Disaster Location Act, NMSA 1978, Sections 12-11-23 through 12-11-25 (EMNRD, Forestry Division)

Tort Claims Act, NMSA 1978, Section 41-4-1 *et seq.* (EMNRD, Forestry Division)

Federal Emergency Management Agency Disaster Assistance, Fire Management Assistance Grant Program, 44 CFR Part 204 (EMNRD, Forestry Division)

II. PURPOSE

The purpose of this Master Cooperative Wildland Fire Management Response Agreement (hereinafter called the Agreement) is to document the commitment of the Parties to this Agreement to improve efficiency by facilitating the coordination and exchange of personnel, equipment, supplies, services, and funds among the Parties to this Agreement in sustaining wildland fire management activities, such as prevention, preparedness, communication and education, fuels treatment and hazard mitigation, fire planning, response strategies, tactics and alternatives, suppression, and post-fire rehabilitation and restoration.

For Federal Agencies only, in addition to improving efficiency in addressing wildland fire management activities, this Agreement facilitates improved coordination regarding other incidents. The National Response Framework (NRF) applies to all federal departments and agencies that may be requested to assist or conduct operations during all-hazard events. However, this Agreement **ONLY** covers all-hazard events that are, or may become, declared as emergencies or major disasters that occur under the auspices of a Presidential Declaration of Emergency or Major Disaster under the Stafford Act, which may include wildland fire and, for Federal Agencies, non-wildland fire emergencies or major disasters. These events also require a coordinated response by an appropriate combination of state and tribal entities, along with the Federal Agencies.

For Federal Agencies only, this Agreement documents the commitment of the Federal Agencies to provide cooperation, resources, and support to the Secretary of Homeland Security and Administrator of the Federal Emergency Management Agency (FEMA) in the implementation of the NRF, as appropriate and consistent with their own authorities and responsibilities.

III. PARTIES TO THE AGREEMENT

1. The Parties to this Agreement are:
 - the State of New Mexico, Energy, Minerals and Natural Resources Department, Forestry Division, hereinafter called EMNRD, Forestry Division; and
 - the United States Department of Agriculture, Forest Service, Southwestern Region, Region 3, hereinafter called USFS; and
 - the United States Department of the Interior (USDOJ), National Park Service, Intermountain Region, hereinafter called NPS; and
 - the United States Department of the Interior, Fish and Wildlife Service, Southwest Region, hereinafter called FWS; and
 - the United States Department of the Interior, Bureau of Indian Affairs, Navajo Regional Office and Southwest Regional Office, hereinafter called BIA; and
 - the United States Department of the Interior, Bureau of Land Management, New Mexico State Office, hereinafter called BLM, and
 - the United States Department of Energy, National Nuclear Security Administration, Los Alamos Field Office, hereinafter called NA-LA.
2. The USFS, NPS, FWS, BIA, BLM, and NA-LA may hereinafter be jointly called Federal Agencies.
3. The Federal Agencies, and EMNRD, Forestry Division signatory to this Agreement will hereinafter be referred to as Parties to this Agreement.

IV. TERMINOLOGY, EXHIBITS, AND SUPPLEMENTS

Words and phrases used herein may have different meanings or interpretations for different readers. To establish a common understanding, some words and phrases as used herein are defined in the Glossary of Terms, Exhibit A. The hierarchy of terminology will be those defined by statute or regulation or rule, those defined in policy, those defined in this Agreement, and then all other agency and interagency documentation.

In the event of a conflict, the applicable definitions for the response type, wildland fire versus Stafford Act responses will take precedence. Stafford Act responses are not applicable to the EMNRD, Forestry Division under this Agreement. For wildland fire, that is the National Wildfire Coordinating Group (NWCG) Glossary of Wildland Fire Terminology, found on the Toolbox tab of the NWCG webpage (<https://www.nwcg.gov> or by direct link at <https://www.nwcg.gov/publications/pms205/nwcg-glossary-of-wildland-fire-pms-205>), and Stafford Act Response terminology corresponds to the FEMA National Incident Management System (NIMS) Glossary, available in the NIMS document (https://www.fema.gov/pdf/emergency/nims/NIMS_core.pdf).

1. Incorporation of Exhibits into Agreement

The following exhibits are hereby incorporated into this Agreement (Note: Exhibit G relates only to Stafford Act responses):

Exhibit A	Glossary of Terms
Exhibit B	Principal Contacts
Exhibit C	Operating Plan
Exhibit D	Reimbursable Billings and Payments
Exhibit E	Cost Share Agreement Instructions
Exhibit F	Cost Share Agreement Template
Exhibit G	Supplemental Fire Department Resources Template (Not Applicable)
Exhibit H	Use and Reimbursement for Stafford Act Shared Resources
Exhibit I	Supplemental Project Agreement Template for EMNRD Forestry Division
Exhibit J	Supplemental Project Agreement Template

Several of the referenced exhibits are intended to be used as templates and as such, completion or execution of those exhibits do not require formal modification to this Agreement. Also, as necessary, the Parties may introduce new or revised exhibits at the geographic area, statewide, or sub-geographic areas as a component of the Operating Plans without necessitating a formal modification to this Agreement, so long as they do not conflict with the provisions of this Agreement.

2. Acknowledgement of Supplements to the Agreement

Supplements to this Agreement, including Operating Plans, Joint Projects and Project Plans, Supplemental Project Agreements, and Cost Share Agreements will further describe working relationships, financial arrangements, and joint activities not otherwise specified under the terms of this Agreement.

3. Hierarchy and Precedence for Agreements, Exhibits, Operating Plans, Etc.

Any inconsistencies in this Agreement and attachments thereto shall be resolved by giving precedence in the following order:

- A. this Agreement;
- B. Geographic Area or Statewide Operating Plan;
- C. Sub-geographic Area (Zone) Operating Plan;

- D. Cost Share Agreements;
- E. Exhibits to this Agreement;
- F. Joint Projects, Project Plans, or Supplemental Project Agreements.

V. PERIOD OF PERFORMANCE

1. **Commencement/Expiration:** This Agreement shall be effective and in effect for five years, beginning from the date of the last signature.
2. **Modifications:** Modifications within the scope of this Agreement shall be made by mutual consent of the Parties to the Agreement, by the issuance of a written modification, signed and dated by all Parties to the Agreement, prior to any changes being performed. No Party is obligated to fund any changes not properly approved in advance.
3. **Termination:** Any Party to the Agreement shall have the right to terminate its participation under this Agreement by providing one year advance written notice to the other Parties.
4. **Annual Review:** If deemed necessary, prior to March 15 representatives of the Parties to the Agreement will meet and review matters of mutual concern. Operating Plans, at all levels, will be reviewed annually. If necessary, Operating Plans will be revised.
5. **Previous Agreements Superseded:** This Agreement supersedes the following:
New Mexico Master Cooperative Wildland Fire Management Response Agreement, with final signature dated 03/22/2018.
Existing Supplemental Agreements and Operating Plans may remain in effect to the extent that they do not conflict with the provisions of this Agreement, but only until such time that all activities and conditions covered by those agreements or plans can be incorporated into Geographic Area, Statewide, or Sub-geographic (Zone) Area Operating Plans provided for under this Agreement.

VI. RECITALS

1. The EMNRD, Forestry Division is responsible for wildland fire protection on non-municipal, non-tribal, and non-federal lands in New Mexico. The respective Federal Agencies are responsible for wildland fire protection on lands under their jurisdiction. Lands for which the EMNRD, Forestry Division is responsible for wildland fire protection, and the lands for which the respective Federal Agencies are responsible, are intermingled or adjacent in some areas, and wildland fires on these intermingled or adjacent lands may present a threat to the lands of the other.
2. The Parties to this Agreement maintain fire protection and fire management organizations.
3. It is to the mutual advantage of the Parties to this Agreement to coordinate efforts for the prevention and detection of, and responses to wildfires, fuels management, suppression, for Federal Agencies non-wildland fire emergencies (as authorized), and cooperative projects for resource and protection objectives in and adjacent to their areas of responsibility, and to limit duplication and improve efficiency and effectiveness.
4. It is the intent of the Parties to this Agreement that EMNRD, Forestry Division and county and municipal government or other EMNRD, Forestry Division contracted resources be available to assist in fire management activities on all federal lands, and on other lands upon which the Federal Agencies are responsible to protect.

5. It is the intent of the Parties to this Agreement that federal resources be available to assist in fire management activities on all state and private lands the EMNRD, Forestry Division and county and municipal governments are responsible to protect.
6. The USFS, BLM, BIA, NPS, and FWS have entered into a National Interagency Agreement for Wildland Fire Management to cooperate in all aspects of fire management.
7. County and municipal fire resources are often mobilized within New Mexico pursuant to separate EMNRD, Forestry Division agreements with municipalities or counties, with reimbursement handled according to the terms detailed within those agreements.
8. It is expected that all Federal Agencies will coordinate assistance and operations during Stafford Act responses by following the procedures and requirements established in the NRF. This Agreement documents the commitment of the Federal Agencies to provide cooperation, resources, and support to the Secretary of Homeland Security and Administrator of the FEMA in the implementation of the NRF, as appropriate and consistent with their own authorities and responsibilities. Some state, (including the EMNRD, Forestry Division), local, or tribal resources are limited by statute or other authority to wildland fire response, requiring the governor or tribal authority to specifically approve mobilization outside of their state or tribal lands for non-fire emergencies. State or tribal emergency declarations and responses for all-hazard and non-Stafford Act responses are outside the scope of this Agreement.
9. The responsibilities of the Parties to this Agreement shall be distinguished as follows:
 - A. **Jurisdictional Agency**—Agency having land and resource management responsibility or fire suppression responsibility for a specific geographical or functional area as provided by federal, state, or local law. Under no circumstances may a Jurisdictional Agency abdicate (abandon) legal responsibilities as provided by federal or state law.
 - B. **Protecting Agency**—Agency responsible for providing direct incident management within a specific geographical area pursuant to its jurisdictional responsibility or as specified and provided by contract, cooperative agreement, or other agreement or arrangement.
 - C. **Supporting Agency**—Agency providing suppression or other support and resource assistance to a Protecting Agency.

In consideration of the mutual commitments and conditions herein made, the Parties agree as follows:

VII. INTERAGENCY COOPERATION

1. **EMNRD, Forestry Division as Liaison for the State of New Mexico:** The State Forester or designee is the liaison from the State of New Mexico to the Federal Agencies.
2. **Other State Agencies:** When Federal Agencies require fire suppression assistance from State of New Mexico agencies other than the EMNRD, Forestry Division, the Federal Agencies shall make the request through the appropriate EMNRD, Forestry Division district office.
3. **National Guard Assistance:** The Federal Agencies may only seek National Guard assistance, for wildland fire emergency purposes, through the EMNRD, Forestry Division, State Forester to the Governor's Authorized Representative, for a Governor's declared emergency. The Incident Commander shall advise the EMNRD Forestry

Division, State Forester, upon the termination of the wildfire emergency for purposes of demobilizing the National Guard. At that time, the EMNRD, Forestry Division, State Forester shall advise the Governor's Authorized Representative and the Adjutant General's Office of Military Affairs Department that the wildfire emergency no longer exists.

4. **EMNRD, Forestry Division as Liaison for Local Government Resources:** The EMNRD, Forestry Division acts as coordinator for New Mexico local government resources, including county and municipal fire departments for the purposes of coordinated fire management services within and beyond New Mexico's boundaries per agreements between the EMNRD, Forestry Division and counties and municipalities. Federal Agencies shall request local government resources through the appropriate EMNRD, Forestry Division district office when using county and municipality resources through this Agreement.
5. **Southwest Coordinating Group (SWCG):** The SWCG provides coordination and recommendations for all interagency fire management activities in New Mexico. Membership, procedures, and guidelines will be agreed to and documented in the Southwest Area Multi-Agency Coordinating Group Operating Guide.
6. **National Incident Management System:** The Parties to this Agreement will operate under the concepts defined in the NIMS. In implementing these concepts, Parties to this Agreement will be expected to follow the NWCG's minimum standards as defined in the *Wildland Fire Qualifications Systems Guide*, PMS-310. NWCG recognizes the ability of cooperating agencies at the local level to jointly define and accept each other's qualifications for initial attack, extended attack, fire operations, and prescribed fire. The NWCG minimum standards are NIMS compliant. The following NIMS concepts will be followed as they are implemented: Incident Command System (ICS), qualifications system, training system, the management of publications, and participating in the review, exchange, and transfer of technology as appropriate for providing qualified resources, and for the management of incidents covered by this Agreement.
7. **Operating Plans:** Operating plans will be developed using the Operating Plan Template, Exhibit C at the geographic area, statewide, or sub-geographic area level, as appropriate, and will tier to this Agreement. Operating Plans may be written for more than one year, but should be reviewed annually, and will be subject to modifications, as warranted. No Operating Plan tiered to this Agreement should be written beyond the expiration date of this Agreement. The following Operating Plans are listed in descending order of precedence:
 - A. **Southwest Geographic Area Operating Plans (if applicable):** Southwest Geographic Area Operating Plans will address issues affecting geographic area-wide cooperation. The Geographic Area Operating Plan will be approved by the signatory of state and federal SWCG member agencies. The Southwest Mobilization Guide will be incorporated by reference and be considered part of the Geographic Area Operating Plan.
 - B. **Statewide Operating Plan:** The Statewide Operating Plan will address issues affecting statewide cooperation. The Statewide Operating Plan will be approved by the signatory state and federal SWCG members.
The Statewide Mobilization Guide will be identified and considered part of the Statewide Operating Plan.

- C. **Sub-geographic Area (Zone) Operating Plans (if applicable):** Sub-geographic Area (Zone) Operating Plans will be developed that outline the details of this Agreement for sub-geographical areas. Unit Administrators will have the responsibility for developing and approving Sub-geographic Area (Zone) Operating Plans. Unless superseded by the Geographic Area or Statewide Operating Plans, Sub-geographic Area (Zone) Operating Plans will apply.
 - D. **Project Plans (if applicable):** Project plans are developed for specific non-suppression, fire related projects or activities. (See related clause: Joint Projects and Project Plans).
- 8. **Interagency Dispatch Centers:** The Parties to this Agreement agree to maintain, support, and participate in Interagency Dispatch Centers, as appropriate. Staffing, funding, and level of participation will be agreed to by the affected Parties to this Agreement and documented in Geographic Area, Statewide, or Sub-geographic Area (Zone) Operating Plans and/or appropriate mobilization guides. Dispatcher services may be charged against the wildland fire for EMNRD, Forestry Division.
 - 9. **Southwest Coordination Center:** The Parties to this Agreement recognize the Southwest Coordination Center in Albuquerque, New Mexico as the Geographic Area Coordination Center (GACC) for the Southwest Geographic Area. The Parties to this Agreement will coordinate, mobilize, and demobilize emergency management resources through the GACC as appropriate. Parties to this Agreement are not precluded from independent movement of their own resources.
 - 10. **Interagency Resources:** Interagency funding, staffing, and use of resources and facilities will be pursued by the Parties to this Agreement whenever an interagency approach is appropriate and cost effective. Shared staffing and funding will be commensurate with each Parties use of resources, will be agreed and documented in Sub-geographic Area (Zone) Operating Plans, and will be subject to the availability of appropriations. To the extent practical, additional preparedness resource requests will be coordinated. The coordination process will be identified in the appropriate Geographic Area, Statewide, or Sub-geographic Area (Zone) Operating Plan.
 - 11. **State-to-State Response:** Should the EMNRD, Forestry Division intend to use the USFS's assistance to seek reimbursement for resources and services the EMNRD, Forestry Division provides to another state for the management and suppression of wildfire, that state shall agree to meet the reimbursement obligations and requirements, including any negotiated administrative fees, as agreed upon by that state and the USFS and detailed in Reimbursable Billings and Payments, Exhibit D. Should the EMNRD, Forestry Division intend to use the USFS' assistance to pay another state for resources and services that state provides for the management and suppression of wildfire, and have the USFS pay that amount to that state, the EMNRD, Forestry Division shall agree to meet the reimbursement obligations and requirements, including any negotiated administrative fees, as agreed upon by the EMNRD, Forestry Division and USFS and detailed in Reimbursable Billing and Payments, Exhibit D.
 - 12. **Standards:** The Parties to this Agreement desire to achieve common standards within the Parties' best interest, recognizing differing Agency missions and mandates. Each Party to this Agreement recognizes that other Parties' standards are reasonable, prudent, and acceptable. This does not affect the Jurisdictional Agency's land management requirements or objectives.

VIII. PREPAREDNESS

1. **Protection Planning:** Annually, before March 1, sub-geographic area (Zone) Unit Administrators will determine efficiencies to be gained from reciprocal assistance and acquisition of protection services. Operating Plans will document decisions. Operating Plans should be reviewed and agreement reached concerning such items as placement of crews, engines, air tankers, helicopters, fixed-wing and aerial detection, regulated use, closures, and other joint fire suppression efforts.
2. **Protection Areas and Boundaries:** Protection areas, as defined by boundaries, will be mapped or described, and made a part of Geographic Area, Statewide, or Sub-geographic Area (Zone) Operating Plans. Protection areas may include lands under the jurisdiction of another Agency as authorized by law.
3. **Methods of Fire Protection and Suppression:** One Agency may provide fire protection services on lands under the jurisdiction of another, within their authority and as authorized by law. The following are different methods to provide those services.
 - A. **Reciprocal (Initial Attack for Mutual Aid) Fire Protection:** As deemed appropriate, the Agencies may, by agreement in Operating Plans, establish reciprocal initial attack zones for lands of intermingled or adjoining protection responsibility. Within such zones, a Supporting Agency will, upon request or voluntarily, take initial attack action in support of the Protecting Agency. The Protecting Agency will not be required to reimburse the Supporting Agency for costs incurred following the initial dispatch of any ground resources to the fire for the duration of the initial attack period. The length of the initial attack period is usually 24 hours and will be documented in the Operating Plan. Initial mobilization of resources will be the start of the 24-hour period. When the Protecting Agency provides initial attack fire protection services and the incident exceeds initial attack capabilities, or 24 hours the Protecting Agency shall notify the Jurisdictional Agency and the Jurisdictional Agency shall assume suppression responsibility for the fire. Under this situation, the Protection Agency's status changes to Supporting Agency and the Jurisdictional Agency shall not be required to reimburse costs to Protecting or Supporting Agencies for fires that exceed initial attack capabilities if the Protecting or Supporting Agency does not notify the Jurisdictional Agency within a reasonable time, not to exceed 24 hours.
 - B. **Reimbursable (Cooperative) Fire Protection:** The Protecting Agency may request suppression resources of other Agencies for its protection work. The Protecting Agency shall pay for such resources. See applicable item regarding Reimbursable Billings and Payments, Exhibit D.
 - C. **Exchange (Offset) Fire Protection:** Agencies may exchange responsibility for fire protection for lands under their jurisdiction. The rate of exchange will be based upon comparable cost, acreage involved, complexity, and other factors, as appropriate, and mutually agreed to by the Agencies. Exchange zones will be documented in Operating Plans. If an imbalance exists, the Protecting Agency with the surplus of acres may establish a separate agreement and bill the Jurisdictional Agency for the difference on a per acre basis as computed under Contract or Fee Basis Protection.

Imbalance means a deviation exceeding the range of variation agreed to between the Parties.

When a Protecting Agency takes suppression action on lands it protects for the Jurisdictional Agency, and the Jurisdictional Agency is requested to assist, the Protecting Agency will reimburse the Jurisdictional Agency for their assistance. The exception is if the Parties involved are federal wildland fire agencies. The National Interagency Agreement for Wildland Fire Management between the USDOJ wildland fire agencies and the USFS provides that the Parties agree not to bill each other for suppression services.

- D. Contract (Fee Basis) Fire Protection:** For an agreed upon fee, one Agency may assume fire protection responsibilities on lands under the jurisdiction of another Agency. The terms and conditions of such arrangements must be included in Operating Plans and carried out through an appropriate agreement.
4. **Joint Projects and Project Plans:** The Parties to this Agreement may jointly conduct cooperative projects, within their authority and as authorized by law, to maintain or improve their fire management services and activities. These projects may involve such activities as prescribed fire/fuels management, preparedness, fire analysis/planning, rehabilitation, training, prevention, public affairs, and other beneficial efforts in support of interagency fire management. Such projects will be documented in separate, local agreements, or other appropriate written documents, executed by the authorized signatories of the involved Parties. This may include a Supplemental Project Agreement, as in Exhibits I and J, or other written document.
 5. **Fire Prevention:** The Parties to this Agreement agree to cooperate in the development and implementation of fire prevention programs. Unit Administrators will ensure that fire prevention goals and activities are planned at local levels and are addressed in the appropriate Operating Plans. Specific fire prevention plans should be developed by local interagency fire management personnel. The Parties to this Agreement may pool resources and each Party pay its own costs. Unit Administrators are encouraged to participate in local fire prevention cooperatives, organizations, or groups, where applicable.
 6. **Fire Restrictions:** Parties will follow their own Agency policy and applicable laws and regulations or rules. Guidelines for implementing restrictions and closures may be established in an Operating Plan.
 7. **Burning Permits:** Authority whether to require burn permits in New Mexico resides with counties and municipalities.
 8. **Prescribed Fire and Fuel Management:** The Parties to this Agreement agree to cooperate in the development and implementation of planned ignitions, prescribed fire, and fuels management programs.

Any Party to this Agreement may assist another Party as requested and agreed to for the purposes of performing planned ignitions, prescribed fire, or other fuels management work. Conditions of the assistance and details related to reimbursement will be agreed to and documented through procurement or Joint Projects and Project Plans (as referenced in Joint Projects and Project Plans, VIII.4). Any instrument processed shall be in accordance with each Party's applicable laws, rules or regulations, and policy requirements.

9. **Smoke Management:** Within their authorities, the Parties to this Agreement agree to cooperate in smoke management efforts for wildfires and prescribed fires and shall comply with applicable smoke management rules. The need for air resource advisors is increasing and additional technical expertise may be available through the New Mexico Environment Department.

IX. OPERATIONS

1. **Closest Forces Concept:** The guiding principle for dispatch of initial attack suppression resources is to use the closest available and appropriate resource regardless of which Party owns or controls the resources, and regardless of which Agency has protection responsibility or jurisdiction.
2. **Fire Notifications:** Each Party will promptly notify the appropriate Protecting Agency of fires burning on or threatening lands for which that Agency has protection responsibility. Likewise, Protecting Agencies will promptly inform Jurisdictional Agencies whenever they take action on fires for which the Protecting Agency is responsible. Fire reports will be sent to Jurisdictional Agencies within 30 days after a fire is declared out.
3. **Boundary Line Fires:** A boundary line fire, as defined in Glossary of Terms, Exhibit A will be the initial attack responsibility of the Protecting Agencies on either side of the boundary. Neither Agency will assume the other Agency is aware of the fire or that the other Agency will take action. Each Protecting Agency will make every reasonable effort to communicate with the other concerning the fire.
 - A. The Protecting Agencies shall designate an Incident Commander or establish a Unified Command in consideration of the lands threatened. The Agencies shall notify the appropriate zone dispatch of the designation as soon as possible.
 - B. The Protecting and Jurisdictional Agencies shall participate in joint planning sessions to reach agreement on strategy and tactics in accordance with policy guidelines that the Jurisdictional Agencies prescribe.
 - C. The Jurisdictional Agency administrators or their authorized representatives shall prepare a Cost Share Agreement. See Cost Share Agreement Template, Exhibit F.Failure to comply with conditions stated in A and B above may be grounds for denial of payment.
4. **Independent Action:** Except as otherwise limited in Geographic Area, Statewide, or Sub-geographic Area (Zone) Operating Plans, nothing herein shall prohibit any Party, on its own initiative, from going upon lands known to be protected by another Party to this Agreement to engage in suppression of wildfires, when such fires are a threat to lands under that Party's management or protection responsibility. In such instances, the Party taking action will promptly notify the Protecting Agency. Such actions will be commensurate with the land management considerations of the Jurisdictional Agency, and subject to the laws and regulations or rules of the Jurisdictional Agency.

Due to National Nuclear Security Administration security restrictions before an Agency, besides NA-LA, responds to wildfire on property owned by NA-LA and occupied by the Los Alamos National Laboratory (including airspace owned above the Laboratory), the Agency will need to provide notification and obtain permission to respond. To facilitate granting of permission, Agencies should contact the NA-LA 24/7 Emergency Operations Support Center at 505-667-2400 and request the On-Call Wildland Fire Management Officer.

5. **Escaped Prescribed Fires:** Wildfires resulting from escaped prescribed fires that were ignited by, managed at the direction of, or under the supervision of one of the Parties to this Agreement shall be the responsibility of the Jurisdictional Agency. If the Parties to this Agreement jointly conduct or manage a prescribed fire, the responsibility for suppression costs, should it escape, shall be agreed upon and documented in the Project Plan. Unless otherwise agreed, all suppression costs and associated damages are the responsibility of the Jurisdictional Agency. The Parties to this Agreement will not hold each other responsible for escaped prescribed fires that they did not ignite.
6. **Response to Wildland Fire:** All wildfire suppression action conducted by one Party shall be consistent with the Jurisdictional Agency's or landowner's fire management policy or preplanned objectives for the area in which the wildfire occurs, and the terms of this Agreement. Jurisdictional Agencies will coordinate with the Protecting Agencies on response expectations and land management requirements.

The EMNRD, Forestry Division is responsible for prevention and suppression of wildfires on non-federal, non-tribal, and non-municipal lands within New Mexico. The EMNRD, Forestry Division does not have jurisdiction to make land management decisions for state, local government, and private lands for which it has fire suppression responsibility. The EMNRD, Forestry Division may consider landowner management objectives when evaluating suppression alternatives if the landowner submitted a written plan prior to the start of the fire year. Wildfires on Federal land that are natural caused may be managed for multiple objectives as established in land and resource management plans. Adjacent fire protection entities, including state and local governments, should be consulted regarding fire management strategies used in these areas, and share in the decision-making process whenever possible. When a wildfire or that portion of a wildfire being managed to maintain or enhance natural or cultural resources, spreads to a protection area where it is not wanted, the Jurisdictional Agency(s) who established the objective will assume costs for that portion.

All fire agencies have primary responsibility for fire suppression within their respective protection areas. All Agencies, as appropriate, should be involved in developing the strategy, tactics, and mitigation actions to be used if the fire has the potential to impact another protection area. When fire spread into another protection area is imminent or appears likely, the Agencies will identify financial responsibilities and as appropriate, cost share methodologies, and document the decisions and rationale. If agreement cannot be reached regarding financial responsibilities, discussion will be elevated to the next level Agency Administrators for the respective agencies.

Protection responsibilities have been exchanged throughout New Mexico to promote efficiencies and reduce multi-agency response efforts. In areas where protection has been given to the EMNRD, Forestry Division or another Federal Agency, the Jurisdictional Agency is not expected to provide suppression resources unless agreed to in writing between the local agencies involved. In these areas, Jurisdictional Agencies should not enter into suppression agreements with local departments or counties where they do not have protection responsibility.

In addition, Special Management Considerations section in the Operating Plan, addressing resources and other management concerns, will be used by Unit Administrators of the Agencies to identify areas of special management consideration, and to communicate appropriate fire management actions and any restrictions on firefighting tactical techniques to an Incident Commander.

Unless otherwise agreed, the Jurisdictional Agency will provide an Agency representative or appropriate environmental technical specialist to advise a Protecting Agency of any special management considerations that may influence suppression action. The Incident Commander will incorporate special management considerations into the incident planning process, subject to the delegation of authority.

Each Operating Plan must address how the entities will handle cost sharing for wildland fires that spread to another jurisdiction. Entities should recognize that, as in the *Guidance for Implementation of Federal Wildland Fire Management Policy* (2009) a wildland fire may concurrently be managed for one or more objectives. Additionally, objectives can change as the fire spreads across the landscape, affected by changes in environmental conditions, human influence, and institutional factors. Simply stated, some portions of a wildland fire may receive a protection objective while other portions are managed for multiple objectives, and those portions and objectives might change at some time over the duration of the event. The intent should never be to allow a wildland fire to burn onto a jurisdiction that does not want it. All Parties should be involved in developing the strategy and tactics to be used in preventing the fire from crossing the jurisdictional boundary, and all Parties should be involved in developing mitigations that would be used if the fire crosses jurisdictional boundaries.

7. **Delegation of Authority:** Operating Plans will document procedures and criteria for Unit Administrators to specify direction, authority, and financial management guidelines to Incident Commanders.
8. **Preservation of Evidence:** The Agency with jurisdiction over the location where the fire originated shall be responsible for origin and cause determination. As initial action is taken on a fire, the initial attack forces will preserve information and evidence pertaining to the origin and cause of the fire. Protecting and Jurisdictional Agencies shall render mutual assistance in the gathering of evidence to the fullest extent practicable. Affected Parties to this Agreement will meet to determine an appropriate investigation process. Parties to this Agreement may order wildland fire investigators or needed investigation support resources from within the dispatching system.
9. **Structure Fire Suppression:** Nothing in this Agreement is intended to make Federal Agencies or the EMNRD, Forestry Division responsible for structure fire suppression. Wildland fire resources across New Mexico generally do not have the responsibility as well as the capability and training to perform structure fire suppression actions.
10. **Structure Protection:** Protection of structures and communities in the wildland urban interface is a shared partnership between the home and landowners and their servicing fire agencies. The Agencies involved may negotiate reasonable community protection/structure protection activities in advance and include them in the delegation of authority. Wildland fire agencies have primary responsibility for wildland fire suppression strategies within their respective protection areas. Agencies are not responsible for cost share for structural protection when wildland fire is not in their protection area.
11. **Stafford Act Response:** For Stafford Act responses, procedures and requirements established in the NRF shall be used by Federal Agencies to this Agreement to authorize and accomplish any required response or support tasks. Any Federal Agency requesting support pursuant to a Stafford Act response shall issue written instructions and funding limitations to any Party providing cooperation, resources, or support. Mobilization

activities will be accomplished using established dispatch coordination concepts pursuant to the current *National Interagency Mobilization Guide*.

X. USE AND REIMBURSEMENT OF INTERAGENCY FIRE RESOURCES

1. **Appropriated Fund Limitation:** Nothing in this Agreement shall require the Parties to this Agreement to obligate or expend funds, or require the United States, the EMNRD, Forestry Division, or the other Parties to this Agreement to enter into any contract or other obligation for the future payment of money in excess of or in advance of appropriated funds available for payment to meet the commitments of this Agreement and modifications thereto, except as specifically authorized by law.
2. **Length of Assignments:** Consideration must be given to the health and safety of personnel when assigned to fires. The Parties to this Agreement agree that Incident Commanders will release suppression resources to their primary responsibilities as soon as priorities allow. Incident Commanders shall adhere to work/rest policies specified within the *National Interagency Mobilization Guide*.
3. **Cost Share Agreement:** Whenever multiple jurisdictions are affected due to the location of a fire, it is mandatory to develop and implement a Cost Share Agreement (or Apportionment Process, if applicable). Only the State Forester or designee may enter into Cost Share Agreements on behalf of the EMNRD, Forestry Division. The Cost Share Agreement must address how the Parties to this Agreement will handle cost sharing for wildland fires that spread to another jurisdiction. Acceptable forms of the cost share mix are limited to those listed in item #10 of Exhibit E, Cost Share Agreement. A Cost Share Agreement will be approved by the responsible Unit Administrators or their authorized representatives when the incident involves lands of more than one Protecting Agency (see Boundary Line Fires, IX.3 and Cost Share Agreement Template, Exhibit F).

A Cost Share Agreement that addresses temporary support functions or facilities may be developed to document cost sharing, especially at times of high fire danger or activity.
4. **Procurement:** At the time of the incident, the affected Agencies will determine the appropriate procurement procedures that will be used.
5. **Licensing:** Drivers and equipment operators will hold appropriate operating licenses to meet state and federal laws and employing Agency regulations or rules and policies. Employees of the Parties to this Agreement may operate Federal Agency vehicles provided the operator is qualified by the current operating guidelines and training requirements of their own Agency. Driving and operating equipment will be for official purposes only. Only State of New Mexico employees may operate State of New Mexico vehicles.
6. **Text Messaging While Driving:** In accordance with Executive Order (EO) 13513, Federal Leadership on Reducing Text Messaging While Driving, any and all text messaging by federal employees is banned: a) while driving a government owned vehicle (GOV) or driving a privately owned vehicle (POV) while on official government business; or b) using any electronic equipment supplied by the government when driving any vehicle at any time. All cooperators, their employees, volunteers, or contractors are encouraged to adopt and enforce policies that ban text messaging when driving company owned, leased, or rented vehicles or GOVs when driving while on official government business or when performing any work for or on behalf of the government. New Mexico law prohibits texting while driving and New Mexico state employees are prohibited from texting while driving state vehicles pursuant to 1.5.3 NMAC.

7. **Training:** The Parties to this Agreement will cooperate to ensure that training needs are provided that will produce safe and effective fire management and aviation programs. The intent is to champion high-quality training, to minimize training costs by sharing resources, and to standardize training.
8. **Communication Systems and Facilities Access:** The Parties to this Agreement may mutually agree to allow one another the use of communications systems such as radio frequencies, computer system access, data transmission lines, and communication sites when there is a mutual benefit to the Parties to this Agreement. Such arrangement shall be approved only by Agency authorized personnel and in accordance with agency laws, regulations or rules, and policies governing security of systems and facilities.
9. **Fire Weather Systems:** The Parties to this Agreement will cooperate in the gathering, processing, and use of fire weather data, including the purchase of compatible sensing systems and the joint use of computer software. All such use shall be in accordance with applicable federal, state, and local laws and software and other applicable licenses. The Parties to this Agreement will jointly evaluate and agree to any deletions or additions to the system. The common and agreed upon fire danger rating system for the Southwest Geographic Area is *National Fire Danger Rating System (NFDRS)*.
The Parties to this Agreement agree to cooperate and coordinate the use of Incident Meteorologist (IMET) services to support responses to wildfires, as described within the Interagency Agreement for Meteorological and other technical services (IMET Agreement) between the National Weather Service (NWS) and the federal wildland fire agencies. The Parties shall follow the provisions described in the IMET Agreement, along with the procedures detailed within the Operating Plan for this Agreement.
10. **Aviation Operations:** The Parties to this Agreement agree to cooperate in the use of aviation resources to foster effective and efficient use of aircraft and personnel. (Refer to the Statewide Operating Plan for specific direction in the use of aircraft.)
11. **Billing Procedures:** The Parties agree to follow the processes detailed in Reimbursable Billings and Payments, Exhibit D.
12. **Cost Recovery:** Authority to recover suppression costs and damages from those responsible for causing a fire varies depending on contracts, agreements, permits, and applicable laws. As soon as possible after a fire, the Authorized Representatives of affected Parties will attempt to reach mutual agreement on the strategy that will be used to recover suppression costs and damages from the individuals responsible for such costs and damages. If possible, all costs should be determined prior to the initiation of cost recovery efforts. Such strategy may alter interagency billing procedures, timing, and content as otherwise provided in this Agreement. As authorized by law, any Party may independently pursue civil actions against individuals to recover suppression costs and damages, though adequate notice should be provided the other Parties to the Agreement. In those cases where costs have been recovered from an individual, reimbursement of initial attack, as well as suppression costs to the extent included in the recovery, will be made to the Party taking reciprocal action, as authorized by law.
13. **Stafford Act Use and Reimbursement:** The use and reimbursement for resources when responding under the Stafford Act shall be governed by the provisions contained in Use and Reimbursement for Stafford Act Shared Resources, Exhibit H.

XI. GENERAL PROVISIONS

1. **Personnel Policy:** Employees of the Parties to this Agreement shall be subject to the personnel laws and rules or regulations of their respective Agencies, unless they are employed temporarily by another Party to this Agreement and the authority under which such temporary employment is authorized provides that such employees shall be subject to the employing Party's personnel laws and rules or regulations.
2. **Workers' Compensation:** For the purposes of workers' compensation coverage, employees of the State of New Mexico are covered under the New Mexico Worker's Compensation Act, NMSA 1978, Section 52-1-1 *et seq.*, while assigned to assist in suppressing fires on lands of Federal Agencies or NA-LA. Federal Agency and NA-LA employees are covered under the applicable federal regulations pertaining to workers' compensation, while assigned to assist in suppressing fires on lands under the EMNRD, Forestry Division jurisdiction.
3. **Supplemental Fire Department Resources:** There are situations when additional support personnel are necessary for national mobilization and the need can be filled by supplemental personnel available to the fire district. When this situation arises resources will be mobilized via the process outlined in Exhibit G, Supplemental Project Agreement Template. Not applicable.
4. **Mutual Sharing of Information:** Subject to applicable state and federal laws and rules or regulations, including the Privacy Act, Parties to this Agreement may furnish to each other, or otherwise make available upon request, such as maps, documents, GIS data, instructions, records, and reports including, but not limited to, fire reports, employment records, and investigation reports any Party considers necessary in connection with the Agreement.
5. **Freedom of Information Act and Inspection of Public Records Act:** For Federal Agencies public access to grant or agreement records must not be limited, except when such records must be kept confidential and would be exempted from disclosure pursuant to Freedom of Information Regulations (5 U.S.C. 552). Requests for research data are subject to 2 CFR 215.36.

Public access to culturally sensitive data and information and information of Federally-recognized Tribes may also be explicitly limited by P.L. 110-234, Title VIII Subtitle B §8106 (2008 Farm Bill).

The EMNRD, Forestry Division shall comply with the Inspection of Public Records Act when it receives requests for public records. If an Agency shares documents that are confidential with another Agency, the Agency providing the documents shall mark those documents as confidential and provide the citation to the law that prevents the documents release as a public record.

6. **Record Retention:** The Parties to this Agreement shall retain all records related to this Agreement in accordance with Agency regulations or rules and policies, but no less than three years from the date that all Agreement projects and any reimbursements have been completed. If any litigation, claim, negotiation, audit, or other action involving the records has been started by a Party to the Agreement, that Party should provide notification to any other Party to the Agreement of the need to retain records until the litigation, claim, negotiation, audit, or other action is resolved.
7. **Accident Investigations:** When an accident occurs involving the equipment or personnel of a Supporting Agency, the Protecting Agency shall immediately notify the Jurisdictional and Supporting Agencies. As soon as practical, the Jurisdictional Agency

- shall initiate an investigation of the accident in cooperation with all partners. The investigation shall be conducted by a team of representatives from the affected Agencies, as appropriate. As appropriate, the Parties agree that the Jurisdictional Agency will provide notification of the accident to the National Transportation Safety Board, or the Occupational Safety and Health Administration and other appropriate Agencies.
8. **Purchaser, Contractor, Operator, Permittee, Etc., Fires:** The Protecting Agency will notify the Jurisdictional Agency of any wildfire suspected to have been caused by a purchaser, contractor, operator, or permittee, etc., of the Jurisdictional Agency as soon as it becomes aware of the situation. The Protecting Agency will be responsible for management of the wildfire under the provisions of this Agreement. Parties to the Agreement will meet and confer to determine a cost recovery process as outlined in Cost Recovery, X.12.
9. **Waiver of Claims:** Pursuant to 42 U.S.C. § 1856(a), each Party waives all claims it may have against every other Party for compensation for any loss, damage, personal injury, or death occurring in consequence of the performance of this Agreement.
- The United States federal government and the State of New Mexico do not have the authority to indemnify or hold harmless another Party from all claims, liabilities, losses, damages, charges, etc. The State of New Mexico shall be responsible for errors, omission, and negligence of its employees to the extent provided under the New Mexico Tort Claims Act, NMSA 1978, Section 41-1-1 et seq. The United States shall be responsible for the errors, omission, and negligence of its employees to the extent provided by Congress under the Federal Tort Claims Act (28 U.S.C. §§ 1346 (b), 2401 (b) and 2671-2680, as amended by P.L. 80-506, 80 Stat. 306). Third party claims that may arise under the performance of this Agreement shall be determined solely under the Federal Tort Claims Act as to Federal Agencies and under the New Mexico Tort Claims Act, NMSA 1978, Section 41-4-1 et seq., as to the EMNRD, Forestry Division and third-party claims shall be submitted as provided by those acts.
- Employee claims for loss of or damage to personal property must be submitted to the Jurisdictional Agency and then forwarded to the hiring, or home, agency of the employee for processing in accordance with the hiring agency's administrative procedures.
10. **Equipment, Supplies, and Cache Items:** Wildfire suppression often involves the use of equipment, supplies, and cache items. Equipment, supplies, and cache items checked out (such as pumps, hoses, nozzles, etc.), or supplied by one Party and received by another Party, shall become the responsibility of the receiving Party. Equipment, supplies, and cache items shall be returned in the same condition as when received, reasonable wear and tear excepted. Notwithstanding Waiver of Claims, XI.9, Parties agree that the receiving Party shall replace or reimburse for damage in excess of reasonable wear and tear, and shall replace or reimburse items lost or destroyed, except for damage occurring as a result of negligence by the receiving/supporting Party. The receiving Party will replace or reimburse for items lost, destroyed, or expended with items of like or similar standard from the fire cache or supply unit on the incident, or via an authorization for replacement using a unique request number. Insurance or other reimbursement options should be pursued, if such options are available, prior to replacement or reimbursement for lost, stolen, or destroyed items.
11. **Transported Equipment:** Equipment transported or operated by Supporting Agency personnel in transit to or from an incident is considered under the control of the

Supporting Agency. When arrangements are made with a transportation service provider to deliver equipment, the Party arranging for the transportation should ensure that the transportation service provider is responsible for all loss and damage to equipment or supplies consigned on the bill of lading.

12. **Civil Rights:** The Agencies shall comply with all federal statutes relating to nondiscrimination on the basis of race, color, handicap, or national origin; Title IX of the Education Amendments of 1972, as amended (20 U.S.C. 1681-1683 and 1685-1686), which prohibits discrimination on the basis of sex. EMNRD, Forestry Division will also comply with the Human Rights Act, NMSA 1978, Section 28-18-1 *et seq.*
13. **Authorized Representatives:** By signature below, all signatories to this Agreement certify that the individuals (Agency Representative, Agency Administrator, Unit Administrator) listed in this document are authorized to act in their respective areas for matters related to this Agreement.

Burden Statement

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB Control Number for this information collection is 0596-0242. The time required to complete this information collection is estimated between 4 to 24 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Exhibit A. Glossary

GLOSSARY

Agencies: Governmental agencies that have direct fire management or land management responsibilities or that have programs and activities that support fire management activities.

Agency: A division of government with a specific function offering a particular kind of assistance. In ICS, agencies are defined either as jurisdictional (having statutory responsibility for incident management) or as assisting or cooperating (providing resources or other assistance).

Agency Administrator: The official responsible for the management of a geographic unit or functional area.

Agency Representative: A person assigned by a primary, assisting, or cooperating federal, state, local, or tribal government agency or private entity that has been delegated authority to make decisions affecting that agency's or organization's participation in incident management activities following appropriate consultation with the leadership of that agency.

Area: The lands in a described geographic area that are managed and/or protected by the Parties within this Agreement.

Area Command (Unified Area Command): An organization established (1) to oversee the management of multiple incidents that are each being handled by an ICS organization or (2) to oversee the management of large or multiple incidents to which several Incident Management Teams have been assigned. Area Command has the responsibility to set overall strategy and priorities, allocate critical resources according to priorities, ensure that incidents are properly managed, and ensure that objectives are met and strategies followed. Area Command becomes Unified Area Command when incidents are multi-jurisdictional. Area Command may be established at an Emergency Operations Center (EOC) facility or at some location other than an ICP.

Boundary Line Fire: Fire occurrences on lands of intermingled and/or adjoining protection responsibilities.

Closest Forces Concept: Dispatch of the closest available initial attack suppression resources regardless of which agency owns or controls them, and regardless of which agency has protection responsibility.

Confine: Restrict the wildfire within determined boundaries, established either prior to, or during the fire. These identified boundaries will restrict the fire, with no action being taken to put the fire out.

Contain: Restrict a wildfire to a defined area, using a combination of natural and constructed barriers that will stop the spread of the fire under the prevailing and forecasted weather conditions, until out.

Control: Aggressively fight a wildfire through the skillful use of personnel, equipment, and aircraft to establish fire-lines around a fire to halt the spread and to extinguish all hotspots, until out.

Controlled Burn: Synonymous with **Prescribed Fire**.

Cost Share Agreement: A document prepared to distribute costs on a multi-jurisdictional incident (see Exhibit F, Cost Share Agreement Template).

Direct Costs: Direct costs are those items of expense specifically identified with the delivery or completion of a project or program. Examples include, but are not limited to, personnel costs (salary and fringe benefits), equipment costs, travel, materials, supplies, and contracts.

Direct Protection Area: That area which, by law or identified or authorized pursuant to the terms of this Agreement, is provided protection by the Parties. This may include land protected under exchange or payment for protection.

Disaster: See **Major Disaster**.

Emergency: As defined by the Stafford Act, an emergency is, “any occasion or instance for which, in the determination of the President, Federal assistance is needed to supplement State and local efforts and capabilities to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in any part of the United States.”

Emergency Support Function (ESF): Used by the Federal Government and many State governments as the primary mechanism at the operational level to organize and provide assistance. ESFs align categories of resources and provide strategic objectives for their use. ESFs utilize standardized resource management concepts such as typing, inventorying, and tracking to facilitate the dispatch, deployment, and recovery of resources before, during, and after an incident.

Escaped Prescribed Fire: A prescribed fire that has exceeded or is expected to exceed prescription parameters or otherwise meets the criteria for conversion to wildfire. The criteria are specified in, *Interagency Prescribed Fire – Planning and Implementation Procedures Reference Guide*.

ESF Primary Agency: A Federal Agency with significant authorities, roles, resources, or capabilities for a particular function within an Emergency Support Function of the NRF. A Federal Agency designated as an ESF primary agency serves as a Federal Executive Agent under the Federal Coordinating Officer (or Federal Resource Coordinator for non-Stafford Act incidents) to accomplish the ESF mission.

Extended Attack: Actions taken on a wildfire that has exceeded the initial response.

Federal: Of or pertaining to the Federal Government of the United States of America.

Fee Basis Acquisition of Services: One agency provides fire management services on the lands under the jurisdiction of another and payment is provided for the service. For a given fee, one agency can become the Protecting Agency for the other. The fee (or cost) is the price for the work agreed to be performed on each acre of land.

Fire Management Activities and/or Services: Any or all activities that relate to managing fire or fuels on lands under the jurisdiction of any agency to this Agreement. Activities include, but are not limited to: suppression, prescribed fire/fuels management, fire analysis/planning, rehabilitation, training,

prevention, public affairs, post-fire rehabilitation, and restoration activities in fire management.

Geographic Area Coordination Center (GACC): The physical location of an interagency, regional operation center for the effective coordination, mobilization and demobilization of emergency management resources.

Geographic Area Coordinating Group (GACG): Interagency, regional fire management bodies.

Hazard: Something that is potentially dangerous or harmful, often the root cause of an unwanted outcome.

Hazard Mitigation: Any cost effective measure which will reduce the potential for damage to a facility from a disaster event.

Hazardous Material: For the purposes of ESF #1, hazardous material is a substance or material, including a hazardous substance, that has been determined by the Secretary of Transportation to be capable of posing an unreasonable risk to health, safety, and property when transported in commerce, and which has been so designated (see 49 CFR 171.8). For the purposes of ESF #10 and the Oil and Hazardous Materials Incident Annex, the term is intended to include hazardous substances, pollutants, and contaminants as defined within the National Oil and Hazardous Substances Contingency Plan, known as the National Contingency Plan (NCP). See 40 C.F.R. Part 400 for additional information.

Incident Command System (ICS): A standardized, on-scene emergency management construct specifically designed to provide for the adoption of an integrated organizational structure that reflects the complexity and demands of single or multiple incidents, without being hindered by jurisdictional boundaries. ICS is the combination of facilities, equipment, personnel, procedures, and communications operating with a common organizational structure, designed to aid in the management of resources during incidents. ICS is used for all kinds of emergencies and is applicable to small as well as large and complex incidents. ICS is used by various jurisdictions and functional agencies, both public and private, or organized field-level incident management operations.

Incident Commander (IC): The individual responsible for all incident activities, including the development of strategies and tactics and the ordering and release of resources. The IC has overall authority and responsibility for managing and conducting incident operations.

Incident Management Team (IMT): The IC and appropriate Command and General Staff personnel assigned to an incident.

Indirect Costs: Indirect costs are those items of expense incurred as part of general management and administrative support of an organization. These costs are not attributable to a specific project, program or output, but are distributed among many benefiting activities. Often they are proposed as a percentage of direct project costs and are referred to as administrative costs, overhead, or burden. Examples may include office space, computer equipment, postage, utilities, salaries for administrative activities, such as procurement, personnel, accounting, and so forth.

Infrastructure: The manmade physical systems, assets, projects, and structures, publicly and/or privately owned, that are used by or provide benefit to the public. Examples of infrastructure include utilities, bridges, levees, drinking water systems, electrical systems, communications systems, dams,

sewage systems, and roads.

Initial Attack Zone: An identified area in which predetermined resources would normally be the initial resource to respond to an incident.

Jurisdictional Agency: The agency having land and resource management responsibility for a specific geographical or functional area as provided by federal, state or local law.

Initial Action: The actions taken by the first resources to arrive at a wildfire.

Initial Attack: The first aggressive response to a wildland fire based on values to be protected, benefits of response, and reasonable cost of response.

In-Kind Donations: Donations other than cash (usually materials or professional services) for disaster survivors.

Interagency: Coordination, collaboration, communication among cooperating agencies.

Land/Resource Management Plan (L/RMP): A document prepared with public participation and approved by an agency administrator that provides general guidance and direction for land and resource management activities for an administrative area. The L/RMP identifies the need for fire's role in a particular area and for a specific benefit. The objectives in the L/RMP provide the basis for the development of fire management objectives and the fire management program in the designated area.

Major Disaster: As defined by the Stafford Act, any natural catastrophe (including any hurricane, tornado, storm, high water, wind-driven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause, any fire, flood, or explosion, in any part of the United States, which in the determination of the President causes damage of sufficient severity and magnitude to warrant major disaster assistance under this act to supplement the efforts and available resources of States, local governments, and disaster relief organizations in alleviating the damage, loss, hardship, or suffering caused thereby.

Mission Assignment: The mechanism used to support federal operations in a Stafford Act major disaster or emergency declaration. It orders immediate, short-term emergency response assistance when an applicable State or local government is overwhelmed by the event and lacks the capability to perform, or contract for, the necessary work.

Mitigation: Activities designed to reduce or eliminate risks to persons or property or to lessen the actual or potential effects or consequences of an incident. Mitigation measures may be implemented prior to, during, or after an incident. Mitigation measures are often developed in accordance with lessons learned from prior incidents. Mitigation involves ongoing actions to reduce exposure to, probability of, or potential loss from hazards. Measures may include zoning and building codes, floodplain buyouts, and analysis of hazard-related data to determine where it is safe to build or locate temporary facilities. Mitigation can include efforts to educate governments, businesses, and the public on measures they can take to reduce loss and injury.

Mobilization: The process and procedures used by all organizations—federal, state, local, and tribal—for activating, assembling, and transporting all resources that have been requested to respond to or

support an incident.

National: Of a nationwide character, including the federal, state, local, and tribal aspects of governance and policy.

National Incident Management System (NIMS): The NIMS provides a systematic, proactive approach to guide departments and agencies at all levels of government, nongovernmental organizations, and the private-sector to work seamlessly to prevent, protect against, respond to, recover from, and mitigate the effects of incidents, regardless of cause, size, location, or complexity, in order to reduce the loss of life and property and harm to the environment. NIMS works hand in hand with the NRF. NIMS provides the template for the management of incidents, while the NRF provides the structure and mechanisms for national-level policy for incident management.

National Response Framework (NRF): The NRF guides how the nation conducts all-hazards response. The Framework documents the key response principles, roles, and structures that organize national response. It describes how communities, States, the Federal Government, and private-sector and nongovernmental partners apply these principles for a coordinated, effective national response. And it describes special circumstances where the Federal Government exercises a larger role, including incidents where federal interests are involved and catastrophic incidents where a State would require significant support. It allows first responders, decision makers, and supporting entities to provide a unified national response.

NWCG: National Wildfire Coordinating Group; the NWCG is an interagency, intergovernmental body that establishes operational fire management standards and procedures such as qualification and certification protocols, allocation or resources protocols, equipment standards, training programs.

Offset: Exchange of fire protection services in specific locations that is anticipated to be of approximately equal value between agencies.

Operating Plan: A document reviewed annually, updated as necessary, and authorized by the appropriate officials for implementing the Cooperative Wildland Fire Management and Stafford Act Response Agreement in their respective areas of responsibilities.

Party: An entity that is signatory to this Agreement.

Planned Ignition: The intentional initiation of a wildland fire by management actions to meet specific objectives.

Preparedness: Activities that lead to a safe, efficient, and cost effective fire management program in support of land and resource management objectives through appropriate planning and coordination.

Prescribed Fire: Any fire intentionally ignited by management actions in accordance with applicable laws, policies, and regulations to meet specific objectives.

Prevention: Activities directed at reducing the incidence of fires, including public education, law enforcement, personal contact and reduction of fuel hazards (fuels management).

Procurement Documents: Agency specific documents for acquisition of goods or services that include

financial obligation.

Protecting Agency: Agency responsible for providing direct incident management within a specific geographical area pursuant to its jurisdictional responsibility or as specified and provided by contract, cooperative agreement, etc.

Protection: The actions taken to mitigate the adverse effects of fire on environmental, social, political, economic, and community values at risk.

Protection Area: That area for which a particular fire protection organization has the primary responsibility for attacking an uncontrolled fire and for directing the suppression actions.

Protection Boundaries: The exterior perimeter of an area within which a specified fire agency has assumed a degree of responsibility for wildland fire control. It may include land in addition to that for which the agency has jurisdiction or contractual responsibility.

Reciprocal Fire Protection: The act of helping a neighboring Protecting Agency through written agreement for mutual aid in furnishing fire protection, which includes personal services and equipment required for fire prevention, the protection of life and property from fire, and firefighting. Reciprocity is attained by agreeing among agencies regarding the kind, location and numbers of firefighting resources which will automatically be made available as part of the initial response to a wildfire, regardless of the Protecting Agency. The kind, locations, and numbers of resources which constitute reciprocity are defined in or through local operating plans.

Reconciliation Process: The process for tracking incidents for all Parties to this Agreement for the purpose of issuing one annual billing for each paying Party.

Recovery: The development, coordination, and execution of service- and site-restoration plans for impacted communities and the reconstitution of government operations and services through individual, private-sector, nongovernmental, and public assistance programs that: identify needs and define resources; provide housing and promote restoration; address long-term care and treatment of affected persons; implement additional measures for community restoration; incorporate mitigation measures and techniques, as feasible; evaluate the incident to identify lessons learned; and develop initiatives to mitigate the effects of future incidents.

Reimbursable Costs: All costs associated with operations and support ordered on a resource order or under a Joint Project or Project Plan by or for an incident or project within the provisions of this Agreement.

Resources: Personnel and major items of equipment, supplies, and facilities available for assignment to incident operations and for which status is maintained. Resources are described by kind and type and may be used in operational support or supervisory capacities at an incident or at an EOC.

Response: Activities that address the short-term, direct effects of an incident. Response includes immediate actions to save lives, protect property, and meet basic human needs. Response also includes the execution of emergency operations plans and of incident mitigation activities designed to limit the loss of life, personal injury, property damage, and other unfavorable outcomes.

As indicated by the situation, response activities include: applying intelligence and other information to lessen the effects or consequences of an incident; increased security operations; continuing investigations into the nature and source of the threat; ongoing public health and agricultural surveillance and testing processes; immunizations, isolation, or quarantine; and specific law enforcement operations aimed at preempting, interdicting, or disrupting illegal activity, and apprehending actual perpetrators and bringing them to justice.

Response to Wildland Fire: The mobilization of the necessary services and responders to a fire based on ecological, social, and legal consequences, the circumstances under which a fire occurs, and the likely consequences on firefighter and public safety and welfare, natural and cultural resources, and values to be protected.

Severity Funding: Suppression funds used to increase the level of pre-suppression capability and fire preparedness when predicted or actual burning conditions exceed those normally expected, due to severe weather conditions.

Stafford Act Response: The mobilization of the necessary services and resources to a request from FEMA under the provisions of the Stafford Act and based on the procedures and requirements established in the NRF.

State: Any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any possession of the United States. (As defined in section 2(14) of the Homeland Security Act of 2002, Public Law 107-296, 116 Stat. 2135, et seq. (2002).)

Strategic: Strategic elements of incident management are characterized by continuous, long-term, high-level planning by organizations headed by elected or other senior officials. These elements involve the adoption of long-range goals and objectives, the setting of priorities, the establishment of budgets and other fiscal decisions, policy development, and the application of measures of performance or effectiveness.

Sub-Object Class Code: Detailed codes used by the Federal Government to record its financial transactions according to the nature of services provided or received when obligations are first incurred.

Supplemental Fire Department Resources: Overhead tied to a local fire department generally by agreement who are mobilized primarily for response to incidents/wildland fires outside of their district or mutual aid zone. They are not a permanent part of the local fire organization and are not required to attend scheduled training, meetings, etc. of the department staff.

Supporting Agency: An agency providing suppression or other support and resource assistance to a Protecting Agency.

Suppression: Management action to extinguish a fire or confine fire spread beginning with its discovery.

Threat: An indication of possible harm, or danger.

Tribe: Any Indian tribe, band, nation, or other organized group or community, including any Alaskan Native Village as defined in or established pursuant to the Alaskan Native Claims Settlement Act (85

Stat. 688) [43 U.S.C.A. and 1601 et seq.], that is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

Unified Command: An application of ICS used when there is more than one agency with incident jurisdiction or when incidents cross political jurisdictions. Agencies work together through the designated members of the Unified Command to establish their designated Incident Commanders at a single Incident Command Post and to establish a common set of objectives and strategies and a single Incident Action Plan.

Unit Administrator (Line Officer): The individual assigned administrative responsibilities for an established organizational unit, such as Forest Supervisors or District Rangers for the Forest Service, District Manager for the Bureau of Land Management, Area Forester, District Forester, or State Forester as designated for the State Forest Service, Agency Superintendent for the Bureau of Indian Affairs, Park Superintendent for the National Park Service, and Refuge Manager (Project Leader) for Fish and Wildlife Service. May also include managers for a Tribe, state, county or local government entity.

United States: The term “United States”, when used in a geographic sense, means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, any possession of the United States, and any waters within the jurisdiction of the United States. (As defined in section 2(16) of the Homeland Security Act of 2002, Public Law 107-296, 116 Stat. 2135, et seq. (2002).)

Unplanned Ignition: The initiation of a wildland fire that was unplanned, regardless of cause.

Wildfire: An unplanned, unwanted wildland fire including unauthorized human-caused fires, escaped wildland fire use events, escaped prescribed fire projects, and all other wildland fires where the objective is to put the fire out.

Wildland Fire: Any non-structure fire that occurs in vegetation or natural fuels. Wildland fire includes prescribed fire and wildfire.

Wildland Urban Interface (WUI): The line, area, or zone where structures and other human development meet or intermingle with undeveloped wildland or vegetation fuels.

This Operating Plan is hereby made and entered into by and between the Parties pursuant to the Master Cooperative Wildland Fire Management Response Agreement (Agreement) signed and dated _____. This Operating Plan, inclusive of any referenced attachments or Exhibits, is tiered to the Agreement. A formal modification to the Agreement is unnecessary, but shall not contradict the Agreement.

All portions of this Operating Plan should be addressed. State if any item is not applicable, but do not remove the item. To facilitate review of this Operating Plan, do not change the format or delete sections. Items may be added as necessary to each of the sections.

I. PURPOSE

This is a Statewide Operating Plan applicable to all signatory Parties within the State of New Mexico. Its purpose is to address statewide issues affecting cooperation, interagency working relationships and protocols, financial arrangements, sharing of resources, and joint activities/projects. The Southwest Interagency Mobilization Guide is considered part of this Operating Plan.

II. RECITALS

For Federal Agencies only, Stafford Act responses and related National Response Framework (NRF) activities will be accomplished using established dispatch coordination concepts. Situation and damage assessment information will be transmitted through established fire suppression intelligence channels.

Jurisdictional Agencies are responsible for all planning documents, *i.e.* land use, resource and fire management plans, and decision support documents, for a unit's wildland fire and fuels management program.

Protecting Agencies implement the actions documented and directed by the appropriate planning documents and decision support documents for initial and extended attack on wildfire incidents. They provide the supervision and support including operational oversight, direction, and logistical support to Incident Management Teams (IMTs).

III. INTERAGENCY COOPERATION

A. **Interagency Dispatch Centers:** At a minimum, address within this plan (or provide reference to) the following components:

1. **Purpose and Overview:**

The primary coordination center for the State of New Mexico will be the Southwest Coordination Center (SWCC), located in Albuquerque. Additionally, there are five Interagency Dispatch Centers located at Alamogordo, Albuquerque, Santa Fe, Silver City, and Taos. Assistance to federal or state agencies is provided on a continuous, year-round basis. In addition, during periods of high fire danger or increased activity, these centers may temporarily increase staffing to meet the needs of the situation. The Parties to this Operating Plan will coordinate, mobilize, and demobilize emergency management resources through these centers as appropriate. Parties to this Operating Plan are not precluded from independent movement of resources. Zone Dispatch Operating Plans shall follow the Interagency Standards for Fire and Fire Aviation Operations (Red Book) Appendix P Dispatch Center Local Mobilization Guide/Dispatch Operating Plan.

2. **Administrative Oversight/Structure:**

a. **Coordinating Group**

The Southwest Coordinating Group (SWCG) provides administrative oversight and supervision of the SWCC and the employees within it. Zone Coordinating Groups/Boards provide administrative oversight and supervision of the Interagency Dispatch Centers and employees.

b. **Operations Group**

If applicable, an Operations Group may also be established to provide daily operational oversight to assist in decision making on incident resources.

3. **Dispatch Organization:**

The SWCC and Interagency Dispatch Centers are funded by the applicable agencies within their respective dispatch area. Staffing levels should be commensurate with center expectations and annual volume of incident business.

4. **Roles and Responsibilities:**

a. Center Manager

The Center Manager is responsible for the overall oversight and daily supervision of the center employees. A delegation of authority is given by the Southwest Coordinating Group.

b. Assistant Center Manager

The Assistant Center Manager assists the Center Manager in operations and supervision of the center employees. The Assistant may be required to perform as the Center Manager in their absence.

5. **Dispatch Services:**

a. Initial and Extended Attack

b. Mobilization, Demobilization, and Support

c. Aviation

d. Prescribed Fire (if applicable)

e. All Hazard (law enforcement, natural disaster, etc., as appropriate)

The current Southwest Area Interagency Mobilization Guide will guide dispatch services. The Southwest Area Mobilization Guide (Guide) is written to reflect the interagency needs of the user. The Guide will be in an online version only and agencies or individuals can print as needed locally. The Southwest Area will align with the National Mobilization Guide, edit the Guide annually, and publish these changes as they occur.

6. **Funding:**

a. The SWCC and Interagency Dispatch Centers are funded by the applicable agencies within their respective dispatch area. SWCG provides oversight of financial planning between participating agencies for dispatch operations.

b. Financial Plan (Not applicable)

B. **Interagency Resources:**

1. Identify funding and staffing of joint resources and facilities commensurate with each Agency's use. Each Agency funds and staffs their own resources and facilities.

2. Identify the process by which additional preparedness resources requests will be coordinated. Each Agency follows their own process for identifying needed preparedness resources.
3. If applicable, cite the operating plan for management of IMTs and where it is available. See Southwest Area Mobilization Guide.

All Agencies will maintain separate and individual initial attack resources. Agencies' resources will be available to assist the other in all fire management related activities. During periods of extended high fire danger resources may be co-located as deemed necessary.

- C. **Standards:** Reference common standards; reference direction for land management and aircraft use. Southwest Area Multi-Agency Coordinating Group (SWA MAC Group): provides coordination and recommendations for all interagency fire management activities in the State of New Mexico. Membership, procedures, and guidelines are documented in the Southwest Area MAC Operating Guide.

Municipal and county resources are coordinated by the State of New Mexico, Energy, Minerals and Natural Resources Department, Forestry Division (EMNRD, Forestry Division) through agreements with counties and municipalities and the Resource Mobilization Plan.

Supplemental Fire Department Resources: Not Applicable

Identify any Supplemental Fire Department Resources that may be mobilized

Identify hourly compensation rates for any Supplemental Fire Department Resources, as instructed in "Rate Determination" clause of Exhibit G.

IV. PREPAREDNESS

- A. **Protection Planning:** Determine efficiencies and document decisions regarding acquisition of protection services and reciprocal assistance. Identify placement of crews, engines, air tankers, helicopters, fixed-wing and aerial detection, regulated use, closures, and other joint fire control efforts.

Agencies will maintain responsibility for protection of lands under their jurisdiction. Closest forces concept will be used when appropriate.

- B. **Protection Areas and Boundaries:** Identify areas (map or describe).

Federal agencies will have protection responsibility for lands under their management within the State of New Mexico. The EMNRD, Forestry Division will have protection responsibility for all non-federal, non-municipal, and non-tribal lands within the State of New Mexico.

- C. **Methods of Fire Protection and Suppression:**

1. **Reciprocal (Mutual Aid for Initial Attack) Fire Assistance:**

All Agencies may provide reciprocal non-reimbursable fire assistance during initial attack when fires occur on lands under the responsibility of one Agency, but threaten lands that are the responsibility of the other

Agency, or if ownership isn't immediately known. Reciprocal non-reimbursable fire assistance will generally be on lands within one mile of the property boundary of the federal ownership in New Mexico.

The mutual aid initial attack period will end when the incident exceeds initial attack capabilities, or 24 hours.

If the supporting agency assistance exceeds the mutual aid period, then all their incident expenses incurred are billable retroactively from the beginning of the fire. Supporting resources will be assigned a resource order if the jurisdictional agency requests them to assist beyond the mutual aid period.

Mutual aid provided by EMNRD, Forestry Division only includes EMNRD, Forestry Division employees and ADs.

All requests for assistance will be processed through the State and Federal coordinators at SWCC.

Air tactical resources will be used on a reimbursable basis on all fires, regardless of reciprocal status of the fire.

2. **Acquisition of Services:** Identify areas for reimbursable (cooperative), exchange (offset), or contract (fee basis) fire protection services. Method used to establish fee or rate of exchange. Terms and conditions. Work to be done by Protecting Agency and its responsibilities.

Fires that are not under reciprocal protection or areas that are not under exchange (offset) will be managed according to cooperative protection standards. Assistance from the Agency that does not have protection responsibility will be reimbursable. However, if the fire is controlled with initial attack forces within the mutual aid initial attack period, there will be no charges or reimbursement by either agency. Maps depicting areas under initial attack exchange (offset) will be maintained at each dispatch office and at SWCC.

3. **Exchange (Offset) Fire Protection:** Agencies may exchange responsibility for fire protection for lands under their jurisdiction. The rate of exchange will be based upon comparable cost, acreage involved, complexity, and other factors, as appropriate, and mutually agreed to by the Agencies. Exchange zones will be documented in Zone Operating Plans.

If an imbalance exists, the Protecting Agency with the surplus of acres may establish a separate agreement and bill the Jurisdictional Agency for the difference on a per acre basis as computed under Contract or Fee Basis Protection. Imbalance means a deviation exceeding the range of variation agreed to between the respective Agencies.

When a Protecting Agency takes suppression action on lands it protects for the Jurisdictional Agency, and it requests the Jurisdictional Agency assist during initial attack, the Protecting Agency will reimburse the

Jurisdictional Agency for its assistance. The exception is if the Agencies involved are federal wildland fire agencies. The National Interagency Agreement for Wildland Fire Management between the USDOJ wildland fire agencies and the USFS provides that the Parties agree not to bill each other for suppression services.

- D. **Joint Projects and Project Plans:** List or reference joint cooperative projects. These projects may involve such activities as prescribed fire/fuels management, preparedness, fire analysis/planning, rehabilitation, training, prevention, public affairs, and other beneficial efforts in support of interagency fire management. Implementation of such projects will require a separate, local agreement, or other appropriate written document, executed by the authorized signatories of the involved Parties. This may include a Supplemental Project Agreement, as in Exhibits I and J, or other written document.
- If any of the Federal Agencies and the EMNRD, Forestry Division wish to engage in joint cooperative projects, such as prescribed fire/fuels management, preparedness, fire analysis/planning, rehabilitation, training, prevention, public affairs, and other beneficial efforts in support of interagency fire management, a Supplemental Fire Project Agreement (as outlined in Exhibit I of the Agreement) will be prepared.
- E. **Fire Prevention:** Identify goals, activities, resources available, and opportunities for cost sharing.
- Each Agency agrees to cooperate in the development and implementation of fire prevention programs. Unit Administrators will ensure the fire prevention goals and activities are planned at local levels and are addressed. Specific fire prevention plans should be developed by local interagency fire management personnel. Each Agency may pool resources and share costs. Unit Administrators are encouraged to participate in local fire prevention cooperatives, organizations, or groups, where applicable.
- Each Agency will emphasize measures to reduce the risk to communities and the environment according to the direction given through the National Cohesive Wildland Fire Management Strategy.
- F. **Public Use Restrictions:** Include implementation procedures or incorporate by reference the document containing those procedures. For example, the NW Operating Plan states “Guidelines for Coordinated Public Use Restrictions Memorandum of Understanding, NFS 92-06-52-51, May 1992, is incorporated by reference”.
- Each Agency will follow their individual policies concerning fire restrictions on lands under their jurisdiction. When feasible, Agencies should coordinate the implementation of restrictions for consistency in a given area.
- G. **Burning Permits:** Document procedures where applicable, which may include burning permits, fire restrictions, and burn bans.

Each Agency will follow their individual policies on lands under their jurisdiction.

- H. **Prescribed Fire (Planned Ignitions) and Fuels Management:** Identify planned projects.

Information concerning prescribed fire or other fuels management projects will be coordinated at SWCC. State dispatch offices will be notified each day concerning prescribed burns that are being conducted.

- I. **Smoke Management:** Local considerations; use of Air Resource Advisors. Prescribed burns will comply with state smoke management guidelines as determined by the New Mexico Environmental Department,

V. OPERATIONS

A. Fire Notifications:

1. Specify notification procedures and timelines. When Federal resources take sole action on fires that threaten or involve lands under the EMNRD, Forestry Division's jurisdiction the Federal Agency shall provide the following information to the appropriate EMNRD, Forestry Division district office, as well as the EMNRD, Forestry Division representative at SWCC as soon as possible after the action is taken, or at least later on the same day of the fire occurrence:

- a. location; and
- b. suppression action taken.

When EMNRD, Forestry Division resources take sole action on fires that threaten or involve lands under federal jurisdiction the EMNRD, Forestry Division shall provide the following information to the Federal Agency, as well as the Federal Agency's representative at SWCC as soon as possible after the action is taken, or at least later on the same day of the fire occurrence:

- a. location; and
- b. suppression action taken.

2. Establish timeframes when final Fire Reports will be sent to Jurisdictional Agencies. Fire reports will be sent to Jurisdictional Agencies within 30 days after a fire is declared out.
3. Describe the level of communication required with neighboring jurisdictions regarding the management of all wildland fires, especially those with multiple objectives. When wildland fires threaten a neighboring jurisdiction, the Jurisdictional Agency shall notify the neighboring Agency of the risk and management objectives.

- B. **Boundary Line Fires:** Specify notification procedures. A boundary line fire, as defined in the glossary will be the initial attack responsibility of the Protecting Agencies on either side of the boundary. Neither Agency will assume the other

Agency is aware of the fire or that the other Agency will take action. Each Protecting Agency will make every reasonable effort to communicate with the other concerning the fire.

1. The Protecting Agencies shall designate an Incident Commander or establish a Unified Command in consideration of the lands threatened. The Agencies shall notify the appropriate zone dispatch of the designation as soon as possible. The qualifications of the Incident Commander shall be based on the fire's complexity and the National Wildland Fire Qualifications System.
2. The Protecting and Jurisdictional Agencies shall participate in joint planning sessions to reach agreement on strategy and tactics in accordance with policy guidelines that the Jurisdictional Agencies prescribe.
3. The Jurisdictional Agency administrators or their authorized representatives shall prepare a Cost Share Agreement. See Cost Share Agreement Template, Exhibit F.

Failure to comply with conditions stated above are grounds for denial of payment by the Agency that was not afforded due consideration.

- C. **Independent Action on Lands Protected by Another Agency:** Discuss any special land management considerations that affect independent action initial attack. Describe areas, if any, where there are exceptions to this clause and state reasons. Each Agency may take independent action on any lands under the protection responsibility of another Agency to engage in suppression of wildfires, when such fires are a threat to lands under that Agency's management or protection responsibility. In such instances, the Agency taking action will promptly notify the Protecting Agency. Such actions will be commensurate with the land management considerations of the Jurisdictional Agency, and subject to the laws and regulations or rules of the Jurisdictional Agency. Due to National Nuclear Security Administration security restrictions before an Agency, besides NA-LA, responds to wildfire on property owned by NA-LA and occupied by the Los Alamos National Laboratory (including airspace owned above the Laboratory), the Agency will need to provide notification and obtain permission to respond. To facilitate granting of permission, Agencies should contact the NA-LA 24/7 Emergency Operations Support Center at 505-667-2400 and request the On-Call Wildland Fire Management Officer.

D. **Response to Wildland Fire:**

Special Management Considerations:

1. Identify areas where there are resource and other management concerns, *i.e.*, special management considerations, appropriate fire management actions, any restrictions in firefighting tactical techniques, etc. (*Note: This information could be incorporated by reference to a land or resource management plan.*) On National Forest (NF) designated wilderness areas, the use of mechanical equipment will not be undertaken except with advance approval of the Regional Forester, on a case-by-case basis.

Locations of NF wilderness areas are available on maps maintained at each dispatch office and at SWCC.

NA-LA (Los Alamos National Laboratory) is a Department of Energy Federal Nuclear facility surrounded by federal land management agencies. Threats from wildland fire and/or actions taken by Laboratory High Explosives testing may warrant notifications or assistance of interagency wildland fire resources. Interagency resources are critical to wildland fire response. To ensure additional resource capacity, NA-LA implements a ten-mile wildfire response posture beyond their jurisdictional boundary. Therefore, Cooperators may request the use of laboratory personnel and equipment for wildfire response or mitigation. Specific resources available for wildfire response and project work will be listed in a Local Area Operating Plan or Specific Project Agreement under the Statewide Master Agreement.

Due to National Nuclear Security Administration security restrictions before an Agency, besides NA-LA, responds to wildfire on property owned by NA-LA and occupied by the Los Alamos National Laboratory (including airspace owned above the Laboratory), the Agency will need to provide notification and obtain permission to respond. To facilitate granting of permission, Agencies should contact the NA-LA 24/7 Emergency Operations Support Center at 505-667-2400 and request the On-Call Wildland Fire Management Officer.

2. Identify any tactical strategies that may need to be considered to limit the potential for increased damage to private and public property, infrastructure investments, or critical habitat, when it is necessary to limit the use of aerially delivered fire retardant in certain locations, such as the WUI or in an aerial retardant avoidance area. Agency Administrators should be aware of the current Aerial Fire Retardant Avoidance Areas within New Mexico.

Jurisdictional Agencies should identify the conditions under which wildland fire may be managed to achieve benefit, and the information or criteria that will be used to make that determination (*e.g.*, critical habitat, hazardous fuels, and land management planning documents) Note: This information could be incorporated by reference to a land or resource management plan.

The EMNRD, Forestry Division is responsible for prevention and suppression of wildfires on non-federal, non-tribal, and non-municipal lands within New Mexico. The EMNRD, Forestry Division does not have jurisdiction to make land management decisions for state, local government, and private lands for which it has fire suppression responsibility. Federal wildfires that are not human-caused may be managed for multiple objectives as established in land and resource management plans. These areas and the process for managing the fire will be documented in Zone Operating Plans. This may require the

Jurisdictional Agency to fulfill certain fire management responsibilities. Adjacent fire protection entities, including state and local governments, should be consulted regarding fire management strategies used in these areas, and share in the decision-making process whenever possible.

- 3 Identify how suppression costs related to special management considerations will be allocated. All suppression costs related to special management considerations will be allocated following Exhibit E Cost Share Agreement Instructions.
- E. **Decision Process:** Identify the process by which the Parties will develop and document decisions regarding suppression strategies and tactical actions that are cost efficient and consider loss and benefit to land, values at risk, resource, social and political values, and existing statutes. For fires that are expected to exceed initial attack capabilities all Agencies with lands involved will meet to develop and document decisions regarding suppression strategies and tactical actions that are cost efficient and consider loss and benefit to land, values-at-risk, resource, social and political values, and existing statutes.
- F. **Cooperation:** Identify how to involve all Parties in developing the strategy and tactics to be used in preventing unwanted wildland fire from crossing the jurisdictional boundary, and how all Parties will be involved in developing mitigations which would be used if a wildland fire does cross jurisdictional boundaries. Pre-season meeting should be held to discuss any issues related to the upcoming fire season such as resource availability/drawdown levels, fire restrictions, cost share, natural/cultural resource concerns, etc.
- G. **Communication:** Describe the level of communication required with neighboring jurisdictions regarding the management of all wildland fires, especially those with multiple objectives. Communications should occur prior to fire seasons and during the early stages of wildland fires. Agencies managing fires, especially those with multiple objectives, should consider: firefighter and public safety, predicted weather conditions, resource drawdown, proximity to values at risk, smoke, current and anticipated fire activity, and time of season. Neighboring jurisdictions should provide prompt notification to Agencies when concerns exist about wildfires that are managed strategically and have the potential to impact adjacent jurisdictions. Local level communications are required. Communications should occur prior to fire seasons and during the early stages of emerging wildland fires.
- H. **Cost Efficiency:** Jurisdictions will identify conditions under which cost efficiency may dictate where suppression strategies and tactical actions are taken (*i.e.*, it may be more cost effective to put the containment line along an open grassland than along a mid-slope in timber). Points to consider include loss and benefit to land, values at risk, resource, social and political values, and existing statutes. Agencies managing fires, especially those with multiple objectives, should consider: firefighter and public safety, predicted weather conditions, resource drawdown, proximity to values at risk, probability of success, smoke, current and anticipated fire activity, and time of season. Neighboring jurisdictions

should provide prompt notification to Agencies when concerns exist about fires that are managed strategically and have the potential to impact adjacent jurisdictions. Response is control/immediate suppression. The management response (Confine, Contain, and Control) will be selected for each incident. In the event the fire will impact adjacent jurisdictions, all parties will be asked to participate in the development of the Wildland Fire Decision Support System (WFDSS).

- I. **Delegation of Authority:** Describe procedures and criteria to specify direction, authority, and financial management guidelines that local Unit Administrators will use to inform Incident Commanders. In the event overhead teams are called in to stage, or to assume control of an incident, the Agency with protection responsibility will prepare the delegation of authority and WFDSS for the incident commander. A single joint delegation of authority is recommended for multi-jurisdictional incidents.
- J. **Preservation of Evidence:** Evidence will be preserved in accordance with applicable Agency regulations or rules and policies.
- K. **Resource Advisors:** Each Agency reserves the right to assign a resource advisor to coordinate suppression actions on lands under their jurisdiction.

VI. USE AND REIMBURSEMENT OF INTERAGENCY FIRE RESOURCES

- A. **Cost Share Agreement (Cost Share Methodologies):** The type of cost share methodology used will vary according to a great variety of environmental, resource, tactical, political, and other considerations. The following factors should be discussed to clarify how such factors will influence the ultimate selection of a cost share methodology for any given wildland fire.
 - 1. The cost sharing methodologies that will be used should wildfire spread to a neighboring jurisdiction in a location where fire is not wanted.
 - 2. The cost share methodologies that will be used should a jurisdiction accept or receive a wildland fire and manage it for multiple objectives.
 - 3. Any distinctions in what cost share methodology will be used if the reason the wildfire spreads to another jurisdiction is attributed to a strategic decision, versus environmental conditions (weather, fuels, and fire behavior) or tactical considerations (firefighter safety, resource availability) that preclude stopping the wildfire at jurisdictional boundaries. Examples of cost sharing methodologies may include, but are not limited to, the following:
 - a. When a wildland fire that is being managed for multiple objectives spreads to a neighboring jurisdiction because of strategic decisions, and in a location where fire is not wanted, the managing jurisdiction may be responsible for wildfire suppression costs.
 - b. In those situations where weather, fuels, or fire behavior of the wildland fire precludes stopping at jurisdiction boundaries, cost share methodologies may include, but are not limited to:

- 1) each jurisdiction pays for its own resources – fire suppression efforts are primarily on jurisdictional responsibility lands,
- 2) each jurisdiction pays for its own resources – services rendered approximate the percentage of jurisdictional responsibility, but not necessarily performed on those lands,
- 3) cost share by percentage of ownership,
- 4) cost is apportioned by geographic division or percent of effort. Examples of geographic divisions are: Divisions A and B (using a map as an attachment); privately owned property with structures; or specific locations such as campground, or
- 5) reconciliation of daily costs (for larger, multi-day incidents). This method relies upon daily agreed to costs, using Incident Action Plans or other means to determine multi-Agency contributions. Reimbursements must be followed up by a final bill.
- 6) The EMNRD, Forestry Division usually prefers cost share method C in Exhibit E (or as referenced here A.3.b.3) above).

B. **Training:** Identify training needs, schedules, resources available, and opportunities for sharing cost. Interagency training courses may be made available. This can include, but is not limited to the annual fire refresher, wildfire academies, and in house training. Each agency will notify partners of planned training courses.

C. **Communication Systems:** Identify specific radio frequencies, computer system access, data transmission lines, communication sites, and communications equipment shared between Parties. See the Southwest Area Aviation Contacts and Communications Guide. Access to systems and facilities will be approved only by agency authorized personnel and in accordance with agency laws, regulations or rules, and policies governing security of systems and facilities.

To enhance communications, radio stations may be added, deleted, or relocated by mutual agreement between representatives of Agencies. Each Agency may install the others' radio frequency in its radios for use in cooperative activities. All federal licensing requirements will be followed.

All headquarters and/or dispatch centers will have commercial telephone service.

When it becomes necessary for an Agency to operate radio equipment belonging to another agency, all operating procedures of the Agency owning the equipment will be followed.

Each Agency will maintain its own radios and will cooperate to the fullest extent in maintaining efficient communications.

Radio communication will be maintained between patrol planes and dispatchers.

- D. **Fire Weather Systems:** Specify maintenance, use, and management, if any. The EMNRD, Forestry Division and the federal agencies will share information from RAWs stations owned or operated by each respective Agency.
- E. **Incident Meteorological (IMET) Services:** Describe the procedures for requesting and obtaining IMET services from the NWS. The procedures shall be made in accordance with the provisions of the Interagency Agreement for Meteorological and Other Technical Services (IMET Agreement), and shall not conflict with the procedures of the Mobilization Guides. Reimbursement and expenditures for IMET Services shall follow the procedures detailed within the IMET Agreement.
- F. **Aviation Operations:** Identify and document any local aviation agreements. Aviation operations on federal lands will follow the requirements within the annual Cooperator Letters of Approval.
- G. (insert other items, as applicable, or indicate NA). NA

VII. BILLING PROCEDURES

(Refer to Exhibit D of the Agreement–Reimbursable Billings and Payments)

A. Suppression Billing:

1. Billing Information, provide:

- a. Agency name and billing address
- b. Financial Contact (name, phone, email)
- c. Unique Entity ID (UEID)

2. Billing Timeframes: Provide contact information for written request for extensions beyond timeframes established in Exhibit D, Reimbursable Billings and Payments.

3. Indirect Cost Rates, if applicable:

Indirect rates for overhead and administration costs shall be based on the Agency's direct costs that are incurred pursuant to this Agreement and computed per incident for the total cost of the incident as follows:

DIRECT COSTS

INDIRECT RATE

Less than or equal to \$250,000.00

5%

Between \$250,000.00 and \$1,000,000.00

the greater of \$12,500.00 or 3%

Greater than \$1,000,000.00

the greater of \$30,000.00 or 1%

- #### 4. Identify a process for handling any supplemental billing information, summary data, or additional billing documentation. Such supplemental billing information, summary data, or additional billing documentation may be requested and provided if agreed upon by the Parties. The process should include:

- a. Points of Contact
 - b. Process for handling requests
 - c. Any standardized reports information
- B. **Fee Based Services:** Billings will be in accordance with separate written agreement or contract(s).
- C. **Non-Suppression Billings:** As described in this Operating Plan, the Parties may jointly conduct cooperative projects or share resources to carry out non-suppression activities in support of interagency fire management. These joint projects or activities may involve sharing of costs or a transfer of funds between the Parties involved, at which time a separate, local agreement, procurement, or other appropriate written document will be required. Billing will be defined under the terms of that document.
- D. **Stafford Act Billings:**
 - 1. For Federal Agencies only, refer to Exhibit H of the Agreement – Use of and Reimbursement for Stafford Act Shared Resources.
 - 2. Billing timeframes – Provide contact information and process required for any written request for extensions beyond timeframes established in Exhibit H.

VIII. GENERAL PROVISIONS

- A. **Principal Contacts:** Refer to Exhibit B of Agreement – Principal Contacts. Complete and add to this Operating Plan.

Personnel Policy: NA See Exhibit XX – Supplemental Fire Department Resources. List personnel to be mobilized under the terms of that Exhibit by name, position(s), and identified as Single Resource. While on assignment, these individuals are (XX) FD employees and the (XX) FD will be reimbursed for their actual costs.

- B. **Modification:** Modifications within the scope of this Operating Plan shall be made by mutual consent of the Parties, through the issuance of a written modification signed and dated by all Parties prior to any changes being performed. Any Party shall have the right to terminate their participation under this Operating Plan by providing one year advance written notice to the other Parties.
- C. **Annual Review:** This Operating Plan is reviewed annually by February 28 and revised, as needed.
- D. **Duration of Operating Plan:** This Operating Plan is executed as of the date of last signature and remains in effect for five years unless modified or superseded. If the current Agreement is superseded by a new Agreement, this Operating Plan may remain in effect to the extent that it does not conflict with provisions of the new Agreement, but only until such time that all activities and conditions can be incorporated into a new Operating Plan.
- E. **Previous Instruments Superseded:** List, as applicable. NA

- F. **Authorized Representatives:** By signature below, all signatories to this Operating Plan certify that the individuals listed in this document are authorized to act in their respective areas for matters related to this Operating Plan.

IX. REVIEW AND SIGNATURES

The Statewide Operating Plans will be approved by the signatory State and Federal SWCG members.

Unit Administrators will have the responsibility for developing and approving sub-geographic area operating plans.

Each signatory agency may have policies/procedures for entering into agreements (including this Operating Plan) that require additional review by attorneys, agreement specialists, or contracting officers.

EXHIBIT D

REIMBURSABLE BILLINGS AND PAYMENTS

I. **Suppression Billings:**

- A. The USFS, BLM, BIA, NPS, and FWS will not bill each other for suppression costs. However, pre-suppression costs, fair sharing for interagency dispatch centers costs, prevention costs, and other fire management costs will be billed in accordance with existing agreements or other written documents.
- B. Parties to this Agreement may opt to use a “Reconciliation Process” for tracking incident costs for all Parties to this Agreement for the purpose of issuing one annual billing to the paying Party. If the Reconciliation Process is not used, Parties to the Agreement shall use the applicable Incident by Incident process.

- 1. **Reconciliation Process:** The EMNRD, Forestry Division and the Federal Agencies agree to consolidate billing and minimum balances.

All costs of fires occurring in and out of New Mexico, regardless of jurisdictional boundary, will be compiled based on each Agencies’ costs. A reconciliation balance sheet will be developed and billed as one consolidated amount. This cost tracking method will reduce actual payments and ensure that a fair division of suppression costs can be made between the Federal Agencies and the EMNRD, Forestry Division in a timely fashion. Agency and cooperator costs are identified by fire number and code and tracked on an annual balance sheet. Federal balance sheets and EMNRD, Forestry Division balance sheets must align with a single fiscal year. A final division of cost responsibilities based on jurisdiction, minimum thresholds, and cost share agreements will be negotiated by January 1 of each year.

Minimum Billing Threshold is \$5,000 and applies to all fires included in this process. It does not apply to out-of-state responses. The minimum threshold does not apply to costs for county and municipal fire departments under a separate agreement with the EMNRD, Forestry Division when working outside their jurisdictional boundary on federal lands or requested by a resource order for extended attack. All aviation resources will be utilized on a reimbursable basis on all fires.

The Jurisdictional agency will be responsible for managing the balance sheet which includes all Agencies’ costs and cost share information. Actual costs are tracked by each Agency for each incident. The balance sheet is verified but may be disputed based on the cost share allocation, severability of costs, and actual costs submitted for each fire. The balance sheet will result in a final settlement between all Parties and one transfer of funds is required to reconcile the fire season, unless a request is submitted to complete reconciliation prior to the end of fire season, at which point a settlement will be done for expenses to the requested date.

Billing Time Frames for Reconciliation Process: Agencies will submit invoices within 30 days of final reconciliation. Requests for extensions beyond 30 days for invoice submittal must be presented in writing to the reimbursing

agency. Operating Plans will include contact information for written requests for extensions.

2. **Incident by Incident Process:**

a) **Federal Billings by Incident:** There are not billings between the Federal wildland fire agencies, pursuant to the Master Interagency Agreement for Wildland Fire Management. Federal Agencies will submit bills for their reimbursable costs to the EMNRD, Forestry Division whenever the EMNRD, Forestry Division is the Protecting Agency and a billing is appropriate.

b) **State Billings by Incident:**

- In State Response-When the EMNRD, Forestry Division is the Supporting Agency and the fire is within the State of New Mexico, the EMNRD, Forestry Division will bill the Protecting Agency for reimbursable costs when a billing is appropriate.
- Out of State Response-Anytime the EMNRD, Forestry Division responds to a Federal Agency fire outside of New Mexico, the EMNRD, Forestry Division will bill all applicable costs to the jurisdictional Federal Agency or Agencies. Anytime the EMNRD, Forestry Division responds to a fire in another state, the bill will be sent to the host state if an agreement exists between the states. If not, the bill will be sent to the USFS. The USFS will then bill the Jurisdictional Agency. Operating Plans will include billing location information.

c) **Billing Time Frames:** The Billing Agency shall submit a bill or estimate for reimbursement as soon as possible, but no later than 180 days after the incident is controlled. If the total cost of the incident is not known at the time of initial billing, a partial bill may be submitted. A final bill, so identified, shall be issued within 270 days after control of the incident. After the final billing has been sent, and if additional costs are identified, a supplemental billing may be issued if agreeable to applicable parties. This supplemental billing must be submitted within 365 days after the incident is controlled, at which time the incident is closed out.

C. **Severity:** Costs incurred on severity assignments within New Mexico will be billed individually to the Jurisdictional Agency. Severity assignments are reimbursable under the Reciprocal Fire Protection Act.

D. **Electronic Funds Transfer (EFT):** Notwithstanding any other provision of law, effective January 2, 1999, US Treasury Regulation, Money and Finance at 31 CFR 208.3 requires that federal payments are to be made by EFT unless waived in accordance with specific circumstances set forth in 31 CFR 208.4.

In order to receive EFT payments, the payment recipient shall register in System for Award Management (SAM) and are required to validate their information in SAM once per year. The payment recipient is also required to have a Unique Entity ID (UEI) number. The UEI number is assigned by SAM to identify unique business entities. For more information, refer to <https://www.sam.gov>.

Each Party to this Agreement shall provide the following information in the

Operating Plan:

- Agency name and billing address;
- Financial Contact (name, phone, email); and
- Agency UEI.

- E. **Billing Content:** The following items will be included as a minimum for each bill, noting that a resource order is not always required or available in order for a bill to be valid. Provide as a minimum on each invoice/bill:

- Agency name, address, phone number, and agency financial contact;
- invoice or bill number;
- Agreement number;
- incident name and number;
- dates of the incident covered by the billing;
- location and jurisdictional unit;
- appropriate Firecode or charge code; and
- summary cost data for the amount being billed.

Summary data may include but is not limited to, a list of personnel, travel, and equipment expenses; and a listing by vendor name and amount spent for supplies and services procured. Generally, cost source documents will not be required unless summary cost data is disputed, there is a Fire Management Assistance Grant, or unless specific Agency regulations or rules require cost source documents.

At times, supplemental information, summary data, or additional billing documentation may be requested and provided if agreed upon by the Parties. The process for handling such requests should be documented in the Operating Plan.

- F. **Payment Due:** Whenever this Agreement provides for billing, the Agency receiving the bill has an obligation to pay. Once bills are received by the reimbursing Agency, payment will be made in accordance with that Agency's payment processes.
- G. **Services Received and Certification of Billings:** Reimbursing Agencies must provide written notice of incorrect invoices to Billing Agencies within 21 days.
- H. **Financial Dispute Resolution:** If a conflict arises between the Agency's payment processes, the terms of the billing document, or the costs associated with the billing document, the Parties should attempt to resolve the differences. If the differences cannot be resolved after consultation between the Parties, the Parties follow their dispute resolution processes.
- I. **Review Procedures:** The Parties agree to jointly conduct a review, sampling transactions of the incidents managed under this Agreement. Findings that are inconsistent with the normal or accepted way of doing business will be reconciled on a case by case basis. Any decision to further examine records will be considered on a case by case basis and appropriate follow up action agreed upon by all Agencies involved.

- II. **Payment for Protection Services (use if appropriate):** Geographic Area, Statewide, or Sub-geographic Area (Zone) Operating Plans and procurement documents or agreement will establish

billing procedures for Fee Basis Protection Services.

- III. **Non-Suppression Billings:** All non-suppression costs shall be billed and paid in accordance with the terms and conditions of the Supplemental Project Agreement, separate agreement, procurement, or other appropriate written document, executed by the authorized signatories of the involved Parties within their legal authorities.
- IV. **Accounting Records:** Agencies must maintain records incident by incident which adequately identify the source and use of funds. These records must contain information pertaining to expense related to each incident, unobligated balances, liabilities outlays or expenditures, and income. Such documents must be made available to the Federal Agency or EMNRD, Forestry Division upon request.
- V. **Internal Control:** Effective control and accountability must be maintained for all federal or state funds, real and personal property, and other assets. Agencies must keep effective internal controls to ensure that all funds received are separately and properly allocated to each incident and used solely for authorized purposes.
- VI. **Reimbursable Costs:** Documented costs incurred as the result of an incident are reimbursable. All costs must be reasonable, allowable, and allocable. Costs must be consistently treated as either direct costs or indirect costs. Consistent treatment of costs is a basic cost accounting principle and is specifically required to ensure that the same types of costs are not charged as both direct costs and indirect costs. Every effort should be made to classify costs incurred for the same purpose, in like circumstances, consistently as either direct or indirect.
- A. **Direct Costs:** Direct costs are those items of expense specifically identified with the delivery or completion of a project or program. General examples include, but are not limited to, personnel costs (salary and fringe benefits), equipment costs, travel, materials, supplies, and contracts.
- For the purposes of this Agreement, these may include, but are not limited to the following:
- actual costs directly incurred for “move-up and cover” or “backfill” resources;
 - Agency costs of individuals assigned to the incident or project for salary, benefits, and overtime including premium pay if and when it is earned according to the laws, regulations or rules, or policies governing the employees of the Supporting Agency;
 - Agency costs for transportation including, but not limited to, airline fees, vehicle rental fees, fuel and oil, and Agency established mileage fees;
 - Agency costs for per diem and lodging of resources assigned to the incident when such services are not supplied by the incident;
 - additional support dispatching, warehousing, or transportation services supporting a resource order or project;
 - operating expenses for equipment assigned to the incident, such as fuel, oil, and equipment repairs;
 - cost of reasonable and prudent supplies expended in support of the incident or project;
 - usage cost of equipment in support of the incident or project, contract equipment costs, and operating costs for Agency equipment;

- aircraft, airport fees, retardant costs, and retardant and other fire chemical costs;
- Agency-owned equipment lost or damaged, by the Supporting Agency when accompanied by the appropriate Agency source documentation to include insurance deductible paid;
- charges from the state for state controlled resources such as inmate crews, National Guard resources, and county and local resources;
- Agency-owned equipment and supplies lost, damaged, or expended by the Supporting Agency;
- cost or replacement of reasonable and prudent supplies expended in support of the incident; what is reasonable and prudent is determined by the Protecting or Jurisdictional Agency or the fire team within the limits of their delegated authority or identified in the current Interagency Incident Business Management Handbook (IIBMH).

B. **Indirect Costs:** Indirect costs are those items of expense incurred as part of general management and administrative support of an organization. These costs are not attributable to a specific project, program, or output, but are distributed among many benefiting activities. Often they are proposed as a percentage of direct project costs and are referred to as administrative costs, overhead, or burden. Examples may include office space, computer equipment, postage, utilities, salaries for administrative activities such as procurement, personnel, accounting, and so forth.

Indirect cost rates may vary for each Agency. Application of indirect cost rates will be addressed within the Operating Plan (Exhibit C).

When indirect cost rates are applied to federal reimbursements, the Parties agree to the following.

1. If the payment recipient has never received or does not currently have a negotiated indirect cost rate, they are eligible for a de minimis indirect cost rate up to 15% of Modified Total Direct Costs (MTDC). MTDC is defined as all salaries and wages, fringe benefits, materials and supplies, services, travel, and contracts up to the first \$25,000 of each contract.
2. For rates greater than 15%, the payment recipient shall provide either an applicable negotiated indirect cost rate agreement (NICRA) from a cognizant Federal Agency, or an indirect cost rate summary in a format that clearly defines the indirect cost rate and MTDC.
3. The payment recipient must maintain adequate documentation to support the methodology and computation of the indirect cost rate. Documentation must be made available to the Federal Agency or EMNRD, Forestry Division upon request.
4. Failure to provide adequate documentation supporting the indirect cost rate could result in disallowed costs and repayment to the Federal Agency or EMNRD, Forestry Division .

VII. **Source Documentation:** Accounting records for each incident must be supported by source documentation such as cancelled checks, paid bills, time and attendance records, contract, or sub-award documents, etc. Such documents must be made available to the Federal Agency or EMNRD, Forestry Division upon request.

EXHIBIT E

COST SHARE AGREEMENT INSTRUCTIONS

Each of the numbered instructions below corresponds to form items that require further explanation. Supplemental Cost Share Agreements will be numbered consecutively following the original (#1) for each fire. Supplements may be added at any time. Where insufficient room is available for necessary information, additional sheets or addendums may be added. Small revisions to a Cost Share Agreement may be completed on a single page describing the change to the original agreement, and obtaining new signatures from those involved.

A Master Cooperative Wildland Fire Management Response Agreement exists between all major wildland fire protection agencies in New Mexico. This Agreement authorizes general mutual aid, including reciprocal and cooperative fire protection services elaborated upon in geographic, statewide, or sub-geographic area operating plans. Other cooperative agreements exist between fire management agencies that authorize fire management services between agencies at the sub-geographic level. The objective of the Cost Share Agreement is to establish and document the cost sharing and basic organizational structure in response to specific fires.

Cost Share Agreements will be negotiated between Agencies involved in specific on-the-ground fire suppression activities. These agreements are mandatory when the wildfire is on the protection area of more than one Jurisdictional Agency. The Cost Share Agreement will not affix liability for fire cost payment by either Agency based upon responsibility for the fire origin. The designated representatives of each Agency with protection responsibility are responsible for completing and signing the Cost Share Agreement.

1. List the fire name agreed upon by Parties involved.
2. Give the origin or best estimate of origin location by legal description.
3. Estimate the fire size at the time of the Cost Share Agreement or Supplement.
4. List the Parties involved in fire management operations and respective agency fire numbers.
5. List the date and time that the Cost Share Agreement is in effect. That time could be prior to or following the time that negotiations are made for the Cost Share Agreement.
6. Check the appropriate command structure for the fire.

DEFINITIONS:

UNIFIED COMMAND – A method for all Agencies with jurisdictional responsibility to contribute to determining the overall objectives for the incident; interagency ICS team structure.

SINGLE COMMAND STRUCTURE – One Agency manages the incident with liaison and concurrence of objectives from other involved Agencies.

List the appropriate personnel filling ICS positions on the wildfire.

MASTER COOPERATIVE WILDLAND FIRE MANAGEMENT RESPONSE AGREEMENT

7. List any special conditions or resource objectives, *e.g.*, dozer restrictions, mechanized restrictions, bald eagle nest, high value plantation. Operational responsibility for the fire will be defined in this section (if appropriate). Respond to this item only if Agency forces have specific segments of the fire. This information will not determine cost responsibility, unless specified in Item 11. Examples are: Divisions A and B; all structural protection areas; specific campground.
8. List the Agency(ies) that have structures within their jurisdiction and will conduct structural protection for those structures, and any pertinent control information or contacts.
9. List operation conditions or directions pertaining specifically to: air operations, base camp and food service, and fire investigation. Costs pertaining to these decisions shall be documented in Item #10.
10. Fire suppression costs shall be determined from the information supplied in this item. There are several ways to determine the best cost share mix. - NA.
 - A. Each Agency pays for its own resources – fire suppression efforts are primarily on jurisdictional responsibility lands.
 - B. Each Agency pays for its own resources – services rendered approximate the percentage of jurisdictional responsibility, but not necessarily performed on those lands.
 - C. Cost share by percentage of ownership or Agency jurisdictional responsibility.
 - D. Cost is apportioned by geographic division or by percent of effort. Examples of geographic divisions are: Divisions A and B (using a map as an attachment); privately owned property with structures; or specific locations such as campgrounds.
 - E. Reconciliation of daily costs (for larger, multi-day incidents). This method relies upon daily agreed to costs, using Incident Action Plans or other means to determine multi-Agency contributions. Reimbursements must be followed up by a final bill.

The following are not reimbursable:

- responsibility for tort claims or compensation for injury costs;
- non-suppression rehabilitation costs (are the responsibility of the Jurisdictional Agency);
- non-expendable property purchases (are the responsibility of the Agency making the purchase).
- support costs (*i.e.*, office dispatchers, warehouse workers, etc.), unless they are charging to an emergency code assigned to the incident.

The cost centers that should be considered in this Cost Share Agreement:

- Fireline Resources: dozers, engines, fallers, transports, water tenders, hand crews, line overhead.
- Fire Camp Operations and Support: overhead, buses, camp crews, communications, food, refrigerator units, showers, toilets, water trucks, cache supplies, rescue/med, camp facility.
- Air Support: helicopters, (with support) air tankers.

MASTER COOPERATIVE WILDLAND FIRE MANAGEMENT RESPONSE AGREEMENT

- Cost apportionment by period (*i.e.*, state mobilization or conflagration, Fire Management Assistance Grant declaration, additional jurisdictional involvement).
11. List any specific conditions relative to this Cost Share Agreement, such as: dispatch procedures, one Agency representing another, notifications, incident information, coordinated intelligence, etc.
 12. Signatures of authorized personnel. List any attachments to the Agreement. Give the date of any Cost Share Agreement or Supplement for the same wildfire.

EXHIBIT F

COST SHARE AGREEMENT

The purpose of this Cost Share Agreement (Agreement) is to provide for a coordinated cooperative fire suppression operation on this wildfire and to describe the cost divisions. This Agreement is a supplement to the Master Cooperative Wildland Fire Management Response Agreement executed between the Agencies listed, on (date).

1. Fire Name: _____ Origin Date: _____ Time: _____
2. Origin: Township _____ Range _____ Section _____
3. Estimated Size: _____ Acres at the time of this Agreement.
4. Agency: _____ Fire # _____ Accounting Code _____
Agency: _____ Fire # _____ Accounting Code _____
Agency: _____ Fire # _____ Accounting Code _____
Agency: _____ Fire # _____ Accounting Code _____
5. This Agreement becomes effective on: _____ at _____ and remains in effect until amended or terminated.
6. Overall direction of this incident will be by () Unified Command, or by () Single Command structure. Identify below personnel filling the following positions:

Position	Name(s)	Agency
Incident Commander	_____	_____
Agency Administrator	_____	_____
Representative	_____	_____
Liaison	_____	_____
Finance	_____	_____
Operations	_____	_____
7. Suppression action will be subject to the following special conditions and land management considerations: _____

8. Geographic responsibility (if appropriate) by Agency is defined as follows:

Agency _____	Geographic Responsibility _____
Agency _____	Geographic Responsibility _____
Agency _____	Geographic Responsibility _____

9. The Agency(ies) conducting structural protection will be _____

10. Special operational conditions agreed to (include as appropriate air operations, base camp, food service, fire investigation, security, etc.) List cost share information in Item #11. _____

11. Fire Suppression COSTS will be divided between Agencies as described:

Cost Centers:	Agency:	Agency:	Agency:

12. Other conditions relative to this Agreement (notifications, incident information, etc): _____

13. This Agreement is or best judgment of the Agencies' cost responsibilities for this wildfire on the date/time shown. Future supplements to this Cost Share Agreement may be necessary as conditions and fire spread change.

14. This Agreement can be negotiated in the field but only the State Forester has the authority to enter an Agreement on behalf of the EMNRD, Forestry Division. For the USFS FSH 6509.11g Chapter 50 Cost share agreements must be negotiated and approved at the Forest Supervisor level or above. For the NPS the Park Superintendents approves the Cost Share Agreement. For BIA Navajo Region the Regional Director will sign. For BLM the District Manager will sign. FWS the Regional Director will sign. BIA Southwestern Region the Regional Director will sign. DOE-NNSA Los Alamos Field Office Manager will sign.

**MASTER COOPERATIVE WILDLAND FIRE MANAGEMENT AND STAFFORD ACT RESPONSE
AGREEMENT**

EXHIBIT G

SUPPLEMENTAL FIRE DEPARTMENT RESOURCES TEMPLATE

These provisions apply only to Supplemental Fire Department Resources, and not to regular fire department personnel. Supplemental Fire Department Resources are defined as overhead tied to a local fire department generally by agreement who are mobilized primarily for response to incidents/wildland fires outside of the district or mutual aid zone. They are not a permanent part of the local fire organization and are not required to attend scheduled training, meetings, etc. of the department staff.

When mobilizing Supplemental Fire Department Resources outside of the fire district or mutual aid zone the following will apply.

Mobilization

Mobilization will follow established ordering procedures as identified in the National, Geographic, and Local Mobilization Guides. Resources will be mobilized from the Host Dispatch Zone in which the department is located. Personnel will be provided a copy of the resource order request after confirmation of availability and prior to departure from their home jurisdiction. Resource orders shall clearly indicate incident assignment, incident location, expected incident arrival time, and any additional special needs or equipment authorizations, e.g., cell phones, laptops, rental vehicles, etc.

Reimbursable Costs

Reimbursable costs for personnel include compensation rates for hours worked, benefits, transportation, and per diem. It is the intent of this provision that the Supplemental Fire Department Resource be paid a regular compensation rate for all hours worked plus an overtime compensation rate for actual overtime hours worked, including travel. Reimbursable costs shall not include portal to portal pay or the portion of benefits personally paid by the employee. Travel and per diem reimbursements will be based on the Federal Travel Regulations.

Any costs for backfill personnel are not reimbursable for personnel hired as Supplemental Fire Department Resources.

An indirect cost allowance up to ten percent of the direct salary and wage cost of providing the service (excluding overtime, shift premiums, and fringe benefits) is allowed.

Personnel

All personnel will possess an active Incident Qualification System (IQS) or equivalent incident qualification documentation commensurate with all applicable NWCG 310-1 standards for training and qualifications. Personnel will be qualified for their assigned positions. XXFD is responsible for annually certifying and maintaining the qualifications of their Supplemental Fire Department Resources. XXFD will bear the cost of training for their Supplemental Fire Department Resources.

Any personnel to be mobilized under this Exhibit will be listed in the Operating Plan by name, position(s), and identified as SR. While on assignment, these individuals are **XXFD** employees

and the **XXFD** will be reimbursed for their actual costs.

Rate Determination

The basis for the computation of base hourly rate is the classification level of the position filled according to the attached matrix. Base hourly rate shall be no more than step 5 of the appropriate GS wage adjusted for locality pay at the location of the fire district. These rates can be found on the Office of Personnel Management (OPM) website <https://www.opm.gov>, Salaries and Wages. Personnel are hired at the rate of the position being filled, not their highest qualification.

The hourly compensation rates identified in the Operating Plan are computed as follows:

- 1) **Regular Compensation Rate:** The rates listed include base hourly rate determined above plus employee benefits. Employee benefits include those costs actually incurred by the XXFD for the employment of these individuals, such as employer liability, workers compensation, employer share of social security, etc.
- 2) **Overtime Compensation Rate:** Overtime compensation rates are paid based on a 7 day work week beginning on day one of mobilization. Compensation rates are paid at time and a half of the base hourly rate for all hours worked in excess of 8 hours per day for the first 5 days and full time and one half for all hours worked during the remainder of the work week. Compensation includes travel time.
- 3) **Hazard Pay Rate** – Hazard pay differential may be paid to those employees performing work that meets the definition of hazardous duty as defined in the Interagency Incident Business Management Handbook. Compensation rates are paid at 25 percent of the base rate when performing duties that meet the definition of hazardous duties. All hazard pay differential is based on a 24-hour day from 0001-2400 and shall be paid for all hours in pay status during the calendar day in which the hazardous duty is performed.

Days off at Incident

Days off at the incident will be paid for 8 hours. Work/rest guidelines will be followed, and mandatory days off will follow current guidelines (IIBMH). Once travel to the home unit commences, days off will not be paid.

Transportation and Per Diem

Per Diem reimbursements will be based on the Federal Travel Regulations. The payment rate for privately-owned vehicles (POVs) and rental vehicles used to support Supplemental Fire Department Resources shall be at the current Federal Travel Regulation rate.

EXHIBIT H

USE AND REIMBURSEMENT FOR STAFFORD ACT SHARED RESOURCES

1. **Stafford Act Declarations:** Transfers performed for this Agreement are under the Disaster Relief Act, 42 U.S.C. § 5147. This Agreement is automatically incorporated by reference into any Resource Order that is issued under it, constituting a binding obligation. The billings, inclusive of copies of this Agreement, the Mission Assignment and subsequent Resource Order(s), and expenditure documentation, will define the specific services, supplied goods, and costs (by sub-object class code) for each order, and subsequent obligation and payment.

Reimbursement payments for Stafford Act Response activities will be accomplished by submission of billings to the Emergency Support Function (ESF) primary agency (i.e., the agency which issued the Mission Assignment or sub-tasking). The ESF primary agency will review, approve the documentation, and return to the sub-tasked agency with referencing documentation to process the billing. Each sub-tasked agency is responsible for submitting its own billing documentation to the ESF primary agency for reimbursement.

2. **Federal Reimbursable Assistance:** Federal Reimbursable Assistance resources must be requested by the ESF primary agency or supplied through established dispatch systems and must be recorded by the Mission Assignment and subsequent Resource Order process. Resources not documented in this manner are not reimbursable. Funds to cover eligible expenses will be provided through and limited by the amount of reimbursement approved and provided from FEMA. Expenditures eligible for reimbursement for Federal Agencies in accordance with 44 CFR 206, subpart A, section 206.8 paragraph c include:

- a) overtime, travel, and per diem of permanent Federal Agency personnel;
- b) wages, travel, and per diem of temporary Federal Agency personnel assigned solely to performance of services directed by the FEMA Associate Administrator or the FEMA Regional Administrator in the emergency or major disaster;
- c) cost of work, services, and materials procured under contract for the purposes of providing assistance directed by the FEMA Associate Administrator or the Regional Administrator;
- d) cost of materials, equipment, and supplies (including transportation, repair, and maintenance) from regular stocks used in providing directed assistance;
- e) all costs incurred which are paid from trust, revolving, or other funds and whose reimbursement is required by law;
- f) other costs submitted by an agency with written justification or otherwise agreed to in writing by the FEMA Associate Administrator or the FEMA Regional Administrator and the agency.

3. **State/Tribe Reimbursement Process:** State/tribe reimbursement refers to those resources that are to be reimbursed by the ESF primary agency. State/tribe reimbursement resources must be requested by the ESF primary agency or supplied through established dispatch systems and must be recorded by the Mission Assignment and subsequent Resource Order process. Resources not documented in this manner are not reimbursable. Funds to cover eligible expenses will be provided through and limited by reimbursement from FEMA. Expenditures eligible for reimbursement include:

- a) wages, overtime, travel, and per diem of state/tribal personnel;
- b) wages, travel, and per diem of temporary state/tribal personnel assigned solely to performance of services directed by the FEMA Associate Administrator or the FEMA

- c) Regional Administrator in the major disaster;
cost of work, services, and materials procured under contract for the purposes of providing assistance directed by the(FEMA Associate Administrator or the Regional Administrator;
- d) cost of materials, equipment, and supplies (including transportation, repair, and maintenance) from regular stocks used in providing directed assistance;
- e) all costs incurred which are paid from trust, revolving, or other funds and whose reimbursement is required by law.

Other costs submitted by an agency with written justification or otherwise agreed to in writing by the FEMA Associate Administrator or the FEMA Regional Administrator and the agency.

Note: In order to meet FEMA's policies regarding mission assignments and timely billing, all state and local resources dispatched to a FEMA incident under a valid cooperative/interagency agreement with a state, local agency, or a tribe must submit invoices for reimbursement to the appropriate Federal Agency no later than 90 days after demobilization of the incident. Any invoices not submitted within this timeframe are subject to non-payment. Extensions beyond 90 days for invoice submittal must be presented in writing to the reimbursing agency. Operating Plans will include contact information for written requests for extensions. Absent a written extension of time granted by the reimbursing agency, the final itemized bill must be submitted to the reimbursing agency within 90 days of the demobilization of the incident.

4. **Duration of Assignments:** Consideration must be given to the health and safety of personnel when assigned to incidents. Parties agree that Incident Commanders will release resources to their primary responsibilities as soon as priorities allow. Incident Commanders shall also adhere to rest and rotation policies of respective responding agencies. Mobilization activities shall be accomplished utilizing established dispatch coordination concepts per the current National Interagency Mobilization Guide.
5. **Loaned Equipment:** Equipment loaned by one Party to another shall become the responsibility of the borrower and shall be returned in the same condition as when received, reasonable wear and tear excepted. The borrower will repair or reimburse for damages in excess of normal wear and tear and will replace or reimburse items lost or destroyed.
6. **Billing Procedures**
Incident Billings:
 - a) Agencies will share their respective individual incident Resource Order numbers for cross referencing purposes, if requested.
 - b) Billing Estimates/Time Frames: On incidents where costs are incurred pursuant to Operating Plans, the billing Party shall submit a bill or estimate for reimbursement as soon as possible, but not later than 90 days after the incident is controlled.
 - c) Extensions beyond 90 days for invoice submittal must be presented in writing to the reimbursing agency.
7. **Operating Plans** will include contact information for written requests for extensions. Absent a written extension of time granted by the reimbursing agency, the final itemized bill must be submitted to the reimbursing agency within 90 days of the Stafford Act Response.
8. **Billing Content:** Bills will be identified by incident name, date, Mission Assignment (MA), location, jurisdictional unit, and supported by documentation to include but not limited to: separate invoice by MA; list of personnel expenses including base, overtime, and travel; and supplies/services procured by vendor name and dollar amount.
9. **Billing Addresses:**

All bills for services provided to the USFS and all federal and state units who are not parties to this Agreement will be mailed to the following address:

US Forest Service, Southwestern Regional Office
Fire & Aviation Management
333 Broadway Blvd SE
Albuquerque, NM 87102
SM.FS.R3famIncBus@usda.gov

All bills for services provided to the Department of the Interior/BLM will be mailed to:

BLM New Mexico State Office - FA
Attn: Incident Business Specialist
301 Dinosaur Trail
Santa Fe NM 87508
shaggerty@blm.gov

All bills for services provided to the Department of the Interior/NPS will be mailed to:

Accounting Operations Center
PO Box 100000
Herndon, VA 20171
nifc_suppression_invoices@nps.gov

All bills for services provided to the Department of the Interior/BIA will be mailed to:

Department of the Interior/BIA
1001 Indian School Rd NW
Albuquerque, NM 87104

All bills for services provided to the Department of the Interior/Fish and Wildlife Service will be mailed to:

US Fish & Wildlife Service
ATTN: Fire Management
500 Gold Ave
Albuquerque, NM 87103

All bills for services provided to the Department of Energy/NNSA will be mailed to:

Los Alamos Field Office (NA-LA)
3747 West Jemez Road, MS A316

Los Alamos, NM 87544

10. **Payment Due Dates:** All bills will have a payment due date 60 days after the date of issuance. If payment cannot be made before the 60 days expire, then a 30-day extension, with oral or written justification, may be requested.
11. **Disputed Billings:** Written notice that a bill is contested will be mailed to the billing agency within 60 days of issuance of the final bill, and will fully explain the area of dispute. Contested items will be resolved not later than 60 days following receipt of written notice. The uncontested portion of the bill will be paid and a new bill will be issued for the contested amount.
12. **Payments:** Payments will refer to the bill number and incident name and will be sent to the appropriate billing address.

Exhibit I

State of New Mexico, EMNRD Supplemental Project Agreement

SUPPLEMENTAL PROJECT AGREEMENT

Between

(c)

And

(d)

This Supplemental Project Agreement (Agreement) is hereby made and entered into by and between (e) the State of New Mexico, Energy, Minerals and Natural Resources Department (EMNRD), Forestry Division and (f), hereinafter referred to as the Federal Agency under the Reciprocal Fire Protection Act of May 27, 1955 (69 Stat. 66; 42 U.S.C. 1856a) and under the provisions of the Master Cooperative Wildland Fire Management Response Agreement No. (g), executed between the Parties.

14 Project Title: (h)

I. BACKGROUND:

As referenced above, the Parties (directly or through their respective agencies) entered into a Master Cooperative Wildland Fire Management Response Agreement (Master Agreement). The Master Agreement allows for the Parties to cooperatively conduct projects or share resources for fire protection and prevention, which includes such activities as prescribed fire/fuels management, preparedness, fire analysis/planning, rehabilitation, training, public affairs, and other beneficial efforts in support of interagency fire management.

II. PURPOSE:

The purpose of this Agreement is to document the Parties' contributions and cooperation regarding (i). This project is further described in the hereby incorporated Financial and Project Plan, attached as Exhibit (j).

III. THE EMNRD, FORESTRY DIVISION SHALL:

A. Perform in accordance with the terms of this Agreement and with the Financial and Project Plan, Exhibit (k).

B. PAYMENT/REIMBURSEMENT. Reimburse the Federal Agency for the EMNRD, Forestry Division's share of actual expenses incurred, not to exceed \$____, as shown in the attached Financial Plan, upon receipt of the Federal Agency's invoice. Each invoice from the Federal Agency must display the total project costs for the billing period.

Each invoice must include, at a minimum:

1. Federal Agency's name, address, and telephone number;
2. EMNRD, Forestry Division's project agreement number;
3. invoice date;
4. performance dates of the work completed (start and end); and
5. total invoice amount for the billing period.

The invoice must be forwarded to: ⁽ⁿ⁾

Send a copy to: ^(o)

- C. REIMBURSABLE BILLING. The EMNRD, Forestry Division shall bill the Federal Agency for funds sufficient to cover the costs for the specific payment period, not to exceed \$ _____ as shown in the attached Financial Plan. All reimbursement billings must be completed with the same fiscal year as EMNRD, Forestry Division expenditures. Overhead is assessed at the rate of ____ percent.

Billing must be sent to:

IV. THE FEDERAL AGENCY SHALL:

- A. Perform in accordance with the terms of this Agreement and with the attached Financial and Project Plan, Exhibit ⁽ⁱ⁾ .
- B. PAYMENT/REIMBURSEMENT. Reimburse the EMNRD, Forestry Division for the Federal Agency's share of actual expenses incurred, not to exceed ^(k)\$ _____, as shown in the attached Financial Plan. Upon receipt of the EMNRD, Forestry Division's ^(m) invoice. Each invoice from the EMNRD, Forestry Division must display the total project costs for the billing period.

Each invoice must include, at a minimum:

1. EMNRD, Forestry Division's name, address, and telephone number;
2. Federal Agency project Agreement number;
3. invoice date;
4. performance dates of the work completed (start and end); and
5. total invoice amount for the billing period.

The invoice must be forwarded to: ⁽ⁿ⁾

Send a copy to: ^(o)

- C. REIMBURSABLE BILLING. The Federal Agency shall bill the EMNRD, Forestry Division ^(m) for funds sufficient to cover the costs for the specific payment period, not to exceed ^(l)\$ _____ as shown in the attached Financial Plan. All reimbursement billings must be completed within the same fiscal year as Federal Agency expenditures. Overhead is assessed at the rate of ^(p) _____ percent.

Billings must be sent to: ^(q)

The Federal Agency is required to issue bills for expenditures incurred under reimbursable agreements at the end of or prior to the end of each federal fiscal year. Therefore, an out-of-cycle bill may be received by the EMNRD, Forestry Division.

If payment is not received to the satisfaction of the Federal Agency by the date specified on the bill, the Federal Agency shall exercise its rights regarding the collection of debts owed to the United States.

D. ^(r) SPECIAL BILLING REQUIREMENTS – FINANCIAL DOCUMENTATION.

Reimbursable billings shall be issued at the prescribed frequency based on expenditures recorded in the U.S. Forest Service accounting system for work performed. Bills for Collection reflect an aggregate amount for the billing period. U.S. Forest Service Transaction Register listing itemized expenses will be provided upon request at the end of a project or annually for long-term agreements. Provision of the Transaction Register or other supporting documentation accompanying individual bills will be limited to agreements over \$2,500, and only when EMNRD, Forestry Division requirements are clearly defined within this clause.

The special billing requirements are: ^(s)

E. ^(t) SPECIAL BILLING REQUIREMENTS – PROGRAM DOCUMENTATION. The U.S. Forest Service Program Manager shall provide the EMNRD, Forestry Division with a written report that meets the EMNRD, Forestry Division's specific documentation requirements.

V. **IT IS MUTUALLY AGREED AND UNDERSTOOD BY AND BETWEEN THE PARTIES THAT:**

A. ^(u) PRINCIPAL CONTACTS. Individuals listed below are authorized to act in their respective areas for matters related to this Agreement.

^(v) Principal EMNRD, Forestry Division Contacts:

EMNRD, Forestry Division Program Contact	EMNRD, Forestry Division Administrative Contact
Name: Address: City, State, Zip: Telephone: FAX: Email:	Name: Address: City, State, Zip: Telephone: FAX: Email:

^(w) Principal Federal Agency Contacts:

Federal Agency Program Manager Contact	Federal Agency Administrative Contact
Name: Address: City, State, Zip: Telephone: FAX:	Name: Address: City, State, Zip: Telephone: FAX:

Email:	Email:
--------	--------

- B. LIABILITY. As set forth under the provisions of the Master Agreement.
- C. ^(x)Mutually agree to the Burn Plan as incorporated in this Agreement, and to any agreed upon revision thereof. If the revision to the Burn Plan does not materially affect the purpose or terms of the Agreement, but rather only revises the implementation of the project, then a modification to this Agreement is not necessary. The most recent revision of the Burn Plan will automatically be incorporated into this Agreement and a copy will be provided to the Principal Contacts listed above.
- D. In the event of a conflict between the provisions of this Agreement and the Master Agreement, the Master Agreement shall take precedence.
- E. ^(y)PURCHASE OF ASSETS. Any assets (such as equipment, property, or improvements) purchased by the Federal Agency with the EMNRD, Forestry Division's contributions shall become the property of the Federal Agency, unless otherwise documented via separate authority and instrument. Any assets (such as equipment, property, or improvements) purchased by the EMNRD, Forestry Division with the Federal Agency's contributions shall become the property of the EMNRD, Forestry Division, unless documented via separate authority and instrument.
- F. ^(z)PROPERTY IMPROVEMENTS. Improvements placed on federal land at the direction, or with the approval of, the Federal Agency becomes property of the United States. These improvements are subject to the same regulations and administration of the Federal Agency as would other agency improvements. No part of this Agreement entitles the EMNRD, Forestry Division to any interest in the improvements, other than the right to use them under applicable Federal Agency regulations.
- G. PARTICIPATION IN SIMILAR ACTIVITIES. This Agreement in no way restricts the Parties from participating in similar activities with other public or private agencies, organizations, and individuals.
- H. ENDORSEMENT. Either Party's contributions made under this Agreement do not by direct reference or implication convey endorsement of each other's products or activities.
- I. ALTERNATE DISPUTE RESOLUTION. In the event of any issue of controversy under this Agreement, the Parties may pursue alternate dispute resolution procedures to voluntarily resolve those issues. These procedures may include, but are not limited to, conciliation, facilitation, mediation, and fact finding.
- J. MODIFICATION. Modifications within the scope of this Agreement must be made by mutual consent of the Parties, by the issuance of a written modification signed and dated by all properly authorized, signatory officials, prior to any changes being performed. Requests for modification should be made, in writing, at least ^(aa) days prior to implementation of the requested change. Neither Party is obligated to fund any changes not properly approved in advance.
- K. TERMINATION. Either Party, in writing, may terminate this Agreement in whole, or in part, at any time before the date of expiration. Neither Party shall incur any new

obligations for the terminated portion of this Agreement after the effective date and shall cancel as many obligations as possible. Full credit shall be allowed for each Party's expenses and all non-cancelable obligations properly incurred up to the effective date of termination.

- L. COMMENCEMENT/EXPIRATION DATE. This Agreement is executed as of the date of last signature and is effective through ^(bb) at which time it will expire unless extended.

If the referenced Master Agreement is superseded by a new Master Agreement, this project agreement may remain in effect to the extent that it does not conflict with the provisions of the new Master Agreement, but only until such time that the project can be completed or modified to be incorporated within the terms of the new Master Agreement.

- M. AUTHORIZED REPRESENTATIVES. By signature below, the Parties certify that the individuals listed in this document as representatives of each Party are authorized to act in their respective areas for matters related to this Agreement.

INSTRUCTIONS for Supplemental Project Agreement

All provisions in this instrument are mandatory, unless otherwise excepted. This project agreement may only be used between a Federal Agency and a cooperating state, local, tribal gov't (or subdivision thereof) under a Master Cooperative Wildland Fire Management Response Agreement.

(Master Agreement) = Referring to approved (2007 or newer) national agreement template used by/between federal wildland fire agencies and State/Tribal gov't.

- (a) Federal Agency Project Agreement No. For example, Forest Service uses the following format: *FY-FP-11RRU/US-XXX*.
- (b) Cooperator Project Agreement No. Insert Cooperator project agreement number, if applicable.
- (c) Insert name of Cooperator (state, local, tribal, or subdivision thereof).
- (d) Insert name of Federal Agency, including applicable Region, Office, or Unit.
- (e) Insert Cooperator name as cited above.
- (f) Insert Federal Agency name as cited above.
- (g) Insert corresponding Federal Agency Agreement # as identified on the Master Coop Agreement.
- (h) Insert project title.
- (i) Enter brief project description.
- (j) Insert alpha or numeric reference to the Exhibit added that provides a Financial and Project Plan. Note: The Project Plan may include tasks/projects defined in the Operating Plan (as referenced in the Background section), or it may be a Burn Plan, if applicable.
- (k) Insert amount. If the Federal Agency is not obligating funds for reimbursement to the Cooperator, then delete this provision.
- (l) Insert amount. If the Federal Agency is not collecting funds from the Cooperator, then delete this provision.
- (m) Select and insert the appropriate billing cycle: monthly, quarterly, semi-annual, or annual. Note: quarterly dates (December 31, March 31, June 30, and September 30), semi-annually (March 31, and September 30) or annually (September 30 or earlier).
- (n) Insert Federal Agency name as cited above and billing address. (For Forest Service, use Albuquerque Service Center, Payments – Grants & Agreements, 101B Sun Ave NE, Albuquerque, NM 87109, FAX: 877-687-4894)
- (o) Insert other contact name and address, if applicable, otherwise delete.
- (p) Insert the Federal Agency burden/overhead rate. Enter 'shall not be assessed' if burden is not applicable.
- (q) Enter Cooperator's name, name of point of contact, and mailing address to which billing documents should be sent.
- (r) If the Federal Agency is not the Forest Service or if the Forest Service is not collecting funds, delete this provision.

Optional, if the Cooperator requires financial documentation with each bill. This provision alerts ASC-RACA that the Forest Service shall provide transaction registers with any billing to the Cooperator under this Agreement.

Also, Choose one of the following: with each bill, upon project completion, or annually

- (s) Insert special billing requirements here, such as whether the billing requirements are either with each bill, upon project completion, or annually.
- (t) If the Federal Agency is not the Forest Service or if the Forest Service is not collecting funds, delete this provision. Optional provision if the Cooperator requires an accomplishment or program report with each BFC. This provision alerts ASC-RACA that the Forest Service must coordinate BFCs with the PM for submission to the Cooperator.
- (u) May be changed to accommodate additional contacts.
- (v) Insert ALL of the requested information below. If information is unavailable, then make a good-faith effort to obtain.
- (w) Insert ALL of the requested information below. If information is unavailable, then make a good-faith effort to obtain.
- (x) If a Burn Plan is not attached, remove this provision.
- (y) If the Federal Agency is not collecting funds from Cooperator, delete this provision.
- (z) Mandatory provision IF property improvements result from a project on federal lands. Do not use this provision if improvements are owned by the Cooperator and covered under another instrument such as a Special Use Permit or license.
- (aa) Insert a notification period that is no less than 30 days.
- (bb) Insert the expiration date not greater than the expiration date of the Master Agreement.
- (cc) Insert date of signature.
- (dd) Insert name of signatory official for Cooperator.
- (ee) Insert Cooperator signatory official's positional title.
- (ff) Insert Cooperator's organizational name.
- (gg) Insert date of signature.
- (hh) Insert name of Federal Agency Signatory Official.
- (ii) Insert Federal Agency signatory official's positional title.
- (jj) Insert Federal Agency Region, Office, or Unit.
- (kk) If the Federal Agency is not the Forest Service, this signature block may be deleted.
- (ll) Insert date of signature.
- (mm) Insert G&A Specialist's name.

EXHIBIT J
SUPPLEMENTAL FIRE PROJECT AGREEMENT
SUPPLEMENTAL FIRE PROJECT AGREEMENT

Between

(c)

And

(d)

This Supplemental Fire Project Agreement (Agreement) is hereby made and entered into by and between ^(e), hereinafter referred to as “the Cooperator,” and ^(f), hereinafter referred to as the Federal Agency under the Reciprocal Fire Protection Act of May 27, 1955, (69 Stat. 66; 42 U.S.C. 1856a) and under the provisions of the Master Cooperative Wildland Fire Management and Stafford Act Response Agreement No. ^(g), executed between the Parties.

14 Project Title: ^(h)

I. BACKGROUND

As referenced above, the Parties (directly or through their respective agencies) entered into a Master Cooperative Wildland Fire Management and Stafford Act Response Agreement (Master Agreement). The Master Agreement allows for the Parties to cooperatively conduct projects or share resources for fire protection and prevention, which includes such activities as prescribed fire/fuels management, preparedness, fire analysis/planning, rehabilitation, training, public affairs, and other beneficial efforts in support of interagency fire management.

II. PURPOSE:

The purpose of this Agreement is to document the Parties’ contributions and cooperation regarding ⁽ⁱ⁾. This project is further described in the hereby incorporated Financial and Project Plan, attached as Exhibit ^(j).

III. THE COOPERATOR SHALL:

- A. Perform in accordance with the terms of this Agreement and with the Financial and Project Plan, Exhibit ^(j).
- B. Bill the Federal Agency for actual costs incurred, not to exceed ^(k)\$, as agreed to in the attached Financial Plan.
- C. Upon presentation of a Bill for Collection, reimburse the Federal Agency for actual costs incurred, not to exceed ^(l)\$, as agreed to in the attached Financial Plan.

IV. THE FEDERAL AGENCY SHALL:

- A. Perform in accordance with the terms of this Agreement and with the attached Financial and Project Plan, Exhibit ^(j).

PAYMENT/REIMBURSEMENT. The Federal Agency shall reimburse the Cooperator for the Federal Agency's share of actual expenses incurred, not to exceed ^(k)\$, as shown in the attached Financial Plan. The Federal Agency shall make payment upon receipt of the Cooperator's ^(m) invoice. Each invoice from the Cooperator must display the total project costs for the billing period.

Each invoice must include, at a minimum:

- 1) Cooperator's name, address, and telephone number
- 2) Federal Agency project Agreement number
- 3) Invoice date
- 4) Performance dates of the work completed (start and end)
- 5) Total invoice amount for the billing period

The invoice must be forwarded to: ⁽ⁿ⁾

Send a copy to: ^(o)

- C. REIMBURSABLE BILLING. The Federal Agency shall bill the Cooperator ^(m) for funds sufficient to cover the costs for the specific payment period, not to exceed ^(l)\$ as shown in the attached Financial Plan. All reimbursement billings must be completed within the same fiscal year as Federal Agency expenditures. Overhead is assessed at the rate of ^(p) percent.

Billings must be sent to: ^(q)

The Federal Agency is required to issue bills for expenditures incurred under reimbursable agreements at the end of or prior to the end of each federal fiscal year. Therefore, an out-of-cycle bill may be received by the Cooperator.

If payment is not received to the satisfaction of the Federal Agency by the date specified on the bill, the Federal Agency shall exercise its rights regarding the collection of debts owed to the United States.

- D. ^(r) SPECIAL BILLING REQUIREMENTS – FINANCIAL DOCUMENTATION. Reimbursable billings shall be issued at the prescribed frequency based on expenditures recorded in the U.S. Forest Service accounting system for work performed. Bills for Collection reflect an aggregate amount for the billing period. U.S. Forest Service Transaction Register listing itemized expenses will be provided upon request at the end of a project or annually for long-term agreements. Provision of the Transaction Register or other supporting documentation accompanying individual bills will be limited to agreements over \$2,500, and only when Cooperator requirements are clearly defined within this clause.

The special billing requirements are: ^(s)

- E. ^(t)**SPECIAL BILLING REQUIREMENTS – PROGRAM DOCUMENTATION.** The U.S. Forest Service Program Manager shall provide the Cooperator with a written report that meets the Cooperator’s specific documentation requirements.

V. IT IS MUTUALLY AGREED AND UNDERSTOOD BY AND BETWEEN THE PARTIES THAT:

- A. ^(u)**PRINCIPAL CONTACTS.** Individuals listed below are authorized to act in their respective areas for matters related to this Agreement.

^(v)**Principal Cooperator Contacts:**

Cooperator Program Contact	Cooperator Administrative Contact

- B. **LIABILITY.** As set forth under the provisions of the Master Agreement.
- C. ^(x)Mutually agree to the Burn Plan as incorporated in this Agreement, and to any agreed upon revision thereof. If the revision to the Burn Plan does not materially affect the purpose and/or terms of the Agreement, but rather only revises the implementation of the project, then a modification to this Agreement is not necessary. The most recent revision of the Burn Plan will automatically be incorporated into this Agreement and a copy will be provided to the Principal Contacts listed above.
- D. In the event of a conflict between the provisions of this Agreement and the Master Agreement, the Master Agreement shall take precedence.
- E. ^(y)**PURCHASE OF ASSETS.** Any assets (such as equipment, property, or improvements) purchased by the Federal Agency with the Cooperator’s contributions shall become the property of the Federal Agency, unless otherwise documented via separate authority and instrument.

- F. (z)PROPERTY IMPROVEMENTS. Improvements placed on federal land at the direction, or with the approval of, the Federal Agency becomes property of the United States. These improvements are subject to the same regulations and administration of the Federal Agency as would other agency improvements. No part of this Agreement entitles the Cooperator to any interest in the improvements, other than the right to use them under applicable Federal Agency Regulations.
- G. PARTICIPATION IN SIMILAR ACTIVITIES. This Agreement in no way restricts the Parties from participating in similar activities with other public or private agencies, organizations, and individuals.
- H. ENDORSEMENT. Either Party's contributions made under this Agreement do not by direct reference or implication convey endorsement of each other's products or activities.
- I. ALTERNATE DISPUTE RESOLUTION. In the event of any issue of controversy under this Agreement, the Parties may pursue Alternate Dispute Resolution procedures to voluntarily resolve those issues. These procedures may include, but are not limited to, conciliation, facilitation, mediation, and fact finding.
- J. MODIFICATION. Modifications within the scope of this Agreement must be made by mutual consent of the Parties, by the issuance of a written modification signed and dated by all properly authorized, signatory officials, prior to any changes being performed. Requests for modification should be made, in writing, at least ^(aa) days prior to implementation of the requested change. Neither Party is obligated to fund any changes not properly approved in advance.
- K. TERMINATION. Either Party, in writing, may terminate this Agreement in whole, or in part, at any time before the date of expiration. Neither Party shall incur any new obligations for the terminated portion of this Agreement after the effective date and shall cancel as many obligations as possible. Full credit shall be allowed for each Party's expenses and all non-cancelable obligations properly incurred up to the effective date of termination.
- L. COMMENCEMENT/EXPIRATION DATE. This Agreement is executed as of the date of last signature and is effective through ^(bb) at which time it will expire unless extended.
- If the referenced Master Agreement is superseded by a new Master Agreement, this project agreement may remain in effect to the extent that it does not conflict with the provisions of the new Master Agreement, but only until such time that the project can be completed or modified to be incorporated within the terms of the new Master Agreement.
- M. AUTHORIZED REPRESENTATIVES. By signature below, the Parties certify that the individuals listed in this document as representatives of each Party are authorized to act in their respective areas for matters related to this Agreement.

INSTRUCTIONS for Supplemental Project Agreement

All provisions in this instrument are mandatory, unless otherwise excepted. This project agreement may only be used between a Federal Agency and a cooperating state, local, tribal gov't (or subdivision thereof) under a Master Cooperative Wildland Fire Management and Stafford Act Response Agreement.

(Master Agreement)= Referring to approved (2007 or newer) national agreement template used by/between federal wildland fire agencies and State/Tribal gov't.

- (a) Federal Agency Project Agreement No. For example, Forest Service uses the following format: *FY-FP-11RRU/US-XXX*.
- (b) Cooperator Project Agreement No. Insert Cooperator project agreement number, if applicable.
- (c) Insert name of Cooperator (state, local, tribal, or subdivision thereof).
- (d) Insert name of Federal Agency, including applicable Region, Office, or Unit.
- (e) Insert Cooperator name as cited above.
- (f) Insert Federal Agency name as cited above.
- (g) Insert corresponding Federal Agency Agreement # as identified on the Master Coop Agreement.
- (h) Insert project title.
- (i) Enter brief project description.
- (j) Insert alpha or numeric reference to the Exhibit added that provides a Financial and Project Plan. Note: The Project Plan may include tasks/projects defined in the Operating Plan (as referenced in the Background section), or it may be a Burn Plan, if applicable.
- (k) Insert amount. If the Federal Agency is not obligating funds for reimbursement to the Cooperator, then delete this provision.
- (l) Insert amount. If the Federal Agency is not collecting funds from the Cooperator, then delete this provision.
- (m) Select and insert the appropriate billing cycle: monthly, quarterly, semi-annual, or annual. Note: quarterly dates (December 31, March 31, June 30, and September 30), semi-annually (March 31, and September 30) or annually (September 30 or earlier).
- (n) Insert Federal Agency name as cited above and billing address. (For Forest Service, use Albuquerque Service Center, Payments – Grants & Agreements, 101B Sun Ave NE, Albuquerque, NM 87109, FAX: 877-687-4894)
- (o) Insert other contact name and address, if applicable, otherwise delete.
- (p) Insert the Federal Agency burden/overhead rate. Enter 'shall not be assessed' if burden is not applicable.
- (q) Enter Cooperator's name, name of point of contact, and mailing address to which billing documents should be sent.
- (r) If the Federal Agency is not the Forest Service or if the Forest Service is not collecting funds, delete this provision.

Optional, if the Cooperator requires financial documentation with each bill. This provision alerts ASC-RACA that the Forest Service shall provide transaction registers with any billing to the Cooperator under this Agreement.

Also, Choose one of the following: with each bill, upon project completion, or annually

- (s) Insert special billing requirements here, such as whether the billing requirements are either with each bill, upon project completion, or annually.
- (t) If the Federal Agency is not the Forest Service or if the Forest Service is not collecting funds, delete this provision. Optional provision if the Cooperator requires an accomplishment or program report with each BFC. This provision alerts ASC-RACA that the Forest Service must coordinate BFCs with the PM for submission to the Cooperator.
- (u) May be changed to accommodate additional contacts.
- (v) Insert ALL of the requested information below. If information is unavailable, then make a good-faith effort to obtain.
- (w) Insert ALL of the requested information below. If information is unavailable, then make a good-faith effort to obtain.
- (x) If a Burn Plan is not attached, remove this provision.
- (y) If the Federal Agency is not collecting funds from Cooperator, delete this provision.
- (z) Mandatory provision IF property improvements result from a project on federal lands. Do not use this provision if improvements are owned by the Cooperator and covered under another instrument such as a Special Use Permit or license.
- (aa) Insert a notification period that is no less than 30 days.
- (bb) Insert the expiration date not greater than the expiration date of the Master Agreement.
- (cc) Insert date of signature.
- (dd) Insert name of signatory official for Cooperator.
- (ee) Insert Cooperator signatory official's positional title.
- (ff) Insert Cooperator's organizational name.
- (gg) Insert date of signature.
- (hh) Insert name of Federal Agency Signatory Official.
- (ii) Insert Federal Agency signatory official's positional title.
- (jj) Insert Federal Agency Region, Office, or Unit.
- (kk) If the Federal Agency is not the Forest Service, this signature block may be deleted.
- (ll) Insert date of signature.
- (mm) Insert G&A Specialist's name.
