

## 2021 Southwest Area Type 2 Team Rotation

The SWA IMT2 Rotation is set up where the 3 IMTs will rotate in and out of 3 slots on a weekly cycle. The following guidelines will be used by the SWCG and SWCC to manage the rotation:

- The rotation changes every Tuesday at 0001 hours
- Call-out Readiness/Response Times
  - Core Season (May 1 - July 15): 1st Out-2-hour, 2nd Out-4-hour, 3rd Out-8 hour
  - Non-Core Season: 1st Out-2-hour, 2nd Out-24-hour, 3rd Out-48 hour
    - ✦ During periods of high fire activity, the SWCG with concurrence from the IC(s) in the 2nd and 3rd out positions may elect to lessen the call-out periods
- An IMT can regain their first out slot if the entire duration of an assignment occurs within their one-week availability period
- If an IMT has two more assignments than another IMT, the SWCG in coordination with the ICs may alter the rotation
- The beginning rotation order is a product of the previous year: last in, last out basis
- In SWA PL 3 or higher, IMT members in rotation slots 1 and 2 are available to freelance "local only" and IMT members in slot 3 may freelance within the geographic area
- Regardless of SWA PL level, IMT members need to communicate with their Section Chief or IC when considering freelancing assignments in the April-Sept timeframe. Assessment of out of area assignment potential should be considered, especially those IMTs in slots 1 and 2

The rotation dates can be found on the next page.

## 2021 Southwest Area Type 2 Team Rotation

			1st Out	2nd Out	3rd Out
