the Incident Qualification and Certification System (IQCS).

Dispatch System and Resource Order and Status System (ROSS)

Bureaus and Offices need to make sure that they have an understanding of the dispatch system and contact to their local dispatch center or the dispatch center that will be hosting their resources and have the preseason talk about how to set up incidents and the proper way to place resource orders

To use this Master Agreement all resources must be requested and filled through the interagency dispatch system and use ROSS to document the order.

Bureaus/Agencies set up internal contacts

Each Bureau needs to have predesignated contact and an alternate for the Emergency Coordinator and the Agreement Specialist. Names and contact information are located in the Annex of this guide.

Bureaus/Agencies identify fund sources

The terms of the Master Agreement may only be invoked by a bureau or office’s Responsible Official. The Responsible Official is an officer of a bureau or office with budget authority assigned to manage an emergency incident response in a geographic unit or program/mission area of the agency. See attached 7600A

This sanction is restricted to the limit of the Responsible Official’s (Buyer’s) authority to commit funds for the responsible jurisdiction(s) or program area(s). A resource order in ROSS, together with the invocation of this Master Agreement, creates an authorized obligation which provides assurance of funding to a Seller.

Each Bureau must have an identified emergency response fund available to use to order resources in ROSS. This should be done if all possible before the incident occurs.

DEPLOYMENT OF RESOURCES USING THE MASTER AGREEMENT

Responsibilities

Emergency Coordinator
1. Identifies and sets up Emergency Incident Code from Identified Site.
2. Place order in ROSS for the resource(s) wanted, with the Identified Emergency Incident Code. The dispatcher must add in special remarks in ROSS to state “This Resource Order incorporates the Master Agreement for Intra-Agency Support during Emergency Incidents for the purpose of creating an authorizing obligation”
   • Use the Resource Order Request Sheet in Appendix A
3. Notification
   a. Notify your agreements specialist and provide them with a cost estimate and a resource order.
   b. Contacts EMC of sending unit.
   c. Shares fill information to agreements person of resources and what Bureau or Office that person is from.

4. Close out of agreement
   a. See Appendix A

Incident Response occurs, dispatch provides Resource Orders and sends copies to Buying and Selling Agencies

Agreement Specialist (requesting/buying unit)
1. Requesting Agency (Buyer) identifies Responding Agency(ies).
2. Responding Agencies become Seller of Resources
3. **Requesting Agency (Buyer)** initiates 7600B to **Responding Agency(ies) (Seller)**. See attached 7600B
   a. 7600Bs are an one to one agency relationship. You may have to create several 7600Bs depending on where you request resources
      1. Upon receipt of all signatures, **Requesting Agency (Buyer)** creates the obligation and creates an Agreement Number in their finance system.
      2. Once **Responding Agency(ies) (Seller)** receive the executed 7600B with Document number, **Responding Agency(ies) (Seller)** will finalize the Job Code/Reimbursable Account (Sales Order) in their Finance system referencing 7600B to automatically bill requesting agency.
   b. **Requesting Agency (Buyer)** may have to modify any or all of the 7600B if more resources are committed to the response.
   c. If the Incident effects multiple jurisdictional areas, you will have to ensure the correct Reimbursable Codes (Sales Order) are assigned for each agency you are responding to. Remember this is an one to one agency response.

4. Close out Agreement
   a. See Appendix A

*HINT: To expedite this process and for clear copies it is preferred all submissions to be electronic, electronic signatures and emailed.

After Action
The requesting unit should do an After Action report to help identify what was good and what needs improvement

After all IPACs have cleared, the Requesting Agency (Buyer) Agreement Specialist begins the final modification of 7600Bs to close out and deobligate remaining Funds.

Incident Audit documentation archive
The requesting unit becomes the repository for all official Emergency Incident Documentation. **Responding Agency(ies) (Seller)** should compile all incident documentation to include, timesheets, crew time reports, travel vouchers and
procurement receipts and ship to the identified address. This documentation may be used for audits or litigation holds.

Example of 7600A issued by the NPS

All Signatories of the Master Agreement may need to create one of these to allow for cutting of Task Orders (7600B).

The IAA Number on the 7600A should match the Document Number on the Master Agreement

NPS screenshot for obligating the 7600B
NPS screenshot for setting up the Reimbursable Account as the Responding Agency
Attached are the 7600A and 7600B. Remember it is much more expedient to apply electronic signatures and email. You can have these in the system within 24 hours ready to be release.

Treasury’s Financial Management Service (FMS) Forms 7600A/B establish an interagency agreement between the requesting and performing agencies. Collectively, the standard Interagency Agreement (IAA) Form is comprised of two sections: (1) the 7600A services as the General Terms and Conditions (GT&C) form and (2) the 7600B serves as the Order Requirements and Funding Information (Order) form. The FMS 7600A/B serves as the standard form to be used Government-wide for all reimbursable agreements at the trading partner level, including, but not limited to: agreements between agencies, agreements within agencies, grant-related agreements, and assisted acquisitions.

We request the FMS Form 7600A be completed and signed as soon as possible. This form of General Terms and Conditions will enable for your Agency and the performing agency to execute an FMS Form 7600B, the “Order” that is used to submit reimbursements. NOTE: No fiscal obligations are created through the 7600A form.

- **7600A – General Terms and Conditions (GT&C) Section**
  Please review the FMS 7600A form in its entirety, the requesting Agency must fill out the following boxes: 1, 4, 5 (agreement start date is date signed), 6, 7, 9 10a, and 23 (requires signature). For our purposes the Master Agreement serves as our 7600A, however it is important that the 7600A should serve as your coversheet to the Master Agreement. Each Signatory of the Master Agreement will need to fill out the 7600A in order to be the Requesting Agency.

  The GT&C is the partnership section of the IAA. It sets the relationship between the trading partners (e.g., requesting and performing agencies). It identifies the agencies entering into the agreement, the authority permitting the agreement, and the agreement action, period, and type. Each IAA must include one GT&C. This section identifies the general terms and conditions that will govern the relationship between the Requesting Agency and Servicing Agency, including roles and responsibilities for both trading partners to ensure effective management of the IAA. Considering the business operations of the program and the agency relationships, this 7600A may support multiple 7600B order requirements.

  No fiscal obligations are created through the execution of the GT&C; therefore, no services may be performed and/or no goods may be delivered.

  NOTE: The 7600A will be used to cover the entire Agency/Sub-agency.

  SEE NPS Example of 7600A attached.

- **7600B – Order Requirements and Funding Information (Order) Section**
  The Order is the funding section that creates a fiscal obligation when the Requesting Agency hires (resource orders) a performing agency and all required points of contact sign to authorize the Order.

  The Order identifies the specific Requesting Agency requirements and identifies the
roles and responsibilities for both trading partners to ensure effective management of the Order and use of the related funds.

Please review the FMS 7600B form in its entirety, the Requesting Agency must fill out the following boxes: 24, 25 26 (Original Line Funding), 27, 28 (all fields, must have ALC, TAS, BETC, "Agency Tracking Number"), "Net Line Amount Due", 30, 32, and 37-39 (signatures). Your finance office will be familiar with these terms.

It is preferred all submissions to be electronic, electronic signatures and emailed. Upon receipt we will review for accuracy, sign, provide a copy in return, and record in our systems.
