ELY MEDICAL EMERGENCY

This is a life threatening injury or illness. One or more major body systems (Respiratory, Circulatory, and Neurological) are involved. This patient needs advanced life support (ALS). Definitive care for this patient is a Trauma or Burn Center. TIME IS OF THE ESSENCE! Air transportation should be considered early.

ALS AIR TRANSPORT *Used for lengthy extrication of the patient, when terrain or road conditions restricts ground transportation.*

Rotor Wing: *150 mile response area based on one fuel cycle. If injury location is outside of response area helicopter will have to refuel en-route.*

Agency	Location	Contact	Patient Capability	Special Capacities
Summit Air	Elko, NV	877-554-9111	1 Patient	Night Flight
