1	AUTHORITY		
2 3 4	This handbook was developed under the auspices of the National Wildfire Coordinating Group (NWCG). The NWCG was formed March 18, 1976, by cooperative agreement between the Secretaries of Agriculture and the Interior.		
5	OBJEC	CTIVE	
6 7 8	This handbook was developed to assist participating agencies of the NWCG to constructively work together to provide effective execution of each agency's incident management program by establishing procedures for:		
9 10 11	•	Uniform application of regulations on the use of human resources, including classification, payroll, commissary, injury compensation, and travel.	
12 13	•	Acquisition of necessary equipment and supplies from appropriate sources in accordance with applicable procurement regulations.	
14	•	Management and tracking of government property.	
15 16	•	Financial coordination with the jurisdictional agency and maintenance of finance, property, procurement, and personnel records and forms.	
17 18 19	•	Use and coordination of incident business management functions as they relate to sharing of resources among federal, state, and local agencies, including the military.	
20	•	Documentation and reporting of claims.	
21	•	Documentation of costs and cost management practices.	
22	•	Administrative processes for all-hazards incidents.	
23	POLIC	Y	
24 25		n application of interagency policies and guidelines are necessary. es will follow the direction set forth in this handbook in all incident	

26 business management functions except where specific agency legal mandates,

- 27 policies, rules, or regulations direct otherwise.
- 28 This handbook must be kept current and made available to incident and agency
- 29 personnel. Changes to the handbook may be proposed by any agency for a
- 30 variety of reasons: new law or regulation, legal interpretation or opinion,
- 31 clarification of meaning, etc. If the proposed change is relevant to other
- 32 agencies, the proponent agency should first obtain national headquarter's review
- and concurrence before forwarding to the NWCG Incident Business Committee
- 34 (IBC). The IBC will prepare draft NWCG amendments for all agencies to
- 35 review before finalizing and distributing. (Reference the following chart.)

- 1 The IBC maintains a website that contains this handbook, handbook
- 2 supplements and amendments and links to geographic and NWCG member
- 3 specific sites.

1	RESPONSIBILITIES		
2 3 4 5	•	Each agency is responsible for establishing controls to ensure handbooks are maintained in a current status. Handbooks must be available and up-to-date, and the latest revision of forms must be on hand and available to agency and incident personnel.	
6 7	•	Each agency shall maintain a master distribution list for the handbook and ensure distribution of NWCG amendments. <u>www.nwcg.gov</u>	
8 9 10 11	•	Agencies, field offices, or NWCG geographic areas may supplement this handbook for clarification or information, as long as policy or conceptual data is not changed. Agencies must make supplements available to incident personnel. <u>www.nwcg.gov</u>	
12 13	•	Agencies may request the IBC review supplements and make changes to the parent text of this handbook if applicable to all agencies.	
14	٠	The IBC will revise this handbook every 4 years.

1	Cooperators
2	
3	Military Personnel – Except for National Guard (see below), only organized
4	military personnel groups obtained through official channels may be utilized.
5	Timekeeping for organized military personnel will be accomplished by their own
6	support group.
7	
8	The Comptroller General has held federal civilian employment and military pay
9	statutes are not compatible. The most severe emergency does not justify hiring
10	of members of the Armed Forces since they cannot be compensated (27 Comp.
11	Gen. 510).
12	
13	Active duty military personnel, including those on leave or furlough, cannot be
14	compensated from incident funds and, therefore, cannot be hired as casuals.
15	
16	National Guard – When the National Guard is formally mobilized and ordered
17	out as a unit, payment shall be made according to the applicable agreement.
18	When members of the National Guard are hired as individuals', they are hired
19	and paid as specified in the applicable agreement (40 Comp. Gen. 440) or as a
20	casual under the AD Pay Plan.
21	
22	State and Local Cooperators - State employees and local cooperators, e.g.,
23	tribal, rural and county fire departments, are hired and paid as specified in an
24	applicable cooperative agreement and time is recorded as specified in the
25	agreement. If the cooperative agreement specifies personnel are hired under the
26	AD Pay Plan, time is recorded on an Emergency Firefighter Time Report, OF-
27	288.
28	
29	<u>Federal Cooperators</u> – It is permissible to utilize regular government employees
30	from federal agencies on incidents under interagency agreement e.g., General
31	Services Administration (GSA), National Weather Service (NWS). Agencies are
32	reimbursed as specified in the applicable interagency agreement.

RESPO	DNSIBILITIES
Inciden	t Management Team (IMT) responsibilities:
•	Ensure all pay provisions and regulations are applied and adhered to during incident management operations.
Home 1	<u>Unit</u> responsibilities:
•	Apply agency specific pay provisions and regulations to emergency incident pay documents.
One-D	ay Assignments (0001 to 2400 Hours)
when the calendar schedul 10 hour Title 5	no changes are made in an individual's regularly scheduled tour of duty the emergency incident assignment, including travel, is contained within 1 ar day (0001 to 2400 hours). In unusual circumstances, the regularly led tour of duty during the assignment may be changed to a first 8, 9, or rs worked. All compensable hours are covered under the provisions of USC and the Fair Labor Standards Act (FLSA), as applicable.
Multip	le-Day Assignments
•	<u>Guaranteed Hours on an Incident Assignment</u> – Every day is considered a workday during an incident assignment until the assignment is over or the individual is officially released from the incident. (This includes personnel assigned to support an incident or multiple incidents from a location other than the incident camp, such as dispatchers, buying teams, administrative payment teams, IBAs, and pilots). Therefore, Saturday, Sunday, or other scheduled days off are also considered workdays during the period of the incident as long as the individual is working on the incident assignment. All individuals' are ensured pay for base hours of work, travel, or ordered standby at the appropriate
	rate of pay for each workday. This is true for part-time and intermittent individuals' as well.

1	<b>Exception:</b> When personnel are required to take a mandatory day off
2	which falls on their normal day off, there will be no pay or any other
3	form of pay compensation.
4	
5	Record "Day Off" (to signify mandatory day off) in the On/Off columns
6	on the Crew Time Report (CTR), SF-261, and the Start/Stop columns
7	on the Emergency Firefighter Time Report, OF-288. Leave the hours
8	column blank on the OF-288. Home unit timekeeper applies agency
9	pay regulations to determine compensable hours for a day off.
10	
11	Those individuals' under a compressed 9 hour or 10 hour work
12	schedule are ensured 9 or 10 hours base pay per day in accordance with
13	their regular tour of duty.
14	
15	Individuals' on first 40 hour tours or flexible work schedules are
16	converted to a first 8 hour tour when assigned to an incident, and are
17	compensated at overtime rates for all hours in excess of 8 hours in a
18	workday.
19	
20	The entitlement for the guarantee does not begin or end at any specific
21	time during a day, but is calculated at the end of the calendar day to
22	ensure the individuals' compensation for work, compensable travel and
23	ordered standby is at least equal to their base.
24	
25 •	Spot Change Tour of Duty – After the first day on an incident,
26	individuals' are spot changed to a first 8, 9, or 10 hour daily tour of
27	duty, depending upon their weekly tour of duty. The individual
28	resumes their normal daily tour of duty on the day following return
29	from the incident.
30	
31	For a 2 day incident, the unit may elect to not spot change the
32	individuals' daily tour of duty.
33	
<b>3</b> 4 •	Differentials for Regular Federal Employees
35	
36	• <u>Night Work on the Incident</u> – A regular federal employee who
37	has been spot changed to a first 8, 9, or 10 hour daily tour of
38	duty is entitled to night differential pay for all non-overtime
39	hours worked between 1800 and 0600 hours. (Comp. Gen. B-
40	193068, 5/22/84.) When Federal Wage System employees
41	work nights, refer to normal shift requirements.

1 2 3 4 5 6 7 8	O	<u>Retaining Regular Shift Differential on the Incident</u> – Federal Wage System employees whose daily tour of duty at the home unit includes a shift differential will continue to receive the differential while assigned to the incident even though the temporary assignment does not include shift work. General Schedule (GS) employees are not entitled to retain night differential pay on the incident.
9	0	Retaining Sunday Differential on the Incident – Temporary
10		changes in the daily tour of duty do not change the days of an
11		individual's weekly tour of duty. Individuals' who are entitled
12		to a Sunday differential during their weekly tour of duty at the
13		home unit retain the Sunday differential while assigned to the
14		incident.
15		
16		Individuals' whose weekly tour of duty does not include
17		Sunday differential may not be paid Sunday differential on the
18		incident.
19		
20	0	Regularly Scheduled Overtime – Both Federal Wage System
21		(WG, WL, WS) and General Schedule employees (GS), who
22		are compensated for regularly scheduled overtime, lose this
23		entitlement when spot changed to a first 8, 9, or 10 hour daily

1 2 3 4 5 6	The supervisor may release the individual for the remaining daily tour of duty for that workday if it is in the best interest of the unit or the individuals' health and safety. This time will be recorded as base hours and charged to the appropriate incident accounting code unless the home unit requires the base hours to be charged to the home unit accounting code.
7	
8	• <u>Return Outside Individuals' Weekly Tour of Duty</u> – If the last day of
9	the incident is not part of the individuals' weekly tour of duty, the
10	individual is compensated only for those hours in actual work or
11	compensable travel status. Compensation will be under Title 5 USC or
12	FLSA as appropriate.
13	
14	• <u>Tour of Duty on the Last Day of the Incident</u> – Any amount of recorded
15	and compensable time on the incident requires the entire last day be
16	completed on the nonstandard first 8, 9, or 10 hour daily tour of duty.
17	This applies even though regular or non-emergency duties are resumed.

2 3	Privacy Act requirements set forth in the Privacy Act of 1974, Public Law 93-

4 5	579, codified at Section 552a, Title 5 U.S.C.
6	On-Shift Time
7	
8	On-shift time includes actual work, ordered standby, and compensable travel.
9	On-shift time has a specific start and ending time and is recorded as clock hours.
10	Individuals' are required to report to their designated work site as scheduled,
11	ready and willing to perform work safely.
12	
13	Travel and Related Waiting Time
14	
15	All travel to an emergency incident is compensable because it results from an
16	event which could not be scheduled nor controlled administratively by agency
17	management (5 CFR 550.112. (g)(2)(iv)). Severity and Emergency Stabilization
18	Rehabilitation (ESR) Team assignments are also included under this
19	authorization.
20	
21	Burned Area Emergency Response (BAER) Implementation Team and
22	Prevention Team assignments may or may not be administratively
23	uncontrollable. If it is determined to be administratively controllable, travel time
24	may be compensable under regular travel pay authorities.
25	
26	Prescribed fires and detail assignments are considered administratively
27	controllable; therefore, travel is not compensable under emergency authorities,
28	but may be compensable under regular travel pay authorities.
29	
30	An individual may be compensated for travel from home to the incident when it
31	is a more direct route and only for the time that exceeds the normal time from
32	home to work (5 CFR 550.112. (j)(2)).
33	
34	Compensable time begins when the individual starts travel as outlined above or
35	when they report to the point of departure. Time spent at individuals' residence
36	preparing for an incident assignment is not compensable.

1		ng are emergency travel compensation rules. These rules apply to both
2	regular	federal employees and casuals, except where noted.
3		
4	•	Ordered Travel – All hours of actual travel are compensable. This
5		includes traveling from a sleeping facility to the work site, e.g., incident
6		base, fireline, dispatch office, buying team location. There is no
7		limitation on hours, except for waiting time and meal breaks as
8		provided below.
9		
10	•	<u>Travel Interruptions</u> – Employees are in compensable travel status for
11		only actual travel and for "usual waiting time" which interrupts travel.
12		Usual waiting time is defined as time necessary to make connections in
13		ordinary travel situations and travel interruptions as delays when
14		waiting at the airport terminals due to hazardous weather, heavy holiday
15		traffic, airline mechanical problems, etc.
16		Translintermentions during a paris d of soutiners transland
17		Travel interruptions during a period of continuous travel are
18		compensable up to 3 hours as overtime if the travel time occurs outside
19 20		of the regular tour of duty, except as noted in the Meal Breaks section.
20 21		Travel interruptions exceeding 3 hours (per one-way trip, to or from the destination) where individuals' are free to sleep, eat, or, to a limited
21		degree, pursue personal activities including waiting at an airport or
22		other transportation site, are not compensable, and must be shown on
23 24		the CTR, SF 261, as a travel interruption. In addition, the 3hour
25		maximum limitation applies even when the one-way trip spans 2
26		calendar days (50 Comptroller General Decision (CG) 519, 1/26/1971).
27		
28		If the interruption occurs during hours within the regular tour of duty,
29		time is compensable except for meal breaks.
30		I I I I I I I I I I I I I I I I I I I
31	•	Meal Breaks – Time spent eating during travel interruptions is
32		noncompensable, e.g., eating while waiting in an airport or stopping at a
33		restaurant, and must be shown as a break on the CTR, SF-261. Time
34		spent eating while traveling in a plane, bus, or other vehicle is
35		compensable.
36		1
37	•	Commuting Between Incident Work Site and Residence – When
38		subsistence and lodging are available at the incident, transportation and
39		travel time will not be paid for commuting between the duty location
40		and the individuals' residence.

1	Return Travel – Return travel for employees is compensable when the
2	initial travel resulted from an event, which could not be scheduled or
3	administratively controlled (emergency incident). The time is
4	compensable as overtime when the individual has completed the daily
5	tour of duty.
6	
7	Individuals' whose initial travel did not result from an administratively
8	uncontrollable event will have their entitlement to return travel
9	compensated according to pay regulations under FLSA, (5 CFR
10	550.112(g) and 5 CFR 551.422(a)) (5 USC 5544 for Federal Wage
11	System employees).
12	
13	Coordination with home unit and incident agency for pre-authorization
14	is required for an individual to deviate from return travel upon
15	demobilization from an incident. Compensation for return travel ends
16	at the point and time the deviation occurs. Employees will be in a leave
17	or non-pay status if the base hour requirement for the day has not been
18	met. Once travel to the home unit resumes, it is considered
19	administratively controllable and those pay provisions apply (Travel
20 21	Section).

1	The following guidelines are provided for uniformity:
2 3 4 5 6 7 8	• Compensable standby shall be limited to those times when an individual is held, by direction or orders, in a specific location, fully outfitted and ready for assignment (15 Federal Labor Relations Authority (FLRA) No. 91, August 9, 1984; 52 Comp. Gen. 794; and <u>Hyde</u> v. <u>United States</u> , 209 Ct. Cl. 7456, 1976).
9 10 11 12 13	• Individuals' are not entitled to standby compensation for time spent eating when actual work is not being performed. This applies even though the individuals' may be required to remain at the temporary work site.
13 14 15 16 17 18	• Time spent in a mobilization or demobilization center, or other general area, including incident base, where the individual can rest, eat, or, to a limited degree, pursue activities of a personal nature is not compensable as ordered standby.
19 20 21 22 23	Such time is compensable only to the extent needed to complete the guaranteed hours (8, 9, or 10) for that calendar day. No pay authority exists to guarantee individuals' more than their base hours. ICs or AAs do not have the authority to guarantee more than base hours.
24	<b>On-Call</b>
25 26 27 28	An employee will be considered off duty and time spent in an on-call status shall not be considered hours of work if:
29 30 31 32	• The employee is allowed to leave a telephone number or to carry an electronic device for the purpose of being contacted, even though the employee is required to remain within a reasonable call-back radius; or
33 34 35 36	• The employee is allowed to make arrangements such that any work which may arise during the on-call period will be performed by another person (5 CFR 551.431(b) (1-2)). Specific state pay guidelines for non-pay status shall apply for state employees.

1	Off-Shift Time		
2			
3	The degree of control to be maintained over regular government employees and		
4	casuals	during off-shift hours is dependent upon location, the individual's work	
5	function	n, and the urgency of the emergency situation.	
6			
7	•	At the IC's discretion, regular government employees and casuals may	
8		be released during off-shift periods from the incident base or camp.	
9			
10	•	At the ICs discretion, regular government employees and casuals may	
11		be restricted to an incident base and all other camps during off-shift	
12		periods. This is usually referred to as a "closed camp" (45 FLRA No.	
13		120, 0-NG-1958, Decision and Order on a Negotiability Issue,	
14		September 18, 1992; Office of the General Counsel, Authority to Close	
15		Fire Camps Opinion, March 28, 1990).	
16			
17	٠	Time spent restricted to the camp where personnel can rest, eat, or, to a	
18		limited degree, pursue activities of a personal nature is not	
19		compensable. Such time is compensable only to the extent needed to	
20		complete the guaranteed base hours. Time spent in ordered standby is	
21		compensable.	
22			
23	•	The same policy applies to mobilization and demobilization facilities.	
24			
25	•	Regular government employees assigned to an incident at their home	
26		unit should be given their regular scheduled days off when the situation	
27		permits. Regular scheduled days off are considered off-shift time and	
28		are not compensable.	
29			
30	٠	Casuals assigned to an incident are not entitled to compensation for	
31		days off at their point of hire. This is considered off-shift time and is	
32		not compensable.	
33			
34	Meal P	eriods	
35	~		
36	Compensable meal periods are the exception, not the rule (5 CFR 551.411 (c)		
37	and 29 (	CFR 785.19 (a)).	
38			
39	Personnel on the fireline may be compensated for their meal period if <u>all</u> of the		
40	following conditions are met:		

#### PERSONNEL

1 2	• The fire is not controlled, <u>and</u>
3 4 5 6	• The Operations Section Chief makes a decision that it is critical to the effort of controlling the fire that personnel remain at their post of duty and continue to work as they eat, <u>and</u>
7 8 9	• The compensable meal break is approved by the supervisor at the next level and it is documented on the CTR, SF-261.
10 11 12 13 14	In those situations where incident support personnel cannot be relieved from performing work and must remain at a post of duty, a meal period may be recorded as time worked for which compensation shall be allowed and documented on the CTR, SF-261.
14 15 16 17	Compensable meal breaks include time spent eating while traveling in a plane, bus, or other vehicle.
18 19 20 21	For personnel in support positions, and fireline personnel after control of the fire, a meal period of at least 30 minutes must be ordered and taken for each work shift e.g., a minimum 30 minute break for shifts of 8 hours or more.
22	Work/Rest, Length of Assignment, and Days Off
23 24 25 26 27	To maintain safe and productive incident activities, incident management personnel must appropriately manage work and rest periods, assignment duration and shift length for all incident personnel.
28 29 30 31 32	To assist in mitigating fatigue, days off are allowed during and after assignments. If necessary to reduce fatigue, the Type 1/2 Incident Commander (IC) or Agency Administrator (AA) (incident host or home unit) may provide time off supplementary to mandatory days off requirements.
33 34 35 36	For Type 3-5 incidents, paid days off should be the exception. However, if necessary, the Agency Administrator (incident host or home unit) may authorize day(s) off with pay.
30 37 38	The IC or AA authority to grant a day off with pay lies within 5 USC 6104, 5 CFR 610.301-306, and 56 CG Decision 393 (1977)

Work/Rest Guidelines Work/rest guidelines should be met on all incidents. Plan for and ensure all personnel are provided a minimum 2:1 work/rest ratio (for every 2 hours of work or travel, provide 1 hour of sleep and/or rest). Work shifts that exceed 16 hours and/or consecutive days that do not meet the 2:1 work/rest ratio should be the exception, and no work shift should exceed 24 hours. However, in situations where this does occur (for example, initial attack), incident management personnel will resume 2:1 work/rest ratio as quickly as possible. The intent of the guidelines is to manage fatigue and provide flexibility for IC's and AA's managing initial attack, extended attack, and large fires. The guidelines are designed to ensure that for every 2 hours of work or travel, 1 hour of time off should be provided within a 24-hour period. It does not matter when the 24-hour period starts; all time recorded on the clock is counted as hours of work; time off the clock is counted as hours of rest, including meal breaks. The IC or AA must justify work shifts that exceed 16 hours and those that do not meet 2:1 work/rest ratio. Justification will be documented in the daily incident records. Documentation shall include mitigation measures used to reduce fatigue. The Excess Hours Log or the Extended Work Shift Authorization Sample found in Appendix B – Tool Kit is an acceptable method of documentation. The work/rest guidelines do not apply to aircraft pilots assigned to an incident. Pilots must abide by applicable Federal Aviation Administration (FAA) guidelines, or agency policy if more restrictive. **Incident Operations Driving** These standards address driving by personnel actively engaged in wildland fire or all-hazards response activities, including driving while assigned to a specific incident or during initial attack fire response (includes time required to control

- 36 the fire and travel to a rest location). In the absence of more restrictive agency 37 policy, these guidelines will be followed during mobilization and demobilization
- as well. Individual agency driving policies shall be consulted for all other non-
- 39 incident driving.

1	Agency resources assigned to an incident or engaged in initial attack fire		
2	response will adhere to the current agency work/rest policy for determining		
3	length of duty-day.		
4			
5	•	No driver will drive more than 10 hours (behind the wheel) within any	
6		duty-day.	
7			
8	•	Multiple drivers in a single vehicle may drive up to the duty-day	
9		limitation provided no driver exceeds the individual driving (behind the	
10		wheel) time limitation of 10 hours.	
11			
12	•	A driver shall drive only if they have had at least 8 consecutive hours	
13		off duty before beginning a shift.	
14			
15		Exception to the minimum off-duty hour requirement is allowed when	
16		essential to:	
17			
18		• accomplish <b>immediate</b> and <b>critical</b> suppression objectives, or	
19		accomption initiate and critical suppression objectives, or	
20		• address <b>immediate</b> and <b>critical</b> firefighter or public safety issues.	
20		address miniculate and ernical menginer of public safety issues.	
22	•	As stated in the current agency work/rest policy, documentation of	
23	•	mitigation measures used to reduce fatigue is required for drivers who	
23 24		exceed 16 hour work shifts. This is required regardless of whether the	
24 25		driver was still compliant with the 10 hour individual (behind the	
23 26		wheel) driving time limitations.	
20 27		wheel) driving time minations.

32		• •	
		reporting location on the original resource order and commencement of	
33		return travel to the home unit.	
34			
35	•	Length of Assignment - Standard assignment length is 14 days,	
36		exclusive of travel from and to home unit, with possible extensions	
37		identified below.	
38			
39		Time spent in staging and preposition status counts toward the 14 day	
40		limit, regardless of pay status, for all personnel, including IMTs.	
41			

1 2 3 4 5 6 7 8 9	•	Days Off - After completion of a 14 day assignment and return to the home unit, 2 mandatory days off will be provided (2 after 14) (state regulations may preclude authorizing this for State employees). Days off must occur on the calendar days immediately following the return travel in order to be charged to the incident (5 USC 6104, 5 CFR 610.301-306, and 56 Comp. Gen. Decision 393 (1977)). If the next day(s) upon return from an incident is/are a regular work day(s), a paid day(s) off will be authorized.
10		Deventitlement including administrative leave for a neid dev(a) off
		Pay entitlement, including administrative leave, for a paid day(s) off
11		cannot be authorized on the individuals' regular day(s) off at their home
12		unit.
13		
14		Agencies will apply holiday pay regulations, as appropriate. A paid day
15		off is recorded on home unit time records according to agency
16		requirements.
17		
18		Casuals (ADs) are not entitled to paid day(s) off upon release from the
19		incident or at their point of hire.
20		
21		Contract resources are not entitled to paid day(s) off upon release from
22		the incident or at their point of hire.
23		
24		Home unit AA may authorize additional day(s) off with compensation
25		to further mitigate fatigue. If authorized, home unit program funds will
26		be used.
27		
28		All length of assignment rules apply to aviation resources, including
29		aircraft pilots, notwithstanding the FAA and agency day off regulations
30		(reference the appropriate aviation contracts).
31		
32	•	Assignment Extension - Prior to assigning incident personnel to back-
33		to-back assignments, their health, readiness, and capability must be
34		considered. The health and safety of incident personnel and resources
35		will not be compromised under any circumstance.
36		
37		Assignments may be extended when:
38		<ul> <li>life and property are imminently threatened,</li> </ul>
39		<ul> <li>suppression objectives are close to being met, or</li> </ul>
40		• replacement resources are unavailable, or have not yet arrived.

Upon completion of the standard 14 day assignment, an extension of up to an additional 14 days may be allowed (for a total of up to 30 days, inclusive of mandatory days off, and exclusive of travel). Regardless of extension duration, 2 mandatory days off will be provided prior to the 22<sup>nd</sup> day of the assignment. When personnel are required to take a mandatory day off, which falls on their normal day off, there will be no pay compensation.

> Contracts, I-BPAs, and EERAs should be reviewed for appropriate pay requirements and length of assignment. If the contract, I-BPA, or EERA does not address, the incident FSC or the procurement official should be consulted as to whether compensation for a day off is appropriate.

The Section Chief or IC will identify the need for assignment extension and will obtain the affected resources concurrence. The Section Chief and affected resource will acquire and document the home unit supervisor's approval.

The IC approves the extension. If a geographic or national multiagency coordinating group (GMAC/NMAC) is in place, the IC approves only after GMAC/NMAC concurrence.

The home unit supervisor and affected resource must concur with the assignment extension.

11	Management Directed Days Off at Home Unit
12	Supervisors must manage work schedules for initial attack, dispatch and incident
13	support personnel during extended incident situations. During periods of non-
14	routine or extended activity, these employees will have a minimum of 1 day off
15	in any 21 day period. This minimum requirement should rarely be needed since
16	scheduled days off are normally given much more frequently during periods of
17	routine activity. State policies apply to state personnel.
18	
19	Indicators of the need for a day off include long shifts, but equally important, the
20	actual observation of the physical and mental condition of the employee. This is
21	a critical responsibility of every manager and supervisor.
22	
23	Required days off for employees assigned to an incident at their home unit are
24	not compensable when they occur on the employee's regularly scheduled day(s)
25	off. Management directed day(s) off on an employee's regularly scheduled
26	workday(s) are considered excused absences and are compensable. Agency
27	policy determines approval authority level and documentation requirements for a
28	management directed day off. Home unit records management directed days off
29	per agency requirements. A management directed day off may only be given
30	when the employee is at the home unit and is charged to home unit funds (cannot
31	be charged to incident funds).
32	
33	Other Pay Provisions
34	
35	• <u>Supervisory Personnel</u> – Time spent in planning and technical sessions,
36	arranging for tools and transportation, refurbishing equipment and
37	performing supervisory duties such as completing CTRs, giving
38	assignments, etc., is compensable as work time.
39	
40	• <u>Holiday Pay</u> – Regular government employees who are spot changed to
41	a first 8, 9, or 10 hour tour of duty are compensated for holiday pay if

1 2	the individual would have been entitled in their regular position. Additional hours are treated as overtime and paid at applicable rates.
3	
4 •	Inadequate Food or Lodging – Inadequate food or lodging situations
5	should be the exception. When nonexempt regular government
6	employees and casuals do not receive adequate food or lodging, they
7	shall be in pay status the entire time they are working, sleeping, or
8	eating (Comp. Gen. B-230414, 1/10/90).
9	
10	Adequate food is defined as: meals ready to eat (MREs), sack lunches,
11	military-type rations, hot can, or similar meals.
12	
13	Adequate lodging is described as: a sleeping bag (paper or cloth) or a
14	blanket or equivalent covering to provide protection from the elements
15	for sleeping.
16	
17	Regular government employees must be in nonexempt status to qualify
18	for compensation. There is no authority to grant compensation for
19	these conditions to exempt employees. Exempt employees can only be
20	compensated for on-shift time.
21	
22	ICs are responsible for determining when an inadequate food or lodging
23	situation exists. This must be documented on the CTR, SF-261, in the
24	remarks section. Hours recorded for an inadequate food or lodging
25	situation count as hours of work for computation of the 2:1 work/rest
26	ratio.
27	
28 •	Callback Provisions - The 2-hour call back provision in law does not
29	apply when assigned to an incident.
30	
31 •	Sickness – A regular government employee who has been determined
32	by their incident supervisor to be unable to perform work due to non-
33	work related illness is placed in leave status, e.g., sick, annual or leave
34	without pay, if the day is within the individual's weekly tour of duty at
35	the home unit. If outside the individuals' weekly tour of duty, the
36	individual is not entitled to compensation.
37	1
38	Casuals are not entitled to sick leave. They are guaranteed 8 hours for
39	each day held by the incident. Management has the option to pay the
40	guarantee or return them to their point of hire.
	-

1 2 3 4 5 6 7 8	• <u>Medical Treatment</u> – When a regular government employee or casual is provided medical treatment by the incident, pay entitlement will not exceed actual hours worked or guarantee (8 hours per day for casuals) whichever is greater for that calendar day (5 CFR 551.425). Time spent traveling to or from a medical facility and/or time spent receiving medical attention is considered compensable time only if it falls within the employee's regular guaranteed work hours. Overtime cannot be earned (Reference continuation of pay (COP) guidelines.
9	Disculto Fermine Limitation The bissells comine limitation or
10	• <u>Biweekly Earning Limitation</u> – The biweekly earning limitation on
11 12	premium pay contained in 5 CFR 550.105 is waived for Department of the Interior (DOI) and Department of Agriculture (USDA) General
12	Schedule employees working in connection with wildland fire activities
13	(Public Law 107-107, Section 1114). This authority does not apply to
15	all-hazards responses (Chapter 90 Overtime).
16	un nuzurus responses (enapter >0 0 veranite).
17	• <u>Maximum Annual Earning Limitation</u> – The maximum annual earning
18	limitation limits a regular federal government exempt employees basic
19	and premium pay to the annual salary of the maximum step of a GS-15
20	grade level, including locality and/or special salary rate, or Level V of
21	the Executive Schedule, whichever is greater (5 CFR 550.106). This
22	includes overtime and compensatory time, as well as Sunday and night
23	differential, but excludes hazard pay differential (5 CFR 550.107).
24	
25	There is no provision in law to waive any salary payments received by
26	an employee that exceeds the annual maximum earnings limit. Federal
27 28	employees should monitor their total earnings to ensure they do not
28 29	exceed the annual maximum earnings limitation.
30	Hazard Pay for General Schedule Employees
31	nuzuru rug tor General Schedule Employees
32	OPM regulations provide for payment of a differential to GS employees who are
33	exposed to unusual physical hardship or hazardous duty.
34	
35	This authorization is based upon the inability to mitigate the hazard. ICs and
36	AAs should not unduly expose any person to hazardous situations and will
37	document, in writing, the incident records if personnel are unduly exposed to
38	hazardous situations (5 CFR 550.901 through 550.907).
39	Incident agencies and IMTs do not have the authority to approve hazard pay for
40	conditions that do not meet the parameters stated in 5 CFR 550.901 through
41	550.907 and Appendix A.

3	Control of Fire – The IC or A	A will determine when the fire is controlled. Fire
4	may be controlled even if conf	inement strategy is being applied.
5		
6	Fireline – For the purpose of h	azardous duty pay administration, a fireline is
7	defined as the area within or ac	ljacent to the perimeter of an uncontrolled wildfire
8	of any size in which action is b	eing taken to control fire. Such action includes
9	operations, which directly supp	port control of fire, e.g., activities to extinguish the
10	fire, ground scouting, spot fire	patrolling, search and rescue operations, and
11	backfiring.	
12		
13	Limited Control Flights - Flig	hts undertaken under unusual and adverse
14	conditions, e.g., extreme weath	her, maximum load or overload, limited visibility,
15	extreme turbulence, or low lev	el flights involving fixed or tactical patterns,
16	which threaten or severely limit	t control of the aircraft.

32	performing other authorized du	ity as described below.

1	Criteria for Entitlement to Hazardous Pay Differential for Irregular and		
2	Intermittent Hazardous Duties (5 CFR 550.904)		
3			
4	Full-time, part-time, and intermittent GS employees are eligible for hazard pay		
5	differential computed at 25 percent of the base rate when performing duties		
6	specified below:		
7 8	Any member of the incident fire suppression organization is eligible for hazard		
9	pay while carrying out assigned duties, if hazard pay criteria, as described below,		
10	are met. Incident supervisors must manage for the appropriate application of the		
11	authority.		
12			
13	• <u>Firefighting</u> – Participating as a member of a firefighting crew in		
14	fighting forest and range fires on the fireline before the fire is		
15	controlled. Personnel assigned firefighting duties are not entitled to		
16	hazard pay after the declaration of an official control time and date.		
17	This does not include personnel engaged in logistical support, service,		
18	and non-suppression activities, e.g., media tours to the fireline, incident		
19	personnel driving to the fire to observe activities, drivers delivering		
20	tools or personnel (Appendix B - Hazard/Environmental Pay Matrix).

22	• <u>Flying</u> – Individuals', except pilots, who are participating in limited		
23	control flights.		
24			
25	• <u>Groundwork Beneath Hovering Helicopter</u> – Participating in ground

32	danger of rock falls or avalanches.		
33	danger of fock fails of avalancies.		
34	Hazard pay for flying activities is related to the use of the aircraft, not the work		
35	of the occupants. If the flight is undertaken under unusual and adverse		
36	conditions which threaten or severely limit control of the aircraft, then hazard		
37	pay is warranted. Hazard pay is not authorized for situations such as flying		
38	passengers from a work center to a location to fix equipment when there are no

8	Regulat	tions Governing Payment of Hazard Differential for General	
9		le Employees	
10			
11	•	All hazard pay differential for GS employees is based on a 24 hour day	
12		from 0001 to 2400 hours. An individual who performs duties for which	
13		hazard pay differential is authorized shall be paid the hazard differential	
14		for all hours in pay status during the calendar day in which the	
15		hazardous duty is performed.	
16			
17		• The automatic cut off time is 2400 hours. An individual	
18		working beyond 2400 hours into the next day is entitled to	
19		hazard pay differential for 2 days only if exposed to the hazard	
20		before and after 2400 hours.	
21			
22		• No minimum time requirements for exposure shall be	
23		established to earn entitlement to differential pay for	
24		hazardous duty. Any amount of actual exposure during a	
25		calendar day qualifies the individual for the pay differential for	
26		all compensable hours performed that day.	
27			
28	•	Hazard pay shall be computed on the basis of all hours in pay status. If	
29		in an 8 hour workday the individual performs hazardous duty for 1 hour	
30		and is in paid leave for 7 hours, the hazard pay differential shall be	
31		computed on the full 8 hours. If the individual were in non-pay status	
32		(leave without pay) for 7 hours, the hazard pay would be computed on	
33		the basis of the 1 hour in pay status.	
34 25		Henry deals have shall be accounted an the basis of an individual's basis	
35	•	Hazard pay shall be computed on the basis of an individual's basic	
36 27		compensation and shall be paid in addition to any other compensation	
37 38		the individual earns under other statutory authority.	
30 39	•	Hazard pay differential is in addition to any other premium pay or	
39 40	•	allowances payable under other provisions of this chapter. It is not

3 4	<b>Regulations Governing Payment of Environmental Differential</b>
5	Regulations cover hing I ayment of Environmental Enterential
6	• <u>Shift Basis</u> – When a Federal Wage System employee is exposed to a
7	hazard for which an environmental differential is authorized on a shift
8	basis, the individual is paid the differential for all hours in pay status on
9	the calendar day on which exposed to the hazard.
10	
11	• <u>Actual Exposure Basis</u> – When an environmental differential is paid on
12	an actual exposure basis, a Federal Wage System employee is paid a
13	minimum of 1 hour's differential for the exposure. Intermittent
14	exposures during a 1 hour period do not qualify an individual for more
15	than 1 hour's differential pay for that hour. For exposure beyond 1
16	hour, the individual is paid in increments of one-quarter hour for each
17	15 minutes and portion thereof in excess of 15 minutes.
18	When on individual is available times during a day, each
19 20	When an individual is exposed at intermittent times during a day, each exposure is considered separately. The amount of time the individual is
20 21	exposure is considered separately. The amount of time the individual is exposed is not added together before payment is made for exposure
21	beyond 1 hour's duration, except that pay for the differential may not
23	exceed the number of hours of active duty by the individual on the day
24	of exposure.
25	
26	• <u>Multiple Exposures</u> – When a Federal Wage System employee is
27	entitled to an environmental differential, which is payable on a shift
28	basis on the same day, the individual is entitled to a differential which is
29	payable on an actual exposure basis at a higher rate. The individual is
30	paid the differential on the basis of actual exposure for that exposure
31	and the differential on the shift basis for the remaining hours in pay
32	status for that day.
33	
34	When an individual is subjected to more than 1 hazard at the same time
35	for which a differential is authorized, the individual is paid for the
36	exposure, which results in the higher differential, but may not be paid
37	for more than 1 differential for the same hours, e.g., a Federal Wage
38	System employee may be paid at 100 percent for 1 hour of low-level
39	flight and the balance of the on-shift time at 25 percent for firefighting.

1	• Two-D	ay Exposure – The automatic cut off time is 2400 hours for an
2		mental differential. A Federal Wage System employee working
3	beyond	1 2400 hours into the next day earns entitlement to environmental
4	differe	ntial for 2 days only if exposed to the hazard before and after
5	2400 h	ours.
6		
7	• Base P	ay – Environmental differential is included as part of a Federal
8	Wage	System employee's base rate of pay and is used to compute
9	premiu	m pay for overtime and holiday work.
10		
11		ling – When recording environmental differential for actual
12	exposu	re, show the actual hours of exposure and the category on a
13	CTR, S	SF-261.
14		
15		nergency Firefighter Time Report, OF-288, should show the

RESP	ONSIBILITIES	
<u>Financ</u>	e/Administration Section Chief (FSC) responsibilities:	
•	Supervise the Time Unit Leader and ensure all timekeeping and time recording requirements are implemented and met.	
•	Advise section chiefs and IC when time submitted is not in compliance with policy.	
<u>Time U</u>	Jnit Leader (TIME) responsibilities:	
•	Ensure daily completion of personnel time recording documents.	
•	Review submitted documents for compliance with policies.	
•	Advise supervisors and FSC when time submitted is not in compliance with established policies.	
Person	nel Time Recorders (PTRC) responsibilities:	
•	Review time as submitted on the CTR, SF-261 and notify the TIME of any discrepancies.	
•	Record time to the Emergency Firefighter Time Report, OF-288.	
Incider	nt Supervisors responsibilities:	
•	Document on-shift time, hazard pay/environmental differential, compensable meal breaks, etc., on the CTR, SF-261, in accordance with policies and regulations.	

1 2	<u>Incident Personnel</u> (regular government employees and casuals) responsibilities:
3	responsionnes.
4 5	• Accurately report time to their incident supervisor.
6 7	• Review time records prior to demobilization.

9 10 11	Home Unit Timekeeper responsibilities:
12 13 14 15	• Apply agency pay regulations to determine pay entitlements including overtime, pay differentials, compensable travel time and compensable hours for a day off.
16	Timekeeping/Recording Procedures
17 18 19 20 21 22	Two forms are provided for recording time worked on an incident. The CTR, SF-261 (Exhibit 4), is the initial timekeeping document. Time from the CTR is transferred by the PTRC to the Emergency Firefighter Time Report, OF-288 (Exhibit 5).
23 24 25	The OF-288 is the official time reporting document that is certified as accurate by the FSC or time unit.
26 27 28 29	On an incident of limited duration at the home unit that involves only home unit personnel, the AA may elect to record emergency incident time directly on the agency time reporting document.
30 31 32	Military time shall be used on all records pertaining to timekeeping and time recording (Exhibit 2).
33 34 35 36	• <u>Filing Time Reports</u> – The CTR and OF-288 are filed in a sequence that will facilitate accurate posting and timely review and retrieval. CTRs are filed by crew, with the crew identified by name or number.
37 38 39 40 41	• <u>Time Recording Control</u> – The TIME establishes time recording procedures to ensure on-shift time for all incident personnel is recorded for each day assigned. The TIME will develop a system to identify resources assigned. This may include reviewing the Incident Action Plan (IAP) or referring to the resource order list.

1 2 3 4 5 6	work/re accomp recordir	entation – The TIME ensures documentation of excess hours, st and other record keeping is completed. This may be lished through the use of logs, recording on a calendar, ag on the incident action plans, or other documentation methods dix B – Tool Kit).

1 **Timekeeping Methods** 2 3 It is essential that employees and supervisors accurately and clearly report time on the CTR in order to facilitate time recording on the OF-288. 4 5 The primary consideration is to correctly compensate personnel on the incident 6 for all hours in pay status. 7 8 There are 2 methods for timekeeping on the CTR: 9 10 When a crew is in a pay status and time is identical, the names, • classifications and on-shift time are listed with specific remarks in 11 12 block 11 (Exhibit 4). 13 14 When individuals' have different on-shift times, make an entry for each • 15 individual (Exhibit 4). 16 17 **Emergency Firefighter Time Report, OF-288 for Regular Government** 18 **Employees** 19 20 Detailed instructions for completing the OF-288 for regular government 21 employees are found in Exhibit 5. 22 23 OF-288s are prepared for all incident personnel at time of arrival at the incident. All on-shift time is reported on the CTR and recorded on the OF-288. 24 25 26 Initial attack personnel who are assigned to an incident will submit their time on a CTR to their incident supervisor for approval. The CTR is submitted to the 27 28 Time Unit for recording on the OF-288. 29 30 Travel to an Incident - Travel time is reported on a CTR and recorded • on the OF-288 with a "T" entered on the right hand side of the hours 31 32 column. 33 Return Travel - Travel time from an incident to the individuals' official 34 • duty station must show: 35 Time of departure from the incident base. 36 0 37 Non-compensable meal breaks. 0 Delays of over 3 hours. 38 0 39 Time and date of arrival at official duty station. 0 40 Any other information required to determine entitlement to 0 return travel time. 41

1 2 3 4		The time of departure from the incident is posted by the Time Unit, and a "T" is entered on the right hand side of the Hours column. The individual completes return travel time and obtains home unit supervisor approval.

10	Closing Out Emergency Firefighter Time Reports
11	
12	The Time Unit reviews the time reports, ensures all on-shift time and
13	commissary issues have been posted, and signs block 26. All incident personnel
14	should sign block 25 of the OF-288. It is the responsibility of each individual to
15	ensure their time is posted accurately before leaving the incident.
16	The OF-288 may be a computer-generated form or the official preprinted form,
17	as long as the appropriate number of copies is made and an original signature in
18	other than black ink is on the payment document (Reference agency specific
19	policy for electronic signature acceptance in lieu of original signature).
20	
21	When an individual or crew is transferred to another incident, the time unit
22	closes out the OF-288 and gives it to the regular government employee or crew
23	representative.
24	
25	When an IMT is responsible for multiple incidents, e.g., a complex, and uses
26	resources on different incidents within the complex, use a separate column to
27	record time for each incident. Closing out the OF-288 for each incident is not
28	required. The OF-288 is closed out only when resources are demobilized from
29	the complex.
30	
31	Initial attack resources generally move from incident to incident and are
32	managed by the incident agency. A new column is started for each new incident.
33 34	It is not always necessary to close out the OF-288 and start a new one.
35	The original CTR and file copy of the OF-288 are retained in the incident

1 2 3 4	•	<u>Casuals</u> - The time unit processes the original OF-288 per hiring agency policy. Return travel time should be estimated and posted directly to the OF-288. A completed copy is given to each casual.
5 6 7 8	•	Job Corps and YCC Enrollees - OF-288s are prepared and maintained for all Job Corps and YCC enrollees. The OF-288 shall be completed the same as for casuals.
8 9 10 11		All OF-288s for Job Corps and YCC enrollees are hand carried to the home unit by the assigned supervisor or leader.
11 12 13 14 15 16 17 18	•	If a casual is terminated for cause or quits, note the reason in the Remarks block of the CTR and the OF-288. Compensation for return travel is generally not made in these instances. Exceptions must be in accordance with agreements or authorized by the IC for individuals' not covered under an agreement. Blocks 7, 8, and 9 on the OF-288 must be completed (Exhibit 6).

## EXHIBIT 4 - Continued

Instructions for form completion:

Time shall initially be recorded on Crew Time Report, SF-261 and transferred to the Emergency Firefighter Time Report, OF-288. An exception to this procedure could be where casuals are hired for 1 operational period and their on-shift time is recorded directly onto an OF-288. In this instance, the supervisor must sign the OF-288.

A CTR is prepared for each operational period as outlined below. Time must be reported in an accurate, legible fashion. At the end of the operational period, the original is given to the Time Unit. A copy is retained by the supervisor.

- 1. <u>Crew Name</u>. Use crew name or name of single resource.
- 2. <u>Crew Number</u>. Enter assigned resource order number.
- 3. <u>Office Responsible for Fire</u>. Enter incident agency (appropriate federal, state, or local office).
- 4. Fire Name. Enter assigned incident name.
- 5. <u>Fire Number</u>. Enter incident order number, not "P" number, e.g., MT-LNF-000016.
- 6. <u>Remarks No</u>. Enter number that corresponds to Remarks in Section 11.
- 7. <u>Name of Employee</u>. Self-explanatory.
- 8. <u>Classification</u>. Enter appropriate pay classification (AD-A through AD-M, GS, WG, etc.) or NWCG position code
- 9. <u>Date</u>. Enter month/day/year (8/3/XX) in Date block. Under Military Time heading, enter military clock time for each period of on-shift time during the operational period.
- 10. <u>Date</u>. If the operational period involves 2 days, use column 10 as instructed in Number 9 above.
- 11. <u>Remarks</u>. Enter any pertinent information such as injury, discharge, transfer, position change, reason for hazard/environmental differential, compensable meal break, etc. Include Remarks No. from Item 6.
- 12. Officer-in-Charge. Signature of incident supervisor.
- 13. <u>Title-Incident Supervisor Title</u>. ICS position.
- 14. <u>Name</u>. Signature of person recording time on the Emergency Firefighter Time Report, OF-288.
- 15. Date. Date recorded on OF-288.

COPY 2 - EMPLOYEE COPY

Instructions for form completion:

- 1. <u>Emergency Time Report Number</u>. Preprinted number. Used for commissary. Do not delete or cross out this number.
- 2. <u>Social Security Number</u>. Leave blank.
- 3. <u>Initial Employment</u>. Leave blank.
- 4. <u>Type of Employee</u>. For federal employees, check block "Regular Gov't Employee". For state, local and tribal government check "Other" for state, local, and tribal government employee.
- 5. <u>Leave blank</u>.
- 6. <u>Hired At.</u> Enter the employee's home unit identifier. (i.e. ID-BOD)
- 7-9 Leave blank.
- 10. <u>Name</u>. Enter regular government employee's full name. Do not use nicknames.
- 11-14. Street Address. Leave blank.
- 15-19. Accident Notification. Leave blank.
- 20. Fire Location Identification.

Column A, 1.	Fire Name. Enter incident name.
Column A, 2.	<u>Fire No</u> . Enter incident order number, e.g., MT-LNF-000016 or ID-BOD-000042. Do not use "P" number.
Column A, 3.	Unit Code. (Organization code) Leave blank.

Column A, 4.	<u>Fire Location</u> . Enter incident agency's 3letter unit identifier for the specific location of the work assignment.
Column A, 5.	State Code. Enter alphabetical code for state in which the employee was on-shift (Exhibit 3).
Column A, 6.	<u>Firefighter Classification</u> . Enter the NWCG approved position code found in Appendix A – Acronyms & Position Codes if applicable, e.g., PTRC, FFT2, CREP. If the position code is THSP, specify in Remarks block the incident job title of the position to which the individual is assigned, e.g., Camp Crew Boss, Voucher Examiner. Each time an individual changes a job, close out that column, start a new column for the new job, and enter the new position code or job title if necessary.
Column A, 7.	Rate. Leave blank.
Column A, 8a.	Year. Enter the calendar year.
Column A, 8b-8c.	<u>Month/Day</u> . Enter month and day on-shift. (Example: February 1 is 2/1). Enter dates consecutively from row to row and column to column.
	One exception is the posting of continuation of pay or posting of time when assigned to a complex with multiple incidents. In Remarks block enter reason for breaks in dates.
Column A, 8d-8e.	Start/Stop. Enter military clock time for each

period of on-shift time.

Column A, 8f. <u>Hours</u>. Enter hours in single digits for whole hours, e.g., 1.00 for one hour, decimals for half and quarter hours, e.g., 0.50 for a half hour and 0.25 for a quarter hour. Show the net difference between 8d. and 8e. When applicable, enter "T" for travel status, "H" for hazardous duty, or "E" for environmental differential.

> Compensable travel time to and from the incident and related waiting time should be recorded on separate lines from other compensable time, such as on-shift time.

When compensable time (work, travel, ordered standby) in a calendar day totals less than 8 hours, the Personnel Time Recorder shall enter a separate line on the OF-288, noting "Guarantee" in the Start/Stop columns and leave the Hours column blank. Clock time for guaranteed hours should not be shown. Guaranteed hours do not apply to the first and last day of assignment if these days fall on the individual's regularly scheduled day off.

Day(s) Off. No specific clock hours are to be entered. "Day Off" is entered in the Start/Stop columns, with the Hours column left blank. If an employee is sick on the incident, record "Day Off" with the Hours column left blank and a notation in the Remarks block for sick leave.

Column A, 9.	Total Hours.	Add column	and enter	total
	hours.			

Column A, 10. Gross Amount. Leave blank.

- Column A, 11. <u>Inclusive Dates</u>. Enter dates covered in the month/day column. For example, enter 9/4-9/7 for September 4 through September 7.
- Column A, 12. <u>Time Officer's Signature</u>. The OF-288 should be signed in other than black ink by the Time Unit Leader or other authorized official. A Personnel Time Recorder will usually sign this block verifying that posting is accurate and complete for each column.

Column A, 13. Date Signed.

- 21. Leave entire section blank. Home units may utilize this space to record agency specific cost accounting data.
- <u>Commissary Record</u>. Itemize all commissary purchases here. Purchases must be supported by a Commissary Issue Record, OF-287, or equivalent form, but this form should not be attached to the OF-288. Enter total amount of commissary purchases.
- 23. <u>Remarks</u>. Indicate environmental differential/hazard information, job title changes, etc.
- 24. <u>ADO Check Number and Stamp</u>. Leave blank.
- 25. <u>Employee Signature</u>. All incident personnel are required to sign the OF-288 in other than black ink.
- 26. <u>Time Officer's Signature</u>. The form should be signed by the Time Unit or other authorized official in other than black ink.

Instructions for form completion:

# Items that are bolded and italicized are mandatory fields for payment processing.

- 1. <u>Emergency Firefighter Time Report Number</u>. Preprinted number. Used for commissary. Do not delete or cross out this number.
- <u>Social Security Number</u>. (mandatory) Enter the last 4 digits of the individuals' SSN. If using electronic time recording system, Time Unit ensures last 4 digits of SSN are handwritten on payment copy of the OF-288.
- 3. <u>Initial Employment</u>. Check "Yes" if individual is being hired for the first time this calendar year.
- 4. <u>Type of Employee</u>. (mandatory) Check "Casual".
- 5. <u>Transferred From.</u> If the casual was transferred from another incident, enter incident name and check current OF-288 against any earlier one to prevent overlapping time and duplicate payments.
- 6. <u>*Hired At.*</u> (mandatory) Enter state abbreviation and hiring agency's 3 letter unit identifier, e.g., AK-GAD, CA-ENF, ID-BOD.
- 7. <u>Employee Has</u>. Check box at time of release if casual has been discharged or quit.
- 8. <u>Entitled To Return Travel Time</u>. (mandatory) Check "Yes" or "No" at the time of release.
- 9. <u>Entitled to Return Transportation</u>. Check "Yes" or "No" at the time of release.
- 10. *Name*. (mandatory) Enter casual's full name, exactly as shown on identification. Do not use nicknames.

- 11-14 <u>Street Address</u>. (mandatory) Show casual's permanent mailing address, including city, state, and zip code. This will be used to verify the check mailing address if there is no direct deposit initiated.
- 15-19 Accident Notification. Leave blank.
- 20. Fire Location Identification.

Column A, 1.	Fire Name. Enter incident name.
Column A, 2.	<i><u>Fire No</u></i> . (mandatory) Enter incident order number (e.g., MT-LNF-00016). Do not use "P" number.
Column A, 3.	Unit Code. Leave blank.
Column A, 4.	<u>Fire Location</u> . Enter incident agency's 3 letter unit identifier for the specific location of the work assignment.
Column A, 5.	State Code. Enter alphabetical code for state in which the casual was on-shift. Reference Exhibit 3.
Column A, 6.	<i>Firefighter Classification</i> . (mandatory) Enter the NWCG approved position code found in Appendix A – Acronyms & Position Codes if applicable, e.g., PTRC, FFT2, CREP and AD classification. If the position code is THSP, specify in the Remarks block the position title to which the individual is assigned e.g., Camp Crew Boss, Laborer. Each time an individual changes a job, close out that column, start a new column for the new job, and enter the new position code or job title if necessary.
Column A, 7.	<u>Rate</u> . (mandatory) Enter AD hourly pay rate.
Column A, 8a.	Year. (mandatory) Enter calendar year.

<u>Month/Day</u> . (mandatory) Enter month and day
on-shift. (Example: February 1 is 2/1). Enter
dates consecutively from row to row and from
column to column. One exception is the posting
of continuation of pay or posting of time when
assigned to a complex with multiple incidents.
In Remarks enter reason for breaks in dates.

- Column A, 8d-8e. <u>Start/Stop</u>. (mandatory) Enter military clock time for each period of on-shift time.
- Column A, 8f. <u>*Hours.*</u> (mandatory) Enter hours in single digits for whole hours, e.g., 1.00 for one hour, decimals for half and quarter hours, e.g., 0.50 for a half hour and 0.25 for a quarter hour. Show the net difference between d. and e. For hours in travel status, enter a "T" in the Hours column.

Compensable travel time to and from the point of hire and related waiting time is recorded on separate lines from other compensable time, such as on-shift time. Do not use a separate column when reporting travel time. Reference AD Pay Plan for Emergency Workers for compensable travel for casuals (Exhibit 1).

When compensable time (work, travel, ordered standby) in a calendar day totals less than 8 hours, the Personnel Time Recorder shall enter a separate line on the OF-288 noting "guarantee" after the month/day and posting the necessary additional hours to the Hours column. Clock time for guaranteed hours should not be shown. Guaranteed hours do not apply on the first and last day.

Day(s) Off. No specific clock hours are to be entered. Enter "Day Off" in the Start/Stop column with "8" in the Hours column.

- Column A, 9. <u>Total Hours</u>. Add column and enter total hours.
- Column A, 10. Gross Amount. Leave blank.
- Column A, 11. <u>Inclusive Dates</u>. Enter dates covered in the month/day column. For example, enter 9/4-9/7 for September 4 through September 7.
- Column A, 12. <u>*Time Officer's Signature*</u>. (mandatory) The OF-288 should be signed in other than black ink by either the Time Unit Leader or other authorized official. A Personnel Time Recorder will usually sign this block verifying that posting is accurate and complete for each column.

Column A, 13. *Date Signed*. (mandatory) Self-explanatory.

- 21. Leave entire section blank. Home units may utilize this space to record agency specific cost accounting data.
- <u>Commissary Record</u>. Itemize all commissary purchases here. Purchases must be supported by a Commissary Issue Record, OF-287, or equivalent form, but this form should not be attached to the OF-288. Enter total amount of commissary purchases.
- 23. <u>Remarks</u>. Specify incident job title if THSP; promotion; reason for discharge; transfer; position changes, etc.
- 24. <u>ADO Check Number and Stamp</u>. Do not write in this Block. It will be used by payment personnel.
- 25. <u>Employee (Signature)</u>. Self-explanatory. All casuals are required to sign the OF-288 in other than black ink.

26. <u>Time Officer's Signature</u>. The form should be signed by either the Time Unit Leader or other authorized official in other than black ink.

#### **Department of Homeland Security**

U.S. Citizenship and Immigration Services

### OMB No. 1615-0047; Expires 08/31/12 Form I-9, Employment Eligibility Verification

**Instructions** Read all instructions carefully before completing this form.

Anti-Discrimination Notice. It is illegal to discriminate against any individual (other than an alien not authorized to work in the United States) in hiring, discharging, or recruiting or referring for a fee because of that individual's national origin or citizenship status. It is illegal to discriminate against work-authorized individuals. Employers CANNOT specify which document(s) they will accept from an employee. The refusal to hire an individual because the documents presented have a future expiration date may also constitute illegal discrimination. For more information, call the Office of Special Counsel for Immigration Related Unfair Employment Practices at 1-800-255-8155.

#### What is the Purpose of This Form?

The purpose of this form is to document that each new employee (both citizen and noncitizen) hired after November 6, 1986, is authorized to work in the United States.

#### When Should Form I-9 Be Used?

All employees (citizens and noncitizens) hired after November 6, 1986, and working in the United States must complete Form I-9.

#### **Filling Out Form I-9**

#### Section 1, Employee

This part of the form must be completed no later than the time of hire, which is the actual beginning of employment. Providing the Social Security Number is voluntary, except for employees hired by employers participating in the USCIS Electronic Employment Eligibility Verification Program (EVerify). The employer is responsible for ensuring that Section 1 is timely and properly completed.

Noncitizen nationals of the United States are persons born in American Samoa, certain former citizens of the former Trust Territory of the Pacific Islands, and certain children of noncitizen nationals born abroad.

Employers should note the work authorization expiration date (if any) shown in Section 1. For employees who indicate an employment authorization expiration date in Section 1. employment authorization for employment on or before the date shown. Note that some employees may leave the expiration date blank if they are aliens whose work authorization does not expire (e.g., asylees, refugees, certain citizens of the Federated States of Micronesia or the Republic of the Marshall Islands). For such employees, in Section 2 evidence of employment authorization that contains an expiration date (e.g., Employment Authorization Document (Form 1-766)).

#### Preparer/Translator Certification

The Preparer/Translator Certification must be completed if Section 1 is prepared by a person other than the employee. A preparer/translator may be used only when the employee is unable to complete Section 1 on his or her own. However, the employee must still sign Section1 personally.

#### Section 2, Employer

For the purpose of completing this form, the term "employer" means all employers including those recruiters and referrers for a fee who are agricultural associations, agricultural employers, or farm labor contractors. Employers must complete Section 2 by examining evidence of identity and employment authorization within three business days of the date employment begins. However, if an employer hires an individual for less than three business days, Section 2 must be completed at the time employment begins. Employers cannot specify which document(s) listed on the last page of Form I-9 employees present to establish identity and employment authorization. Employees may present any List A document OR a combination of a List B and a List C document.

If an employee is unable to present a required document (or documents), the employee must present an acceptable receipt in lieu of a document listed on the last page ofthis form. Receipts showing that a person has applied for an initial grant of employment authorization, or for renewal of employment authorization, are not acceptable. Employees must present receipts within three business days of the date employment begins and must present valid replacement documents within 90 days or other specified time.

#### Employers must record in Section 2:

- 1. Document title;
- 2. Issuing authority;
- 3. Document number;
- 4. Expiration date, if any; and
- 5. The date employment begins.

Employers must sign and date the certification in Section 2. Employees must present original documents. Employers may, but are not required to, photocopy the document(s) presented. If photocopies are made, they must be made for all new hires. Photocopies may only be used for the verification process and must be retained with Form 1-9. Employers are still responsible for completing and retaining Form 1-9.

For more detailed information, you may refer to the USCIS Handbook for Employers (Form M-274). You may obtain the handbook using the contact information found under the header "USC IS Forms and Information."

#### Section 3, Updating and Reverification

Employers must complete Section 3 when updating and/or reverifying Form 1-9. Employers must reverify employment authorization of their employees on or before the work authorization expiration date recorded in Section 1 (if any). Employers CANNOT specify which document(s) they will accept from an employee.

- A. If an employee's name has changed at the time this form is being updated/reverified, complete Block A.
- B. If an employee is rehired within three years of the date this form was originally completed and the employee is still authorized to be employed on the same basis as previously indicated on this form (updating), complete Block B and the signature block.
- C. If an employee is rehired witbin three years of the date this form was originally completed and the employee's work authorization has expired or if a current employee's work authorization is about to expire (reverification), complete Block B; and:
  - Examine any document that reflects the employee is authorized to work in the United States (see List A or C);
  - 2. Record the document title, document number, and expiration date (if any) in Block C; and
  - 3. Complete the signature block.

Note that for reverification purposes, employers have the option of completing a new Form I-9 instead of completing **Section 3**.

#### What Is the Filing Fee?

There is no associated filing fee for completing Form I-9. This form is not filed with USCIS or any government agency. Form I-9 must be retained by the employer and made available for inspection by U.S. Government officials as specified in the Privacy Act Notice below.

#### **USCIS Forms and Information**

To order USCIS forms, you can download them from our website at <u>www.uscis.gov/forms</u> or call our toll-free number at 1-800-870-3676. You can obtain information about Form I-9 from our website at <u>www.uscis.gov/forms</u> or by calling 1-888-464-4218. Information about E-Verify, a free and voluntary program that allows participating employers to electronically verify the employment eligibility of their newly hired employees, can be obtained from our website at www.uscis.gov/e-verify or by calling 1-888-464-4218.

General information on immigration laws, regulations, and procedures can be obtained by telephoning our National Customer Service Center at 1-800-375-5283 or visiting our Internet website at www.uscis.gov.

#### **Photocopying and Retaining Form I-9**

A blank Form I-9 may be reproduced, provided both sides are copied. The Instructions must be available to all employees completing this form. Employers must retain completed Form I-9s for three years after the date of hire or one year after the date employment ends, whichever is later.

Form I-9 may be signed and retained electronically, as authorized in Department of Homeland Security regulations at 8 CFR 274a.2.

#### **Privacy Act Notice**

The authority for collecting this information is the Immigration Reform and Control Act of 1986, Pub. L. 99-603 (8 USC 1324a).

This information is for employers to verify the eligibility of individuals for employment to preclude the unlawful hiring, or recruiting or referring for a fee, of aliens who are not authorized to work in the United States.

This information will be used by employers as a record of their basis for determining eligibility of an employee to work in the United States. The form will be kept by the employer and made available for inspection by authorized officials of the Department of Homeland Security, Department of Labor, and Office of Special Counsel for Immigration-Related Unfair Employment Practices.

Submission of the information required in this form is voluntary. However, an individual may not begin employment unless this form is completed, since employers are subject to civil or criminal penalties if they do not comply with the Immigration Reform and Control Act of 1986.

### EXHIBIT 8 CHECKLIST FOR CLOSING OUT EMERGENCY FIREFIGHTER TIME REPORTS, OF-288s

The TIME shall establish a daily audit process to ensure accurate posting of time and commissary issues. A list of missing time should be established, posted, and updated daily so that incident supervisors can be notified of omissions. This can be accomplished by use of a log that records hours posted per operational period for crews and incident personnel.

- 1. Time Unit personnel should verify the following when auditing OF-288s:
  - A. SSN present for casual employees.
  - B. Type of employment indicated.
  - C. Complete mailing address for casuals.
  - D. Home unit identifier.
  - E. Incident name and incident order number indicated in all columns.
  - F. AD classification, pay rate, position title and NWCG position code for casuals. Cross check AD classification with position title to ensure proper pay rate is applied.
  - G. NWCG position code indicated for incident personnel.
  - H. Time posted chronologically. Verify time posted against Crew Time Report, SF-261.
  - I. Columns totaled (hours only), inclusive dates indicated and columns signed.
- 2. When notified that the crew/individual will be demobilized, determine if the crew/individual is going home or to another incident.

If the crew/individual is going home, the OF-288 will be closed out and beginning travel time posted. Follow agency procedures for disposition of the OF-288.

If the crew/individual is going to another incident, close out the OF-288 as below and initiate travel time to the new incident on a CTR.

- A. Ensure all commissary issues have been posted. Total the commissary amounts per individual.
- B. Ensure time has been properly documented on a CTR and CTRs have been posted.
- C. Ensure travel has been posted according to home/hiring agency procedures. Post beginning travel time and sign on the next line. Leave remainder of column open for home unit supervisor to post and approve ending travel time.

Estimate and record return travel time for casuals and close out final columns.

- D. Cross out unused and blank time entry columns.
- E. The Time Unit Leader coordinates transmission of the required pay documents for casuals.
- F. Forward original injury documents per home unit agency guidelines. Temporary copies are sent home with employee or destroyed.
- 3. Once all these items have been verified and completed, all incident personnel will sign their OF-288 in other than black ink. The crew representative/individual is given the original and employee copy of the OF-288. The file copy is retained for the Incident Finance Package (Exhibit 36).

If the incident agency is processing payments, payment procedures will be followed and facilitated by the TIME to ensure all payment documents are provided to the incident agency.

4. Reference Chapter 30 for procedures regarding non-returned property and the resulting documentation and OF-288 deductions.

Each crew and single resource will present a Demobilization Checklist to the Time Unit. Time Unit personnel will verify that all other sections of the checklist have been completed. Once the OF-288 has been closed out, signed, and file copies made, the Demobilization Checklist can be signed and given to the crew representative/individual for completion of the demobilization process.

# **Incident Behavior**

Common Responsibilities Volunteers and Single Resource Casual Hires

#### Inappropriate Behavior:

It is extremely important that inappropriate behavior be recognized and dealt with promptly. Inappropriate behavior is all forms of harassment including sexual and racial harassment. **Harassment in any form will not be tolerated.** When <u>you</u> observe or hear of inappropriate behavior you should:

- Inform and educate subordinates of their rights and responsibilities
  - Tell the harasser to stop the offensive conduct.
- Provide support to the victim.

0

- Report the incident to your supervisor and the individuals' supervisor, if the behavior continues. Disciplinary action may be necessary.
- Develop appropriate corrective measures.
- Document inappropriate behavior and report it to the appropriate incident manager or agency official.
- While working in and around private property, recognize and respect all private property.

#### **Drugs and Alcohol:**

- Non-prescription unlawful drugs and alcohol are not permitted at the incident.
- Use of medical marijuana on incidents is prohibited.
- Possession or use of these substances will result in disciplinary action.
- During off-incident rest periods, personnel are responsible for proper conduct and maintenance of fitness for duty. Drug or alcohol abuse resulting in unfitness for duty will result in disciplinary action.
- Be a positive role model. Do not be involved with drug or alcohol abuse.
- Report any observed drug or alcohol abuse to your supervisor.

I have read and I understand the above described incident behavior responsibilities:

### **Comportamiento En Incidentes**

Responsabilidades Comunes Empleo Casual de Voluntarios y Recursos Individuales

#### Comportamiento inapropiado:

Es extremamente importante que comportamiento inapropiado sea reconocido y tratado con prontitud. Comportamiento inapropiado es todo tipo de acoso incluyendo sexual y racial. **Acoso de cualquier tipo no será tolerado**. Cuando usted observe o escuche comportamiento inapropiado usted debe:

- Informar y educar al personal de sus derechos y responsabilidades. Dígale al acosador(a) que pare su conducta ofensiva.
- Proporcionar apoyo a la victima.
- Reportar el incidente a su supervisor y al supervisor de esa persona, si el comportamiento continúa. Una acción disciplinaria puede ser necesaria.
- Desarrollar medidas apropiadas de corrección.
- Documente todo comportamiento inapropiado y repórtelo al jefe del incidente o al oficial de agencia apropiado.
- Al trabajar en o alrededor de propiedad privada, reconozca y respete toda propiedad privada.

#### **Drogas y Alcohol:**

- Drogas ilegales no recetadas y alcohol no son permitidas en incidentes.
- El uso de la marihuana medicinal en los incidentes está prohibido.
- Posesión o uso de estas substancias resultara en una acción disciplinaria.
- Durante periodos de descanso en incidentes, todo personal es responsable por su conducta apropiada y mantenimiento de condición física para cumplir con sus deberes. Abuso de drogas y alcohol que resulte en incapacidad para cumplir con sus deberes resultara en una acción disciplinaria.
- Sea un modelo positivo. No se involucre en el abuso de drogas y alcohol.
- Reporte cualquier observación de abuso de drogas o alcohol a su supervisor.

Yo he leído y entiendo el comportamiento y responsabilidades durante incidentes descrito arriba:

OBJE	CTIVE
Casual be equ	issaries are established to serve the needs of all incident personnel. s, regular government employees, and all other assigned personnel should ipped to be self-sufficient for a minimum of 14 days on the incident to the need for commissary.
RESP	ONSIBILITIES
Incider	nt Agency responsibilities:
•	Provide direction to the incident management team (IMT) regarding availability and use of commissary and agency specific requirements regarding commissary items and documentation.
Financ	e/Administration Section Chief (FSC) responsibilities:
•	Establish and oversee the commissary operation.
•	Determine the need and type of commissary based on the size, type, and projected incident duration.
<u>Time U</u>	Jnit Leader (TIME) responsibilities:
•	Post commissary issue deductions to the appropriate pay document.
•	Provide management, security and accountability for an agency- provided commissary.
•	Ensure deductions are posted in a timely manner.
Procur	ement Unit Leader (PROC) responsibilities:
•	Ensure commissary issue deductions are posted to the appropriate vendor pay document.
•	Ensure deductions are posted in a timely manner.
Home	<u>Unit</u> responsibilities:
•	Process payroll deductions posted on the Emergency Firefighter Time Report, OF-288, in accordance with agency policy.

Payme	ent Unit responsibilities:
•	Process vendor deductions posted on the Emergency Equipment Use Invoice, OF-286.
DEFI	NITIONS
Defini Glossa	tions used throughout this handbook are located in Appendix C - ary.
Comm	nissary Privileges – Payroll Deduction
either	dual's authorized payroll deduction commissary privileges shall present the Conditions of Hire page of the Emergency Firefighter Time Report, 8, or documentation provided by the time unit as authorization to receive issary.
•	Regular government employees and casuals may be authorized payroll deductions for commissary purchases.
•	State employees and local cooperators may have commissary payroll deductions if authorized by cooperative agreement, geographic area supplement, or state agency policy.
•	National Guard personnel hired as casuals may be authorized payroll deduction commissary privileges. National Guard mobilized by the Governors orders are not authorized commissary by payroll deduction.
•	Military personnel are not entitled to commissary by payroll deduction.
Comn	nissary Privileges - Contractors
approv author author	actors and their authorized personnel may be issued commissary with val of the contractor or contractor's agent. Contractors and their ized personnel shall present a copy of the contractor invoice as ization to receive invoice deducted commissary. A copy of the contractor e is obtained from the procurement unit.
used for such a	nount issued is posted as a deduction to the appropriate vendor invoice or contract payments. The PROC ensures that supporting documents, s copies of the Commissary Issue Record, OF-287 (Exhibit 12), or ill are attached to the contractor invoice.

1	Agency-Provided Commissary
2 3 4 5	An agency-provided commissary may be established to provide individual items ordered by incident personnel.
6 7 8	• Commissary should be limited to personal items necessary to keep incident personnel productive.
9 10 11 12 13	• Tobacco products may be sold through the commissary in carton-size, rolls, or complete package quantities only. Incidents must abide by state restrictions on the sale of tobacco products to minors. Tobacco products will not be dispensed free of charge.
14 15 16	• Agency-provided commissaries cannot accept cash or credit cards for commissary purchases.
17	Ordering/Receiving Procedures
18 19 20 21 22	• Incident supervisor requests commissary items through the time unit on ICS-213, General Message form, by individual name and item requested.
23 24 25 26 27	• TIME requisitions commissary items through the Logistics Section on ICS-213, General Message form or other approved requisition. All resource order forms for commissary shall clearly state that the items are for commissary.
28 29 30 31 32 33 34 35 36	• The Logistics Section forwards commissary resource orders to the incident agency per the established ordering process. Normally, these items are procured by the incident agency acquisition staff or assigned Buying Team (BUYT). The incident agency acquisition staff/BUYT completes the Commissary Accountability Record, OF-284, or Waybill to transfer items, arranges delivery of the items to the incident, and processes all returned items. Commissary supplies should be purchased separately from other items to facilitate accountability.
37 38 39 40 41	• TIME inventories all items received and verifies against the OF-284, invoice, Waybill, or other transfer document. TIME signs for receipt of goods on the OF-284 or Waybill, and returns a copy to the incident agency acquisition staff or BUYT and immediately notifies them of any discrepancies.

1	Commissary Issue Record
2	
3	Commissary Issue Record, OF-287 (Exhibit 12), is used to record commissary
4	issues. Items are listed by quantity, descriptive name, unit price, and total value.
5	Individual's print their name and sign for purchases on the OF-287.
6	
7	The Commissary Issue Records or Waybills are posted to the OF-288, or
8	submitted to the Procurement Unit to document the deduction(s) on the
9	appropriate invoices. Copies of the issues are filed with the contractor invoice
10	prior to contractor demobilization, issues are tallied and a final amount posted to
11	block 26 of the OF-286 (Exhibit 28).
12	
13	TIME retains a copy of the issue records for the Incident Finance Package.
14	
15	PROC and TIME ensure posted issue records are included in the Incident
16	Finance Package.
17	
18	Posting Commissary Issues
19	DTDC mosts the issues from the OE 207 to the OE 200 daily. Desting includes
20	PTRC posts the issues from the OF-287 to the OF-288 daily. Posting includes
21 22	transferring date of issue, items issued, and amount to block 22 of the OF-288, and transferring the I.D. number from block 1 of the OF-288 to block 12 of the
22	
25 24	OF-287. The PTRC initials the OF-287, to verify that posting is completed.
24 25	EQTR documents the issues from the OF-287 by making a copy of the issue and
23 26	filing it with the contractor invoice. EQTR initials the OF-287 by making a copy of the issue and
20 27	contractor deduction. Prior to contractor demobilization, all deductions are
28	tallied and a final amount posted to block 26 of the Emergency Equipment Use
28 29	Invoice, OF-286 (Exhibit 28).
30	Involce, Or-280 (Exhibit 28).
31	Demobilization of individual's must be coordinated with the TIME, and PROC
32	to ensure that all commissary issues are posted before closeout of personnel time
33	reports or contractor invoices. TIME reviews the Incident Action Plan and
34	demobilization schedule to determine when to limit access to commissary.

1	DEFINITIONS
2 3 4	Definitions used throughout this handbook are located in Appendix C – Glossary.
5 6	First Aid – First aid is emergency care or treatment given to an ill or injured
7	person before regular medical care can be obtained. First aid is generally
8	provided by someone other than a physician. On incidents, most first aid is
9	provided in the field or camp by medical unit personnel such as Emergency
10	Medical Technicians (EMTs). First aid cases involve no lost time.
11	
12	Examples of first aid treatment include cleaning, flushing, or soaking wounds on
13	the skin surface; using wound coverings such as bandages; using hot or cold
14	therapy; using any totally non-rigid means of support such as elastic bandages,
15	wraps, non-rigid back belts; using temporary immobilization devices while
16	transporting an accident victim such as splints, slings, neck collars, or back
17	boards; using eye patches; using simple irrigation or a cotton swab to remove
18 19	foreign bodies not embedded in or adhered to the eye; using finger guards; drinking fluids to relieve heat stress.
20	diffiking fluids to refleve heat stress.
21	Medical Care – Treatment including managing and caring for a patient for the
22	purposes of combating disease or disorder. Care is generally provided by a
23	physician.
24	
25	Examples of medical care include examination of the injured employee, stitches,
26	x-rays, medical tests such as blood work, surgery, hospitalization, etc.
27	
28	Occupational Disease or Illness – A condition produced by the work
29	environment over a period longer than a single workday or shift. It may result
30 31	from systemic infection, repeated stress or strain, exposure to toxins, poisons, or fumes, or other continuing conditions of the work environment (20 CFR Subpart
32	A, 10.5(q); Office of Workers Compensation Programs (OWCP) Publication
33	CA-810, 2-3).
34	ch (10, 2 5).
35	Physician – The term "physician" includes doctors of medicine (MDs),
36	surgeons, podiatrists, dentists, clinical psychologists, optometrists, chiropractors,
37	and osteopathic practitioners within the scope of their practices as defined by
38	state law. Any treatment by a nurse practitioner or physician's assistant must be
39	countersigned by a physician as defined in the previous sentence and in

40 Department of Labor (DOL) Publication CA-810.

1 2	<u>Third-Party Case</u> – An injury or illness/disease caused by a person or object under circumstances that indicate there may be a legal liability on a party other	
3	than the federal or state government. Contact the home unit for case	
4	management advice.	
5	č	
6	Submission Requirements – Incident personnel will fax and mail the original	
7	claim of injury or illness, along with supplemental information and medical	
8 9	documentation, to the home unit or agency specific location within 2 days.	
10	<u>Traumatic Injury</u> – A wound or other condition of the body caused by external	
11	force, including stress or strain. The injury must be identifiable by time and	
12	place of occurrence and member of the body affected; it must be caused by a	
13	specific event or incident or series of events or incidents within a single day or	
14	work shift (20 CFR Subpart A, 10.5(ee); OWCP Publication CA-810, 2-2).

20	The FECA provides compensation benefits to civilian employees of the United	
21	States for disability due to personal injury or disease sustained while in the	
22	performance of duty. The FECA is the exclusive remedy for federal workers	
23	suffering a work related injury/illness. All related medical care including first	
24	aid; physician services; surgery; hospitalization; drugs and medicines;	
25	orthopedic, prosthetic, and other appliances and supplies are covered under the	
26	FECA. The U.S. DOL OWCP administers the FECA (20 CFR Part 10). OWC	Р
27	has delegated agencies limited medical authorization authority through the	
28	proper use of form CA-16, Authorization for Examination and/or Treatment.	
29		
30	Coverage Under FECA	
31		
32	Included in coverage are civilian federal employees of the United States	
33	including those under a permanent, seasonal, temporary appointment, or casual

1	Author	izing Medical Care
2		
3	•	Traumatic Injuries - OWCP has authorized agencies to issue form CA-
4		16, Request for Examination and/or Treatment, to medical
5		facilities/providers authorizing medical treatment for work related
6		traumatic injuries. This form can only be issued once by the agency
7		and provides for treatment up to 60 days, or until OWCP rules
8		otherwise on the case. Issuance of the CA-16 allows the medical
9		provider to refer the injured employee to specialists as necessary. CA-
10		16 instructions direct the medical provider as to the type of treatment
11		authorized and how to obtain further authorization from OWCP if
12		necessary. The FSC, COMP, or the Injury Compensation Specialist
13		(INJR) or other appropriate authorizing official may issue the CA-16
14		(Exhibit 16). The authorizing official shall ensure the appropriate U.S.
15		DOL OWCP District Office address (based on the injured employee's
16		personal home mailing address) is indicated in block 12 of the CA-16
17		(Exhibit 17).
18		
19		If verbal authorization is given to the medical provider in an emergency
20		situation, the CA-16 must be issued within 48 hours after the medical
21		treatment is obtained.
22		
23		When there is doubt whether the injury is work related check block
24		6.B.2 of the CA-16 to let the physician know of the concern.
25		1 5
26	•	Occupational Disease or Illness - OWCP rarely allows agencies to
27		authorize medical treatment related to an occupational disease or
28		illness. The employee is responsible for the cost of treatment and can
29		file a claim (CA-2, Notice of Occupational Disease and Claim for
30		Compensation) with OWCP for adjudication of the claim. Do not
31		complete a CA-1, Federal Employee's Notice of Traumatic Injury and
32		Claim for Continuation of Pay/Compensation or issue a CA-16 for
33		occupational disease or illness.
34		•
35	Continu	uation of Pay (COP)
36		
37	•	Definition and Entitlement. When a federal employee, including
38		casuals, sustains a traumatic injury CA-1 is filed, (Exhibit 14) and
39		seeks medical treatment from a physician, the individual may claim
40		continuation of pay (COP) for any wage loss due to the injury. The
41		intent of COP is to avoid interruption of the employee's income while
42		the claim is being adjudicated by OWCP. A disability exists only when
	Release	Date: August 2012 10-92

1		determined by the physician and time loss must be documented by
2		medical records for an individual to be eligible for COP.
3		COD is evailable for a maximum of 45 colordar days and basing with
4		COP is available for a maximum of 45 calendar days and begins with
5		the first day or shift of disability or medical treatment after the date of
6 7		injury, provided the absence starts within 45 days after the injury. The
		individual is responsible to coordinate with their home unit for specific
8		direction (20 CFR, Subpart B, 10.200 – 10.224; OWCP Publication
9		CA-810, 5-1).
10 11		COP may not be paid after a termination date that was established prior
11		
12		to the injury. For casuals, COP ends when the casual leaves the
15 14		incident, the original length of commitments ends, or when the casual is
		released back to duty, whichever occurs first.
15 16		There is no entitlement to COP for an occupational disease or illness.
10		There is no entitlement to COF for an occupational disease of niness.
17	•	Controvert. In questionable situations, the agency may wish to
18 19	•	controvert (not pay) COP. The instructions on the back side of the CA-
20		1, item 36, identify the only reasons COP may be controverted. Any
20 21		issues beyond those described should be communicated to the home
21		unit for action.
22		unit for action.
23 24	•	COP Recording Procedures. Time loss due to disability and medical
25	•	treatment on the day of injury is not charged to COP. The individual is
26		kept in regular pay status to meet base hour requirements or paid the
27		guarantee hours (8, 9, or 10) for that calendar day. COP begins with
28		the first day of absence for disability or medical treatment following the
29		date of injury and should be identified on the Emergency Firefighter
30		Time Report, OF-288.
31		
32		The only exception is when the injury occurs before the beginning of
33		the workday or shift. For example, while on incident assignment, an
34		individual is scheduled to work 0700-1900 and incurs a traumatic
35		injury at 0630. Medical treatment is provided and the physician notes
36		disability for that day. Charge COP for base hour requirements
37		beginning the shift immediately following the injury.
38		
39		COP is charged for each day the individual is absent from work due to
40		disability including intermittent periods or partial days. For example,
41		an individual is treated and released by the doctor to return to work on
42		the date of the injury, but is required to return for follow-up treatment
	Dalaasa	Data: August 2012    10.02

Release Date: August 2012

1 2 3	during regular work hours on a subsequent day. Use COP to pay time for this follow-up treatment.
4	Work performed during a period of COP is recorded as regular hours of
5	work. Return travel to the home unit from an incident assignment is
6	considered work time and is not charged to COP.
8 7	considered work time and is not enarged to cort.
8	Travel to and from a medical provider and/or time spent receiving
9	medical treatment is compensable as work hours if it falls within the
10	normal guaranteed work schedule (guaranteed 8 hour day for casuals).
11	FECA does not allow payment of overtime for either of these activities.
12	
13	COP Recording for Regular Government Employees
14	The COP rate for a regular government employee is determined by
15	the individual's home unit.
16	
17	To record COP, indicate "COP" in the Start/Stop columns.
18	Record, in the Hours column, the total time needed to complete the
19	guarantee hours (8, 9, or 10) for that day. Indicate partial days of
20	disability with clock hours and total COP hours in the Hours
21	column. Note date and time of injury and return to duty
22	information in the Remarks block (Exhibit 20).
23	
24	COP Recording for casuals
25	For casuals the COP rate is determined by the AD position
26	classification the casual was working under at the time of injury.
27	
28	To record COP, indicate "COP" in the Start/Stop columns and
29	record "8" in the Hours column for each full day of disability.
30	Indicate partial days of disability with clock hours and total COP
31	hours in the Hours column. Note date and time of injury and
32	related information in the Remarks block.

1	Example:
2	
3	A PTRC (single resource) is injured on day 8 of a $\frac{14}{14}$ day
4	assignment, the disability continues for another 8 days, the
5	PTRC would only be entitled to 6 days of COP.
6	
7	A Type 2 crew member is injured on day 5 and released home.
8	On day 10, the crew member was released by his physician to
9	return to duty, but the rest of the crew completed the $\underline{14}$ day
10	assignment. The crew member would only be entitled to 5 days
11	COP. A casual is only entitled to COP, until released by a
12	physician, not to exceed 45 days.
13	
14	If on a day subsequent to the date of injury and initial treatment,
15	a casual worked 4 hours and was then transported to a doctor for
16	follow-up treatment (2 hours round trip travel and medical
17	treatment time), the COP entitlement would be 2 hours (4 hours
18	work $+ 2$ hours travel/medical $+ 2$ hours COP $= 8$ hours
19	guarantee). The 2 hours of medical time is compensable as work
20	time as it falls within the guaranteed 8 hours. Record "COP" in
21	the Start/Stop columns and "2" in the Hours column.
22	
23	If a casual works 8 or more hours prior to seeking medical
24	treatment, there is no charge to COP for the day. If the casual is
25	assigned work during the time under medical restrictions, this
26	time is not COP and must be recorded as regular work time,
27	whether within or exceeding 8 hours of compensation for the
28	day.
29	
30	Do not confuse COP with the guaranteed 8 hours per day for
31	casuals. They are 2 different sets of guidance for entirely
32	different purposes. For instance, COP is not allowed for an
33	occupational disease or illness. However, if a casual has a cold
34	and misses work, the casual may still be entitled to their
35	guaranteed 8 hours of pay if not released from the incident.
36	
37	Selection of Physician
38	
39	Under FECA, employees may elect a physician of their choice. Emergency
40	incidents that dictate securing medical services from the nearest available
41	facility does not constitute selection or choice of physician. The election is still

41 facility does not constitute selection or choice of physician. The election is still

available, should further treatment be necessary, when the employee returns to
 the home unit.

## Agency Provided Medical Care (APMC)

5 6

This is a program under which the agencies pay for limited costs for minor

7 injuries or illnesses that involve only one treatment. One possible follow up

8 visit is permissible if it occurs during non duty hours and the employee is

- 9 agreeable to this.
- 10

11 This coverage is separate from the provisions of the FECA. APMC should not

12 interfere with employee's rights under FECA for treatment of work related

13 injuries and illness. Treatment under APMC may be disadvantageous to the

14 employee and the COMP/INJR is responsible to counsel the employee on their

15 options. Because OWCP has a fee schedule, costs associated with claims

16 through FECA are significantly lower than APMC treatment costs.

17

## 18 Authority for APMC

19

20 The Department of Agriculture Organic Act of September 21, 1944, and the

21 Granger-Thye Act of April 24, 1950 authorize appropriated funds to be used to

22 purchase necessary medical supplies, services, and other assistance for the

23 immediate relief of individuals' engaged in hazardous work. These authorities

should not be interpreted to circumvent OWCP procedures for FECA, which

25 provides the exclusive remedy for medical care and other benefits related to all

- 26 work-related injury or illness.
- 27

## 28 APMC Coverage

29

30 Appropriate Use - The use of APMC is appropriate for injury/illness cases involving only 1 APMC visit which occurs on the day of the injury/illness. One 31 follow-up visit is permissible if it occurs during non-duty hours and the 32 33 employee is agreeable to this. APMC can only be used while the employee remains at the site of the incident. Injury/illness cases treated under APMC 34 35 cannot have lost time charged to sick leave, annual leave, or (COP). If initial treatment by a medical provider occurs after the date of injury, follow-up 36 37 treatment is necessary after the individual is released from the incident, and/or lost time occurs or is expected, the claim must be processed under FECA. 38

1	Medical treatment for traumatic injury claims are most appropriately processed
2	following the FECA procedures described earlier, rather than APMC
3	procedures. This will establish a record for the employee with OWCP and
4	provides the greatest protection and timely service should further treatment be
5	necessary upon return to the home unit.
6	necessary upon return to the nome unit.
7	Employee Choice of Processes – Injured federal employees do not have a right
8	to treatment under APMC as they do under FECA. It is the agency's choice
8 9	whether or not to offer APMC. Per OWCP, the employee's use of APMC
10	instead of FECA is voluntary. The COMP/INJR is responsible to counsel the
10	employee on the difference between APMC and OWCP treatment and allow the
12	employee to choose.
12	employee to choose.
13	APMC Use for Treatment of Traumatic Injuries – Use of APMC for traumatic
14	injuries must be limited to injury/illness cases involving only 1 treatment and
16	may not include authorization for therapy, stitches, x-rays, or other non-first aid
17	treatments.
18	ireaments.
19	APMC Use for Treatment of Occupational Disease & Illness Claims – APMC
20	may be used to authorize first aid treatment only for illnesses such as respiratory
20	infections, colds, sore throats and similar conditions associated with exposure to
$\frac{21}{22}$	smoke, dust, and weather conditions, etc. Authorization of APMC treatment is
23	at the discretion of the agency and should be minimal, only to relieve suffering.
23 24	APMC is appropriate as an interim measure until the employee can arrange for
25	private medical attention, at the individuals' expense, or file a claim under
26	FECA and await OWCP's approval to incur medical expenses.
27	There and a wait of their 5 approval to model modelai expenses.
28	Non-Work Related Injuries/Illness – APMC should not be authorized for non-
29	work related injuries or illnesses. However, in situations where it is deemed
30	necessary by the incident agency, counsel the employee and ensure that a
31	payroll deduction is made to cover the cost. The incident agency is responsible
32	for paying the medical provider and for resolving any disputed matters with the
33	individual treated for all APMC services authorized.
34	
35	APMC Use for Dental Work – Do not authorize APMC for dental treatment,
36	e.g., toothache due to cavity, where there is any question whether it relates to a
37	work related injury. Upon return to the home unit, the individual can obtain
38	treatment and file a claim for reimbursement from OWCP if they feel the
39	condition was work related. However, in situations where it is deemed
40	necessary by the incident agency, counsel the employee and ensure that a
41	payroll deduction is made to cover the cost.

# COMPENSATION FOR INJURY / ILLNESS CHAPTER 10

1	<u>Contractors</u> – Contract personnel may not utilize APMC services.
2	
3 4	<u>State and Other Non-Federal Employees</u> –State authorities vary and may not allow APMC for state employees. The sending unit geographic area state or
4 5	federal incident business management coordinator should be contacted for the
6	states policy in this matter if the injured individual does not have the
7	information (State and National Guard employees' coverage is dependent on
8	the contract and/or agreement under which they are dispatched).
9	the contract and/or agreement ander which they are displacified).
10	Military Personnel – Military medical units will provide treatment for military
11	personnel (Military Use Handbook, Chapter 100).

14	
15	The FSC coordinates the establishment of APMC through the incident agency.

3	
4	• <u>Cooperators</u> – Cooperators are normally covered under their home unit
5	workers' compensation program, e.g., state, county, local government.
6	Cooperators experiencing injury or illness on the incident should
7	complete home unit specific forms and notify their home unit of
8	workers' compensation claims per their agency requirements. The
9	COMP maintains injury compensation records and transmits
10	documents to the home unit per cooperator agency policy.
11	
12	If a cooperator is hired as a federal casual, follow FECA or APMC
13	procedures as appropriate. If a cooperator is hired as a state employee,
14	follow state workers' compensation procedures.
15	
16	Federal agencies entering into cooperative agreements do not have the

### Instructions for Completing Form CA-1

Complete all items on your section of the form. If additional space is required to explain or clarify any point, attach a supplemental statement to the form. Some of the items on the form which may require further clarification are explained below.

### Employee (Or person acting on the employees' behalf)

### 13) Cause of injury

Describe in detail how and why the injury occurred. Give appropriate details (e.g.: if you fell, how far did you fall and in what position did you land?)

### 14) Nature of Injury

Give a complete description of the condition(s) resulting from your injury. Specify the right or left side if applicable (e.g., fractured left leg: cut on right index finger).

### Supervisor

At the time the form is received, complete the receipt of notice of injury and give it to the employee. In addition to completing items 17 through 39, the supervisor is responsible for obtaining the witness statement in Item 16 and for filling in the proper codes in shaded boxes a, b, and c on the front of the form. If medical expense or lost time is incurred or expected, the completed form should be sent to OWCP within 10 working days after it is received.

The supervisor should also submit any other information or evidence pertinent to the merits of this claim.

If the employing agency controverts COP, the employee should be notified and the reason for controversion explained to him or her.

### 17) Agency name and address of reporting office

The name and address of the office to which correspondence from OWCP should be sent (if applicable, the address of the personnel or compensation office).

### 18) Duty station street address and zip code

The address and zip code of the establishment where the employee actually works.

### 19) Employers Retirement Coverage.

Indicate which retirement system the employee is covered under.

### 30) Was injury caused by third party?

A third party is an individual or organization (other than the injured employee or the Federal government) who is liable for the injury. For instance, the driver of a vehicle causing an accident in which an employee is injured, the owner of a building where unsafe conditions cause an employee to fall, and a manufacturer whose defective product causes an employee's injury, could all be considered third parties to the injury.

# 32) Name and address of physician first providing medical care

The name and address of the physician who first provided medical care for this injury. If initial care was given by a nurse or other health professional (not a physician) in the employing agency's health unit or clinic, indicate this on a separate sheet of paper.

### **Employing Agency - Required Codes**

### Box a (Occupation Code), Box b (Type Code), Box c (Source Code), OSHA Site Code

The Occupational Safety and Health Administration (OSHA) requires all employing agencies to complete these items when reporting an injury. The proper codes may be found in OSHA Booklet 2014, "Recordkeeping and Reporting Guidelines.

## Release Date: August 2012

### 15) Election of COP/Leave

If you are disabled for work as a result of this injury and filed CA-1 within thirty days of the injury, you may be entitled to receive continuation of pay (COP) from your employing agency. COP is paid for up to 45 calendar days of disability, and is not charged against sick or annual leave. If you elect sick or annual leave you may not claim compensation to repurchase leave used during the 45 days of COP entitlement.

### 33) First date medical care received

The date of the first visit to the physician listed in item 31.

### 36) If the employing agency controverts continuation of pay, state the reason In detail.

COP may be controverted (disputed) for any reason; however, the employing agency may refuse to pay COP only if the controversion is based upon one of the nine reasons given below:

- a) The disability was not caused by a traumatic injury.
- b) The employee is a volunteer working without pay or for nominal pay, or a member of the office staff of a former President;
- c) The employee is not a citizen or a resident of the United States or Canada;
- d) The injury occurred off the employing agency's premises and the employee was not involved in official "off premise" duties;
- The injury was proximately caused by the employee's willful misconduct, intent to bring about injury or death to self or another person, or intoxication;
- f) The injury was not reported on Form CA-1 within 30 days following the injury;
- g) Work stoppage first occurred 45 days or more following the injury;
- h) The employee initially reported the injury after his or her employment was terminated; or
- The employee Is enrolled in the Civil Air Patrol, Peace Corps, Youth Conservation Corps, Work Study Programs, or other similar groups.

### OWCP Agency Code

This is a four-digit (or four digit plus two letter) code used by OWCP to identify the employing agency. The proper code may be obtained from your personnel or compensation office, or by contacting OWCP.

#### Employing Office Instructions

Medical treatment for this injury/illness was provided by our Agency through procurement with medical providers under the Agency Provided Medical Care (APMC) program. These procedures are entirely apart from and not under the authority or provisions of FECA/OWCP, and do not require issuing a CA-16. However, a CA-1 or CA-2 was completed in all cases for the employee's protection.

Do not pay invoices or statements attached to CA forms. Do not forward to OWCP for payment if:

(1) no further medical treatment is necessary, (2) there is no lost time due to the injury/illness, and (3) this initial treatment did not involve surgery or hospitalization. Under these circumstances only, file the CA-1/CA-2 and medical documentation in the Employee's Medical Folder for record purposes.

If any one of the following conditions occurs, initiate appropriate OWCP procedures:

1. For lost time cases which occurred on the incident assignment or following the employee's return (and are supported by the attached medical documentation), but no further medical treatment is required, submit CA-1/CA-2 and the medical report from the medical provider to OWCP as part of the claim package. Provide explanation to OWCP that all medical services were paid by the Agency. Grant COP and provide form CA-3 to OWCP as appropriate in traumatic injury cases.

 Where emergency surgery or hospitalization was provided by the medical facility in conjunction with APMC, submit CA-1/CA-2 and the medical reports to OWCP as outlined in item 1 above.

3. Where followup treatment is necessary or there is loss of wages, follow standard OWCP procedures. This includes issuing CA-16 as appropriate to the physician of the employee's choice. File the claim with your OWCP District Office.

Situations may arise where the physician provided by this Agency determined that the employee was fit for light or regular duty and subsequent evaluation shortly thereafter by the physician selected by the employee indicates the employee is disabled. While this requires resolution by OWCP, the employee must receive continuation of pay, if other requirements for COP are mel, pending OWCP's decision.

If you have any questions or problems, please contact incident Unit Headquarter's Compensation Specialist:

# INCIDENT INJURY CASE FILE ENVELOPE, OF-313 EXHIBIT 22

Release Date: August 2012

-	rpose of this section is to provide guidance and regulations regarding equirements for incident response.
POLIC	CY
	l Travel Regulations (FTR) and/or agency specific travel regulations zed for all travel policies and processes.
RESPO	ONSIBILITIES
Home	unit responsibilities:
•	Provide authorization to travel in accordance with agency regulation and policy.
<u>Regula</u>	r government employees, casuals, and cooperators responsibilities:
•	Obtain information regarding home unit travel policies, procedure requirements before commencing travel.
•	Follow established incident agency procedures.
Incider	at agency responsibilities:
•	Provide agency requirements and guidelines regarding subsistence lodging and transportation policies to the incident management tea (IMT) and incident support units/personnel, e.g., buying team, expanded dispatch, administrative payment team (APT).
Incide	nt Agency Requirements
inciden Individ restaur require utilize	burces under the control of the incident or incident agency will follow at agency requirements when staying at incident base or other location uals' are not automatically entitled to stay in a hotel/motel, eat meals ants, or claim per diem. Individuals' who deviate from incident agen ments will not be reimbursed for unauthorized expenses. Most incident a base camp to provide for resource needs through the use of a catero estaurants, other food providers and issuance of a sleeping bag.

1 2 3	If the incident agency is unable to provide meals and lodging through an incident base camp, the following will occur:
4	• <u>Lodging</u> – Incident resources may be housed in motels/hotels. Incident
5	personnel must follow their home unit policy for the use of agency
6	issued charge card to obtain lodging. Employing agency travel policies
7	apply. The incident agency should provide these facilities through a
8	procurement method.
9	
10	If the incident agency provides meals and lodging to incident resources,
11	they may establish rates that differ from standard federal or state rates. For
12	federal employees, if the cost of federal-government paid lodging exceeds
13	the maximum per diem rate, the employee should follow agency policy to
14	request approval for "actual expenses". Otherwise the meals and incidental
15	expenses (M&IE) payment will be reduced to the maximum per diem
16	amount allowed (lodging + $M\&IE$ ). Current per diem rates can be found at
17	www.gsa.gov.
18	
19	• <u>Meals</u> – The incident agency may provide meals through the use of
20	designated restaurants under a procurement method, at no cost to the
21	individual. If the meal selected by the individual exceeds the incident's
22	established meal rate, the individual is responsible to pay the vendor
23	directly for the difference. When meals are furnished by the incident
24	agency, individuals' may not seek per diem for meal reimbursement.
25	Meals may only be claimed if incident personnel are unable to consume
26	the furnished meal(s) because of medical requirements or religious
27	beliefs which must be justified and approved on a travel authorization
28	and voucher.
29	
30	When the incident agency does not provide meals, individuals' should
31	follow their agency policy for the use of a government issued charge
32	card to obtain meals. Employing agency per diem rates must be
33	followed.
34	
35	• <u>Cash Advances</u> – Most federal agencies are unable to provide cash
36	advances in a timely manner for emergency incidents. Individuals'
37	should be prepared to meet their personal needs with personal cash or
38	credit cards if they do not have a government issued travel card.

1 2	Federal government travel charge cards may provide for withdrawal of cash from Automated Teller Machines (ATM) for official government
3	travel-related expenses. Reference agency policy for maximum ATM
4	withdrawal allowance.
5	
6	• <u>Rental Cars</u> – Use of rental cars while assigned to an incident must be
7	authorized by the incident agency or incident, and documented on a
8	resource order.
9	
10	The incident agency should provide rental cars to authorized incident
11	personnel through an agency procurement method, e.g., Blanket
12	Purchase Agreement (BPA), purchase order, contract, or Emergency
13	Equipment Rental Agreement (EERA).
14	
15	Individuals' authorized to rent a car outside of incident agency
16	procurement methods should use government-contracted rental car
17	agencies. Additional insurance coverage is not necessary and is not a
18	reimbursable expense (reference agency travel regulations).
19	
20	The U.S. Government Rental Car Agreement provides for damage and
21	liability coverage when the terms and conditions of the agreement are
22	followed, (e.g., operating the vehicle on paved, graded, state or
23	professionally maintained roads.) If the incident assignment requires
24	operation of the vehicle outside these parameters, the rental vehicle
25	should be obtained through other procurement methods (Chapter 20).
26	The agreement can be found at
27	http://www.defensetravel.dod.mil/site/rental.cfm .
28	
29	• <u>Privately-Owned Vehicle (POV)</u> – Individuals' may be requested to use
30	their POV for official business when such use is advantageous to the
31	government. The individual is reimbursed for use through a mileage
32	rate. The mileage rate reimburses the individual for fuel, wear and tear,
33	and insurance costs.
34	
35	If an employee chooses to utilize POV rather than government provided
36	transportation, prior approval must be obtained from the home unit
37	supervisor.
38	
39	Damage to a POV is not covered under the Military and Civilian Employees
40	Claims Act. Individuals claim damage through their private insurer.

- <u>Incidental Expenditure Rate</u> The incidental expenditure rate for all emergency assignments, where meals and lodging are provided, is the approved General Service Administration (GSA) rate (<u>http://www.gsa.gov</u>) (reference agency specific directives or policy for exceptions).
   <u>Transportation Arrangements</u> Individuals' assigned to emergency incidents will follow sending agency dispatch procedures for travel to the incident. Incident agency dispatch procedures will be followed for return travel from the incident. Dispatch offices will make travel
- arrangements and provide airline tickets or travel information to individuals'. Travel arrangements made outside of incident agency dispatch procedures may not be reimbursed without proper approvals and authorization. Commercial and/or contract transportation methods may be used.
- 17 GSA FTR preclude federal agencies from procuring contract fare tickets, rentals, lodging, or travel advances for contractors and their 18 19 employees. Government travel authorizations shall not be issued to 20 contractors and their employees. Federal agencies may reimburse 21 contractors for travel costs per contract provisions. The federal government may charter aircraft to provide transportation and may 22 23 provide subsistence to the contractor/contractor employees while at the 24 incident (e.g., meals, lodging), as long as these acquisitions are done 25 through "normal" procurement methods, e.g., purchase order, contract, 26 BPA and not through established GSA or Department of Defense (DoD) contracts for passenger transportation, vehicle rentals, and 27 28 lodging facilities.
- 30Individuals' who wish to deviate from the established travel route31(including layovers and deviations from estimated return travel time)32must coordinate and obtain authorization from the incident agency and33home unit prior to commencing travel.
- Casuals who are not reassigned and deviate from the normal travel route home will only be reimbursed for the number of miles back to the point of hire. Casuals are not entitled to transportation provided by the government from the point the travel deviation occurs. The travel deviation must be documented and attached to the casual's original time record (OF-288) for use by the payment unit. This documentation shall also be made a part of the incident record.

1 2 3 4 5 6 7		Dispatch offices will provide transportation arrangements to the original departure points. Individuals' are responsible for changing arrangements and paying any cost differences. If the method for transportation is a government charter or other non-commercial transportation and the individual wishes to deviate, the government will not pay for commercial transportation.
8		Individuals' returning from an incident after the close of business may
9		be furnished government transportation to their residence if there is no
10		alternative means of transportation.
11		
12		Individuals' released from an emergency incident, due to family
13		emergency, may be provided transportation to other than the original
14		departure point if there is no additional cost to the government. Travel
15		costs from this new location to the original departure point, if an
16 17		additional cost to the government is at the individuals' expense.
17	•	GSA Travel Exceptions –In certain instances, GSA will invoke
19	•	exceptions to the FTR, for a period of time, to ensure travelers are able
20		to conduct official government travel in a safe manner. These
21		exceptions, e.g., modes of transportation, non-direct route could result
22		from international events, times of war, disease outbreaks, travel
23		advisories, etc.
24		
25	•	<u>Travel Vouchers</u> – Emergency incident resources in travel status follow
26		home unit travel regulations to claim reimbursement of travel expenses.
27		
28		Reimbursement of travel expenses to casuals is made in accordance
29		with the Administratively Determined (AD) Pay Plan for Emergency
30		Workers (Exhibit 1).

1	OBJECTIVE
2 3 4 5 6	This chapter sets forth procedures governing emergency incident acquisition operations. Specific and complete guidelines for acquisition are available from the incident agency acquisition office
7	AUTHORITY
8 9 10 11 12	Federal agencies authority is derived from the Federal Property and Administrative Services Act of 1949, 41 U.S.C. 253, as amended. State authorities are derived under the specific statutes for each state.
13	DELEGATIONS OF PROCUREMENT AUTHORITY
14 15 16 17 18 19 20 21 22 23	Delegations of procurement authority for an incident shall be made in accordance with agency policy. Delegations of authority issued by federal agencies may be honored as authority to procure in interagency incident situations. It is incumbent on ordering officials to request and permit only those with the properly delegated procurement authority to be assigned as procurement officers. Warranted procurement officers shall provide a copy of their warrant and delegated procurement authority to the incident agency and must adhere to their own agency regulations.
24	POLICY
25 26 27 28 29	Generally, agencies shall promote competition to the maximum extent possible, requesting quotations/offers from as many potential sources as is practicable under the circumstances. Where appropriate, federal agencies shall use simplified acquisition procedures (41 U.S.C. 253(g)).
30 31 32 33 34 35 36 37 38 39	Federal Acquisition Regulation (FAR) Part 3.6 prohibits contracts with government employees, including casual hires as they are considered government employees. This precludes agencies, incident management teams or incident support units from entering into EERAs or other federal contracts with federal government employees. The agency head (Washington Office level), or a designee not below the level of the head of the contracting activity, may authorize an exception to the policy only if there is a most compelling reason to do so, such as when the government's needs cannot reasonably be otherwise met. (FAR 3.602) Written determination and findings of the exception must be
40	documented.

1	RESPO	DNSIBILITIES
2 3	T	4
3 4	meiden	t agency responsibilities:
5	•	Establish and annually update a Service and Supply Plan.
6 7 8 9	•	Provide incident agency specific acquisition guidelines to the incident management team (IMT) and incident support units.
9 10 11 12 13	•	Determine the need for additional acquisition personnel with applicable procurement authority (e.g., buying team, contracting officer, purchasing agent).
13 14	Procure	ment Unit Leader responsibilities:
15		
16	•	Administer all financial matters pertaining to vendor agreements.
17 18 19	•	Implement incident agency policy and ensure compliance with policy and procedures found in this handbook.
20 21 22	•	Supervise the equipment time recorders and other procurement unit staff.
23 24 25	•	Coordinate with the incident support units to ensure the needs of the incident agency and incident management team (IMT) are met.
26 27	<u>Buying</u>	team responsibilities:
28		
29 30 21	•	Support incident procurement through coordination with the incident agency administrative staff. (Reference Chapter 40 on Buying Team Coordination)
31 32		Coordination)
32 33	•	Coordinate with dispatch and IMT to establish procedures for filling
34	-	and documenting resource orders for services, supplies, and equipment

8	Land-Use and Facility Rental Agreements			
9				
10	Simplified acquisition procedures should be used to acquire the use of pro	perty		
11	or facilities for emergency incidents. Emergency incident agreements do	not		
12	require special leasing authority. Procurement officials with warrant authority			
13	may enter into these agreements. Agreements must be negotiated and signed.			
14	No-cost land use agreements are not binding or valid. If an agreement is			
15	established with consideration, e.g., grass seed, field use for incident base	camp,		
16	fence repair, the agreement is therefore binding.	-		
17				
18	The rental requirements are usually short term, for an undefined period, an	nd		
19	open only during the length of the incident. Land use agreements can be			
20	negotiated preseason. Negotiations should be made considering potential	length		
21	of the incident and provide for varying rates based on longer periods of tir	ne.		
22	When drafting land use or facility rental agreements, include the following	3		
23	information (Appendix B – Tool Kit).	-		
24				
25	• Complete description of facilities/land, including specific location and	t		
26	boundaries.			
27				
28	• The intended use, including any owner restrictions.			
29				
30	• The agreed-to rate and the specific utilities included or not included in	n this		
31	rate.			
32				
33	• Provisions for making alterations to facilities/land.			
34	-			
35	Restoration requirements.			
36	-			
37	• Condition of facilities/land. The landowner/authorized individual and	1		
38	government representative(s) jointly perform and document a pre- and	d post-		
39	use physical inspection.	-		
40				
41	• Terms for loss, damage, or destruction of property.			

1 2 3	• Applicable contracting terms and conditions as required by the incident agency. Federal and state terms and conditions may vary.
4	Equipment Rental
5 6 7 8 9 10	Preseason competed agreements shall be used for extended attack as the first source for equipment rentals. To avoid duplication and ensure coordination among agencies, where agency procedures permit, only 1 preseason agreement should be initiated with each contractor for the same piece of equipment.
11 12 13 14	If competed equipment is not available, it is appropriate to use an incident-only EERA for the rental of equipment, property, and animals. Should the need arise for incident-only agreements, the following process will apply.
15	ORDERING EQUIPMENT
16 17 18	Reference ordering under the EERA and I-BPA Administration Section and the National Interagency Mobilization Guide Chapter 20.
19 20 21 22 23 24 25	• Existing agreements for equipment ordered through the resource ordering system and arriving from outside of the local area should be honored and should not be renegotiated. Generally, contractors' cost of doing business is established at their home base and does not change when they travel to incidents outside their geographic area.
23 26 27 28 29 30	• Fire chasing is equipment not ordered through the resource ordering system. If it arrives at an incident it should only be used if there is a bona fide need and time does not permit ordering through established channels. In those circumstances, apply the following guidelines:
31 32	• Prior to use, establish a resource order to document the need.
32 33 34 35 36 37 38 39	• Equipment with an existing agreement. Agencies are not obligated to honor rental agreements for equipment not ordered through the resource ordering system. If the terms, conditions, and rates are considered to be reasonable, the existing agreement may be used. If the rate is significantly higher than local agreements and/or geographic area estimates, a new agreement shall be established for the incident only.
40	

1 2 3 4 5		• Equipment without an existing agreement. Refer the matter to a warranted contracting officer, e.g., Procurement Unit Leader or buying team contracting officer for establishment of an agreement using local geographic area estimates.
6 7 8 9		• Any new agreement shall be valid for the duration of that specific incident only. The contracting officer shall indicate the incident name and number in the effective dates, e.g., "for the XXX incident only".
10 11 12 13		• Point of hire should be the incident. <u>Compensation for travel to</u> and from the incident will not be allowed.
14 15 16 17 18 19 20	•	<u>Demobilization</u> . When demobilizing contract equipment, vendors awarded an agreement as a result of competitive solicitations, shall be given priority to remain on the incident over resources with incident only agreements, unless the IC determines it is necessary to deviate based on a specific incident need or objective. 16		
17		It is extremely important that inappropriate behavior be recognized and
18		dealt with promptly. All forms of harassment, including sexual and
19		racial harassment, are inappropriate behavior. Harassment in any
20		form will not be tolerated. Non-prescription unlawful drugs and
21		alcohol are not permitted at the incident. Possession or use of these
22		substances will result in the contractor being released from the incident.
23		During off-incident periods, personnel are responsible for proper
24		conduct and maintenance of fitness for duty. Drug or alcohol use
25		resulting in being unfit for duty will normally result in the contractor
26		being released from the incident.

### HIRING METHODS

Most equipment should be obtained through a preseason competitive solicitation
process. Follow agency guidelines. Additionally, geographic areas should issue
a supplement to establish standard equipment rental rates, which reflect area
costs, economics, and market conditions for equipment that is not competitively
solicited or is hired at an incident. Reference Exhibit 23 for Equipment and
Method of Hire National Standards.

An agency warranted Contracting Officer may award EERAs at the incident
depending on need. EERAs negotiated at an incident will only be in effect until
the end of the incident. Incident-only EERAs may not be awarded unless
competitive agreements are exhausted or unavailable for the date and time
needed.

• Incident COs shall refer to geographic area estimates based on where the incident is located to establish incident-only rates for EERAs.

The following sequence may be considered by the incident Contracting Officer for incident negotiated sign-up of equipment/services or use their business and contracting experience to negotiate a reasonable rate:

- It is recommended geographic areas utilize the standard 90% rate established to negotiate an incident only rate. The 90% reports can be found at <u>http://www.fs.fed.us/business/incident/vipreports.php</u>
- Call the geographic area contracting officer responsible for preseason equipment/services for assistance for incident only negotiated rates.
- Determine if the vendor has standard commercial rates for the
  equipment/services or if there are commercial rates established for
  similar equipment in the area, e.g., backhoes, bobcats, etc. These
  rates will be a starting point to establish fair and reasonable rates to
  be used for the incident. Service Contract Act wage rates, longer

1 hours and working environment/conditions, especially if equipment 2 comes with operator, can be taken under consideration. 3 4 Other factors to consider: 0 5 6 Direction on the use of hourly/daily rates for each type of . 7 equipment will be determined by IIBMH, Chapter 20 and 8 supplements. 9 10 Determine the labor cost (all-inclusive) when hiring with operator(s). Use the current revision of Wage 11 12 Determination, Emergency Incident/Fire Safety Services, 13 as a guide for operator hourly rates. 14 15 **UNIQUE ITEMS** 16 17 Normal purchasing restrictions apply to emergency incident operations. However, special circumstances exist which may necessitate the acquisition of 18 19 unique items, e.g., copy machines, facsimile machines, and computers, goods, or services, e.g., medical providers. Incident agency procedures will be followed. 20 21 22 Printing and copying may be purchased commercially, without a waiver from 23 the Government Printing Office (GPO), if the materials are of an administrative 24 nature, for non-repetitive use, e.g., Incident Action Plan printing, and will only 25 be used internally within the incident. These services should be procured 26 through the most cost effective method and source. Colored copies and colored 27 paper are considered unnecessary expenses. 28 29 Purchase or rental of recreational/entertainment items are subject to agency direction and appropriation authorities. Refer to incident agency appropriation 30 31 authorities/direction and incident agency operating guidelines for incident business administration. 17	EERA AND I-BPA ADMINISTRATION
18 19 20 21 22 23 24 25 26 27 28 29 30	Incident agencies shall establish procedures for administering the EERA and I- BPA including ordering, inspecting, record-keeping, releasing and paying. Changes or modifications to the EERA or I-BPA terms and conditions may only be made by the original signing procurement officer. If the original signing procurement officer is not available and adjustments are deemed appropriate, a new EERA will be established at the incident and only applies for the duration of the incident. Incident name, location, and dates will be included on the new EERA. All contract claim settlements must be adjudicated by a warranted contracting officer with the appropriate authority.
31	Ordering
32 33 34	At the time equipment is ordered the following will occur:
35 36 37	• Specify conditions of hire, e.g., number of operators, contractor or government-provided operator and/or supplies, equipment ordered.
38 39	• Inform contractor where and when to report, and location of inspection site.

27		incident official and the contractor. The Finance/Administration
28		Section Chief, Procurement Unit Leader, or other designated official is
29		responsible for ensuring the OF-286 is posted accurately from the
30		Emergency Equipment Shift Ticket, and the correct rates of pay from
31		the EERA (OF-294) or I-BPA (SF-1449), have been calculated and
32		entered correctly (Exhibit 28). In lieu of the OF-286, an original
33		commercial vendor invoice with authorizing government official
34		signature may be used. Signatures shall be legible.
35		
36	•	Emergency Equipment Fuel and Oil Issue, OF-304. This is only
37		utilized in the event that a vendor cannot accept credit cards or when an
38		agency fuel truck is available. Documents quantities of fuel, oil, or
39		other operating supplies provided by the incident. The Ground Support
40		Unit Leader coordinates with the finance section to establish
41		procedures for tracking fuel, oil, and other operating supplies/services.

1 2 3 4		The OF-304 is completed by the issuing agent and signed by both the issuing agent and receiving agent. In lieu of the OF-304, a log with authorizing government official signature may be used for documentation. Signatures shall be legible. The deductions are posted
5		on the Emergency Equipment Use Invoice, OF-286, (Exhibit 28).

17	•	Emergency Equipment Rental-Use Envelope, OF-305. This envelope
18		consolidates all above forms and any other documents relating to the
19		EERA or I-BPA.
20		
21		It includes a checklist that indicates items contained in the envelope,
22		agreement information, and whether any administrative follow-up is
23		required (Exhibit 30).
24		
25		The envelope is prepared at the time of hire by the hiring official and
26		will contain a copy of the EERA, I-BPA, or contract, pre-use
27		inspection, Emergency Equipment Shift Ticket book with the time of
28		hire, mileage or other necessary information recorded.
29 20		
30		This envelope is transmitted to the incident with the contractor or by
31 32		some other method. Other documentation is included in the envelope
32 33		by the Procurement Unit as it is completed.

10		
11	The fol	wing are general guidelines for dealing with a claim or potential claim:
12		
13	•	Incident personnel shall not advise, comment, or solicit a contractor's
14		claim.
15		
16	•	While there is no specific form on which to file a claim, the claim must
17		be in writing and include the following:
18		
19		• Claimants complete name, mailing address, and phone
20		number.
21		• Legible signature of the equipment owner or legal
22		representative.
23		• Claimant's statement of facts concerning the damage.
24		• Claimant's itemized listing of the amount claimed, including
25		estimated values of equipment before damage.
26		• Witness statements if available.
27		
28	•	The incident supervisor managing the equipment is responsible for
29		documenting the damage and initiating the investigation. The extent of
30		the investigation should be appropriate to the complexity and/or
31		amount claimed. The investigator shall avoid conclusions and opinions
32		and shall only present observations and facts. The investigation report
33		should include the following items:
34		
35		• Description of the damage and circumstances leading to the
36		damage; including location of the area, sequence of events,
37		weather, and road conditions.
38		• Law enforcement investigation report if applicable.
39		• List of witnesses and statements.
40		• Sketches, maps, diagrams, or photographs of the scene or
41		equipment.

- Incident personnel having knowledge of potential claims should provide information to the Procurement Unit Leader or contracting officer.
  Incident personnel sign and record the date the claim was received.
  - This is the only information entered. Incident personnel may not complete any information for the claimant.
  - Claims may be submitted to the procurement unit leader, incident agency, or contracting officer. The claim does not have to be completed at the incident. Contractors intending to file a claim should so note in block 22 of the Emergency Equipment Rental Invoice, OF-286, to protect the right to file. (Appendix B Tool Kit.)

14

Prior to implementing any incident payments (including purchases made by
government charge cards or convenience checks) coordination with the incident
agency is required.

20

The incident agency may review payment packages prior to submission to the designated payment office. Federal payments must be made by electronic funds transfer (EFT), unless a waiver has been approved.

24

Incident agencies may establish specific payment timeframes for vendors, (e.g.,
 weekly during an incident, upon demobilization of outgoing IMT). Partial
 payments should be considered, taking into account the following:

- 28 29
- Length of incident (14 days or longer).
- Duration of resources away from home unit.
- Local vendor ability to restock.
- 31 32 33

30

**Emergency Equipment Rental Agreement and Incident Blanket Purchase Agreement**

### GENERAL CLAUSES TO EMERGENCY EQUIPMENT RENTAL AGREEMENT FORM OF-294 (1990) Replace all of the existing clauses on the ack of the Optional Form 294, revised on August 1990, with the following

Since the equipment needs of the Government and availability of Contractor's equipment during an emergency cannot be determined in advance, it is mutually agreed that, upon request of the Government, the Contractor shall furnish the equipment listed herein to the extent the Contractor is willing and able at the time of order. The following personnel are authorized to place orders against this agreement, Dispatchers, Buying Team Members, Finance Section Chiefs, Procurement Unit Leaders, Contracting Officers and Purchasing Agents. At time of dispatch, a resource order number will be assigned. The Contractor shall furnish the assigned resource order number upon arrival and check in at the incident. The Incident Commander or responsible Government Representative is authorized to administer the technical aspects of this agreement. Equipment furnished under this agreement may be operated and subjected to extreme environmental and/or strenuous operating conditions which could include but is not limited to unimproved roads, steep, rocky, hilly terrain, dust, heat, and smoky conditions. As a

result, by entering into this agreement, the contractor agrees that what is considered wear and tear under this agreement is in excess of what the equipment is subjected to under normal operations and is reflected in the rates paid for the equipment. When such equipment is furnished to the Government, the following clauses shall apply:

CLAUSE 1. Condition of Equipment - All equipment furnished under this agreement shall be in acceptable condition. The Government reserves the right to reject equipment that is not in safe and operable condition. The Government may allow the Contractor to correct deficiencies within 24 hours. No payment for travel to an Incident or point of inspection, or return to the point of hire. will be made for equipment that does not pass inspection. No payment will be made for time that the equipment was not available.

**CLAUSE 2.** The time under hire shall start at the time the equipment begins traveling to the incident after being ordered by the Government, and end at the

estimated time of arrival back to the point of hire after being released, except as provided in Clause 7 of these General Clauses.

**CLAUSE 3.** Operating Supplies - As identified in Block 7, operating supplies include fuel, oil, filters, lube/oil changes. Even though Block 7 may specify that all operating supplies are to be furnished by the Contractor (wet), the Government may, at its option, elect to furnish such supplies when necessary to keep the equipment operating. The cost of such supplies will be determined by the Government and deducted from payment to the Contractor. CLAUSE 4. Repairs - Repairs to equipment shall be made and paid for by the Contractor. The Government may, at its option, elect to make such repairs when necessary to keep the equipment operating. The cost of such repairs will be determined by the Government and deducted from payment to the contractor.

**CLAUSE 5.** Timekeeping - Time will be verified and approved by the Government Agent responsible for ordering and/or directing use of each piece of equipment. Time will be recorded to the nearest quarter hour worked for daily/hourly rate, or whole mile for mileage. CLAUSE 6. Payments

a. Rates of Payments - Rates for equipment hired with Contractor Furnished operator(s) shall include all operator(s) expenses. Payment will be at rates specified and, except as provided in Clause 7, shall be in accordance with the following:

1. <u>Work Rates</u> (column 11) (hourly or mileage) shall apply when equipment is under hire as ordered by the Government and on shift, including relocation of equipment under its own power. **ON-SHIFT: Includes time** worked, time that equipment is held or directed to be in a state of readiness, and compensable travel (equipment traveling under its own power) that has a specific start and ending time.

2. <u>Special Rates</u> (column 12) shall apply when specified.

3. Guarantee. For each calendar day that equipment is under hire for at least 8 hours, the Government will pay not less than the amount shown in column 13. If equipment is under hire for less than 8 hours during a calendar day, the amount earned for that day will be not less than one-half the amount specified in column 13. The guarantee is not applicable to equipment hired under the Daily rate. Equipment under transport is time under hire and compensated through the Guarantee. If equipment is

transported under its own power, it is compensated under the Work rate.

4. <u>Daily Rate</u> (column 11) -Payment will be made on basis of calendar days (0001 – 2400). For fractional days at the beginning and ending of time under hire, payment will be based on 50 percent of the Daily Rate for periods less than 8 hours. Under the daily rate equipment may be staffed with or without operator.

# (a) <u>Shift Basis (Portion of</u> <u>calendar day)</u>

1) Single Shift - (SS) is staffed with one operator or one crew 2) Double Shift - (DS) is staffed with two operators or two crews (one per shift). The DS rate will apply any calendar day the DS was under hire, including travel. There will be no compensation for a double shift unless a separate operator(s) and or crew(s) is/are ordered in writing for the second shift. 3) Agency personnel at the Section Chief Level may, by resource order, authorize a second operator or crew (Double Shift), if needed during the assignment.

b. **Method of Payment**. Lumpsum payment will normally be processed at the end of the emergency assignment. However, partial payment may be authorized as approved by the incident agency. Payment for each calendar day will be made for (1) actual units ordered and performed under Work or Daily, shift basis and/or Special rates or (2) the guarantee earned, whichever is the greater amount.

### **CLAUSE 7.** Exceptions

a. Daily Rate or Guarantee - No further payment under Clause 6 will accrue during any period that equipment under hire is not in a safe or operable condition or when Contractor furnished operator(s) is not available for the assigned shift. Payment will be based on the hours the equipment was operational during the assigned shift, as documented on the shift ticket versus the designated shift, as shown on the Incident Action Plan.

b. If the Contractor withdraws equipment and/or operator(s) prior to being released by the Government, no further payment under Clause 6 shall accrue and the Contractor shall bear all costs of returning equipment and/or operator(s) to the point of hire.

c. After inspection and acceptance for use, equipment and/or furnished operator(s) that cannot be replaced or equipment that cannot be repaired at the site of work by the Contractor or by the Government in accordance with Clause 4, within 24 hours, may be considered as being withdrawn by the Contractor in accordance with Paragraph B above, except that the Government will bear all costs of returning equipment and/or operator(s) to the point of hire as promptly as emergency conditions will allow.

d. No payment will accrue under Clause 6 when the contractor is off shift in compliance with the mandatory "Work/Rest" and "Length of Commitment" provisions. As an option to rotating personnel, or taking a mandatory day off, without pay, the contractor may be released from the incident.

**CLAUSE 8.** When Government subsistence incident camps are available, meals and bedding for Contractor's operator(s) will be furnished without charge. Government will furnish meals and lodging without cost if hotel/restaurant subsistence is the approved camp for incident personnel. Double occupancy of hotel rooms may be required. Contractors are not paid per diem or lodging expenses to and from incidents.

**CLAUSE 9.** Loss, Damage, or Destruction -

(a) For equipment furnished under this EERA **without** operator, the Government will assume liability for any loss, damage or destruction of such equipment, except that no reimbursement will be made for loss, damage or destruction due to (1) ordinary wear or tear, (2) mechanical failure, or (3) the fault or negligence of the Contractor or the Contractor's agents or employees or Government employee owned and operated equipment.

(b) For equipment furnished under this EERA with operator, the Government shall not be liable for any loss, damage or destruction of such equipment, except for loss, damage or destruction resulting from the negligence, or wrongful act(s) of Government employee(s) while acting within the scope of their employment. The operator is responsible for operating the equipment within its operating limits and responsible for safety of the equipment.

**CLAUSE 10.** Contractor's Responsibility for Property and Personal Damages - Except as provided in Clause 9, the Contractor will be responsible for all damages to property and to persons, including third parties, that occur as a result of Contractor or Contractor's agents or employee fault or negligence. The term "third parties" is construed to include employees of the Government. **CLAUSE 11.** Deductions -Unless specifically stated elsewhere in this agreement the cost of any supplies, materials, or services, including commissary, provided for the Contractor by the Government will be deducted from the payment to the Contractor.

**CLAUSE 12.** Personal Protective Clothing and Equipment – The Government considers operators as fireline personnel who will use and wear specified articles of personal protective equipment.

a. The following mandatory items will be issued by the Government, when not required to be furnished by the Contractor, to operators performing within the scope of this agreement:

1. Clothing: (a) Flame resistant pants and shirts; (b) Gloves (*Either Nomex or chrome tanned leather;* (c) Hard hat; (d) Goggles or safety glasses.

 Equipment: (a) Fire shelter; (b) Headlamp; (c) Individual First-Aid Kit;
 Other items may be issued by the Government.

b. Operators shall wear the items of clothing issued and maintain the issued equipment in a usable and readily available condition. Upon completion of the contract assignment, all issued items of clothing or equipment shall be returned to the Government. Deductions will be made for all Government furnished protective clothing and equipment not returned by the Contractor.

**CLAUSE 13.** COMMERCIAL MOTOR VEHICLES: All commercial motor vehicles must meet all DOT requirements. The regulations can be found at the following website:

### www.fmcsa.dot.gov

**CLAUSE 14.** CLAIM SETTLEMENT AUTHORITY– For the purpose of settling claims, the successor contracting officer is any contracting officer acting within their delegated warrant authority, under the clauses of this agreement, and limits set by the incident agency.

**CLAUSE 15.** CHANGES TO EMERGENCY EQUIPMENT RENTAL AGREEMENTS Changes to Emergency Equipment Rental Agreements (EERA's), OF294 may only be made by the original signing procurement official. If the original signing procurement official is not available and adjustments are deemed appropriate, a new EERA shall be executed at the incident and shall be applicable only for the duration of that incident. The agreement will include name and location of the incident.

CLAUSE 16. FIREARM – WEAPON PROHIBITION - The possession of firearms or other dangerous weapon (18 USC 930 (f)(2) are prohibited at all times while on Government Property and during performance of services, under this agreement. The term dangerous weapon does not include a pocket knifes with a blade less than  $2\frac{1}{2}$  inches in length or a multi purpose tools such as a leatherman.

### **CLAUSE 17.** WORK REST and LENGTH OF ASSIGNMENT: The Contractor is required to follow the work rest guidelines as established by the NWCG. Refer to website for the guidelines: www.nwcg.gov

### CLAUSE 18. HARRASSMENT FREE WORKPLACE -

Contractors shall abide by "U.S. Code, Title VII, Civil Rights Act of 1964, Executive Order EO-93-05, Secretary's Memorandum 4430-2 Workplace Violence Policy, and Harassment Free Workplace (29 CFR Part 1614)". Regulations can be found at http://www.gpoaccess.gov/.

**CLAUSE 19.** Definitions - The following definitions for Block 8 of the EERA are added: Information about business size is collected for tracking purposes only.

a. - 14-15.<u>Work or Daily Rate</u>. Enter the units worked in sub-block "A" from the shift ticket. Enter the rate in sub-block "B" from block 11 of the EERA or the Schedule of Items or the Resource Category form in the I-BPA. Extend the units worked times the rate and enter the amount in sub-block "C".
- 16. <u>Total Amount Earned</u>. Add the totals of blocks 14c and 15c and enter in block 16.
- 17. <u>Guarantee</u>. Enter the guarantee from block 13 of the EERA or the Schedule of Items or the Resource Category form of the I-BPA. If equipment is under a daily rate, there is no guarantee.
- 18. <u>Amount</u>. Enter the higher amount of block 16 or block 17.
- 19. Charge Code. Enter incident agency accounting code.
- 20. Object Code. Payment personnel complete the object code.
- 21. <u>Released/Withdrawn</u>. Check the appropriate box and enter the date and time from blocks 13, 14, or 15 of the shift ticket.
- 22. <u>Remarks</u>. Enter any remarks necessary to explain the information on the invoice, such as the reasons for additions or deductions, or a pending claim.
- 23. Gross Amount Due. Total of entries in column 18.
- 24. <u>Previous Page(s)</u>. If the invoice is more than 1 page in length, carry the amounts forward and enter in this block.
- 25. Total Amount Due. Total blocks 23 and 24.

- 26. <u>Deductions</u>. Enter any deductions (i.e. repairs, commissary and fuel) to the invoice and explain in block 22. Attach supporting documents to the invoice.
- 27. Additions. Enter any additions (i.e. contractor supplied fuel and/or parts) to the invoice and explain in block 22. Attach supporting documents to the invoice.
- 28. Net Amount. Total of blocks 25, 26, and 27.
- 29. <u>Release</u>. The contractor should read and agree with the statement in this block. If the contractor has any exceptions, it should be so noted in the remarks.
- 30, 31, 34. <u>Contractor's Signature, Title, Date</u>. The contractor or authorized agent signs, dates, and prints name and title in these blocks.
- 32, 33, 35. <u>Receiving Officer's Signature, Title, Date</u>. The Receiving Officer, normally the Procurement Unit Leader, signs, dates, and prints name and title in these blocks. It should be explained to the contractor that the invoice is subject to audit and errors will be corrected prior to payment.

CHAPTER 30
------------

OBJE	CTIVE
	hapter sets forth procedures governing property management requirements g to incident activities. These procedures apply to all incident operations.
RESP	ONSIBILITIES
Agenc	y Administrator responsibilities:
•	Provide agency property management guidelines and/or procedures to incident personnel.
<u>Buyin</u>	g Team Leader responsibilities:
•	Report the purchase of accountable property to the incident agency.
•	Follow incident agency guidelines for the purchase of accountable property.
•	Work with the incident agency to establish a set of guidelines for the current incident assignment if no guidelines are in place.
Incide	nt Commander responsibilities:
•	Establish and maintain a sound property management program for the incident.
Supply	<u>Unit Leader</u> responsibilities:
•	Order equipment and supplies; receive, store and maintain an inventory of supplies; and service non-NFES supplies and equipment (e.g., chainsaw repair).
Superv	visor responsibilities:
•	Inform subordinate personnel of their property accountability responsibilities and ensure adherence.

#### **Incident Base Security/Storage**

Property stored at incident base must be adequately protected to prevent theft or
vandalism. A specific area must be designated for property storage. Access to
the area is restricted at all times and under the observation of individuals with
designated property management responsibilities. Appropriate protection
measures may include use of agency law enforcement personnel, state and local
law enforcement agencies, or private security agents.

## **Property Receipting Procedures**

2 Property and supplies may be furnished from various sources and reports of

receipt must be made to the incident agency. Shipments are generally

accompanied by a packing list, bill of lading, or other shipping document. The

supply unit must verify items shipped are received and must, in all cases, note

shortages, overages, and damages and share this information with buying team personnel or others as necessary. When shipments are not accompanied by

documents, the receiving unit must inventory and acknowledge receipt on the

Interagency Incident Waybill, OF-316 (Exhibit 33) or appropriate document.

Any information available from shipping containers or persons making delivery must also be noted.

From Government Sources of Supply:

- <u>Agency Caches and Warehouses</u> Acknowledge receipt on Interagency Incident Waybill, OF-316 or appropriate document.
  - <u>Other Agencies, State and Local</u> Use packing lists or other documents accompanying shipments to acknowledge receipt.

From Commercial Sources of Supply - When incident orders for property and supplies cannot be filled by agency or GSA supply systems, orders may be

placed with commercial sources for direct delivery to the incident base.

Incident agency procurement regulations must be followed. The incident order
 number and request number, e.g., E#, S#, must be indicated on all receipts and

40

• <u>Government Charge Cards and Convenience Checks</u> - Receipt of property and supplies purchased by these methods must be acknowledged by an original bill, sales slip, cash register tape, or

documentation.

1 2 3 4 5 6 7 8	<ul> <li>invoice. (Chapter 20 Acquisition Methods.) The charge card holder/convenience check writer is responsible for providing copies of sales slips, etc. to the incident agency. Use of government charge cards may be restricted by issuing agency or the incident agency for the purchase of accountable property. The cardholder must follow the more restrictive of their home agency or incident agency policy.</li> <li><u>Blanket Purchase Agreements/Charge Accounts</u> - The incident agency</li> </ul>				
9	may establish blanket purchase agreements or charge accounts for				
10	materials and supplies with local vendors. Sales slips or delivery				
11	tickets must include a legible signature by the individual receiving the				
12	merchandise.				
13	T 1 / 01 /1				
14 15	Identification				
15 16	Property received from the incident supply system is generally identified as				
10 17	government property. If not, or if property is received directly from a				
17	commercial vendor or GSA, it must be identified as government property.				
18 19	commercial vehicle of OSA, it must be identified as government property.				
20	Accountable Property – Items with a purchase price of \$5,000 or more (USDI or				
21	USDA), or items the incident agency considers sensitive, e.g., cameras,				
22	chainsaws, personal or laptop computers, GPS units.				
23					
24	State and other federal agencies may have established a different purchase price				
25	for accountable and sensitive property. This property is generally tagged with an				
26	agency identification number. Property obtained through the cache system may				
27	be designated as trackable property and should be handled the same as				
28	accountable or sensitive property.				
29					
30	Incident management teams (IMT) or buying teams should create a separate				
31	tagging/tracking system for property procured or rented for the incident from				
32	commercial sources in order to facilitate the disposal of the property to the				
33	correct location at the end of the incident, e.g., a label containing item, value,				
34	resource request number, incident name, date purchased, and location for return				
35	at end of incident, can be used as a tracking tool.				
36					
37	<u>Durable Property</u> – Durable property includes those non-accountable items,				
38	which have a useful life expectancy greater than 1 incident, e.g., sleeping bags,				
39	water handling accessories, tents, headlamps, tools. This property may be				
40	marked with paint or etching to show GSA, FSS, or an agency-specific marking.				

# PROPERTY MANAGEMENT CHAPTER 30

1	Consumable Goods - Consumable goods are items normally expected to be				
2	consumed on the incident, e.g., batteries, Meals Ready to Eat (MREs), plastic				
3	canteens, petroleum products. This property is not marked.				
4 5	Trackable Property – Items maintained by a cache that are tracked due to their				
6	dollar value, durability, and potential sensitive property classification will be				
7	engraved or tagged with a cache identification number. Trackable property does				
8	not meet the dollar threshold of accountable property.				
9					
10	Property Accountability Controls				
11 12	Property and supplies obtained from all sources of supply are under the control				
13	of the incident agency.				
14					
15	Accountable Property List – The incident base must maintain a list of				
16	accountable property to ensure property control. This list must show serial				
17	numbers of accountable property and may include additional items deemed				
18	sensitive by the incident agency.				
19					
20	Issues, Transfers, and Returns				
21					
22	• <u>Issues to Personnel</u> – The transfer of all durable and accountable				
23	property must be recorded at the time of issue. The Interagency				
24	Incident Waybill, OF-316 (Exhibit 33) or approved automated				
25	application may be used.				
26					
27	• <u>Transfers Between Personnel</u> – To transfer assigned property to another				
28	person on the incident, obtain and record the name of the individual to				
29	whom the property is being transferred, notify their supervisor, and give				
30	to the Supply Unit Leader.				
31					
32	• <u>Transfers Between Crews</u> – To transfer a large quantity of property				
33	between crews, the crew supervisor shall ensure an accurate accounting				
34	of property is made, names of individuals accepting the property are				
35	recorded, and notification of the transfer is given to the Supply Unit				
36	Leader.				
37					
38	• <u>Transfers Between Incidents</u> – When property is transferred directly				
39	from 1 incident to another, the Supply Unit Leader will document all				
40	items to be released. The documentation should consolidate groupings				

1	0	f similar items, e.g., supplies, equipment, and must include the
2	fo	ollowing:
3		
4		• The National Fire Equipment System (NFES) number.
5		o Item Number.
6		o Quantity.
7		o Description.
8		• Property number, if the property is accountable or trackable.
9		• Receiving incident name, incident number, and resource
10		order/request number.
11		
12	• T	he Supply Unit Leader shall report the transfer(s) to the incident
13	a	gency and to the servicing cache upon completion of the
14	<u>d</u>	ocumentation. This process for cache items may be facilitated through
15	a	n automated program with the cache system.
16		
17	• T	he cache will credit the issuing incident for these items and assign
18	th	nem to the receiver. The Fire Loss/Use Tolerance Report will then
19	re	eflect accurate numbers for both incidents. Three copies of the
20	d	ocumentation are required for: the incident agency (Final Incident
21	Р	ackage), the servicing cache, and the Supply Unit Leader's records.
22		
23	• <u>R</u>	teturns from Personnel – Items returned by incident personnel are
24	ir	spected and compared with the quantities recorded on the original
25	W	vaybill document. Shortages or damages must be noted in the Remarks
26	S	ection on the receipt form.
27		
28		<u>Jtilization</u> – Issued property/supplies that become unusable should be
29		the incident Supply Unit. The Supply Unit Leader should identify
30		plies and work with the servicing cache as soon as possible to
31	facilitate r	eturn of the items.
32		
33		oss – The individual responsible for or assigned the property is
34		e to document loss or damage on the Property Loss or Damage Report,
35		Exhibit 35 or available electronically at www.gsa.gov) or appropriate
36		r home unit form(s). The individual, supervisor, and witness document
37		circumstances on the form. The Incident Commander or Logistics
38		nief shall review, sign, and take any follow-up action. All reports of
39	loss or dar	nage must be submitted to the incident agency.

1 2 3 4	•	<u>Government Equipment</u> – The home unit normally adjudicates government equipment damage/loss reports to ensure the correct accounting code is charged.
5	•	Government Property – The incident agency should limit replacement
6	-	to those items that are consumed, lost, damaged or rendered
7		unserviceable on the incident. These items can be replaced at the
8		incident or the incident can approve an Incident Replacement
9		Requisition, OF-315 (Exhibit 34) for replacement of items by a cache
10		or at the home unit.
11		
12		Caches may only process requests for NFES items. Requests for non-
13		NFES items should be requested on a separate incident replacement
14		requisition to be processed by the home unit.
15		
16		IMTs or other incident personnel (e.g., IBA) may authorize replacement
17		of non-NFES or non-standard cache items if delegated authority by the
18		incident agency. If no delegation exists documentation is provided to
19		the incident agency for review and determination. Written
20		documentation is provided to the home unit, authorizing replacement of
21		government property items that have been destroyed or rendered
22		otherwise unserviceable while being used on the incident.
23		
24		Replacement of non-standard items not procured through mandatory
25		sources of supply (Chapter 20) may be authorized up to a dollar limit
26		identified through these sources; costs beyond this amount should be
27		covered by home unit program dollars. Prototype equipment will not
28		be replaced with suppression funds. The incident agency may require
29		the damaged property be turned in before replacement is authorized.
30		
31		Property numbered items must be carefully tracked and property
32		records documented.
33		
34		• <u>Contractor Property</u> – Contractor owned property, e.g., hose,
35		fittings, Personal Protective Equipment (PPE), tents, may not be
36		replaced through incident supply. The contractor must document
37		damaged or lost property and submit the claim through the
38		Procurement Unit Leader or Contracting Officer for a
39		determination. Do not issue an Incident Replacement Requisition,
40		OF-315 to a contractor.

Employee Owned Property - Employee claims from regular federal 1 2 government employees and federal casuals are covered under the 3 Military Personnel and Civilian Employees Claims Act. (Chapter 70). Claims from state and local government employees are covered under 4 5 applicable state regulations. 6 7 Fire Loss Tolerance - A goal of property management on incidents is to prevent 8 the loss of property and supplies. To accomplish this goal, IMT and incident agencies should review and follow loss tolerance guidelines. The Incident 9 Commander is accountable for meeting fire loss use rate guidelines. These 10 guidelines are frequently a percentage of the durable property. Fire Loss/Use 11 12 Rate is defined as all property and supplies lost, damaged, or consumed on an 13 incident. 14 15 National Incident Support Cache managers monitor incident ordering and returns to ensure stocking levels are adequate to meet current and projected needs. 16 17 Inventories are established on an average use rate. 18 19 If the loss of durable items exceeds loss tolerance guidelines, and it is known 20 prior to the release of the IMT, the IMT will provide documentation of the loss 21 to the incident agency and the servicing cache. 22 23 Accountable Property – At the end of the incident, all accountable property must be returned to the appropriate owner, e.g., incident agency or local, geographic, 24 or national cache. If accountable property is missing, damaged or unserviceable, 25 complete the forms as noted under the Damage/Loss section in this chapter. 26 27 28 Property Record Reconciliation - The Logistics Section will provide the incident 29 agency with documentation of receipt and return of all accountable and durable property. Differences will be documented on the Property Loss or Damage 30 Report, OF-289 or appropriate incident or home unit forms. 31 32 33 **Clearance and Demobilization Procedures** 34 35 Upon receiving instructions to demobilize, property management personnel shall 36 ensure adequate staffing to effect closure in an efficient and timely manner. 37 38 Return of Property – After checking in property (accountable and durable), property management personnel shall inspect all property. If property is 39 40 damaged to the extent it is not economical to repair, a record must be made of 41 the items, quantities, serial numbers, and agency property numbers. Return all

1 2 3	property and supplies to the appropriate locations using an Interagency Incident Waybill, OF-316, or an approved incident document.
4 5	<u>Clearance</u> – Logistics and Finance/Administration Sections shall coordinate during demobilization to ensure property is returned. An individual's final time
6	report must not be processed until clearance is obtained from the Logistics
7	Section Chief. If a regular government employee or cooperator is to be held
8	liable for property loss, the Finance/Administration Section will submit the
9	appropriate incident agency Property Loss or Damage form(s), OF-289 to the
10	incident agency for submission to employee's or cooperator's home unit. A
11	casuals deduction will be made on the Emergency Firefighter Time Report, OF-
12	288. A contractor's deductions will be made on the Emergency Equipment Use
13	Invoice, OF-286 or other established payment document.
14	
15	All Other Property Records - All other property records, such as receipts and
16	issues, must be forwarded to the incident agency for necessary action.
17	
18	RECYCLING AT INCIDENT BASE
19	
20	Federal Executive Order No. 12873 requires federal agencies to promote cost-
21	effective waste reduction and recycling of reusable materials for wastes
22	generated by federal government activities. Public Law 103-329, (H.R. 4539),
23	Sec. 608 authorizes all federal agencies to receive and use funds resulting from
24	the sale of materials recovered through recycling or waste prevention programs.
25	
26	Recycling at incident base requires coordination with the incident agency. The
27	incident agency provides information on recycling procedures and requirements
28	to the IMT at the Agency Administrator briefing.
29	
30	The Logistics Section will manage incident recycling. Incident agency recycling
31	guidelines should provide details for collecting and storing of material, and
32	arranging for pickup and disposition.
33	
34	Initiating recycling could include the following steps:
35	
36	• <u>Determine if recycling is an option</u> - Coordinate with the incident
37	agency and use established agreements or contracts to the extent
38	possible as well as contact the servicing cache for their capability of
39	supporting re-cycling.
40	• Identify what items can be recycled and how they will be disposed - If
41	the incident agency does not have a program in place, check to see if

1 2		collection services are available locally. Items may be separated for pick up by local charitable organizations. A disposition plan for
3		recycling materials should include collection points and disposition.
4		
5	•	Demobilization - The Logistics Section will coordinate with the
6		incident agency to ensure all recyclable material is disposed of
7		properly.

#### Interagency Incident Waybill Instructions

The completion of this form: 1. insures that hazardous materials shipments are listed in the required format. 2. documents the return of supplies from an incident.

The completion of this form is the responsibility "Ship From" unit. This would be the Supply Unit Leader (SPUL) at an incident; the Cache Manager (FCMG) or delegate at an incident support cache.

Ship To: Enter the unit name and physical street address. Do not use a P.O. Box.

Ship From: Enter either the name of the incident base or the address from where the load is being shipped.

Incident Name: Name of the incident.

Incident number: Do not forget the state identifier.

Accounting/Management Code: Enter Original numbers assigned, P number and BLM charge codes.

Contact/Phone: Name and telephone number in case of questions or a problem with the shipment.

Carrier/Driver/Vehicle #: Name and number of the vehicle and driver.

Pieces: Number of cartons/boxes/packages on the delivery.

ETD: Estimated time of departure from "Ship From" location.

ETA: Estimated time of arrival to "Ship To" location.

Hazardous Materials Declaration: Complete per 49 CFR. If you are not trained in the proper handling of hazardous materials, obtain assistance from qualified individual.

Total Quantity: Total, gross or net, including unit of measurement.

Hazardous material must be entered as the first item or highlighted on this form. Hazardous materials must be correctly labeled and placarded.

Emergency Response Phone Number: Obtain from local unit with incident responsibility. Must be a 24-hour, on-call response number.

Item #: Incident use to identify a specific line item.

NFES #: National Fire Equipment System assigned number. Qty: Quantity U/I: Unit of issue

Item description: name of the item.

Property number: Entered if the item being returned has an assigned property number.

Medical waste must be transported to a licensed facility for proper disposal. Do not ship medical waste to an incident cache. Recycling of plastics, cardboard, etc., is highly recommended and is the responsibility of the incident.

# EXHIBIT 34 - Continued INSTRUCTIONS FOR INCIDENT REPLACEMENT REQUISITION

# **TYPE I OR TYPE II INCIDENTS**

The incident Supply Unit Leader (SPUL) will be responsible for handling incident replacement requisitions when a Type I or Type II incident management team is assigned. The SPUL approves replacement requests based on Engine Accountability sheets or other fire equipment inventory documents approved by the requesting resource's home unit.

- If equipment and supplies are available at the incident for replacement, the request is filled at the incident supply unit.
- If equipment and supplies are unavailable at the incident for replacement, AND the requesting resource is not being immediately demobilized, the Supply Unit will place a resource order for needed items through appropriate channels to the servicing fire cache. The order will be shipped to the incident and replacement will take place at the Supply Unit.
- If equipment and supplies are unavailable at the incident for replacement, AND the requesting resource is being demobilized, an Incident Replacement Requisition will be completed by the Supply Unit and forwarded to the geographic area cache.

All national geographic area caches will accept Incident Replacement Requisitions.

Authorized approvals and signatures MUST be included on the requisition. For Type I and II incidents, these approvals are limited to: Incident Supply Unit Leader, Logistics Section Chief, Support Branch Director, Incident Commander or Agency Administrator or Representative.

# <u>EXHIBIT 34 – Continued</u> <u>INSTRUCTIONS FOR INCIDENT REPLACEMENT REQUISITION</u>

# TYPE III OR TYPE IV INCIDENTS

The hosting unit agency administrator or representative, such as the Fire Management Officer, will be responsible for handling incident replacement requisitions on Type III and IV incidents. The agency representative approves replacement requests based on Engine Accountability sheets or other fire equipment inventory documents approved by the requesting resource's home unit.

- If equipment and supplies are available at the incident for replacement, the request is filled at the incident host unit.
- If equipment and supplies are unavailable at the incident for replacement, AND the requesting resource is not being immediately demobilized, the hosting unit will place a resource order for needed items through appropriate channels to the servicing fire cache. The order will be shipped to the incident and replacement will take place at the host unit.
- If equipment and supplies are unavailable at the incident for replacement, AND the requesting resource is being demobilized, an Incident Replacement Requisition will be completed by the host unit and forwarded to the geographic area cache.
- All national geographic area caches will accept Incident Replacement Requisitions.
- Type III and IV incident approvals are limited to the Agency Administrator or Representative (i.e., Fire
- Management Officer).

Replacement orders must be processed within 30 days of control of the incident.

The incident's servicing cache may forward completed requisitions to the requesting unit's geographic area cache for processing.

If a cache is unable to fill the request (i.e., does not stock item), the cache will forward request to the closest cache that does stock the item for processing.

OBJE	CCTIVE
incide	hapter establishes guidelines for coordination responsibilities between the nt agency and the incident management team (IMT). Each y/geographic area should supplement this chapter to meet specific needs.
RESP	ONSIBILITIES
Incide	nt Agency responsibilities:
•	Establish business management requirements and monitor the quality and/or progress of incident business management throughout the incident.
Incide	nt Management Team (IMT) responsibilities:
•	Ensure all incident business management requirements are met prior to close-out with the incident agency or transfer of command to another IMT.
DEFI	NITIONS
Defini Glossa	tions used throughout this handbook are located in Appendix C - ary.
INCI	DENT AGENCY COORDINATION
The in require during Admin throug Admin	acident agency should prepare an IMT briefing package addressing agency ements in advance of the incident to facilitate the exchange of information g the initial briefing. The Agency Administrator may designate an inistrative Representative to monitor business management activities gh visits to the incident site and support sites. Information on the Agency inistrators incident business management responsibilities can be found at: www.nwcg.gov/teams/ibpwt/instructional.html.
	ess Management Briefing Package. As part of the briefing package, the
inform	ey Administrator should provide incident business management nation and expectations to the IMT (Incident Business Operating lines in Appendix B – Tool Kit). The information should contain:

1 2 3 4 5 6 7 8 9 10	•	Identification of the Incident Business Advisor (IBA) or other agency personnel with administrative/fiscal oversight responsibilities. The IBA works under the direct supervision of the Agency Administrator and in coordination with the IMT. The primary duty of the IBA is to provide the Agency Administrator or their delegate with an overview of incident management business practices, make recommendations for improvements, and facilitate communication with the IMT and other resources assigned in support of the incident. An IBA Field Reference can be found on the NWCG Incident Business Committee web page found at: <u>http://www.nwcg.gov/branches/pre/ibc/index.htm</u>

# ADMINISTRATIVE PAYMENT TEAM (APT) COORDINATION

1 2

3 APTs are ordered by the incident agency and report to the Agency Administrator 4 or other designated incident agency personnel. APTs work with the local 5 administrative staff to expedite incident payments. An APT should only be ordered when the length of the incident is of a long duration and/or the incident 6 agency does not have the resources to process payments within prompt payment 7 timeframes. 8 9 The APT is authorized to make payment for supplies, materials, services, and 10 equipment rental utilized on an incident in accordance with APT guidelines and 11 incident agency policy. The APT forwards the original payment documentation 12 to the National Park Service Accounting Operations Center (AOC) for retention and provides the incident agency with copies of all documentation per incident 13 14 agency direction. 15 16 The APT communicates payment package, audit, and processing requirements 17 to the FSC, buying team, and incident agency administrative staff. 18 19 APTs utilize a Contracting Officer for interpreting contracts and agreements while processing incident payments. If the composition of the APT does not 20 21 include a Contracting Officer, the incident agency may provide one if necessary. 22 INCIDENT INFORMATION TECHNOLOGY COORDINATION 23 24 25 Computer systems include desktop computers, laptop computers, thin client 26 computers, and peripherals used in either a network or standalone environment 27 that supports an incident at the Incident Command Post (ICP) and the remote 28 sites managed by the ICP. 29 30 It is the responsibility of the Computer Technical Specialist (CTSP) or the 31 person filling the incident information technology role to adhere to agency 32 policy regarding incident security standards. Incident agencies may provide 33 additional information technology (IT) direction in written form to IMTs to further define security policies and standards in order to maintain IT security 34 35 controls at the incident site, meet operational requirements to support the incident, and protect the confidentiality, integrity and availability of electronic 36 37 data. In addition to incident security standards, individuals will adhere to their 38 home unit IT policies on equipment provided by their agency. Standard 39 practices need to include, but are not limited to: prohibited password sharing, 40 prohibiting unauthorized use of computer systems, adhering to the proper use of

41 the internet. All users of the incident computer system will be held accountable

- 1 for any unauthorized or inappropriate activity that occurs on a computer under 2 their login credentials.
- 3

4 Only authorized computer systems should be taken to an incident. Computer 5 systems may be connected to an incident agency in a controlled and negotiated manner. Once a computer system is released from the incident, it should only be 6 7 reconnected to the home unit corporate network after meeting home unit agency security standard requirements. Leased or rented systems must have the hard 8 drives completely sanitized of all data using write-over technology before it is 9 10 returned to the vendor. It is the responsibility of the CTSP to determine what 11 computers are added to the incident network. 12 13 When I-Suite is used on an incident the IMT is required to upload the I-Suite 14 database to the National Data Repository (Reference instructions at 15 http://isuite.nwcg.gov) and provide an electronic version to the incident agency 16 in the final incident package with the necessary passwords. The incident agency maintains this copy as the official database. IMT members and incident 17

personnel will not take any database copies with them when leaving the

incident. The Agency Administrator is responsible to ensure the IMT has

20 complied with this requirement prior to release of the team.

20 21

# OTHER TEAM COORDINATION

22 23

During the course of the incident, the incident agency may utilize special teams,
e.g., Burned Area Emergency Response (BAER), Prevention, Cost Review, Cost
Apportionment Team, Fire and Aviation Safety (FAST), Investigation, etc. The
Agency Administrator or their designee coordinates with the IMT and support
units to assist in meeting the objectives of the special teams. Reference
appropriate agency/interagency handbook for specific team responsibilities and
expectations, e.g., BAER Handbook.

OBJECTIVE		
This chapter provides information and guidelines relating to interagency		
0	nents, cooperative agreements, Presidential emergency or disaster	
declarations through the Federal Emergency Management Agency (FEMA),		
	ations under the FEMA Fire Management Assistance Grant Program, and	
use of t	the military for domestic response duties.	
RESPO	ONSIBILITIES	
Incider	nt agency responsibilities:	
•	Provide a copy of applicable agreements along with annually reviewed operating plans to incident management personnel in order to ensure compliance and avoid misunderstandings.	
٠	Negotiate additions or changes to applicable Operating Plan(s) when	
	needed and distribute copies of the modified Operating Plan(s), as	
	appropriate.	
Incider	nt Management Team (IMT) responsibilities:	
•	Ensure the terms and conditions of agreements and operating plans are	
	adhered to, e.g., appropriately managing and utilizing equipment,	
	personnel, supplies, and documenting costs.	
Financ	e/Administration Section Chief (FSC) responsibilities:	
٠	Know the provisions in the agreements have a bearing on incident	
	business management and related record keeping.	
DEFIN	NITIONS	
Definit	tions used throughout this handbook are located in Appendix C -

1	Agreements with Tribes
2	
3	Under P.L. 93-638, Indian Self-Determination and Education Act as amended,
4	tribes are authorized to assume (through a contract, compact, commercial
5	agreement or cooperative agreement) functions normally accomplished by the
6	federal government.
7	
8	The annual work plan, as applicable, in the contract, compact, or agreement may
9	not address interagency incident management; however, the tribe is to be treated
10	on a government-to-government basis, and federal support should not be
11	withheld or billed. Before tribal employees and/or equipment are used in
12	support functions on other federal or state jurisdiction, an agreement should be
13	in place to reimburse the tribe. This may be in their contract or compact. A
14	Contract Officers Representative (COR) or a Federal Trust Officer should be
15	available who can assist the IMT in coordination with the tribe.
16	
17	Agreements between Federal and State Fire Organizations
18	
19	It is common for the federal wildland fire agencies to have a cooperative
20	agreement with their respective state agency. The federal agency must have
21	statutory authority to enter into the agreement. These agreements and their
22	corresponding operating plans outline the terms and conditions for sharing
23	resources and processing reimbursement.
24	
25	In some states, city, county, and rural fire service organizations are considered
26	state resources and are subject to the conditions in the state/federal agreement.
27	The payment to those resources will be completed through the terms of the
28	agreement with the state. In other instances, local fire service organizations may
29	have an agreement with their local federal agency and the terms of that
30	agreement will be followed for payment.
31	
32	Agreements with Other Government Entities
33	
34	These are agreements with local governments. Foreign government agreements
35	are completed at the national level and require specific authority.
36	
37	Cost Share Agreements for Multi-Jurisdiction Incidents
38	
39	The authority, guidelines, and process for entering into a cost share agreement
40	are outlined in the agreement between the affected parties. The FSC should

review the agreement and any related operating plan for direction applicable to 1 2 the specific cooperators (Chapter 80). 3 4 STATE FIRE MANAGEMENT ASSISTANCE 5 6 Authority 7 8 Section 420 of the Stafford Act authorizes the President to provide assistance 9 through the Fire Management Assistance Grant Program (FMAG) to any state 10 for the suppression of fire on publicly or privately-owned forest or grassland, when the state determines the fire meets the criteria of the FMAG program and 11 submits for FEMA determination of reimbursement. FEMA is delegated the 12 13 authority to administer this program. Assistance for qualifying incidents is provided in the form of reimbursements in accordance with the FEMA-State 14 15 Agreement. 16 Process 17 18 19 For administering the program, the FEMA Regional Director obtains technical advice and assistance from a designated individual referred to as a Principal 20 21 Advisor. The Principal Advisor is a representative from either the FS or the 22 BLM. 23 24 In cases where a state has requested reimbursement of eligible fire management 25 assistance costs from FEMA, incident management personnel may be asked to 26 help state personnel or the Principal Advisor obtain information to support the states reimbursement claim request. FEMA uses a comprehensive set of criteria 27 28 to determine whether wildland fire costs meet the eligibility requirements and the intent of the Stafford Act, and are eligible for reimbursement. 29 30 31 Should an incident be declared eligible for FEMA assistance, the state, the 32 Principal Advisor, and the IMT work together to ensure existing agreements and 33 cost accounting procedures are adequate to provide a clear, supportable record 34 of the state's share of incident costs. In most cases, the costs need to be 35 identified by operational period. 36 37 FEMA Fire Management Assistance will be provided only for the eligible incident period identified as meeting the criteria of a threat under the definitions 38 39 of the Act and the Fire Management Assistance Grant. Based upon information 40 provided during or after the incident, FEMA determines the eligible incident period. The beginning of the incident period may vary but it generally ends 41

1	once the fire is controlled and the imminent threat of a major disaster no longer			
2	exists.			
3	Detailed fiscal records are essential to identify and substantiate the state			
4	expenditures that are eligible for reimbursement under the intent of the Fire			
5	Management Assistance Grant.			
6				
7	IMTs should consider the following:			
8	init's should consider the following.			
9	• If a state agency is the protecting or responsible agency for lands			
10	involved or threatened by the fire, ask the state officials whether a			
11	request for FEMA fire management assistance has been made or is			
12	contemplated.			
13				
14	• If the answer is "yes", the Incident Commander and the FSC should			
15	meet with the state officials and the Principal Advisor to establish the			
16	cost accounting requirements and documentation required to meet the			
17	needs of the state under their agreement with FEMA.			
18				
19	• Request copies of all cooperative fire agreements between the state and			
20	their local and federal cooperators, as well as any cost share			
21	agreements.			
22				
23	<ul> <li>Make sure all pay documents include the specific incident order and</li> </ul>			
24	request number(s). FEMA will look for this cross reference when			
25	auditing the incident records for reimbursements.			
26

31	The Interagency Agreement between United States Department of Defense			
32	(DoD) and United States Departments of Agriculture and Interior is published in			
33	the National Interagency Mobilization Guide, Chapter 40, Cooperation. The			
34	information contained in the National Interagency Mobilization Guide and the			
35	Military Use Handbook provides the responsibilities, policies, and operational			
36	procedures regarding the military's support to the wildland fire management			
37	agencies, which includes request and use of their qualified civilian employees.

1	OBJECTIVE
2	
3	This chapter sets forth procedures governing claims for and against the
4	government.
5	
6	Claims against the government may be filed by any aggrieved person, or his/her
7	authorized agent or legal representative. Claims may be filed for property loss,
8	property damage, personal injury, or death.
9	
10	Claims for personal injury of regular government employees and casuals are
11	processed as outlined in Chapter 10.
12	
13	The government is mandated to collect for damage to, or loss of, its property.
14	
15	AUTHORITIES
16	
17	Claims may be processed under authority of the following:
18	
19	Contract Disputes Act of 1978 – Claims arising under, or related to, contracts are
20	settled under the Contract Disputes Act of 1978. Claims under the Contracts
21	Disputes Act may be filed by the contractor against the government or by the
22	government against the contractor, when either party believes it has been harmed
23	by the others actions outside the terms and conditions of the contract. A
24	contracting officer is the only person authorized to settle these claims (Chapter
25	20).
26	$E_{1} = 1 = 1 = 1 = 1 = 1 = 1 = 1 = 1 = 1 =$
27	Federal Tort Claims Act (28 USC 1346(b) and 2671-2680) – This Act provides
28	for the filing of claims against the United States for personal property damage or
29 20	loss, personal injury, or wrongful death caused by the negligent or wrongful acts
30	or omissions of federal government employees while acting within the scope of
31	their employment, under circumstances where the United States, if regarded as a
32 33	private person, would be liable to the claimant in accordance with the law of the state where the act or omission occurred. Only the USDA Office of the General
33 34	state where the act or omission occurred. Only the USDA Office of the General Counsel (OGC) and the USDI Office of the Solicitor have the authority to settle
	claims under the Federal Tort Claims Act.
35 36	Claims under the rederal 1011 Claims Act.
36 37	Non-Tort Act of May 27, 1930 (Property Damage) (16 USC 574) – This Act
37 38	authorizes the Secretary of Agriculture to reimburse private property owners for
38 39	damage or destruction caused by United States employees in connection with the
39 40	protection, administration, and improvement of the National Forest. The Act
-0	protection, administration, and improvement of the transmission rolest. The Act

41 provides a maximum amount payable of \$2,500. This statute provides relief

only when the United States inflicts damage on others in protecting, 1 2 administering, or improving the National Forest. It is not intended to pay for 3 damages incident to actions taken primarily to meet the needs of the private owner in relief from the same threat or situation facing government property, 4 5 e.g., extinguishing fires which threaten private property. In order to apply this Act, there must be no negligence on the part of the federal government and 6 7 damage cannot be due to the sole protection of private property. If either of these 2 conditions exist, the claim cannot be allowed under this Act and must be 8 9 considered under the Federal Tort Claims Act. Only appropriately designated officials have authority to settle claims under this Act. 10 11 12 Military Personnel and Civilian Employees Claims Act (31 USC 3721.) -13 Federal regular government employees, volunteers, and casuals may file claims for loss of or damage to personal property, provided possession of the property 14 15 was reasonable, useful, and proper under the circumstances, and the loss or damage occurred incident to the individuals service. Normally, Human 16 17 Resource Program enrollees, contractors or employees of contractors, employees 18 of cooperators, state employees or inmates assigned to incidents are not covered 19 under this Act. Interagency agreements should provide that each agency process claims of its own personnel. Only specific individuals have the authority to 20 21 settle claims under this Act. 22 23 State Authorities – State procedures regarding claims resolution vary. Contact 24 appropriate state representative for specific guidance and documentation 25 requirements. 26 RESPONSIBILITIES 27 28 29 Agency Administrator responsibilities: 30 31 Ensure procedures outlined in this handbook are implemented and • 32 followed. 33 34 Provide an incident agency claims contact for the Compensation/Claims • 35 Unit Leader. 36 37 Provide incident agency guidelines and/or procedures for investigating • 38 and processing claims. 39 40 Notify the incident agency's legal counsel or other officials as • 41 appropriate.

1	•	Submit claims from incident personnel based on agency procedures.
2	Incident	<u>Commander</u> responsibilities:
3		-
4	•	Manage the overall claims program on the incident.
5		
6	•	Ensure claims are investigated and documented.
7		
8	•	Initiate an investigation by an independent investigation team, as
9		necessary.
10		
11	Finance	Administration Section Chief responsibilities:
12		1
13	•	Initiate an investigation of each claim.
14		č
15	•	Provide recommendations for each claim (approve or deny), along with
16		a statement explaining the basis for the recommendation to the incident
17		agency.
18		
19	•	Coordinate with the Safety Officer, other section chiefs, and other
20		incident personnel to ensure all required forms, information, and
21		documentation are obtained.
22		
23	Comper	sation/Claims Unit Leader responsibilities:
24		I
25	•	Establish and ensure a system for investigating, documenting, and
26		processing claims is implemented.
27		
28	•	Coordinate with incident personnel who may have information pertinent
29		to a claim, e.g., the Ground Support Unit Leader for motor vehicle
30		claims, law enforcement/security personnel for stolen property claims.
31		
32	•	Advise potential claimants of the claims process, upon request.
33		
34	Incident	personnel responsibilities:
35		1 1
36	•	Report to their supervisor any accident, incident, or property damage
37		which has resulted, or may result, in a claim against or for the
38		government.

2 3 4 5	•	Report the accident or incident to both the Safety Officer and the Finance/Administration Section Chief.					
6	Safety C	Officer responsibilities:					
7 8	•	Coordinate investigations.					
9 10	Contrac	ting officer's responsibilities:					
11							
12 13	•	Settle contract claims within their authority and in conjunction with incident agency policy.					
14							
15	<u>Claimar</u>	<u>nt's</u> responsibilities:					
16 17	•	Comply with established incident agency and home unit policies and					
18	·	procedures in filing claims.					
19 20	DFFIN	ITIONS					
20	DEIM						
22	Definiti	ons used throughout this handbook are contained in Appendix C -					
23	Glossar	•					
24		•					
25	<u>Claim</u> –	A written demand for a specific amount of money or other objects of					
26 27	value, o	ther than ordinary obligations incurred for services, supplies, or things.					
28	Claimar	nt – An individual, partnership, association, corporation, country, the					
29		government, state, or other political subdivision asserting a right,					
30		, or claim against another entity.					
31							
32	Contrac	t - Any written agreement giving one party a right, a service, or a					
33		dity in exchange for a right, a service, or a commodity. Contracts include					
34	land use	e permits, purchase orders, equipment rental agreements, leases, etc.					
35							
36	Govern	ment Vehicle – A vehicle owned by, on loan to, leased or rented by the					
37	governm	nent.					
38							
39		nce – Failure to exercise a degree of care, which a careful and prudent					
40	(reasona	able) person would exercise under similar circumstances.					

1	Solicitor/Office of the General Counsel – Legal counsel to the Department of the							
2	Interior and the Department of Agriculture, respectively. Legal counsel is solely							
3	authorized to determine and settle tort claims.							
4								
5	<u>Tort</u> – A private or civil wrong or injury, inflicted or caused by a negligent or							
6	wrongful act or omission, giving the person who suffers from the wrong a right							
7	of action for damages. It is also defined as a breach of legal duty not imposed by							
8	contract.							
9								
10	CLAIMS INVESTIGATIONS							
11								
12	All accidents, incidents or property damage which may result in a claim for or							
13	against the government must be promptly investigated and clearly reported by a							
14	trained investigator or other qualified personnel. Ideally, the investigation is							
15	completed by law enforcement personnel in coordination with the Safety Officer.							
16	Serious accidents, e.g., fatality or hospitalization of three or more personnel,							
17	substantial property damage, or serious personal injury will normally be							
18	investigated by an independent investigation team.							
19								
20	Investigations should be made while witnesses are available, before damages							
21	have been repaired, and prior to presentation of claims.							
22								
23	If a motor vehicle accident occurs on public roads it will be investigated by the							
24	appropriate law enforcement agencies and in accordance with jurisdictional							
25	agency policy. The Motor Vehicle Accident Report, SF-91, and the Statement							
26	of Witness, SF-94, (Exhibits 42 and 43) may be used to document motor vehicle							
27	accidents.							
28								
29	The incident agency should not commission special Claims Damage Assessment							
30	Teams, except in unusual circumstances.							
31	reality, except in anasadi encanistances.							
32	CLAIMS FILING							
33								
34	A claim shall be deemed to have been presented when an incident agency, home							
35	unit, or other designated office receives written notification, accompanied by a							
36	claim for money damages in sum certain (for a specific amount) from a claimant,							
37	or his/her duly authorized agent or legal representative. Claims may be							
38	presented on a Claim for Damage, Injury, or Death (SF-95) for tort claims,							
39	agency-specific form for employee claims, or in other written form such as a							
57	agency specific form for employee claims, of in other written form such as a							

40 letter. (Exhibit 44)

1	CONTRACT CLAIMS
2 3	Contract claims (e.g., claims involving the rental of equipment or vehicles) are
4 5	covered under the Contract Disputes Act of 1978 (Chapter 20 Contract Claims).
6 7 8	The incident contracting officer can adjudicate contract claims within their warrant authority and limits set by the incident agency. For incident adjudicated claims, the vendor is normally compensated through the Emergency Equipment
9	Use Invoice (OF-286) payment process.
10	
11	TORT CLAIMS
12 13	The Claim for Damage, Injury, or Death Form, SF-95 (Exhibit 44) or other
13	written document, should be provided when requested, when a person states a
15	desire to file a claim, or when a person expresses the opinion that some
16	compensation should be made. The SF-95 should not be volunteered as a
17	routine matter of business.
18	
19	It is the responsibility of private property owners to document and substantiate
20	any claims filed for damage to or loss of personal property. Claimants must
21 22	determine and initiate their claims without the aid of government employees. They must rely on their own knowledge and records, and assume the burden for
23	proving the government negligent and for documenting their losses.
24	proving the government negrigent and for documenting their rosses.
25	Claim Documentation Requirements
26	
27	The claimant must submit the claim through an executed SF-95 (instructions are
28	on the reverse of the form) or other written and signed document. The claimant
29	must provide:
30	
31 32	• Claimants' complete name and address.
32 33	• A statement describing what action or omission of the government
34	caused the damage, loss, or injury. (This is the basis for the claim.)
35	eaused are duringly, 1000, or injury. (This is the busis for the clumit.)
36	• The sum certain (specific amount) claimed.
37	
38	The claimant should provide the following to support the written claim:

1 2 3 4	•	Proof of ownership for damaged property. Examples of documentation may include a copy of a vehicle title, registration, deed, or tax documents.							
5	•	Documentation of the amount claimed. Depending on the item(s)							
6		claimed, this may include:							
7									
8		• Two itemized repair estimates or 1 paid receipt							
9		• Medical bills							
10		• Physician's statements							
11		• If loss of income is claimed, evidence of earnings and time lost							
12		from work							
13		• If repair is not economical or possible, 2 estimates of							
14		replacement costs, age of damaged/destroyed property (month							
15		and year property was obtained), and salvage value, if any							
16									
17	•	Documentation of the insurance coverage of the property.							
18									
19	•	Witness statement(s) to support the claim.							
20	TT1 1 . 1	and for any set of the state of							
21		m form must be signed by the claimant, the claimant's legal							
22 23	1	ntative or authorized agent. If signed by other than the claimant, ntation must be provided of the signatory's authority to act in the							
23 24		t's behalf. Claims for jointly owned property must be signed by all legal							
24	owners.	is behalf. Claims for joining owned property must be signed by an legal							
26	owners.								
27	•	A claim can be submitted to the incident or to the incident agency. It							
28		does not have to be filed at the incident.							
29									
30	•	A tort claim must be filed within 2 years of the date of the incident that							
31		gave rise to the claim.							
32									
33	Inciden	t Procedures							
34									
35	Incident	personnel, upon receipt/notification of a tort claim:							
36									
37	•	Will record the date the claim was received and initial or sign in the							
38		margin of the claim form. This is the only information to be entered on							
39		the claim by incident personnel. Incident personnel may not complete							
40		any information for the claimant.							

1 2 3	• Will immediately inform the Finance/Administration Section (e.g., Compensation/Claims Unit Leader) of the claim.								
4 5 6 7 8 9	•	• Shall neither place themselves in a position of advising claimants on claims or encouraging or discouraging the filing of claims. Title 18 of the United States Code, Section 205, specifically prohibits government officials from assisting a property owner in the filing and substantiation of a claim.							
10	Incident	personnel may not:							
11									
12	٠	Comment on the merits of a claim							
13 14		Comment on the liability of the incident agency or the private party							
14 15	•	Comment on the nationary of the incident agency of the private party							
16	•	Advise a claimant to, or not to, seek legal counsel							
17									
18	•	Refuse to accept a claim							
19									
20 21	•	Advise anyone to file a claim							
21	The Cor	npensation/Claims Unit will initiate an investigation as appropriate and							
23		at the claim on the Incident Claims and Accident Log (Exhibit 47).							
24									
25 26 27	The Compensation/Claims Unit will include all available incident information pertaining to the claim in the claims package, e.g., investigation reports, photographs, witness statements.								
28	1	r ,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,							
29		m documentation can be filed in the Incident Claims Case File Envelope							
30		(Exhibit 48). An additional copy will be retained in the Incident							
31		Package (Exhibit 39). Distribute claims documents in accordance with							
32	incident	agency procedures.							
33 34	NON-T	ORT CLAIMS							
35	11011-1								
36	Non-tort	claims are covered under the Non-Tort Act. Procedures for filing and							
37		ng non-tort claims are the same as for tort claims. Incident agency							
38	policies should provide direction relative to the payment for immediate								
39	improve	ments to damaged private land outside of the Non-Tort Act, e.g.,							

40 repairing a wire fence around a water development.

1 2 3 4	• Statement as to whether lost property was insured, whether claimant filed a claim with insurer, the disposition of the claim, or whether claimant will file a claim with insurer.							
5 6 7	The claimant must provide documentation to support the written claim. This may include:							
8 9	• Original purchase receipts.							
10 11	• Receipt for repair or replacement.							
12 13	• Two repair estimates if the item has not been repaired.							
14 15 16	• Copies of catalog descriptions or advertisements of the same or like item(s).							
17 18 19 20 21 22	• Written statements to support the claim. Claimant's statement should address whether the possession of property was necessary to the performance of duty. Include statements from individuals with knowledge of the loss or damage, or at a minimum, a statement from someone who can verify the claimant's possession of the property.							
22 23 24	• Incident supervisor statement.							
25 26	• Photos.							
27 28	• Copy of investigation report, if applicable.							
29 30 31 32	Claims need not be completed at the incident. Claimants may choose to file the claim at their home unit following agency guidelines. Claimants are responsible for obtaining witness and supervisor statements prior to leaving the incident.							
33	INCIDENT PROCEDURES							
34 35 36	Incident personnel will, upon receipt/notification of an employee claim:							
37 38 39 40	• Record the date the claim was received and initial or sign in the margin of the claim form. This is the only information to be entered by incident personnel. Incident personnel may not complete any information for the claimant.							

1 2 3	• Immediately inform the Finance/Administration Section, e.g., Compensation/Claims Unit Leader of the claim.								
4 5	The Compensation/Claims Unit will initiate an investigation as appropriate and document the claim on the Incident Claims and Accident Log (Exhibit 47).								
6 7 8 9 10	The Compensation/Claims Unit will contact the claimant's supervisor and request a statement. The statement should include the supervisors name, incident assignment, agency and home unit address and telephone number(s),								
10 11 12 13	and signature. The statement should address:								
13 14 15	• Description of the circumstances or event that resulted in the claim.								
15 16 17 18	• Whether the property claimed was reasonable, useful, or proper under the circumstances.								
19 20	• Any objections to the allowance of the claim.								
20 21 22	• Any information relative to the validity of the claim.

# **CLAIMS PROCESSING**

The incident management team will submit all original claims documentation to
the incident agency. The incident agency will review for accuracy and
completeness and will forward to the appropriate adjudicating official. This
includes forwarding employee claims to the employee's home unit, if different
than incident agency. Agencies may have specific documentation, processing
procedures and/or reimbursement limitations.

### PRIVACY ACT STATEMENT

The information on this form is subject to the Privacy Act of 1974 (5 U.S.C. section 552a). Authority to collect the information is Title 40 U.S.C. Section 491 and the title 31 U.S.C. Section 7701. The formation is required by federal Government agencies to administer motor vehicle programs, including maintaining records on accidents involving privately owned and Federal fleet vehicles, and collecting accident claims resulting from accidents. Federal employees, and employees under contract, will use the information only in the performance of their official duties. Routine uses of the collected information may include disclosures to; appropriate Federal. State. or local agencies or contractors when relevant to civil, criminal, or regulatory investigations or prosecutions; the Office of personnel Management and the General Accounting Office for program evaluation purposes; a Member of Congress or staff in response to a request for assistance by the individual of record; another Federal agency, including the Department of Treasury and Justice, or a court under judicial proceedings; agency Inspectors General in conducting audits; private insurance and the collection agencies (including agencies under contract to Treasury to collect debt), and to other agency finance offices for federal management and debt collection. Furnishing the requested information is mandatory, including the Social security Number or Taxpayer's Identification Number(TIN) for use as a unique identifier to ensure accurate identification for individuals or firms in the system.

and de	hapter establishes guidelines for documentation of actual incident costs velopment of incident cost estimates. It also provides guidance for cost is procedures, cost monitoring, and cost management reporting.
RESP	ONSIBILITIES
Agenc	y Administrator responsibilities:
•	Establish cost objectives and actively participate in cost monitoring procedures.
•	Provide financial oversight and review of incident generated cost data in accordance with the Delegation of Authority and the Wildland Fire Decision Support System (WFDSS).
•	Establish cost share agreements and determine the cost share period as appropriate.
Incider	nt Commander (IC) responsibilities:
•	Manage the incident by the most practical and economical means consistent with the resource values threatened.
•	Provide review and documentation of incident costs per incident agency requirements.
•	Document cost management actions implemented by the Incident Management Team (IMT) and submit to Agency Administrator for review and comment.
Admin	istrative Representative responsibilities:
•	Inform or advise incident personnel of accrual requirements and establish procedures for notifying other units of their applicable incident costs.
•	Ensure validation of incident cost share agreements with master cooperative agreement and agency policy.

# COST ACCOUNTING AND REPORTING CHAPTER 80

1 2	Incident	Business Advisor responsibilities:
2 3 4 5 6	•	Provide advice to the Agency Administrator if there is a need for cost apportionment personnel or additional cost analysis beyond what the IMT is providing.
0 7 8	•	Review and/or assist in the development of cost share agreements.
9 10 11	•	Communicate the Agency Administrators requirements for cost tracking and containment requirements to the IMT.
12 13	•	Provide incident agency specific cost information to the Finance/Administration Section Chief.
14 15 16	Finance,	Administration Section Chief responsibilities:
10 17 18 19	•	Ensure cost data is submitted to incident agency and included in accrual reports, as required.
20 21 22	•	Provide resource cost information to the IMT that can be utilized to manage resources, implement cost management measures, and develop costs for strategic alternatives.
23 24 25	•	Ensure costs are tracked and documented per cost share agreements.
26 27	•	Provide cost projections as appropriate.
28 29	<u>Cost Un</u>	it Leader responsibilities:
30 31 32	•	Develop incident component cost estimates in the absence of a geographic area supplement.
33 34 35	•	Coordinate with incident cost centers to gather on and off incident cost information.
35 36 37	•	Develop current and projected incident costs.
38 39 40	•	Furnish updated cost data on a daily basis to the Planning Section for inclusion in the Incident Status Summary, ICS 209.
40 41 42	•	Analyze incident resource cost information, including the evaluation and tracking of inefficient and uneconomical operations and

1 2	communicating information to the IMT through the Finance Section Chief (FSC).
3	
4	• Provide information to the IMT, incident agency and the agency
5	responsible for payment, as requested, e.g., management information
6	reports, accrual reports.
7	reports, accruai reports.
8	• Dranara and validate cost chara information
	• Prepare and validate cost share information.
9	In sident Management Trans and an il ilition
10	Incident Management Team responsibilities:
11	
12	• Provide cost information on a daily basis to the Cost Unit Leader in the
13	manner and within the time frame requested.
14	
15	<ul> <li>Identify areas of incident management activities where cost</li> </ul>
16	management measures can be improved and for providing input to the

19	DEFINITIONS
20	
21	Definitions used throughout this handbook are located in Appendix C -
22	Glossary.
23	
24	Accrual Reports – Cost reports utilized for financial obligation purposes.
25	
26	Agency Specific Costs – Costs incurred by an agency that address the sole
27	concern of only the agency or are not incurred with mutual benefit. Agency
28	specific costs are not shared.
29	
30	Billable/Reimbursable Costs – Those agency costs that are billable and/or
31	reimbursable as defined by the master or individual cost share agreement.
32	removisuere us defined of the master of mervidual cost share agreement.
33	Unified Ordering Point (UOP) – Single location through which all incident
33 34	resource orders are processed.
34 35	resource orders are processed.
	INCIDENT COSTS
36	INCIDENT COSTS
36 37	
36	<b>INCIDENT COSTS</b> Incident costs are estimated for a number of categories and by a variety of methods. The incident agency determines the level of cost detail required.

1	Cost Categories
2	
3 4	There are four primary incident cost categories. These may be further sub- categorized depending on incident complexity or incident agency requirements.
5	
6	• Personnel costs include crews, overhead and other personnel assigned
7	to the incident.
8	
9	• Equipment costs include agency equipment as well as equipment under
10	Emergency Equipment Rental Agreements (EERA), Incident Blanket
11	Purchase Agreements (I-BPA) contracts, and cooperative agreements.
12	
13	• Aircraft costs include fixed wing, rotor wing, and retardant.
14	
15	• Support Costs.
16	
17	<ul> <li>On-incident support costs include catering unit, mobile</li> </ul>
18	commissary unit, shower units, and cache supplies, etc.
19	
20	<ul> <li>Off-incident support costs include Expanded Dispatch, Buying</li> </ul>
21	Teams, Administrative Payment Teams, cache personnel, Area
22	Command, transportation to/from incident, etc.
23	
24	The following chart provides examples of where incident-related costs could be
25	obtained

25 obtained.

1	Standard Component Costs
2 3	Standard component costs included in the I Suite detabase are utilized by most
4	Standard component costs included in the I-Suite database are utilized by most agencies. These standard component costs may be supplemented by the
5	geographic areas or agencies. Component costs are measured on a daily, hourly,
6	mileage or other dollar value (per unit) basis. Refer to
7	http://www.nwcg.gov/pms/pubs/large.html#iibmh for the current standard
8	component costs.
9	•
10	Actual Costs
11	
12	Actual costs may be used when available.
13	
14	Estimated Costs
15	
16	Estimated costs may be developed at the incident by averaging the cost of like
17	resources. This may be done within any of the four cost categories.
18	Commonito Conta
19 20	Composite Costs
20	Composite costing combines methods and categories and is the most efficient,
22	accurate method to determine incident costs.
23	
24	COST METHODS
25	
26	Initial Estimation
27	
28	Initial estimation is generally used during the early stages of the incident to
29	provide a preliminary estimate for reporting purposes. The initial estimate is
30	usually calculated on a per unit basis, e.g., number of acres, number of
31	personnel, and number of days. The Cost Unit Leader should revise the total
32	incident cost as more accurate data becomes available.
33	
34	Resource Cost Method
35	
36 37	The resource cost method multiplies the number of resources by the unit cost (standard component, actual or estimated) to calculate the cost of that resource
37 38	per day. This method should be used to estimate costs for incidents that go
38 39	beyond initial attack.
57	beyond militar attack.

TRACKING AND REPORTING METHODS
The following contains information on developing and reporting incident costs. Regardless of the method used, cost information should be provided to the IMT and incident agency in a clear, concise format, such as: summary sheets that list daily costs by category; graphical displays (such as bar or pie charts); and/or detail sheets showing the individual resource costs (Appendix B – Tool Kit, Cost Summary Sheet).
AUTOMATED COST ACCOUNTING
The Cost Module of I-Suite is designed to allow users to easily track individual resources in a database format. The system creates a daily line entry for each resource. System users can then analyze, manipulate, and create outputs of this information in a variety of report formats. Reference the I-Suite User's Guide at <u>http://isuite.nwcg.gov</u> for instruction on utilizing the Cost Module.
Spreadsheets
There are a variety of automated spreadsheet packages available, generally used to replicate manual accounting and track costs in major categories, e.g., 20 engines, 15 handcrews. Spreadsheets may be available from the geographic area supplement or incident agency.
Manual Accounting
This involves using standard costs and quantities of resources. These resources can then be tracked on a daily basis in a format as displayed in Exhibit 49. Reference <u>http://www.nwcg.gov/pms/pubs/large.html#iibmh</u> for the current standard component costs.
Incident Status Summary, ICS 209
The Planning Section reports the incident status to the incident agency per
operational period, using the Incident Status Summary, ICS 209. The
Finance/Administration Section provides an estimate of costs to date, and an

Finance/Administration Section provides an estimate of costs to date, and a
 estimate of total anticipated costs for these reports to the Planning Section.

#### **Agency Accrual Reports**

3 Incident agencies may have specific incident cost reporting and/or accrual 4 requirements. The Administrative Representative establishes the reporting

5 requirements and communicates them to the IMT.

## COST ANALYSIS

8

9 Incident cost documentation and analysis are important management tools. It is 10 the responsibility of all incident personnel to have knowledge of and be able to 11 perform their job in the most cost efficient manner possible. All command and 12 general staff IMT members should continually evaluate their section's 13 operations to identify and implement cost savings.

# 14

15 Exhibit 50 provides some guidelines for the IMT to use to implement cost

management measures on an incident. The exhibit includes recommendations 16

17 on cost assessment procedures, identifies problem cost areas and identifies

18 factors that are generally not cost-effective.

19 20

# COST PROJECTION

21

22 Cost projections are developed for both strategic and obligation purposes. These

23 projections can be for a single strategic alternative or multiple alternatives, and

24 should take into account current resources, alternative strategies, and standard 25 costs.

26

27 Single alternative projections are done by identifying all current resources,

- 28 applying a projected strategy to reduce the number of resources over the
- 29 following days, e.g., 5 crews demobilized on day 5, 10 crews demobilized the
- 30 next day, and applying the standard cost for all resources.
- 31

32 Cost projections are most often done to: estimate costs for the Wildland Fire 33 Decision Support System (WFDSS); to project costs through the estimated

- 34 incident duration; and meet incident agency accrual requirements.
- 35

#### 36 COST SHARE AGREEMENTS

37

38 The information presented in this section is intended to supplement established

39 agency master agreements. The terms of master agreements take precedence 40 over this handbook.

1 2		hare agreement documents the financial responsibility for incident costs. It may also identify requirements of other party payments. A
3 4	cost sha	re agreement should be prepared for multi-jurisdiction incidents where a has been made to share resource costs (Exhibit 51).
5		
6 7		agreements between agencies should address the need for incident- agreements and identify agency specific requirements, including format
8 9		ired signatures. Jurisdictional agency representatives sign the cost reement.
10	share ug	
11	A cost s	hare agreement may be established for on-incident costs as well as off-
12		costs (expanded dispatch, mobilization centers, etc.). More than 1
13		ent may be necessary to document cost share responsibility (incident and
14	support	costs).
15	<b>.</b>	
16		complexity changes frequently and may affect the terms of the cost
17		reement. Therefore, the agreement may be amended as necessary.
18		gency Administrator and the Incident Commander(s) should receive a
19 20	copy of	the final agreement.
20 21 22	Cost sha	are agreements should identify the following:
22	•	Costs to be shared.
24	•	costs to be shared.
25 26	•	Costs to be borne by each agency (not shared).
27 28	•	Method by which costs will be shared.
29 30	•	Cost share period.
31 32 33		are agreements must easily be understood and correspond to agency cost ing/tracking methods in order to facilitate the billing process.
34	Cost Sh	ared Items
35		
36		owing is a list of costs typically shared in multi-jurisdiction incidents.
37		is not all-inclusive. Costs associated with, and incurred by, incident
38	generate	ed resource orders are typically shared.
39		
40 41	•	<u>Aircraft Costs</u> – Aircraft (fixed and rotor wing) and associated retardant costs.

1	•	Equipment Costs – Emergency equipment used to support the incident.
2 3 4 5	•	Incident Cache Costs – Cache costs may include refurbishment, replacement, resupply, and labor costs.
6 7 8 9 10	•	<u>Incident Rehabilitation Costs</u> – Rehabilitation activities of assigned incident personnel to mitigate further damage to improvements and land occurring from direct suppression activity can be included in cost sharing, e.g., minor fence repair, dozer line, erosion control.
10 11 12 13 14 15	•	<u>Initial Attack Resource Costs</u> – Initial attack resource costs are included in determining the cost-share percentages and in deriving actual incident costs. In a cost-share incident, agreement provisions for initial attack assistance at no cost may not apply.
16 17 18 19 20 21	•	<u>Off-Incident Support Sites</u> – Mobilization, demobilization, sites, etc., usually serve multiple incidents and are not ordered by a specific incident. The incident cost share agreement usually will not address cost sharing of these sites. Incident agencies may establish separate cost share agreements for these items.
21 22 23 24 25	•	<u>On-Incident Support Costs</u> – Costs incurred for services supplied within the incident, e.g., shower units, catering units, commissary units, cache supplies and materials.
26 27 28	•	<u>Personnel Costs</u> – Costs of assigned incident personnel including the IMT, crews, casuals, etc.
29 30 31	•	$\underline{\text{Transportation Costs}}$ – Costs associated with movement of resources to and from an incident.
32	Non-Co	ost Shared Items
33 34 35	The fol	lowing items are typically not cost shared:
36 37 38 39	•	<u>Accountable Property</u> – Accountable and/or sensitive property, as defined by each agency, that is purchased by the agency and becomes property of the agency.
40 41 42	•	<u>Administrative Overhead Costs</u> – Costs of agency personnel, support, and services not directly assigned or ordered by an incident. These include normal operating expenses such as basic utility costs, buildings

1 2 3 4		and facilities rent, administrative support, and personnel. These costs are usually agency specific, unless addressed in master or cost share agreements.
5 6 7 8	•	<u>Administrative Surcharge</u> – A pre-established percentage applied by an agency to the settlement billing on the net amount owed per master agreement
9 10 11 12	•	<u>Claims Costs</u> – Responsibility for claims or extraordinary settlement costs should be addressed through a separate agreement between agencies.
13 14 15 16	•	<u>Move Up and Cover Costs</u> – Includes additional costs over and above base salary of "backfilling" agency personnel to meet agency specific staffing requirements.
17 18 19 20	•	<u>Post Incident Rehabilitation Costs</u> – Costs incurred to rehabilitate burned lands, such as seeding, check dam construction, and archaeological mitigation.
21 22 23	•	Waste, Fraud, and Abuse Costs – Costs resulting from waste, fraud, or abuse.
24 25	Final C	ost Determination
25 26 27 28 29		an be determined by using incident generated data, which will include nd estimated expenditures or may be finalized using agency financial

If there is a change in the Administrators or representatives, they must have clear understanding e decisions and agreements used to develop the final cost-share ages and conditions of the final agreement.
38	COST	SHARE METHODS
39 40 41 42	method	ng are four methods of cost share for multi-jurisdictional incidents. All s require a signed agreement. The agreement shown in Exhibit 49, trates the cost apportionment process.

1	Initial Attack Agreement
2	
3 4	During initial attack, resources are dispatched per preseason agreements or an
4 5	established operating plan, to a multi-jurisdictional fire.
6	If the incident is controlled with initial attack resources, Agency Administrators
7	may agree to cost share some or all resource costs, e.g., dozers or crews working
8	on both areas of responsibility, regardless of which agency dispatched the
9	resources.
10	
11	You Order You Pay (YOYP)
12	
13	Under YOYP, each agency is fiscally responsible for the resources they order,
14	regardless of where they are used on the incident. YOYP procedures are as
15	follows:
16 17	A unified and aims as intic measured and assure is a sub-suill
17 18	<ul> <li>A unified ordering point is required and agencies agree on who will order which resources.</li> </ul>
18 19	order which resources.
20	• On-incident support costs may be split by the percentage of agency
20	requested resources.
22	requested resources.
23	• Off-incident support costs are paid for by the ordering unit.
24	on monor support costs are paid for of the ordering and
25	Acres Burned
26	
27	Costs are shared based on the acreage percentage of the fire within an agency's
28	protection area. This method is used when agencies' responsibilities, objectives,
29	and suppression costs are similar.
30	Cost Annoticement
31 32	Cost Apportionment
32 33	The cost apportionment process is a more complex system for identifying
34	agency cost share where incident agencies agree to share costs.
35	agency cost share where merdent agencies agree to share costs.
36	• The apportionment method is used to share final incident costs based
37	upon the usage of resources per operational period.
38	
39	• Costs are documented and approved by the IC(s) or other designated
40	incident agency personnel on a daily basis.

Direct costs, e.g., helicopters, crews, airtankers, retardant, are shared 1 2 based upon assignment in the Incident Action Plan or actual use. 3 Support costs, e.g., overhead team, caterer, are shared proportionally to the direct costs. Agency specific costs are not shared. 4 5 6 Some geographic areas utilize Cost Apportionment Teams (CAT) to assist 7 incident agencies in tracking and documenting incident costs. The CAT should 8 be located at or in close proximity to the incident. The CAT Leader meets with 9 the IC and other IMT members to discuss the apportionment process and 10 documentation requirements. The IC reviews and validates by signature, the daily apportionment records. 11 12 13 The CAT may be assigned to the incident and report to the Cost Unit Leader or 14 directly to the FSC, or be assigned to the incident agency and report to the 15 Administrative Representative. 16 17 Complexes / Merges / Splits (CMS) 18 19 Wildland fire emergency expenditures have grown over the past decade. This has affected the operating budgets of the federal wild and fire management 20 21 agencies and has led to increased scrutiny by Congress, the Office of Management and Budget, and other oversight agencies. As expenditures have 22 grown over time, so has the requirement for fiscal efficiency and accountability. 23 24 As a result, requirements for increased accountability for individual incident 25 expenditures and measures for assessing performance have been developed. In some cases, multiple incidents within close physical proximity are managed as a 26 27 single incident. When this occurs, it is not uncommon for incidents to be 28 merged, added to a complex, or split from a complex. This makes maintaining 29 the data and fiscal integrity of an individual incident challenging. The guidelines 30 for data management and monitoring of expenditures for Complexes / Merges / Splits (CMS) are as follows: 31 32 33 1. Maintain the data and financial integrity of individual incidents: 34 35 a. When complexing incidents, maintain individual FireCodes and ROSS 36 incidents for each incident within the complex. 37 38 If a new code for a complex is created in FireCode, associate the b. 39 individual incident codes to the complex code. Note: Complex codes 40 are typically used only for mobilization of resources until they are 41 assigned to a specific incident in the complex.

1 2 3 4 5	c.	If fires burn together, associate the fires in FireCode and utilize the "merge" function in ROSS and I-Suite. Note: Once incidents are merged in I-Suite and ROSS, the process of splitting these incidents back out may result in the loss of data integrity and history.
6 7	d.	If the need arises, a fire can be split from a complex if the recommendations in 1a, 1b, and 1c are followed.
8 9 10 11	e.	In I-Suite, enter only 1 incident per database. This will facilitate separating incidents into different databases later if the need arises.
12 13	f.	Agencies should follow individual agency fire reporting policies.
13 14 15	2. Decie	ding to complex, merge, or split:
16 17 18 19 20 21	A.	The Agency Administrator (AA) should consider consequences outlined in Appendix B - Tool Kit (B-34) when deciding to complex, merge, or split incidents. This decision should be coordinated between the AA, affected Incident Commander(s), Dispatch Center Manager(s), and State/Regional Incident Business Specialist(s).
22 23 24 25 26	B.	The AA should document the decisions, including the acreage and cost of affected incidents at the point when data integrity is in jeopardy. Appendix B - Tool Kit (B-34) provides several scenarios, issues, and effects to assist Agency Administrators with decisions related to CMS.
27	These g	uidelines will ensure wildland fire emergency expenditures can be
28		ed, performance can be measured, and the integrity of incident data can
29 30	be prese	rved.

Rick Money, USFS
Jake Zimmer, USFS

Todd Shymanski, CAL FIRE Maryanna Cycle, BLM

This cost share agreement between USDA, Forest Service (USFS), and State of California Department of Forestry and Fire Protection (CAL FIRE) was prepared under the following guidelines:

1. In accordance with the Cooperative Fire Protection Agreement between the USDA, Forest Service, USDI, Bureau of Land Management, USDI National Park Service and the California Department of Forestry and Fire Protection.

2. All costs originating from orders placed by and for the incident that can be reasonably obtained and estimated for the cost share period will be included in this agreement and will be shared on the basis of the Incident Commander's (IC)/Agency Administrator's (AA) mutual agreement.

3. Costs for nonexpendable property purchases by each agency will be charged directly to that agency and will not be shared.

4. Costs incurred by cooperators not engaged in joint fire suppression activities will not be included as a part of this cost share agreement.

5. Agency specific costs will not be shared.

6. Responsibility for tort claim costs or compensation for injury costs will not be a part of this agreement. Responsibility for these costs will be determined outside of this agreement.

7. Non-suppression rehabilitation costs are the responsibility of the jurisdictional agency and will not be shared.

8. Daily cost sharing will be documented and approved by the ICs/ARs for cost apportionment.

9. Sharing of final actual costs between the agencies will be based on a summary of daily estimated incident suppression costs and each agency's proportionate share thereof as agreed to by the jurisdictional representatives.

### EXHIBIT 51 - Continued

10. Shared costs will be based on the IC's/AA's mutual judgment and agreement as to threat, incident objectives, and resources assigned for each agency's area of responsibility.

11. Aircraft and retardant costs will be shared on an actual use basis as determined by the IC's/AA's and will be calculated as a separate cost.

12. An administrative charge, the pre-established percentage set by each agency, will be applied by the agency issuing the settlement billing for the net amount owed.

13. Within 10 months, the parties to this agreement will meet to determine the total costs of each agency. The agency whose total actual costs exceed their proportional share of the overall incident final costs as determined within this agreement will bill the other agency. The billing, when paid, will result in each agency sharing overall incident costs as herein agreed.

14. All costs relating to the Mountain Structure Branch formed at the request of the Riverside County Fire Department will be paid by the requesting agency and not included in the cost pool.

15. MAFFS will be paid by the USFS and not included in the cost pool.

16. The following agencies will be responsible for collecting actual cost/expenditure data that will make up the cost pool of shareable costs.

COST SOURCES	RESPONSIBLE AGENCY
Federal Agency	USFS – San Bernardino NF
State Agency	CAL FIRE – Riverside Ranger Unit

In accordance with the attached documentation, it is hereby agreed that cost sharing on this incident will be:

AGENCY		GROUND RESOURCES	AIRCRAFT/RETARDANT
USFS		<u>54.72%</u>	<u>90.61%</u>
CDF		<u>45.28%</u>	<u>9.39%</u>
	Total	100%	100%

#### INSTRUCTIONS SUPPLEMENTAL FIRE SUPPRESSION AND COST SHARE AGREEMENT

Numbered instructions correspond to form items that require further explanation. Supplemental agreements will be numbered consecutively following the original (#1) for each fire. Supplements may be added at any

time. Where insufficient room is available for necessary information, additional sheets or addendums may be added. Small revisions to this agreement may be completed on a single page, describing the change to the original agreement, and obtaining new signatures from those involved.

A Master Cooperative Wildland Fire Management Agreement exists between all major wildland fire protection agencies in the <insert area>. This agreement authorizes general mutual aid, including reciprocal and cooperative fire protection services elaborated upon in local annual operating plans. Other cooperative agreements exist between fire management agencies that authorize fire management services between Agencies at the sub-geographic level. The objective of the Supplemental Fire Suppression and Cost Share Agreement is to establish and document the cost sharing and basic organizational structure in response to specific fires.

Supplemental Fire Suppression and Cost Share Agreements will be negotiated between agencies involved in specific on-the-ground fire suppression activities. These agreements are mandatory when more than one jurisdictional responsibility for fire protection is affected by the placement of the fire. The agreement will not affix liability for fire cost payment by either Agency based upon responsibility for the fire origin. The designated representatives of each Agency with forces on the fire are responsible for completing and signing the agreement.

- 1. List the fire name agreed upon by Agencies involved.
- 2. Give the origin or best estimate of origin location by legal description.
- 3. Estimate the size at the time of the Supplemental Agreement.
- 4. List the Agencies involved in fire suppression operations and respective agency fire numbers.
- 5. List the date and time that the agreement is in effect. That time could be prior to or following the time that negotiations are made for the agreement.
- 6. Check the appropriate command structure for the fire. Definitions:

**UNIFIED COMMAND** – A method for all Agencies with jurisdictional responsibility to contribute to determining the overall objectives for the incident; interagency ICS team structure.

**SINGLE COMMAND STRUCTURE** – One Agency manages the incident with liaison and concurrence of objectives from other involved Agencies.

List the appropriate personnel filling ICS positions on the fire.

- 7. List any special conditions or resource objectives, i.e., dozer restrictions, mechanized restrictions, bald eagle nest, high value plantation. Operational responsibility for the fire will be defined in this section (if appropriate). Respond to this item only if Agency forces have specific segments of the fire. This information will not determine cost responsibility, unless specified in Item 11. Examples are: Divisions A and B; all structural protection areas; specific campground.
- 8. List the Agency responsible for structural protection, and any pertinent control information or contacts.
- 9. List operation conditions or directions pertaining specifically to: air operations, base camp and food service, and fire investigation. Costs pertaining to these decisions shall be documented in Item #10.
- 10. Fire suppression costs shall be determined from the information supplied in this item. There are several ways to determine the best cost share mix. A, B, and C are typically used on smaller, less complex incidents on lands with similar values and uses; D and E on larger, more complex incidents, such as those with both wildland urban interface and wildlands:
  - A. Each Agency pays for its own resources fire suppression efforts are primarily on jurisdictional responsibility lands.
  - B. Each Agency pays for its own resources services rendered approximate the percentage of jurisdictional responsibility, but not necessarily performed on those lands.
  - C. Cost share by percentage of ownership or Agency jurisdictional responsibility.
  - D. Cost is apportioned by geographic division. Examples of geographic divisions are: Divisions A and B (using a map as an attachment); privately owned property with structures; or specific locations such as campgrounds.
  - E. Reconciliation of daily estimates (for larger, multi-day incidents). This method relies upon daily agreed to cost estimates, using Incident Action Plans or other means to determine multi-Agency contributions. Reimbursements can be made upon estimates instead of actual bill receipts.

The following are not reimbursable:

- Responsibility for tort claims or compensation for injury costs.
- Non suppression rehabilitation costs are the responsibility of the jurisdictional Agency.
- Non-expendable property purchases will be the responsibility of the Agency making the purchase.

Support costs (i.e. office dispatchers, warehouse workers, etc.), unless they are charging to an emergency code assigned to the incident.

The cost centers that should be considered in this agreement:

- Fireline Resources: Dozers, engines, fallers, transports, water tenders, hand crews, line overhead.
- Fire Camp Operations and Support: Overhead, buses, camp crews, communications, food, refrigerator units, showers, toilets, water trucks, cache supplies, rescue/med, camp facility.
- Air Support: Helicopters, (with support) air tankers.
- Cost apportionment by period (i.e. state mobilization or conflagration, Fire Management Assistance

- 11. List any specific conditions relative to this agreement, such as: dispatch procedures, one Agency representing another, notifications, incident information, coordinated intelligence, etc.
- 12. Signatures of authorized personnel. List any attachments to the agreement. Give the date of the last revision or former Supplemental Agreement for the same fire.

8	AUTH	ORITIES
9 10 11 12		horities for federal agencies to respond to a Presidential emergency or isaster declaration and other non-fire emergencies are contained in the ng:
13 14 15 16 17 18	•	Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act), P.L. 93-288, as amended – The Act is implemented through the National Response Framework (NRF or Framework). An annual appropriations bill gives federal agencies the authority to reimburse state and local governments.
19 20 21 22 23		The President, in Executive Order 12148, delegated all functions, except those in Section 301, 401, and 409, to the Administrator, Federal Emergency Management Agency (FEMA).
24 25 26 27 28 29 30		The NRF uses the foundation provided by the Homeland Security Act, P.L. 107-296 HSPD-5 and the Stafford Act to provide a comprehensive, all-hazards approach to domestic incident management. Nothing in the NRF alters the existing authorities of individual federal departments and agencies. The NRF does not convey new authorities upon the Secretary of Homeland Security or any other federal official.
31 32 33 34		The National Response Framework can be found at <u>http://www.fema.gov/national-response-framework</u> .
35 36 37 38 39	•	<u>The Post-Katrina Emergency Management Reform Act (PKEMRA)</u> – Title VI of the Department of Homeland Security Appropriations Act, 2007, Pub. L. 109-295, 120 Stat. 1355 (2006), clarifies and modifies the Homeland Security Act with respect to the organizational structure, authorities, and responsibilities of FEMA and the FEMA Administrator.

1 2		In addition to these modifications, PKEMRA made changes some appearing in the Homeland Security Act and the Stafford Act.
3 4 5 6 7	•	<u>The Economy Act</u> – 31 USC 1535-1536 (2005) authorizes federal agencies to provide goods or services, on a reimbursable basis, to other federal agencies when more specific statutory authority does not exist.
8 9 10 11 12	•	<u>Service First Legislation</u> – Public Laws 106-291 and 109-54 authorize the Secretaries of the Interior and Agriculture to make reciprocal delegations of their respective authorities, duties and responsibilities in support of the Service First initiative agency-wide to promote customer service and operational efficiency. Service First may be used in place
13 14		or in addition to the Economy Act to expedite interagency cooperation.
15 16 17 18	•	<u>The National Emergencies Act</u> – 50 USC 1601-1651 (2005) establishes procedures for Presidential declaration of a national emergency and the termination of national emergencies by the President or Congress.
19 20	•	<u>The Office of Federal Procurement Policy Act</u> – 41 USC 428a (2004) authorizes emergency procurement authorities (1) in support of a
21 22 23 24		contingency operation; or (2) to facilitate the defense against or recovery from nuclear, biological, chemical, or radiological attack against the United States. Also reference Federal Acquisition Regulation Part 18.2.
25 26	•	The Emergency Federal Law Enforcement Assistance Act (EFLEA) –
20 27 28 29 30 31	·	42 USC 10501 (2006) authorizes the attorney general, in a law enforcement emergency and upon written request by a governor, to coordinate and deploy emergency federal law enforcement assistance to state and local law enforcement authorities.
32 33 34 35 36 37 38 39 40	•	National Oil and Hazardous Substances Pollution Contingency Plan. (NCP, 40 CFR 300) – The NCP provides the organizational structure and procedures for preparing for and responding to discharges of oil and releases of hazardous substances, pollutants, and contaminants. The NCP is required by section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), 42 U.S.C. 9605, as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA), P.L. 99–499, and by section 311(d) of the Clean Water Act (CWA), 33 U.S.C.
41		1321(d), as amended by the Oil Pollution Act of 1990 (OPA), P.L.

1 2 3 4 5 6 7 8 9 10 11 12	101–380. The NCP identifies the national response organization that may be activated in response actions to discharges of oil and releases of hazardous substances, pollutants, and contaminants in accordance with the authorities of CERCLA and the CWA. It specifies responsibilities among the federal, state, and local governments and describes resources that are available for response, and provides procedures for involving state governments in the initiation, development, selection, and implementation of response actions, pursuant to CERCLA. The NCP works in conjunction with the National Response Framework through Emergency Support Function $10 - Oil$ and Hazardous Material Response.
12	DEFINITIONS
14	
15 16	Definitions used throughout this handbook are located in Appendix C - Glossary.
17	Glossary.
18	All-Hazards Incident – An incident, natural or man-made, that warrants action to
19	protect life, property, environment, public health or safety, and minimize
20	disruptions of government, social, or economic activities.
21	
22	Emergency – Any incident, whether natural or man-made, that requires
23	responsive action to protect life or property. Under the Robert T. Stafford
24	Disaster Relief and Emergency Assistance Act, an emergency means any
25	occasion or instance for which, in the determination of the President, federal
26	assistance is needed to supplement state and local efforts and capabilities to save
27	lives and to protect property and public health and safety, or to lessen or avert
28	the threat of a catastrophe in any part of the United States.
29 30	Emergency Support Function (ESF) – Used by the federal government and many
30 31	state governments as the primary mechanism at the operational level to organize
32	and provide assistance. ESFs align categories of resources and provide strategic
33	objectives for their use. ESFs utilize standardized resource management
34	concepts such as typing, inventorying, and tracking to facilitate the dispatch,
35	deployment, and recovery of resources before, during, and after an incident.
36	
37	ESF Coordinator – The entity with management oversight for that particular
38	ESF. The coordinator has ongoing responsibilities throughout the preparedness,
39	response, and recovery phases of incident management.
40	ESF Primary Agency – A federal agency with significant authorities, roles,
41	resources, or capabilities for a particular function within an ESF. A federal

1 2	agency designated as an ESF primary agency serves as a federal executive agent under the Federal Coordinating Officer (or Federal Resource Coordinator for
3	non-Stafford Act incidents) to accomplish the ESF mission.
4	
5	ESF Support Agency – An entity with specific capabilities or resources that
6	support the primary agencies in executing the mission of the ESF.
7	
8	Federal Coordinating Officer (FCO) – The official appointed by the President to
9	execute Stafford Act authorities, including the commitment of FEMA resources
10	and mission assignment of other federal departments or agencies. In all cases,
11	the FCO represents the FEMA Administrator in the field to discharge all FEMA
12	responsibilities for the response and recovery efforts underway. For Stafford
13	Act events, the FCO is the primary federal representative with whom the State
14	Coordinating Officer and other state, tribal, and local response officials interface
15	to determine the most urgent needs and set objectives for an effective response in
16	collaboration with the Unified Coordination Group.
17	
18	Major Disaster – Under the Robert T. Stafford Disaster Relief and Emergency
19	Assistance Act, any natural catastrophe (including any hurricane, tornado, storm,
20	high water, wind-driven water, tidal wave, tsunami, earthquake, volcanic
21	eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause,
22	any fire, flood, or explosion in any part of the United States that, in the
23	determination of the President, causes damage of sufficient severity and
24	magnitude to warrant major disaster assistance under the Stafford Act to
25	supplement the efforts and available resources of states, local governments, and
26	disaster relief organizations in alleviating the damage, loss, hardship, or
27	suffering caused thereby.
28	
29	Mission Assignment – The mechanism used to support federal operations in a
30	Stafford Act major disaster or emergency declaration. It orders immediate,
31	short-term emergency response assistance when an applicable state or local
32	government is overwhelmed by the event and lacks the capability to perform, or
33	contract for, the necessary work.
34	
35	Pollution Response Funding Authorizations (PRFA) – The mechanism used to
36	authorize funding for operations under the National Oil and Hazardous
37	Substances Pollutions Contingency Plan, as directed by the US Coast Guard
38	and/or the Environmental Protection Agency.
39	PRESIDENTIAL EMERGENCY OR MAJOR DISASTER

40 **DECLARATION** 

Pro	cess
for	NRF identifies the coordinating agency and primary agency(s) responsible each of the 15 Emergency Support Functions (ESF) outlined in the nework. It also identifies the support roles of the various federal agencies
	me under the Framework. The following are typical ESFs the federal lland fire agencies may work under:
ESF	F #4, Firefighting
	The Forest Service (FS) is designated the ESF Coordinator and
	primary agency. For operations that occur in the State of Alaska, the FS remains the primary agency under the NRF, but works closely with the Department of the Interior (DOI), Bureau of Land
	Management (BLM) who serves as the operational lead for firefighting response.
ESF	F #9, Search and Rescue
	The DOI, National Park Service (NPS) is designated as a primary
	agency for inland/wilderness search and rescue.
ESF	F #11, Agriculture and Natural Resources
<u>1001</u>	The Department of Agriculture (USDA) is designated the ESF
	Coordinator and co-primary agency. The DOI is designated as co- primary agency.
	h the Forest Service and Department of the Interior serve as support agencies ther ESFs, refer to the NRF for the support roles of the various Departments.
The	Federal Coordinating Officer (FCO) manages and coordinates federal
	burce support activities related to Stafford Act disasters and emergencies.
The	FCO and FEMA accomplish many of their tasks through mission
assi	gnments given to primary and supporting agencies. FEMA orders ESF
	stance through a mission assignment, which identifies the mission and
esta	blishes expenditure limitations.
For	example, the agency could be tasked to accomplish a specific mission such
	o operate a receiving and distribution center in support of a particular
disa	ster. The agency would use its available resources, including those available
thro	ugh federal and state agreements, to complete the assignment.

1	
2	Mission assignments are accomplished utilizing resources obtained through
3	established dispatch coordination concepts and processes. Procedures
4	established in the National Interagency Mobilization Guide shall be followed in
5	responding to disaster related emergencies under the NRF.
6	
7	Non-Stafford Act Disasters
8	
9	Consult agency specific guidelines for all-hazards responses not specifically
10 11	covered by a Presidential emergency declaration. These guidelines should outline the level of response allowed and include any additional requirements.

# PROCEDURES FOR REIMBURSEMENT

- The primary agency is tasked by FEMA on a mission assignment. The
   primary agency can then subtask any needed support agencies to accomplish
   the mission, e.g., DOI, Department of Commerce.
- FEMA reimburses the primary agency upon receipt and examination of
   eligible, documented costs incurred.
- 38
- Support agencies submit documentation of expenses for reimbursement to
   the primary agency following agency policy. The primary agency reviews

2	the support agency in writing when the billing package has been approved.
3	Refer to NRF, Financial Management Annex for direction.
4	$f_{4} = F_{1}^{1} + \frac{1}{2} + \frac{1}$
5	Items Eligible for Reimbursement (Reference 44 CFR 206.8)
6	
7 8	• Overtime, travel, and per diem of permanent federal agency personnel.
9	• Wages (regular time, overtime and premium pay), travel, and per diem, as
10	appropriate, of temporary federal agency personnel, casuals, or non-federal
11	cooperators assigned solely to perform the services required to execute the
12	NRF or services directed by the FEMA Associate Director or FEMA
13	Regional Director in the major disaster or emergency area designated by the
14	FEMA Regional Director.
15	
16	Cost of work, services, and materials procured under contract for the
17	purpose of providing assistance directed by the FEMA Associate Director or
18	the FEMA Regional Director.
19	
20	• Cost of materials, equipment, and supplies (including transportation, repair,
21	and maintenance) from regular stocks used in providing directed assistance.
22	
23	• All costs incurred which are paid from trust, revolving, or other funds, and
24	whose reimbursement is required by law.
25	
26	• Other costs submitted by an agency with written justification or otherwise
27	agreed to in writing by the FEMA Associate Director or the FEMA
28	Regional Director and the agency.
29	
30	The FEMA will not reimburse agencies for accountable/durable property, e.g.,
31	cache items, and the procuring agency will assume the cost of items not returned.
32	
33	The FEMA will consider reimbursement of agency charge card purchases only if
34	the necessary supporting documentation is provided. All charges must be
35	supported by an incident order and request number (resource order number).
36	Agency procedures for establishing reimbursable charge codes should be
37	followed.

- □ Noxious Weeds Abatement and Survey
- General clean-up (trash removal, final janitorial service, floor waxing, etc.)
- $\Box$  Re-sod of athletic fields
- □ Reconditioning floors (of gyms, carpet replacement, etc.)
- Pumping of septic systems (feasible to use system, or rely solely on port-a-potties?)
- □ Mending fences damaged during incident

#### CONSIDERATIONS FOR DETERMINING RATE

- BEFORE NEGOTIATING RATE:
  - o Determine ownership of land / facilities
  - Confirm owner's agent if applicable
  - o Resources available to confirm ownership
    - City or County Tax Assessor's Office
    - Courthouse
- Private Campgrounds what are average receipts / revenues for similar time period
- Historical record of rates for use in local area local rangers may be good source
- Facilities if facility is abandoned from normal use, consider revenue lost for the activities
- Fairgrounds were there any events cancelled or rescheduled to make them available? Cost of relocating and feeding of stock
- Are there vacant facilities held by other agencies available?
- Consider a not to exceed rate commensurate with property value
- Sources of market research:
  - o banks
  - real estate offices
  - o local employees
  - local assessor offices
  - o local agency lands offices
  - o newspapers
  - feed store bulletin boards
  - o documentation at local offices from previous incidents

(vii) <u>52.223-5</u>, Pollution Prevention and Right-to-Know Information (Aug 2003) (E.O. 13148) (Applies to services performed on Federal facilities).

(viii) <u>52.223-15</u>, Energy Efficiency in Energy-Consuming Products (DEC 2007) (<u>42 U.S.C. 8259b</u>) (Unless exempt pursuant to <u>23.204</u>, applies to contracts when energy-consuming products listed in the ENERGY STAR® Program or Federal Energy Management Program (FEMP) will be—

(A) Delivered;

(B) Acquired by the Contractor for use in performing services at a Federally-controlled facility;

(C) Furnished by the Contractor for use by the Government; or

(D) Specified in the design of a building or work, or incorporated during its construction, renovation, or maintenance.)

(ix) <u>52.225-1</u>, Buy American Act—Supplies (Feb 2009) (<u>41 U.S.C. 10a-10d</u>) (Applies to contracts for supplies, and to contracts for services involving the furnishing of supplies, for use in the United States or its outlying areas, if the value of the supply contract or supply portion of a service contract exceeds the micropurchase threshold and the acquisition—

(A) Is set aside for small business concerns; or

(B) Cannot be set aside for small business concerns (see <u>19.502-2</u>), and does not exceed \$25,000).

(x) <u>52.232-33</u>, Payment by Electronic Funds Transfer—Central Contractor Registration (Oct 2003). (Applies when the payment will be made by electronic funds transfer (EFT) and the payment office uses the Central Contractor Registration (CCR) database as its source of EFT information.)

(xi) <u>52.232-34</u>, Payment by Electronic Funds Transfer—Other than Central Contractor Registration (MAY 1999). (Applies when the payment will be made by EFT and the payment office does not use the CCR database as its source of EFT information.)

(xii) <u>52.247-64</u>, Preference for Privately Owned U.S.-Flag Commercial Vessels (Feb 2006) (<u>46 U.S.C. App. 1241</u>). (Applies to supplies transported by ocean vessels (except for the types of subcontracts listed at <u>47.504(</u>d).)

(2) Listed below are additional clauses that may apply:

(i) <u>52.209-6</u>, Protecting the Government's Interest When Subcontracting with Contractors Debarred, Suspended, or Proposed for Debarment (Dec 2010) (Applies to contracts over \$30,000). (Not applicable to subcontracts for the acquisition of commercially available off-the-shelf items).

(ii) 52.211-17, Delivery of Excess Quantities (Sept 1989) (Applies to fixed-price supplies).

(iii) <u>52.226-6</u>, Promoting Excess Food Donation to Nonprofit Organizations (Mar 2009) (Pub. L. 110-247) (Applies to contracts greater than \$25,000 that provide for the provision, the service, or the sale of food in the United States.)

(iv) 52.247-29, F.o.b. Origin (Feb 2006) (Applies to supplies if delivery is f.o.b. origin).

(v) 52.247-34, F.o.b. Destination (Nov 1991) (Applies to supplies if delivery is f.o.b. destination).

(c) FAR <u>52.252-2</u>, Clauses Incorporated by Reference (Feb 1998). This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

#### [Insert one or more Internet addresses]

(d) *Inspection/Acceptance*. The Contractor shall tender for acceptance only those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. The Government must exercise its postacceptance rights—

(1) Within a reasonable period of time after the defect was discovered or should have been discovered; and

(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(e) *Excusable delays.* The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence, such as acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all

reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(f) Termination for the Government's convenience. The Government reserves the right to terminate this contract, or any part hereof, for its sole convenience. In the event of such termination, the Contractor shall immediately stop all work hereunder and shall immediately cause any and all of its suppliers and subcontractors to cease work. Subject to the terms of this contract, the Contractor shall be paid a percentage of the contract price reflecting the percentage of the work performed prior to the notice of termination, plus reasonable charges that the Contractor can demonstrate to the satisfaction of the Government, using its standard record keeping system, have resulted from the termination. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. This paragraph does not give the Government any right to audit the Contractor's records. The Contractor shall not be paid for any work performed or costs incurred that reasonably could have been avoided.

(g) *Termination for cause*. The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(h) Warranty. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

#### SAMPLE INCIDENT BUSINESS OPERATING GUIDELINES

#### INCIDENT BUSINESS OPERATING GUIDELINES

#### (unit name)

Enclosed are Operating Guidelines for incident business administration activities on the \_\_\_\_\_\_. These guidelines are provided to support incident management team (IMT) operations and to provide consistency in incident business management operations throughout the unit. Deviation from these guidelines will be negotiated with the Incident Business Advisor (IBA) or Agency Administrator (AA) or Administrative Representative in advance.

#### Incident Business Advisor

Delegation of Authority. The incident agency's Administrative Representative (name, work phone (###) ###-####; cell phone (###) ###-####, home phone (###) ###-####) is the delegated IBA for the incident agency. An off-unit IBA may be resource ordered to assist the unit. During the IBA's absence, any of the following may be delegated IBA responsibilities, depending on availability:

#### Name Position Work Phone # Home Phone #

An off-unit IBA may be resource ordered to assist the unit.

#### **Responsibilities**

The IBA is a liaison between the Agency Administrator and the IMT. The IBA will make visits to any established incident command post, staging area, and other incident support locations, e.g., expanded dispatch, buying team, administrative payment team, to facilitate communication and successful incident business practices. Technical specialists may accompany the IBA to assist in specific areas of concern, e.g., business, fiscal or acquisition personnel. The IBA will provide all incident support activities with telephone number(s) to ensure 24-hour contact for business management assistance.

In dealing with cost containment issues, it is important for the IBA to be a partner with the IMT and AA for effective cost containment balances, taking into consideration fire suppression tactics and strategies relative to the incident. This requires aggressive action to highlight inappropriate or questionable procurement requests as well as ineffective use of items under contract, plus

exploration of alternatives, whereby joint IC, AA and IBA decision can be made.

#### **Organization and Communications**

Names of the individuals responsible for counterpart activities:

Acquisition	(name, work phone, cell phone, home phone)						
Property Management	(name, work phone, cell phone, home phone)						
Unit Dispatch	(name, work phone, cell phone, home phone)						
Injury Compensation	(name, work phone, cell phone, home phone)						

Claims (Property Loss/Damage) (name, work phone, cell phone, home phone)

At a minimum, the Finance/Administration Section Chief (FSC) and IBA will establish a set time for daily communications for information exchange and to report current progress of incident business management operations.

<u>Note</u>: It is recommended the IBA contact the FSC after the IMT has been notified of release from the incident, to ensure all financial documents are ready for transition to the incident agency, payment office or replacement IMT and to check on the status and condition of payments processed by the Finance/Administration Section. Follow-up will also be made following payments to provide information on fiscal, procurement, etc. insights.

The Procurement Unit Leader is responsible to communicate with the Supply Unit Leader and Buying Team leader throughout the incident.

The open flow of communication between these parties will facilitate acquisition needs and property tracking.

#### **Procurement**

The <u>incident agency Administrative Representative</u> provides the Finance/Administration Section with the Incident Service and Supply Plan. Incident agency acquisition staff is available to discuss information provided in the plan.

Service and Supply Plan to include:

- Acquisition Organization Chart including contact work and cell telephone numbers
- Emergency Service Providers (include Agency-Provided Medical Care information, if applicable)
- List of Emergency Equipment Rental Agreements (EERAS) (The IMT is responsible to request copies EERAs as necessary.)
- Supply/Service Vendors (include copies of Blanket Purchase Agreements)
- Local interagency agreements and operating plans
- Incident Agency and local unit procurement procedures
- Geographic Area Equipment Rates (Interagency Incident Business Management Handbook, Chapter 20)
- Maps geographical information

Many of the normal restrictions on purchasing supplies and services apply when buying for incident operations. Some exceptions exist for emergency incident acquisition, e.g., commissary items and items in lieu of per diem necessary for operating an incident camp. Procurement personnel will consult with the IBA before purchasing such items.

Meal and motel tickets will be used and must be signed by both the procurement official and the individual(s) to which issued.

#### **Buying Unit Procedures**

Initially, incident agency acquisition staff provides acquisition support to the IMT.

The incident agency's Administrative Representative determines the need to resource order a Buying Team and may assign incident agency acquisition staff

to assist. The Buying Team will follow National Interagency Buying Team Guide operating procedures and adhere to incident agency policy.

The IBA and/or appropriate official consult with the IMT and expanded dispatch regarding Buying Team release date.

Buying Team Leader is responsible to visit the incident command post and incident support locations to establish open lines of communication with IMT personnel (e.g., Expanded Dispatch, Logistics Section Chief, Supply Unit Leader and Procurement Unit Leader) to determine the ordering process.

#### **Property Management**

The IMT is responsible to cost-effectively manage incident-assigned property, including establishing incident procedures for issuance and return of property.

The Buying Team Leader coordinates with IMT personnel to ensure tracking of sensitive, accountable property.

The IMT is responsible to ensure that property not returned is documented in accordance with incident agency procedures, including, but not limited to vendor invoice deductions, completion of property loss/damage forms.

Incident Replacement. All property treated as replacement will be so described on Agency specific forms, Waybill, or left on the incident for rehab or mop up (manifest to the incident unit). All property left on the unit at the close of the incident, will be properly temporarily transferred on the Agency's form.

#### **Commissary**

The incident agency approves the use of agency commissary.

The IMT may resource order a national contract commissary. The FSC is designated as the contract commissary Contracting Officer's Representative (COR) and will follow requirements and procedures established in the national commissary contract, including establishment of hours of operation, review/approval of items sold, completion of contractor performance evaluation, invoicing.

#### **Compensation for Injury and Agency-Provided Medical Care**

Incident agency's contact: (Name) Work telephone (###) ###-####. The IMT Compensation/Claims Unit Leader follows paperwork disposition procedures in the IIBMH.

All medical services, agency-provided medical care agreements, physicians, burn center, forms, etc., are included in the Service and Supply Plan that will be given to the Finance/Administration Section. If the plan is not readily available, contact the assigned Buying Unit or incident agency's acquisition staff for a copy of the information.

#### **Information Systems Management**

The incident agency will provide the requested computer needs available to them. Although the computer system may be used in support of the incident, it remains under the control of the incident agency's computer specialist and Administrative Representative.

Following is a list of (unit name) computer personnel and their home telephone numbers in contact order.

<u>Name</u> <u>Phone</u> <u>Shift</u>

#### **Payments**

The IBA, and/or FSC, and incident agency Administrative Representative determine the need for an Administrative Payment Team (APT).

Normally, the APT will be ordered for incidents expected to exceed 2 weeks in duration and the incident agency cannot provide payment support using regular payment procedures.

Prior to processing any payments, the APT meets with the incident agency's budget/fiscal staff to ensure procedures are in place to avoid duplicate payments.
#### SAMPLE INCIDENT BUSINESS OPERATING GUIDELINES - Continued

Depending on the length of the incident and size of vendor's operations, partial payments may be made on a case-by-case basis. All payment documents should be submitted as they are closed out for processing.

#### **Incident Agency Payments**

A representative from the budget/fiscal acquisition staff will visit Finance/Administration units to ensure accuracy of payment processes.

Invoices are to be forwarded to budget/fiscal or acquisition, as soon as completed, to ensure timely payment to vendors and contractors. Hand-deliver invoices upon incident closeout to the budget/fiscal unit. Ensure a Finance/Administration Section employee is available to discuss incomplete payments or those requiring additional clarification.

## End of Pay Period Time & Attendance Reports

The IBA and FSC will determine the most efficient and effective means for processing/communicating pay information to home units at the end of each pay period.

#### Law Enforcement

All criminal investigations will be conducted by the assigned criminal investigators and law enforcement officers, and will be supervised by the Agency Law Enforcement Coordinator (name).

Incident assigned law enforcement personnel are responsible to complete other types of investigations (claims, motor vehicle accidents, etc.).

#### **Closeout**

The Incident Finance Package will meet the standards outlined in Chapter 40 of the Interagency Incident Business Management Handbook. The \_\_\_\_\_\_ (unit) also requires the following:

# ALL HAZARDS CHECKLIST

#### ALL HAZARD CHECKLIST

#### PRE-INCIDENT

- [] Ensure access to Reference Library Wildland Fire and All Hazard.\*
- [] Copies of Agreements (interagency, joint powers, cost share, cooperative, local, etc.)
- [] Copies of Emergency Planning Documents (Pandemic, Hurricane. All Hazard Response Guides, etc.) that are applicable, if any.
- [] Geographic Area Supplements

#### ARRIVAL AT INCIDENT

- [] Participate in any in-briefings regarding the incident response.
- [] Contact Numbers of Key Agency Fiscal Personnel/Assigned Liaison, if one assigned.
- [] Incident Agency Business Operating Guidelines.
- [] Copy of Incident Agency organization chart, telephone list.
- [] Copy Incident Action Plan.
- [] Copy Wildland Fire Situation Analysis (WFSA).
- [] Copy of Delegation of Authority.
- [] Determine how medical care being handled.
- [] Procedures for hiring and paying casuals.
- [] Determine ordering processes in place or anticipated (EMAC, FEMA.)
- [] Determine who and how incident procurements are being handled.
- [] Understand expenditure, purchasing and property restrictions.
- [] Determine Incident Agency Finance Package Guidelines.
- [] Determine the need to establish agreements with other Federal partners (i.e., incidents on Federal lands where another federal agency comes to assist.)
- [] Local area and state maps.
- Copy of Emergency Support Function, Regional Operations Center, Area Command, Incident Management Team (IMT) and Incident Agency Briefing schedules and conference call times.

# ALL-HAZARDS CHECKLIST - Continued

#### DURING INCIDENT

[] Incident periods, FEMA declaration time frames.\*\*

- [] Copies of any FEMA Mission Assignment(s) (MA).\*\*
- [] Meet with Key Agency Personnel to discuss financial guidelines, issues and concerns.
- [] All Accounting Codes applicable to the incident response.\*\*
- [] Initiate incident cost accounting to meet agency reimbursement needs.
- [] ESF 4 Organization Chart for the Incident, if applicable.
- [] ESF, Regional Coordinator Center or Joint Field Office Organization Chart with contact names and numbers, as needed.
- [] On-scene FEMA contact name(s) and numbers.

#### POST INCIDENT

- [] Participate in transition meeting with incoming/outgoing financial staff advisors.
- [] Close-out with Agency Administrator or designee.

\* Found in the Tool Kit of Interagency Incident Business Management Handbook or on-line at <u>www.nwcg.gov</u>

\*\* May also be obtained at incident arrival and/or need to check on an on-going basis for additions.

1	DEFINITIONS
2	
3	Definitions contained in this chapter are used throughout the handbook.
4	Specific definitions unique to a chapter are found within that chapter. For
5	additional definitions refer to the NWCG Glossary of Wildland Fire
6	Terminology.
7	
8	Accounting Code: Agency-specific accounting data. Each agency assigns a
9	specific accounting code to an incident.
10	Administratively Determined (AD). A nerven bired and commenceted under
11	<b>Administratively Determined (AD)</b> : A person hired and compensated under the Pay Plan for Emergency Workers. Also known as casual or emergency
12 13	firefighter.
13 14	mengmer.
15	Administrative Payment Team (APT): APTs support incident agencies by
16	processing payments for resources, such as emergency equipment, casuals, local
17	vendors for supplies, etc.
18	
19	Administrative Representative (AR): Individual responsible for incident
20	agency business management functions, such as personnel, procurement, fiscal,
21	etc.
22	
23	Administrative Workweek: Period of 7 consecutive calendar days designated
24	in advance by the head of a department (5 U.S.C. 6101(a)).
25	
26	Agency Administrator (AA): Managing officer of an agency, division thereof,
27	or jurisdiction having statutory responsibility for incident mitigation and
28	management. Examples: NPS Park Superintendent, BIA Agency
29	Superintendent, USFS Forest Supervisor, BLM District Manager, FWS Refuge
30	Manager, State Forest Officer, Fire Chief, Police Chief.
31	
32	Area Command (AC): An organization established to: 1) oversee the
33 34	management of multiple incidents are each being handled by an incident management team (IMT) organization; or 2) to oversee the management of a
34 35	very large incident that has multiple IMTs assigned to it. Area Command has the
36	responsibility to set overall strategy and priorities, allocate critical resources
37	based on priorities, ensure incidents are properly managed, and objectives are
38	met and strategies followed.
39	
40	Area Commander (ACDR): The ICS position responsible for the overall
41	direction of incident management teams assigned to the same incident or
42	incidents in close proximity managed under Area Command. Position

- 1 responsibilities include ensuring conflicts are resolved, compatible incident
- 2 objectives are established, and strategies are selected for the use of critical
- 3 resources among assigned incident management teams.
- 5 **Base Hours:** The number of hours in a daily tour of duty.
- 6

4

- 7 **Basic Workweek:** Refers to the scheduled workweek of the employee
- 8 (individual) at the home unit.
- 9

Burned Area Emergency Response (BAER) Team: BAER teams are formed
to analyze post-fire conditions and to take immediate emergency stabilization
action to prevent loss of life and property, and critical and natural resources. It
is the Agency Administrator's responsibility to order or designate a BAER
Team.

- 14 Tea 15
- 16 **Buying Team:** A team that supports incident procurement through the local
- 17 administrative staff and is authorized to procure a wide range of services,
- 18 supplies, and land and equipmental rentals. In addition, the Buying Team
- 19 Leader has the responsibility of coordinating property accountability with the 20 supply unit leader.
- 20
- Casual: A person hired and compensated under the Pay Plan for Emergency
   Workers. Also refered to as Administratively Determined (AD) or Emergency
   Firefighter (EFF).
- 25
- 26 Complex: Two or more individual incidents located in the same general area27 which are assigned to a single incident commander or unified command.
- 28
- 29 **Contracting Officer (CO):** Agency personnel with specific delegation of 30 procurement authority, also known as warranted contracting officer.
- 31
- 32 Contracting Officer's Technical Representative (COTR) / Contracting
- 33 Officer's Representative (COR): An individual designated by the contracting
- 34 officer to provide technical support for the contract within specific authority and
- 35 limitations as specified in the delegation. The COTR/COR must be agency
- 36 certified.
- 37
- Contractor: Private sector personnel, vendor or business contracted to provide
   goods and services to a government agency.
- 40

- Cooperator: Local agency or person who has agreed in advance to perform
   specified fire control services and has been properly instructed to give such
   service.
- 4
- 5 **Emergency Equipment Rental Agreement (EERA):** An agreement written at 6 an incident using an OF-294. The duration is for the length of the incident only.
- 7
- 8 **Federal Wage System Employees:** Regular federal government employees
- 9 who are compensated under the Federal Wage System. They are frequently
- referred to as wage grade (WG), wage leader (WL), or wage supervisor (WS)employees.
- 12
- 13 FireCode: Unique code (alpha-numeric) assigned to wildland fires. One
- 14 FireCode project number per fire is assigned for use by all 5 federal wildland
- 15 firefighting agencies. Fire codes may be any combination of 4-digit alpha-
- 16 numeric characters. Each agency's finance community incorporates the FireCode
- 17 project number into the accounting code.
- 18
- 19 **Fireline:** For purposes of pay administration for hazardous duty, a fireline is
- 20 defined as the area within or adjacent to the perimeter of an uncontrolled
- 21 wildfire of any size in which action is being taken to control fire. Such action
- includes operations, which directly support control of fire (e.g. activities to
- 23 extinguish the fire, ground scouting, spot fire patrolling, search and rescue
- 24 operations, and backfiring).
- 25

First Aid: First aid is emergency care or treatment given to an ill or injured person before regular medical care can be obtained. First aid is generally provided by someone other than a physician. On incidents, most first aid is provided in the field or camp by Medical Unit personnel such as Emergency Medical Technicians (EMT).

31

General Schedule Employee: A regular federal government employee who is
 compensated under the General Schedule (GS) Pay Plan.

34

35 Geographic Area: A boundary designated by governmental agencies (wildland

- 36 fire protection agencies) within which they work together for the interagency,
- 37 intergovernmental planning, coordination, and operations leadership for the
- 38 effective utilization of emergency management resources within their area.
- 39 There are nine geographic areas. A listing of the areas can be found in the
- 40 National Interagency Mobilization Guide, Chapter 20, section 21.1 along with
- 41 listings of the Geographic Coordinating Areas and Geographic Area
- 42 Coordination Centers. A listing of the areas can be found in the National

Interagency Mobilization Guide, Chapter 20. www.nifc.gov/nicc/logistics/references.htm. Home Unit: For the purposes of this handbook, the employing office where the individual is regularly assigned or agency location where the individual is hired. Incident: An occurrence, either human-caused or natural phenomenon that requires action or support by emergency service personnel to prevent or minimize loss of life or damage to property and/or natural resources. **Incident Agency:** The organizational unit responsible for the incident operations, planning, logistics, and/or finance activities. Incident Assignment: An assignment to an incident (either human-caused or natural phenomenon) that requires a length of commitment. Incident Blanket Purchase Agreement (I-BPA): A preseason agreement for equipment, supplies, or services to be used on fire and all-hazards incidents, issued on an SF-1449 form. I-BPAs are awarded on a competitive basis using commercial item procedures. Incident Business Advisor (IBA): A liaison and advisor to the Agency Administrator (AA) or Area Commander (AC) who works directly for the AA or AC. The IBA serves as a bridge to the AA, incident management team and other incident support functions. Incident Commander (IC): The Incident Command System position responsible for overall management of the incident. The IC reports to the Agency Administrator for the agency having incident jurisdiction. Incident Management Team (IMT): The Incident Commander and appropriate command and general staff personnel assigned to an incident. Incident Order Number: The number assigned to an incident. This number follows a standard format where the first 2 letters indicate the state, the next 3 letters are the incident agency, and the last 4-6 digits are agency assigned. Reference the National Interagency Mobilization Guide, Chapter 10 or Unit Identifiers found at http://www.nifc.gov/nicc/logistics/references.htm **Incident Support Cache**: Refers to type 1 (national interagency support cache), type 2 (national interagency support cache satellite), and type 3 (local interagency support cache). Caches may consist of a pre-determined

1 2	complement of tools, equipment and/or supplies stored in a designated location, available for incident use.
3	
4	Incident Support Organization: Includes any off-incident support provided to
5	an incident. Examples would be agency dispatch centers, airports, mobilization
6	centers, etc.
7 8	<b>I-Suite:</b> The principle software application which supports core business
9	functions for incident management (finance, plans, supply and medical).
10	
11	Jurisdictional Agency: The agency having land and resource management
12 13	responsibility for a specific geographical or functional area, as provided by federal, state, or local law.
14	
15 16	<b>Local Resource:</b> Resources within a dispatch center's area of responsibility.
17	<b>Off Shift:</b> Non-compensable time, e.g., eating, sleeping or other activities of a
18	personal nature.
19	-
20	<b>On Shift:</b> Time of actual work, ordered standby, or compensable travel with a
21 22	specific start and ending time.
23	<b>On-Call:</b> An employee will be considered off duty and time spent in an on-call
24	status shall not be considered hours of work if: 1) The employee is allowed to
25	leave a telephone number or to carry an electronic device for the purpose of
26	being contacted, even though the employee is required to remain within a
27	reasonable call-back radius; or 2) The employee is allowed to make
28	arrangements such that any work which may arise during the on-call period will
29	be performed by another person. (Reference 5 CFR 551.431(b)(1-2)). Specific
30	state pay guidelines for non-pay status shall apply for state employees.
31	
32	<b>Operational Period:</b> The period of time scheduled for execution of a given set
33	of tactical actions, which may be specified in the Incident Action Plan.
34	
35	Ordered Standby: An employee is on duty, and time spent on standby duty is
36	hours of work if, for work-related reasons, the employee is restricted by official
37	order to a designated post of duty and is assigned to be in a state of readiness to
38	perform work with limitations on the employee's activities so substantial the
39	employee cannot use the time effectively for his or her own purposes. A finding
40	that an employee's activities are substantially limited may not be based on the
41	fact that an employee is subject to restrictions necessary to ensure that the
42	employee will be able to perform his or her duties and responsibilities, such as

1 2	restrictions on alcohol consumption or use of certain medications (5 CFR 551.431(a) (1)).
3	551.+51(a)(1)).
4	Prescribed Fire: Any fire ignited by management actions to meet specific
5	objectives. A written, approved prescribed fire plan must exist, and NEPA
6	requirements (where applicable) must be met, prior to ignition.
7	
8	Prevention Team: A Prevention Team provides support to fire prevention and
9	wildland fire educational needs preceding and during periods of high wildland
10	fire danger or prescribed fire activity. The teams provide assistance to wildland
11	fire managers with coordination of fire loss mitigation efforts with public, state
12	or local agencies.
13	
14	Procurement Officer: Agency personnel with specific delegation of
15	procurement authority, acting within the limits of agency policy of said
16	authority.
17	
18	Protecting Agency: The agency responsible for providing direct incident
19	management to a given area pursuant to a cooperative agreement, contract, or
20	other authority.
21	
22	Regular Government Employees: Includes all individuals hired under
23	authorities other than the AD Pay Plan for Emergency Workers. Federal general
24 25	schedule and federal wage system employees are included in this category.
25	Demote Assignments As off site (new standard is much as of such as the second

28	duty station or other designated off-site location.
29	Begovero Order Number/Beguest Number As recovered are ordered to
30 31	<b>Resource Order Number/Request Number:</b> As resources are ordered to respond to an incident, Resource Order Numbers (occasionally referred to as a
32	request number) are issued. The order number includes the incident number, an
32 33	alpha character (S = Supplies, E = Equipment, O = Overhead, A = Aircraft, C =
34	Crews, $M =$ Agency Provided Medical Care) followed by a sequential number
35	(e.g., MT-LNF-076, O-95). Since the Incident Order Number remains the same,
36	usually only the alpha character and sequential number are shown. (Reference
37	the National Interagency Mobilization Guide, Chapter 10)

40	Severity Funding: Suppression funds used to increase the level of
41	presuppression capability and fire preparedness when predicted or actual

\_\_\_\_\_

1 burning conditions exceed those normally expected, due to severe weather 2 conditions. 3 4 **Spot Change:** The second continuous day of an incident, a regular government employee's normal daily tour of duty is "spot changed" to where the first 8, 9, or 5 6 10 hours worked are base hours. 7 8 Supporting Agency: An agency providing suppression or other support and 9 resource assistance to a protecting agency. 10 11 **Timekeeping:** Tracking on-shift time of incident resources. Timekeeping is 12 accomplished on the Crew Time Report, SF-261, or the Emergency Equipment 13 Shift Ticket, OF-297. 14 15 Time Recording: Recording all time presented by others. Personnel time 16 recorders record time from the Crew Time Report, SF-261, to the Emergency 17 Firefighter Time Report, OF-288. Equipment time recorders record time from the Emergency Equipment Shift Ticket, OF-297, to the Emergency Equipment 18 19 Use Invoice, OF-286. 20 21 **Tour-of-duty:** The hours of a day (a daily tour of duty) and the days of an 22 administrative workweek (a weekly tour of duty) that constitutes an employee's 23 regularly scheduled administrative workweek. 24 25 **Unit Identifier:** A code used within the interagency wildland fire community to 26 uniquely identify a particular government organizational unit or a nongovernment organization recognized by NWCG as a wildland fire cooperator. 27 28 29 Warrant: The official delegation of authority to contracting officers and 30 procurement officers establishing the dollar amount and type limits for 31 acquistions. 32 33 Wildland Urban Interface (WUI): The line, area, or zone where structures and other human development meet or intermingle with undeveloped wildland 34 35 or vegetative fuels. 36 37 **WFDSS:** This system assists fire managers and analysts in making strategic and 38 tactical decisions for fire incidents. It has replaced the WFSA (Wildland Fire 39 Situation Analysis), Wildland Fire Implementation Plan (WFIP), and Long-40 Term Implementation Plan (LTIP) processes with a single process that is easier 41 to use, more intuitive, linear, scalable, and progressively responsive to changing fire complexity. WFDSS integrates the various applications used to manage 42

- 1 incidents into a single system, which streamlines the analysis and reporting
- 2 processes.
