**Significant Events: Primarily smoldering. Sunday evening thunderstorm outflow winds created minimal interior spread. Strong thunderstorms impacted the area Sunday with strong outflow winds and localized areas of wetting rain. Radar estimates showed that the surrounding mountains to the northwest and south of the fire received anywhere from a half an inch to just over 1.00" of rain. Within the fire perimeter, radar estimated between 0.01"-0.20" of rain fell. Winds between 50-60 mph also impacted the fire during the mid-afternoon hours. Sunny skies today with temperatures running about 5 degrees cooler than Sunday along with RH slightly higher. Temperatures are expected to top out around 100-105 with RH lowering into the lower to mid-20s. Winds will generally be influenced by the terrain with gusts up to 15 mph at times.**

Remarks: **Forest Closer Order**

<https://www.fs.usda.gov/alerts/tonto/alerts-notice/?aid=88934>

**Planned Actions: Hold, secure and monitor fire's edge north of the wilderness boundary. Utilize helicopters as needed for reconnaissance and water delivery within Superstition Wilderness, monitor for growth.**

**Suppression repair with heavy equipment and chipper will continue along the east boundary and around the helispot at Reavis Mt. School.**

**Tonto National Monument reopens Wednesday and incident transfers to local unit Type 4 IC on Tuesday 7/23 at 0700. Incident will provide weekly 209 updates on Thursdays.**
