

Incident within an Incident Scenario

Intent: Create dialog within center to preplan for Incident within Incident SOP's

Scenario July 4, 2013

The Humbug incident (Type 4) is burning in a river bottom near a freeway and is 20 acres in size. The smoke is causing visibility issues and dispatch is receiving multiple calls reference smoke and fire. The IC calls dispatch on the radio and informs them while moving to a new location on incident he is involved in a traffic accident that results in a civilian fatality with minor injuries to the IC. All other resources on scene are currently suppressing fire. The IC is unable to move his vehicle due to accident and is blocking traffic.
