SOUTHERN GEOGRAPHIC AREA COORDINATING GROUP CHARTER

The Southern Area Coordinating Group (SACG) is established to provide agency management policy interpretation/support, to improve interagency cooperation, communications and coordination, and to provide interagency fire and appropriate all-risk (incident management) direction within the boundaries of the Southern Area.

The purpose of the SACG is to:

1. Provide interagency leadership and safe, coordinated, implementation of current agency policies, directions and standards for interagency fire management and appropriate all-risk management activities.
2. Instill professionalism in all elements of fire and appropriate all-risk management activities and maintain a full partnership, trust and mutual assistance among the member agencies.
3. Recommend a unified course of action to agency administrators, promote safety and provide oversight in all aspects of fire management and appropriate all-risk management activities.
4. Serves as a geographic area forum for the exchange of ideas to identify problems and propose solutions to appropriate interagency issues.
   a. Support and promote interagency cooperation in:
      i. Safety
      ii. Preparedness/Pre-suppression
      iii. Wildland/Urban/Rural Interface
      iv. Education and Prevention
      v. Fuels and Resource Management
      vi. Incident Management
   b. Coordination of interagency aviation issues.
   c. Establish task groups/teams as needed to address these and other area wide issues.
5. Serves as a geographic focal point for requests for interagency action to and from the national and local level.
6. Provide a communication link between local, state, tribal, and federal entities.
7. Facilitate the following operations:
   a. Selection and management of incident management teams.
      i. National Type I Teams
      ii. Area Type II Teams
      iii. Area Type III Teams
      iv. Nominate Area Command Team candidates
   b. Oversight of the following area interagency committees:
      i. Training Working Team
      ii. Decision Support Working Team
      iii. Dispatch Working Team
      iv. Critical Incident Stress Management Working Team
      v. Interagency Incident Business Working Team
vi. Prevention Working Team

c. Oversight of jointly funded operations budgets.
d. Encourage establishment of local or state MAC Groups to provide operational direction as needed.
e. Provide oversight and approval of the Southern Area Mobilization Guide updates.
f. Provide oversight for interagency severity planning.
g. Other tasks as assigned by agency administrators.
h. Supervises the Southern Area Coordination Center (SACC), Center Manager and provides oversight of Southern Area Coordination Center operations. The principal mission of SACC is to provide the cost-effective and timely coordination of emergency response for all incidents within the Southern Geographic Area. SACC is also responsible for determining needs, coordinating priorities, and facilitating the mobilization of resources from the Southern Area to the other Geographic Areas. SACC prepares an intelligence report that consolidates fire and resource status information received from each of the State Dispatch Centers in the Southern Area. This report is sent to the National Interagency Coordination Center (NICC), and to the State Dispatch Centers, Caches, and Agency Managers in the Southern Area.
